

Navigation Bar Guide

Last Modified on 11/25/2025 4:29 pm IST

This article is designated for Kaltura's Flagship Events customers

About

Kaltura understands that easy-to-follow navigation for the event is very beneficial and important for the overall user experience. The navigation bar allows attendees more time to explore your event and discover content easily and performs as the main gateway to other site pages, such as collection and channel pages, and can also include links leading outside the platform.

The navigation bar is persistent along with all platform pages.

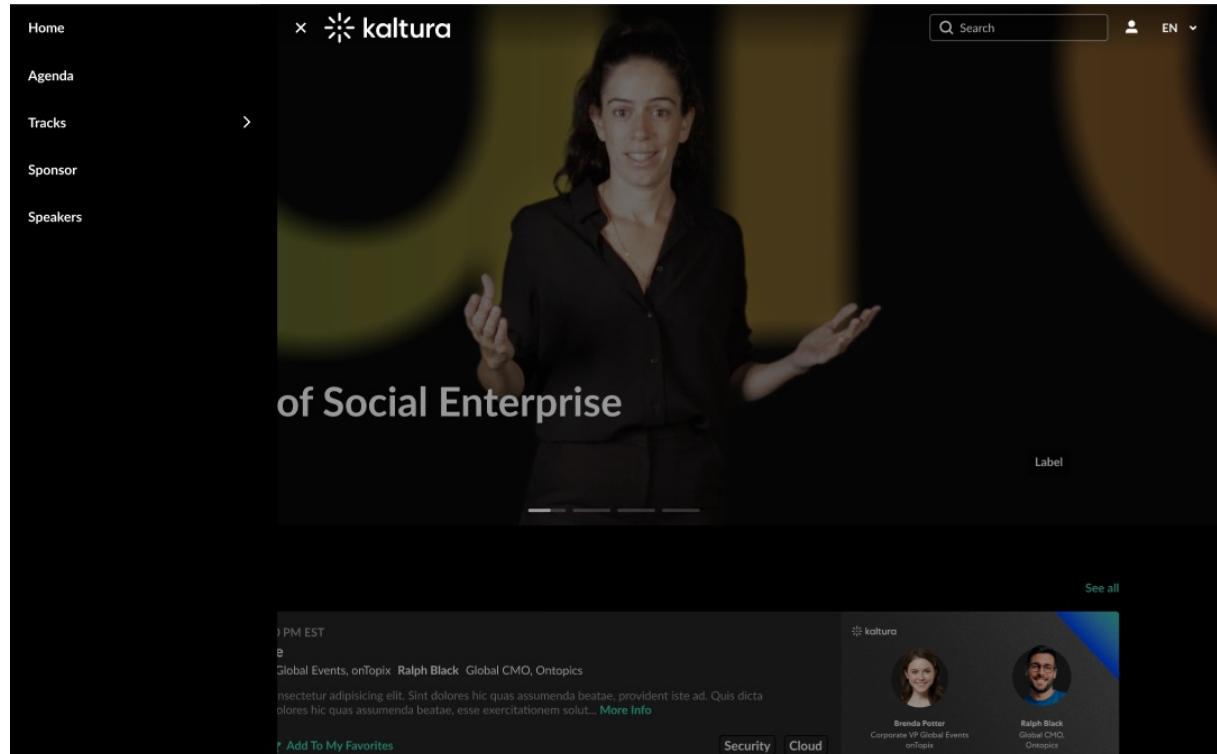

Tabs on the navigation bar can be arranged vertically or horizontally. The default arrangement is vertical.

Click on the hamburger menu  on the upper left corner, to open the navigation bar.

The navigation bar also includes a drop-down functionality, so by clicking on the main category (e.g., tracks/languages) sub-categories that are associated with the main navigation bar item will display.

Deliverables

Please provide a list of the navigation bar items (name of pages and order), in all relevant languages.

A screenshot of a Kaltura video player interface. The main video frame shows a woman in a black blazer gesturing with her hands while speaking. Below the video, the text "of Social Enterprise" is visible. To the right of the video, there is a "Label" section and a "See all" link. The left sidebar contains navigation links: Home, Agenda, Tracks, Sponsor, and Speakers. The bottom of the screen shows a list of speakers with their names, titles, and profile pictures. The speakers listed are Brenda Potter (Corporate VP, Global Events, onTopix) and Ralph Black (Global CMO, Ontopics). There are also buttons for "Add To My Favorites", "Security", and "Cloud".
