

How to add the Attachment plugin?

Last Modified on 01/18/2021 3:36 pm IST

To add the Attachment plugin on the player

1. In the KMC, go to the Studio > Universal Studio and choose the desired player.
2. Go to the Plugins tab and select the "Import Plugin" button.
3. Under the "Plugin Configuration String" field paste the following string:
"relatedFilesPs".
4. Click "Import".
5. Save Player Settings.

 The attachment icon will display on the player only when the entry has a related file attached.
