

Date and time format display locations

Last Modified on 12/17/2024 9:03 am IST

 This article is designated for administrators.

About

This article details where time and/or date appear in the application and lists the pages affected when using the [TimeAndDate module](#).

 You can adjust these settings in the [TimeAndDate module](#). Make sure the **uploadDateStyle** field is set to “On date”. The time format (AM/PM or 24-hour) will depend on the **timeDisplay** field value.

Where time / date appear in your application

 This information applies to both the video portal and KAF applications.
