# Kaltura Video Quiz Blackboard Learn Gradebook User Guide

Last Modified on 03/25/2021 1:19 pm IST

This article describes how to create an assignment using Kaltura's Video Quiz (VQ) that integrates with the Blackboard Gradebook.

▦ To create an assignment using VQ that integrates with the Blackboard Gradebook

1. Create a video quiz in your My Media – See How to create a Quiz with VQ. (https://knowledge.kaltura.com/help/kaltura-video-editing-tools-quiz-tab)
2. Make sure "Edit Mode" is on.
3. Navigate to the course "Content" section.
4. In the "Assessments" menu select "Kaltura Video Quiz" (or the new tool name you configured).

> **NOTE:** In using KAF/LMS integration, in order for quiz scores to pass to the LMS gradebook, you must launch the quiz from the **Assessments** tab. If a quiz is launched from a Course Gallery, the quiz score **will not** pass to the gradebook. Only quizzes launched from **Assessments** will pass grades.

5. Select a quiz from My Media or create a new one.

6. Define other Mashup Item configurations.

7. Click **Submit**.

When students answer and submit their quizzes (see Taking a Quiz (https://knowledge.kaltura.com/help/kaltura-video-quizzes---how-

to-take-a-quiz#taking_a_quiz)) the grade is automatically sent to the Blackboard Grade Center for the relevant assignment and student.
