

# Video Conference Integration with WebEx

Last Modified on 09/01/2021 9:13 am IDT

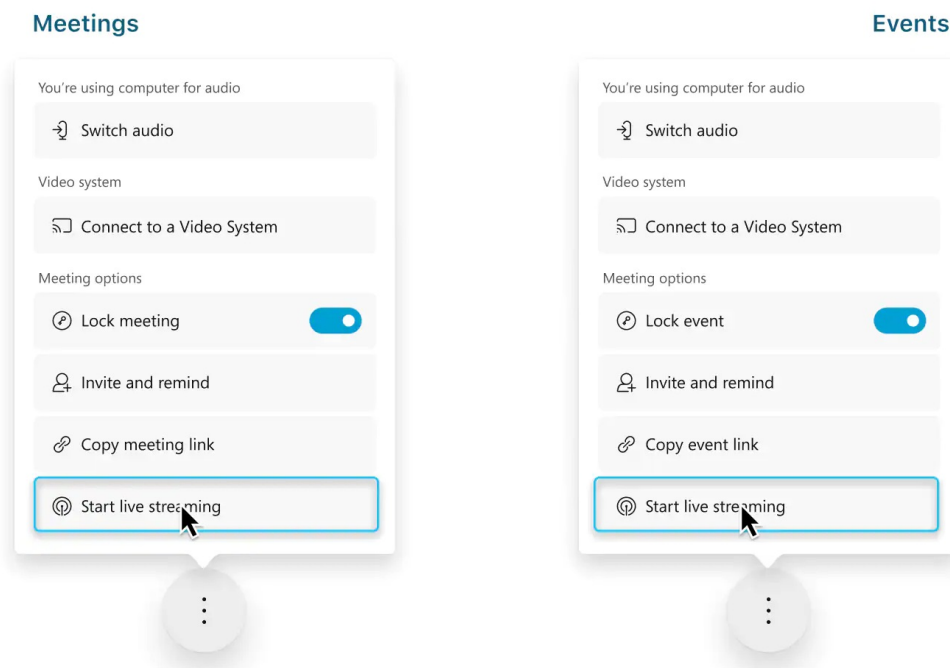

This article describes how to live stream your Cisco Webex meeting/event into Kaltura Townhalls (Webcasting). For information on how to set up live streaming to a Kaltura Live Entry, please see [Streaming Webex to a Kaltura Live Entry](https://knowledge.kaltura.com/help/streaming-webex-to-kaltura) (<https://knowledge.kaltura.com/help/streaming-webex-to-kaltura>).

## Prerequisites for Webex Admin

You can live stream each Webex meeting or event to one live streaming service. Your Webex administrator must [enable live streaming](https://help.webex.com/xk37so/) (<https://help.webex.com/xk37so/>).

### To set up a live stream Webex Meeting into Kaltura Townhalls (Webcasting)

1. Sign in to your Kaltura MediaSpace or KAF applications site and [create a webcasting event](https://knowledge.kaltura.com/help/creating-a-webcasting-event) (<https://knowledge.kaltura.com/help/creating-a-webcasting-event>).
2. Access the webcasting event editing page and navigate to the **Live Stream Details** tab. The information you will be pulling from this area is the **Primary URL** and the **Stream name**. For more information on editing the event, see [Editing a Webcasting Event](https://knowledge.kaltura.com/help/editing-a-webcasting-event) (<https://knowledge.kaltura.com/help/editing-a-webcasting-event>).
3. Sign in to your Webex site and start your meeting or event.
4. Go to More options  and select **Start live streaming**.

Live streaming is not available during a practice session in an event.

5. (Optional) Click Change streaming layouts to set the video layout of your stream. For more information about selecting your streaming video layout, see [Live Stream Your Webex Meetings or Events](https://help.webex.com/a6cmw/) (<https://help.webex.com/a6cmw/>).

6. On the Start Live Streaming window, select **Other Streaming Services**.
  - a. Set a name under **Streaming services**, such as Kaltura.
  - b. Set the **Primary URL** under **Target stream link**.
  - c. Set the **Stream name** under **Target steam key**.
  - d. Click on **Start streaming**.

**Other streaming service information**

To learn how to find this information for your service, see <https://www.cisco.com/go/webex-live-stream>.

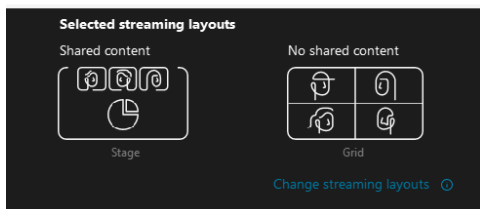

**Streaming service** (example: YouTube Live)

**Target stream link**

**Target stream key** (optional)

After you click **Start streaming**, this Webex event will be streamed to your target service. Go to your target streaming service to check the preview and to go live for your audience.

**Start streaming**

Your Cisco Webex Meeting is being streamed live to Kaltura.
