

Video quiz analytics

Last Modified on 03/11/2026 11:35 am IST

 This article is designated for all users.

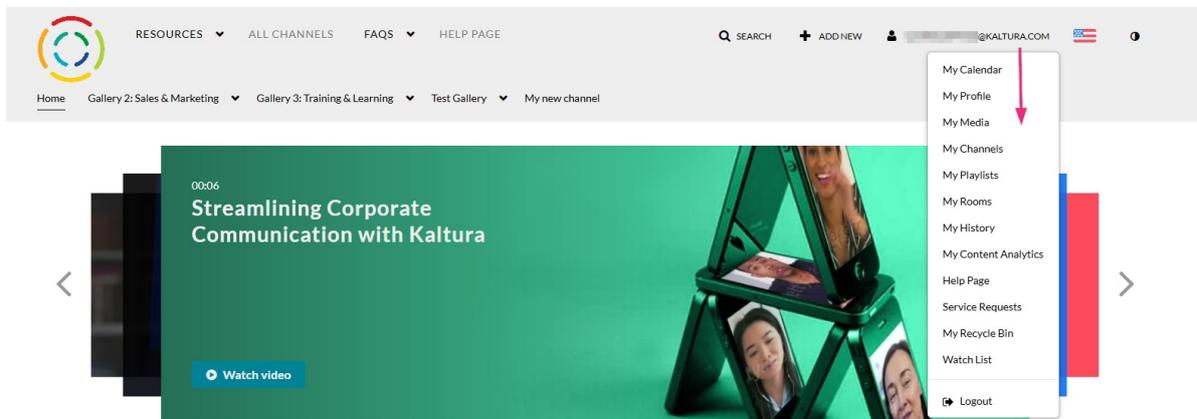

About

Quiz creators, media owners, and co-editors can access detailed reports on quiz attempts and responses. The analytics dashboard provides insights into user submissions, scores, and question-level data.

 Quiz analytics requires the [Userreports module](#) to be enabled.

Access the analytics dashboard

1. From the user menu, select [My Media](#) (or another entry point, like [My Playlists](#) or [My Channels](#)).

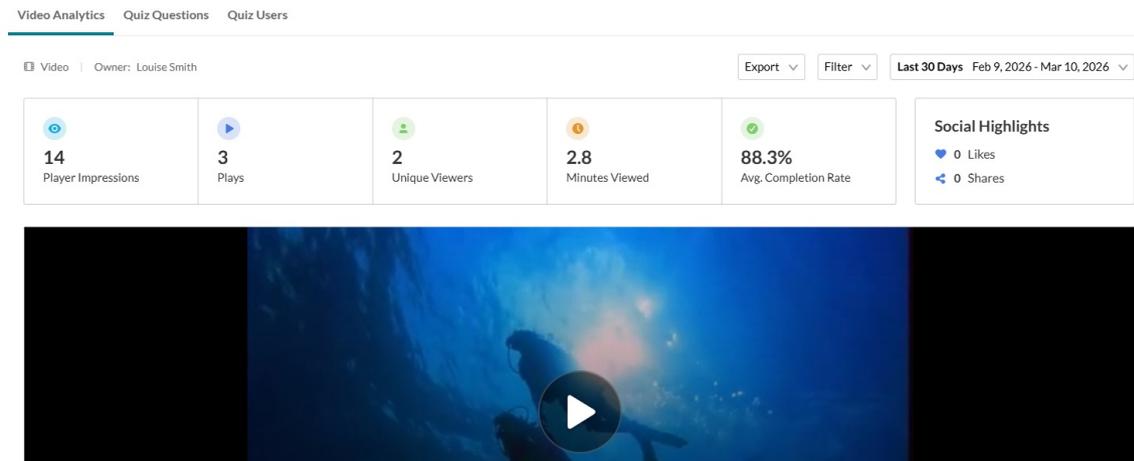

2. Locate the desired quiz media entry, and click the **analytics icon** to the far right.

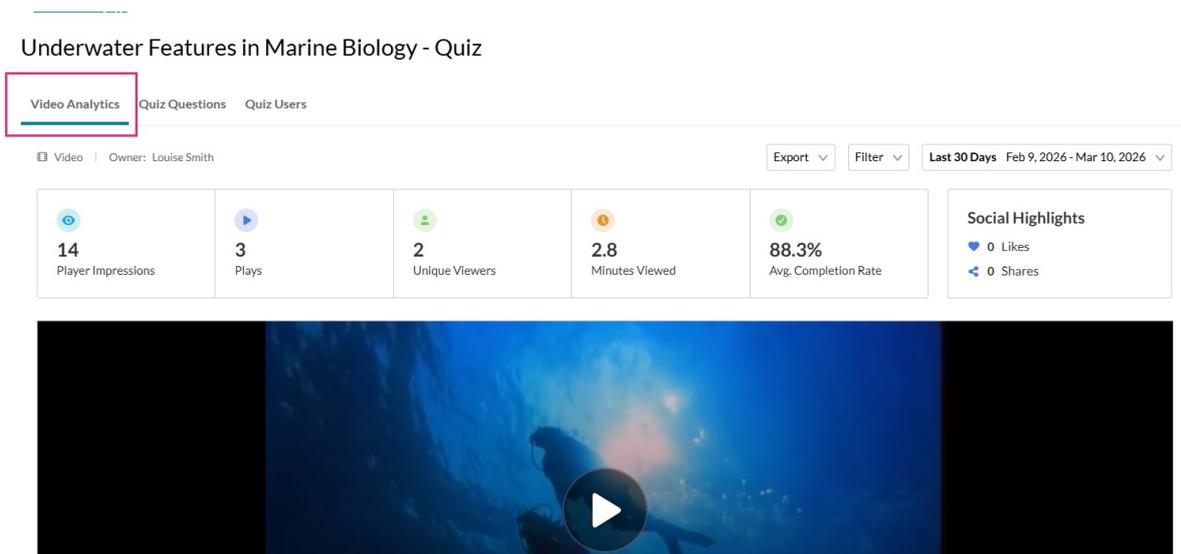

The **Video Analytics** page displays.

Underwater Features in Marine Biology - Quiz

Video Analytics tab

The **Video Analytics** tab displays analytics for all users who have taken the quiz.

Adjust the timeframe

Use the **date picker** (top right) to set a specific time period.

For more information, see [Working with the entry level analytics dashboard](#).

Export data

1. Click **Export** and select one or more data sets from the drop-down list.

Underwater Features in Marine Biology - Quiz

The selected reports are downloaded in CSV format.

For more information, see [Working with the entry level analytics dashboard](#).

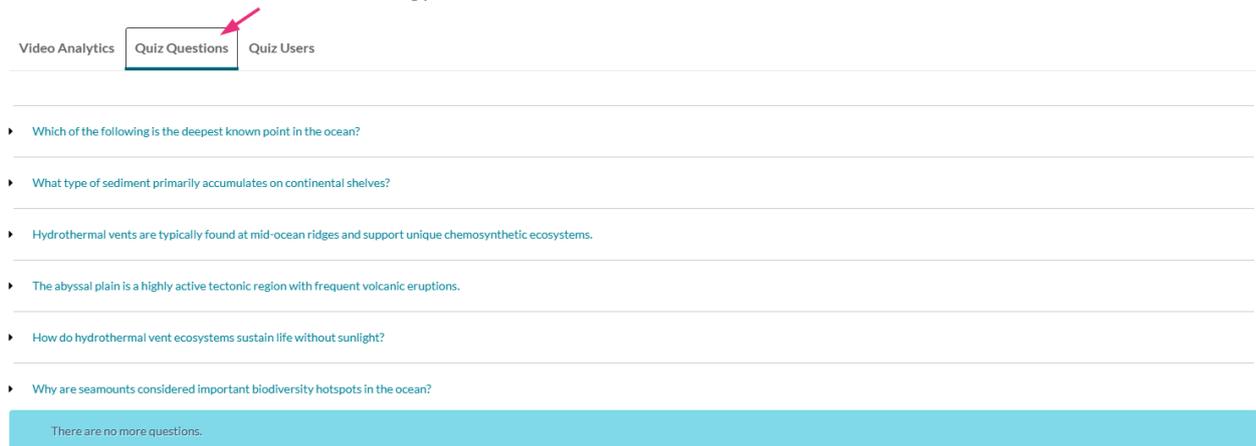

Quiz Questions tab

The **Quiz Questions** tab shows how users responded to each quiz question. You can review answers, add notes to open-ended responses, and export or print answers for individual questions.

View answers

1. Click the **Quiz Questions** tab.

Underwater Features in Marine Biology - Quiz

2. Expand a question using the **arrow** on the left to see all users' answers.

[← Back to media page](#)

Underwater Features in Marine Biology - Quiz

Video Analytics Quiz Questions Quiz Users

- ▶ Which of the following is the deepest known point in the ocean?
- ▶ What type of sediment primarily accumulates on continental shelves?
- ▶ Hydrothermal vents are typically found at mid-ocean ridges and support unique chemosynthetic ecosystems.
- ▶ The abyssal plain is a highly active tectonic region with frequent volcanic eruptions.
- ▶ How do hydrothermal vent ecosystems sustain life without sunlight?
- ▶ Why are seamounts considered important biodiversity hotspots in the ocean?

There are no more questions.

Add notes

You can add notes only to **open-ended questions** after a user submits a response.

1. Click the arrow to the left to expand the question.

▼ [Why are seamounts considered important biodiversity hotspots in the ocean?](#)

Last Attempts Results: Answered 4 right and 0 wrong

👍 Louise Smoisz - Answered "They offer shelter and feeding grounds for marine species, increasing ocean biodiversity."

[Add Note](#)

👍 Brian Dean - Answered "Seamounts provide hard surfaces for coral and sponge attachment, creating habitats for diverse marine life. "

[Add Note](#)

👍 louise.szmoisz - Answered "I'm not sure "

[Add Note](#)

👍 John Smith - Answered "They support diverse marine species by offering habitat and increasing nutrient availability."

[Add Note](#)

[Load more...](#)

2. Below the answer, click **Add Note**.

▼ [Why are seamounts considered important biodiversity hotspots in the ocean?](#)

Last Attempts Results: Answered 4 right and 0 wrong

👍 Louise Smoisz - Answered "They offer shelter and feeding grounds for marine species, increasing ocean biodiversity."

[Add Note](#)

3. Type in your note and click **Add**.

▼ [Why are seamounts considered important biodiversity hotspots in the ocean?](#)

Last Attempts Results: Answered 4 right and 0 wrong

👍 Louise Smoisz - Answered "They offer shelter and feeding grounds for marine species, increasing ocean biodiversity."

Add Note

Good work! Your answers are clear and accurate. To improve, mention chemosynthesis in the first and specify that upwellings bring deep-sea nutrients in the second. Keep it up!

👍 Brian Dean - Answered "Seamounts provide hard surfaces for coral and sponge attachment, creating habitats for diverse marine life. "

[Add Note](#)

Click the **Export to CSV** or **Printable Version** buttons next to a question.

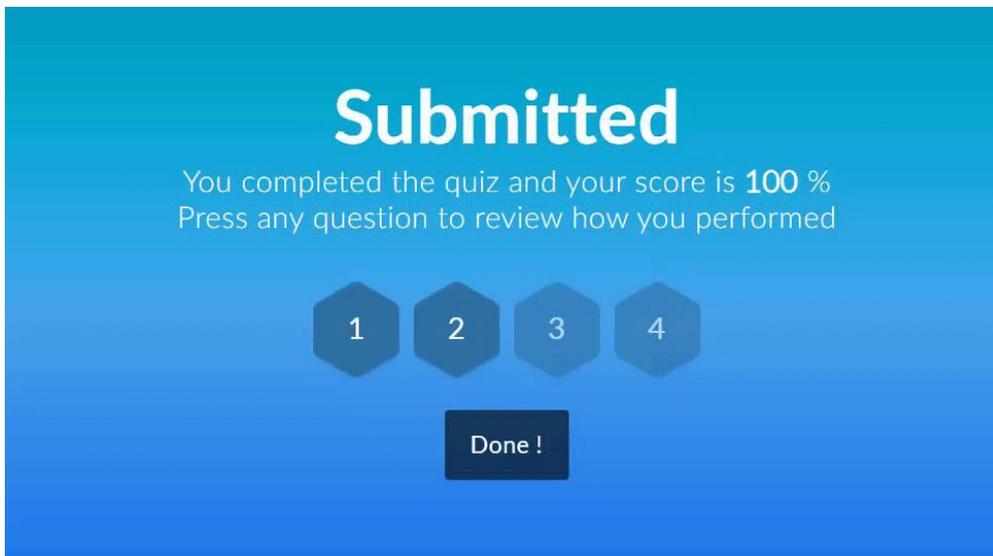

Why are seamounts considered important biodiversity hotspots in the ocean?

Last Attempts Results: Answered 4 right and 0 wrong

👍 Ruby Samuels - Answered "They offer shelter and feeding grounds for marine species, increasing ocean biodiversity."

Users can review any notes added by the quiz owner. See the video below for a walkthrough.

Quiz Users tab

The **Quiz Users** tab displays user attempts and scores.

Underwater Features in Marine Biology - Quiz

Video Analytics Quiz Questions **Quiz Users**

Below you will find the list of all submissions, sorted by date.
Total number of submissions is 7 with an average score of 57%
Note that each user's submission will be seen as a new entry in the table.

[Export all attempts \(CSV\)](#)
 [Export last attempts \(CSV\)](#)
 [Print last attempts](#)

Users	Attempt Number	Submission date	Attempt Score	Final Score (Latest)	Action
▶ Louise Smoisz	2/2	February 19, 2025	50%	50%	
▶ Brian Dean	2/2	February 19, 2025	75%	75%	
▶ Brian Dean	1/2	February 19, 2025	50%	50%	
▶ John Smith	1/2	February 19, 2025	50%	50%	
▶ [Redacted]	1/2	February 19, 2025	0%	0%	

Each user entry includes the following columns:

- **Users** - Click a name to view more details.
- **Attempt number** - Displays all attempts, sorted by submission date, with the latest attempt at the top. If multiple attempts is not enabled by your administrator for quizzes, this will show as Attempt: 1/1. Learn how to enable multiple attempts in our article [Set up a video quiz](#).
- **Submission date** - Displays the date the quiz was submitted.
- **Attempt score** - Displays the score for each individual attempt.
- **Final Score** - The final score is determined by how the quiz was [set up](#):
 - If the quiz was set up to allow only **one attempt**, the final score is simply the score from that attempt.
 - If **multiple attempts** are allowed, the final score follows the scoring rule that was set for that quiz (e.g., Highest, Latest, First, Lowest, or Average Attempt). The score is recorded when the quiz is submitted, so each attempt may have a different final score.

Users	Attempt Number	Submission date	Attempt Score	Final Score (Latest)	Action
▶ Ruby Samuels	2/2	February 19, 2025	50%	50%	
▶ Brian Dean	2/2	February 19, 2025	75%	75%	

The scoring rule that was set for the quiz appears in parentheses

- **Action** - Click the **trash can icon** to delete all attempts. To delete only the user's last attempt, see [Users details below](#).

Click the **Show More** button to load additional attempts (up to 500 at a time).

All anonymous users (not logged in) that have taken the quiz, will be identified as a single **anonymous** user.

Gradebook report (for LMS Video integrations only)

After a user completes a quiz, their score is reported to the LMS **Gradebook**.

The **Status** column, presents the sync status.

- **Success** - if the score was reported successfully
- **Error** - if the score was not reported
