

# Kaltura Video Package for Moodle Installation Guide

Last Modified on 07/27/2021 12:59 pm IDT

This document details the steps required to install the Kaltura Video Package 4.2.6 for Moodle 3.0 and later. If you are upgrading from Kaltura Video Package 3.0, follow the instructions in the [Kaltura Video Package 4.2.6 for Moodle 3.x Upgrade Guide](#).

## Prerequisites

- A Kaltura account:
  - Partner ID (“pid”), e.g.,
  - Admin secret, e.g.,
- A Kaltura Application Framework (KAF) instance URL, e.g., <https://12345.kaf.kaltura.com>
- Minimum Moodle version 3.x

## Installation Background

- Local plug-in used to:
  - Store configuration data and the Kaltura PHP client library (local/kaltura)
  - Display the user's My Media repository (local/mymedia)
- Video assignment module, equivalent to the video assignment type for the Kaltura plug-in for Moodle 3.x
- Video resource module, equivalent to the video resource type for the Kaltura plug-in for Moodle 3.x
- Filter plug-in, used to display Kaltura video embed inside rich-text markups

## Installation Process

### To install the Kaltura Video Package 4.2.6

1. Download the latest Kaltura Video Package to your Moodle root directory from [here](https://moodle.org/plugins/pluginversions.php?id=447) (<https://moodle.org/plugins/pluginversions.php?id=447>).
2. Unzip the Kaltura Video Package.
3. Browse to the Moodle home screen and click Continue to install the Kaltura Video Package.

Installation - Moodle 2.6.2 (Build: 20140310)

Moodle 2.6.2 (Build: 20140310)

For information about this version of Moodle, please see the online [Release Notes](#)

Server checks

Name	Information	Report	Status
php_extension	smtp	① should be installed and enabled for best results	Check

Installation

New settings - Front page settings

Full site name  
kafname Moodle (KAF)

Short name for site (eg single word)  
kafname Moodle (KAF)

Front page summary  
Paragraph

Path  
This summary can be displayed on the front page using the course/site summary block or by including a topic section on the front page.

New settings - Manage authentication

Self registration  
Disable Default: Disable  
If an authentication plugin, such as email-based self-registration, is selected, then it enables potential users to register themselves and create accounts. This results in the possibility of spammers creating accounts in order to use forum posts, blog entries etc. for spam. To avoid this risk, self-registration should be disabled or limited by Allowed email domain setting.

[Save changes](#)

5. Click 'Save changes'.

6. Enter the Kaltura credentials (or verify that they were entered correctly) by going to the "Site Administration" area. Then go to the "Plugins" tab. Next, scroll down to the "Local plugins" section. Click "Kaltura package libraries". Enter the following information:

7.
  - a. KAF URI: It should have the format [Instance ID]-kaf.kaltura.com. For example, 12345.kaf.kaltura.com. NOTE: Do not include an ending "/"
  - b. Server URI: By default this should be www.kaltura.com . For most use cases, this should not need to change.
  - c. Partner id: This is your Kaltura account number also referred to as a Partner ID (PID). The PID can be found on the [Integration Settings page of the Kaltura Management Console](https://kmc.kaltura.com/index.php/kmcng/settings/integrationSettings) (<https://kmc.kaltura.com/index.php/kmcng/settings/integrationSettings>). For more information, see [Integration Settings](https://knowledge.kaltura.com/help/integration-settings) (<https://knowledge.kaltura.com/help/integration-settings>).
  - d. Admin secret: This is an alphanumeric string used for integrations. The admin secret can be found on the Integration Settings page of the Kaltura Management Console. For more information, see [Integration Settings](https://knowledge.kaltura.com/help/integration-settings) (<https://knowledge.kaltura.com/help/integration-settings>).
  - e. Enable trace logging: Checked

When finished, the Kaltura Package Libraries page should look similar to the following:

## Kaltura package libraries

### KAF configuration

<http://1688742-4.kaf.kaltura.com/admin>

**KAF URI**  
local\_kaltura | kaf\_uri

1688742-4.kaf.kaltura.com

Default: Empty

Type in the server URI of your KAF instance.

**Server URI**  
local\_kaltura | uri

www.kaltura.com

Default: www.kaltura.com

Type in the server URI you want to connect to. Otherwise just type in the default settings (This setting is used for migration purposes).

**Partner id**  
local\_kaltura | partner\_id

1688742

Default: Empty

Enter the partner id for your account.

**Admin secret**  
local\_kaltura | adminsecret

[Masked]

Default: Empty

Enter the admin secret for your account.

**Enable trace logging**  
local\_kaltura | enable\_logging

☒ Default: No

If enabled, all requests and responses to and from Kaltura are logged. These logs can be used by Kaltura support to diagnose any problems encountered. Enabling this setting may affect Moodle performance. You may download a CSV file of the logs from [here](#).

**Save changes**

## Set up the Filter Plugin

### ☰ To set up the filter plug in

1. After the installation is complete, navigate to Plug-ins > Filters > Manage Filters. Enable the Kaltura Media filter and click the Settings link.
2. Ensure that Embed Kaltura Video Links is checked. If not, check it.

Home ► Site administration ► Plugins ► Filters ► Kaltura Media

## Kaltura Media

**Embed Kaltura Video Links** ☒ Default: Yes  
filter\_kaltura\_enable

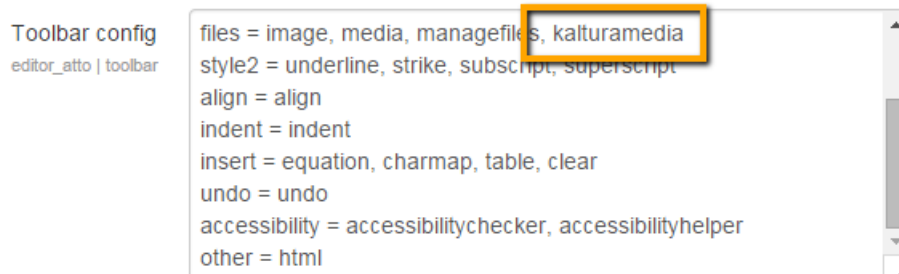

Convert Kaltura video links to embed code

3. Click Save.

## Adding the Atto Text Editor

### ☰ To add the Kaltura embed button to the Atto text editor (Moodle 3.x)

1. Login as administrator.
2. Go to Site administration > Plugins > Text editors > Atto HTML editor > Atto toolbar settings.
3. Under Toolbar config, add "**kalturamedia**" to any of the button groups. For example:

The "Embed Kaltura Video" is added to the Atto editor.

Description

## My Media

No setup is required for My Media. Users can find the link to My Media under the My Home menu.

### ☰ To move the My Media button

1. Login as administrator.
2. Go to Site administration > Appearance > Navigation.
3. Select Site under "Default home page for users".

## Moodle Customer Training

Dashboard > Site administration > Appearance > Navigation

    - Navigation**

### Navigation

Default home page for users  Default: Dashboard  
defaulthomepage  
This determines the home page for logged in users

Allow guest access to Dashboard ☒ Default: Yes  
allowguestmymoodle  
If enabled guests can access Dashboard, otherwise guests cannot

Show course full names ☐ Default: No  
navshowfullcoursenames  
If enabled, course full names will be used in the navigation

Show course categories ☒ Default: Yes  
navshowcategories  
Show course categories in the navigation bar and navigation under my courses without categories.

Show my course categories ☐ Default: No  
navshowmycoursecategories  
If enabled courses in the users my courses branch will be shown

Show all courses ☒ Default: No  
navshowallcourses  
This setting determines whether users who are enrolled in courses in which they are enrolled.

Sort my courses  Default: Sort order  
navsortmycoursesort  
This determines whether courses are listed under My courses and categories) or alphabetically by course setting.

Course limit  Default: 20  
navcourselimit  
Limits the number of courses shown to the user when the user views their courses

Use site name for site pages ☐ Default: No

4. Click Save changes.

## Boost Theme Support

The Boost theme may not have the 'Navigation' tab. The Kaltura Media Gallery will be available in other locations.

You can determine where to place the Kaltura Media Gallery link. The link may be in one of the following locations:

- Navigation Block
- Course setting menu

## To add the link to Kaltura Media Gallery

1. Login as administrator.
2. Go to Site administration > Plugins > Local Plugins and select Kaltura Media Gallery.

3. Select where you want the Kaltura Media Gallery link to display.

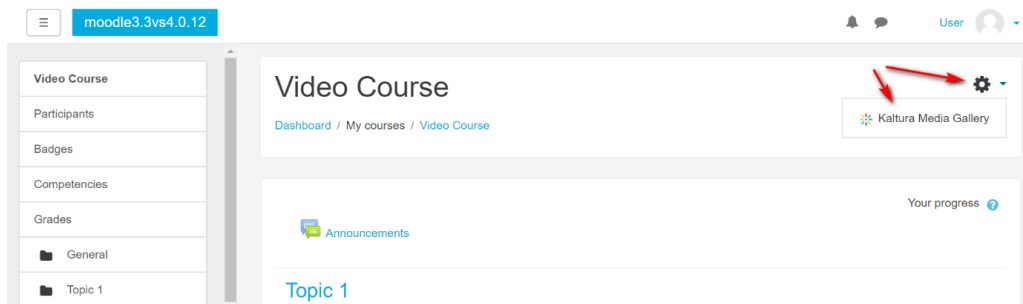

## Navigation Block

Select Navigation block for the link to appear on the left Navigation block.

## Course setting menu

Select Course settings for the link to appear on the course Admin settings menu:

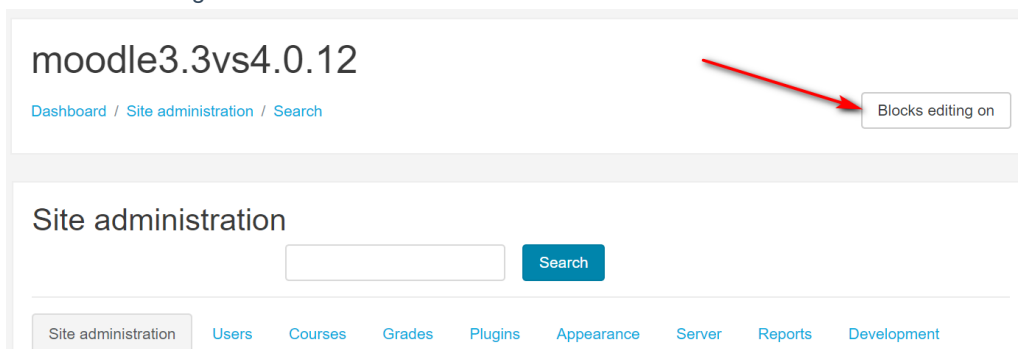

The default display is in the Navigation block.

## Adding a Block

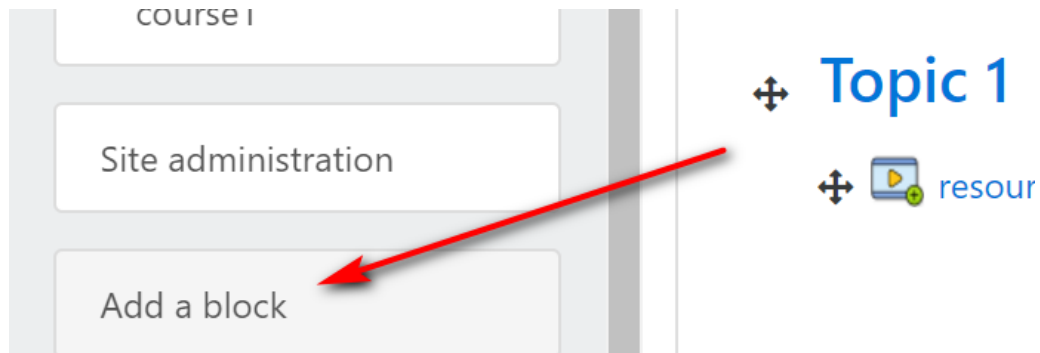

If you have permissions to add blocks to a course, you can add the Kaltura Media Gallery Block. The link to the Kaltura Media Gallery will be added to the course side pane.

### To add the Kaltura Media Gallery block

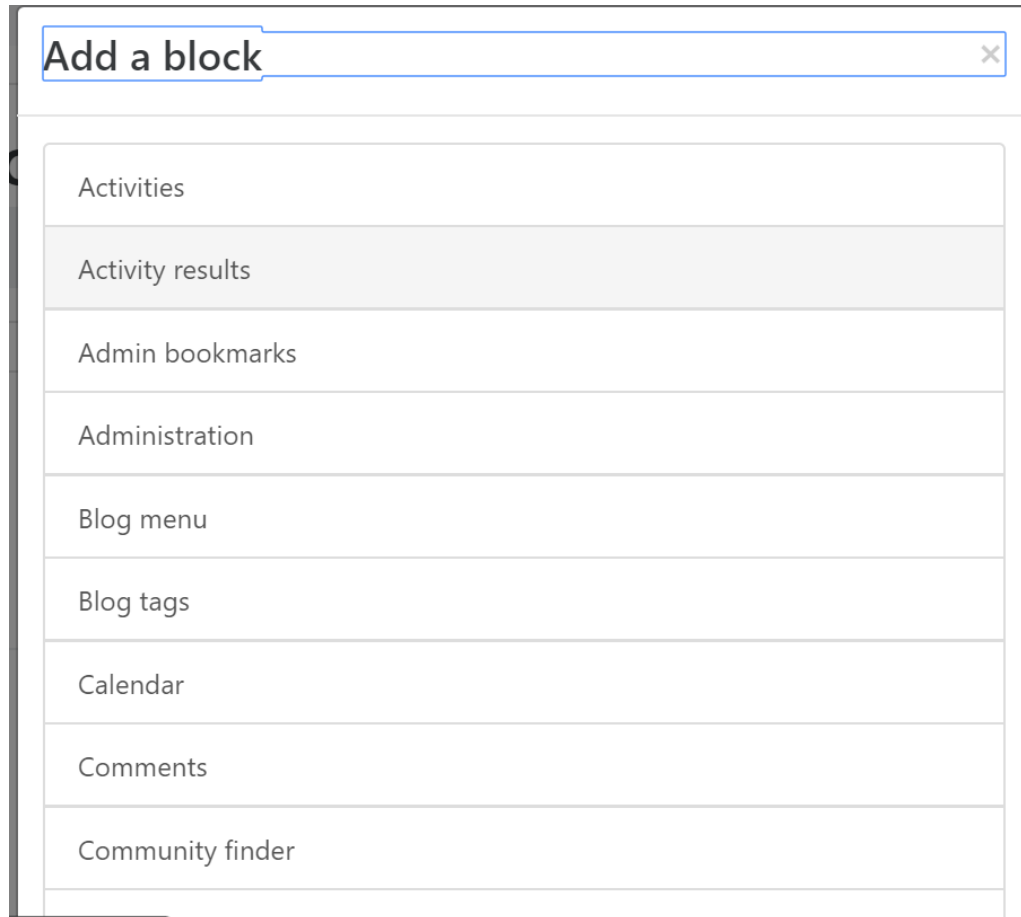

1. Navigate to the site administration.
2. Click Blocks editing on.

3. Navigate to a course, and locate the Add a block button.

4. Under the list of blocks, choose the Kaltura Media Gallery.

Latest badges

The results after adding the Kaltura Media Gallery block are as follows:

[Dashboard](#) / [My courses](#) / [course22](#)

The screenshot shows a Moodle course page for 'course22'. On the left, there are sections for 'Announcements' and 'Topic 1'. On the right, there is a 'Your progress' section with a question mark icon. Below this, a 'KALTURA MEDIA GALLERY' block is visible, with a red arrow pointing to its title. The block content shows 'Kaltura Media Gallery' with a link icon.

## Roles - Setting Permissions

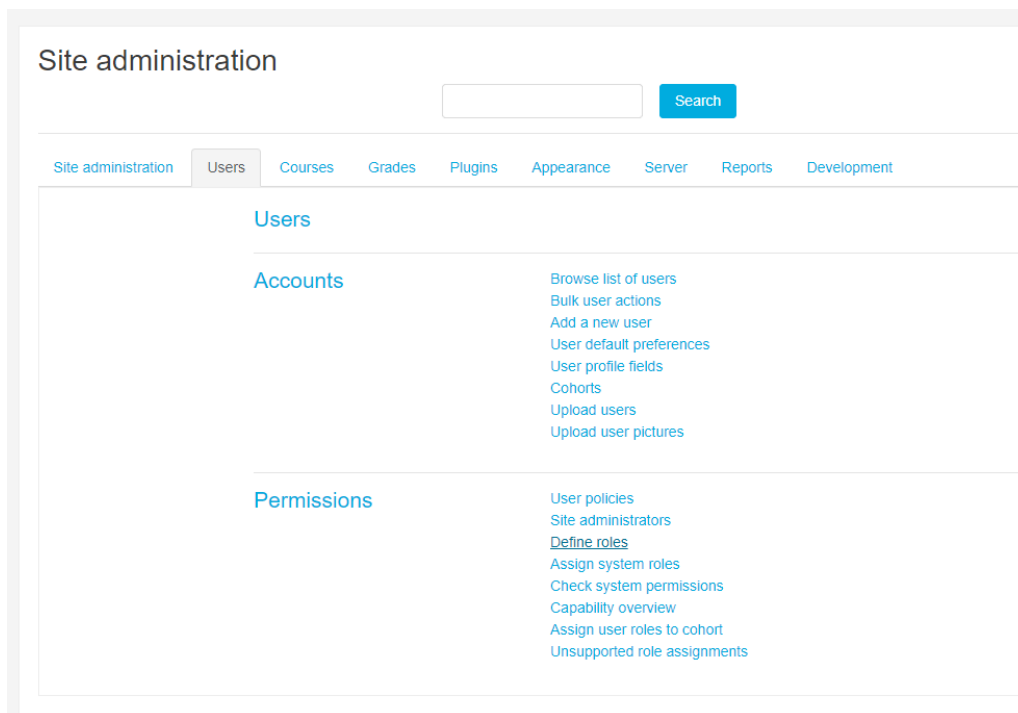

This section provides information on how to set roles and permissions for users to use the Kaltura features.

The following provides steps on how to set up Kaltura permissions for each of the Moodle roles.

### To Define Roles

1. Log in as Moodle admin
2. Go to Site Administration > Users > Permissions > Define Roles.

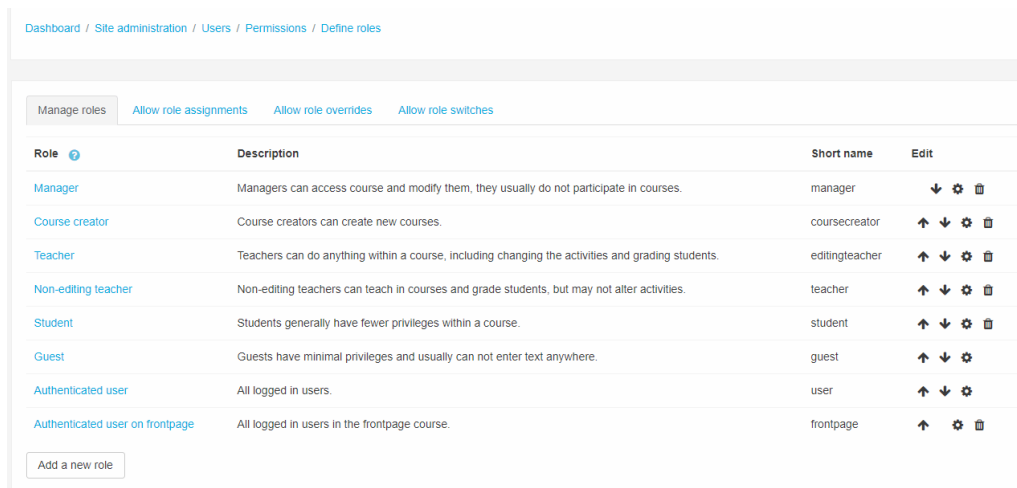

A list all of the standard roles and all custom roles is displayed.

## To edit the permissions for each role

1. Select the Manage roles tab.
2. For EACH role that should be able to use the Kaltura Video Extension for Moodle, select the Gear icon to edit the role.

3. Scroll down the Edit page until you see the list of permissions (there are a many permissions).
4. Use CTRL+F to find the string "Kaltura" on the Edit page. There are a several permissions related to the Kaltura extension.
5. Set the permissions to Allow for each string that contains Kaltura and Save.

The following lists the available features/permissions:

- Block: Kaltura Media Gallery
  - Add a new Kaltura Media Gallery block to Dashboard
- Kaltura package libraries (recommended for admins only)

- Download Kaltura trace logs
- Migrate Kaltura Data
- Kaltura Media Gallery
  - View Kaltura Media Gallery
- Activity: Kaltura Media Assignment
  - Add a Kaltura Media Assignment
- Activity: Kaltura Video Resource
  - Add a Kaltura Video Resource
- Activity: Kaltura Media Assignment
  - Grade video submissions
  - Submit videos
- Block: Kaltura Media Gallery
  - Add a new Kaltura Media Gallery block
- My Media
  - View My Media page
