

# Software Requirements

Last Modified on 01/12/2021 9:02 pm IST

The following are the minimum software requirements for VQ to operate:

- KMS/KAF – 5.80.11 – SaaS customers will automatically be upgraded to this version.
- Quiz Creator (Kaltura Video Editing Tools) – 2.0 – SaaS customers will automatically get this version.
- Player – The Quiz player (ID can be found in [Quiz module](https://knowledge.kaltura.com/help/entrytypes-kms-management-consolekaf-admin-quiz) (<https://knowledge.kaltura.com/help/entrytypes-kms-management-consolekaf-admin-quiz>)) should be version 2.70 or later. Some features in the Quiz require an upgrade to the player, please see the [Release Notes](https://knowledge.kaltura.com/help/kaltura-video-quiz-vq-release-notes-5b97bfc) (<https://knowledge.kaltura.com/help/kaltura-video-quiz-vq-release-notes-5b97bfc>) for specific details.

Updating the Player version is done through the Player Studio (See the [Universal Studio Information Guide](https://knowledge.kaltura.com/help/universal-studio-information-guide#updating-the-player-list-in-the-universal-studio) (<https://knowledge.kaltura.com/help/universal-studio-information-guide#updating-the-player-list-in-the-universal-studio>) for more information) or in some cases through the KMS admin.
