Kaltura Video Quiz Canvas Gradebook Integration Deployment Guide

Last Modified on 04/01/2021 8:26 pm IDT

This guide describes how to deploy the Kaltura Video Quiz Canvas Gradebook Integration.

Audience

This guide is for Canvas and Kaltura administrators that intend to integrate the Kaltura Video Quiz (VQ) feature with the Canvas Gradebook.
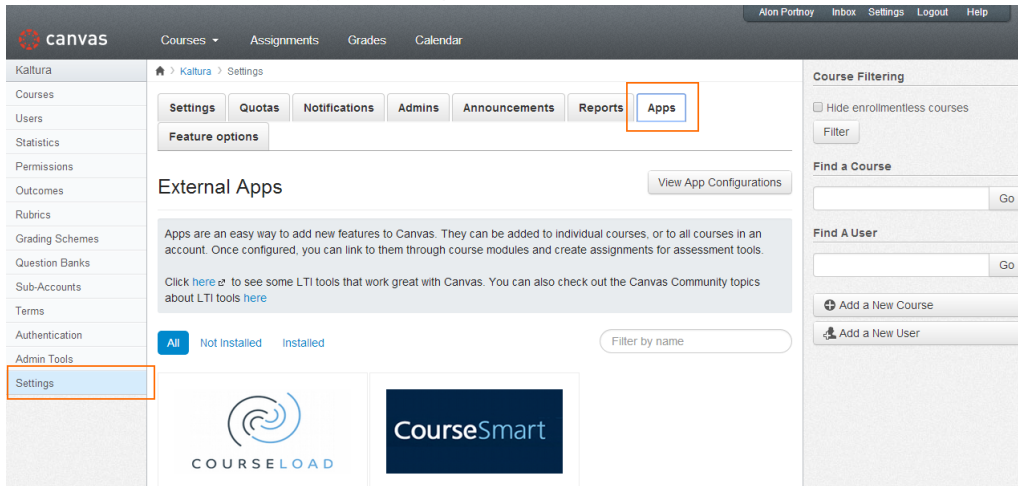

Prerequisites

- Kaltura Video App for Canvas should be installed on your Canvas environment
- If you haven't already, re-install the Media Gallery and BSE (Browse, Search and Embed tool) with the latest content item message based integration. The new xml can be generated using your KAF instance. http://123456.kaf.kaltura.com/canvas/config/create-xml-for-instance.
  For additional information please review the Kaltura Video App for Canvas Deployment Guide

Gradebook Integration Deployment Instructions

1. In your Canvas environment, go to **Settings** and click **Apps**:

2. Click **View App Configurations** to open the list of external apps:

The External Apps list is displayed.

External Apps

[Add New App] [View App Center]

3. Click Add New App to open the Add App dialog.
4. Select Paste XML from the **Configuration Type** drop down menu.
   Enter the following information:
