About

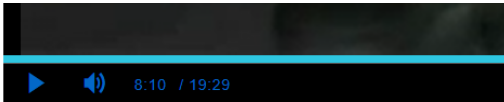

This article details where time and/or date appear in the application and lists the pages affected when using the [TimeAndDate module](#).

 You can adjust these settings in the [TimeAndDate module](#). Make sure the **uploadDateStyle** field is set to "On date". The time format (AM/PM or 24-hour) will depend on the **timeDisplay** field value.

Where time / date appear in your application

 This information applies to both the Video Portal and KAF applications.
