How to change the playlist owner via API

Last Modified on 08/05/2025 6:22 pm IDT

1. Open the API console at https://developer.kaltura.com/console/ (Sign In) or http://www.kaltura.com/api_v3/testme.
   If Testme Console is used, first, you will need to generate a KS session as demonstrated on How to Start a Kaltura Session using the TestMe Console .
2. Select **Session Service > baseEntry**.
3. Select **Action > update**.
4. Enter the desired playlist ID under the **entryId (string)** field.
5. Select **baseEntry (KalturaBaseEntry) > Edit.**
6. Enter the desired **userId (string)**.
7. Click **Send.**

To verify the current playlist owner, generate the following API call: **baseEntry > get.** View the userId in the output result.
