Show/Hide Slides and Polls

This feature allows you to:

- Utilize Multiple polls during the broadcast
- Obtain full control over the visibility of the slide deck along the entire duration of the broadcast.

The Show/Hide button on the timeline displays or hides slides and polls. The default is Show.

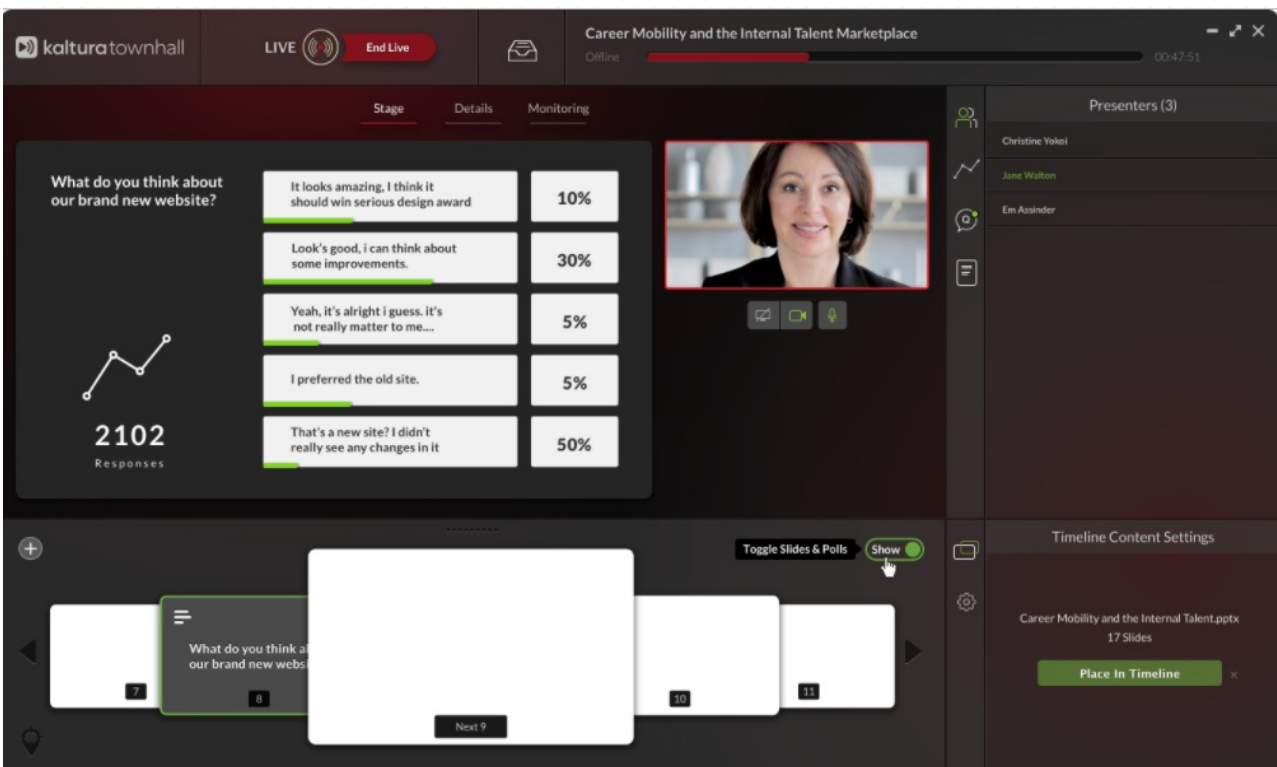

A presenter may run a poll during a live event and then select to 'Show poll results'. Afterwards the presenter may want to clear the poll results and continue with the broadcast and may want to run additional polls. The Show/Hide Slides & Polls toggle provides the option to clear the poll display from the screen.

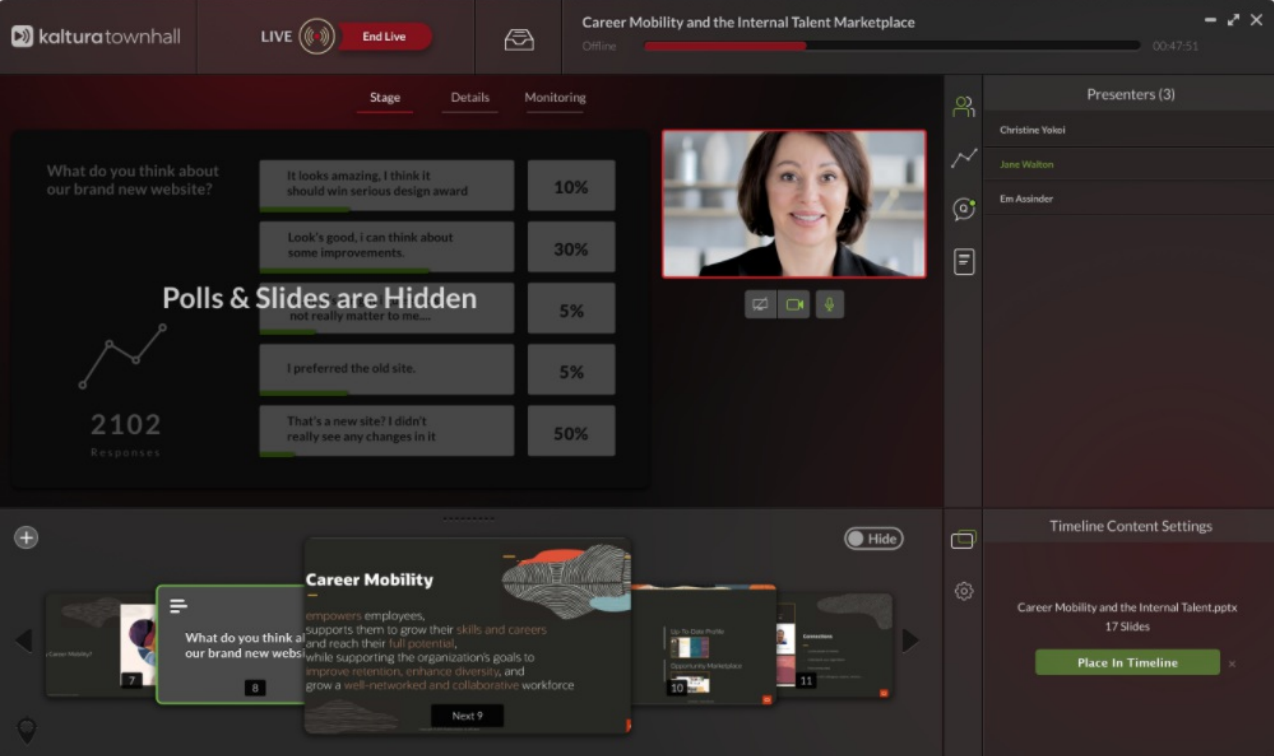

Presenters may select when to stop/start displaying slides or polls during the event.

If there are no items in the timeline to hide or show, the Show/Hide button is disabled.

In the following example, poll information is displayed to users. Note the Show button is toggled on.

In the following example, poll information is hidden to viewers. Note the Hide button is toggled on.

The screenshot shows a Kaltura Townhall interface for a live session titled "Career Mobility and the Internal Talent Marketplace". The interface is divided into several sections:

- Top Bar:** Includes the Kaltura Townhall logo, a "LIVE" indicator with a speaker icon and "End Live" button, an envelope icon, the session title, and a timer showing "00:47:51".
- Stage:** Features a poll titled "What do you think about our brand new website?". The poll results are displayed in a table:

Response	Percentage
It looks amazing. I think it should win serious design award	10%
Look's good, I can think about some improvements.	30%
not really matter to me...	5%
I preferred the old site.	5%
That's a new site? I didn't really see any changes in it	50%

 A line graph shows 2102 responses. A video feed of a presenter is visible on the right side of the stage.
- Slide Navigation:** A horizontal bar at the bottom shows a sequence of slides. Slide 8 is currently active, titled "Career Mobility". A "Hide" toggle is visible on the right side of the navigation bar.
- Presenters (3):** A list on the right side of the interface shows the names of the presenters: Christine Yokoi, Jane Walton, and Em Assinder.
- Timeline Content Settings:** A panel at the bottom right shows the current slide "Career Mobility and the Internal Talent.pptx" with 17 slides. A "Place In Timeline" button is visible.

New slides for chapters are not displayed when the slides/polls toggle is set to Hide.
