

# Basesiteregistration

 This article is designated for administrators.

The Basesiteregistration module provides common services to the site registration modules.

| Field                        | Description   |
|------------------------------|---|
| enabled                      | Enable the Basesiteregistration module.   |
| headerText                   | Text to show on the registration page header.   |
| headerBackgroundImage        | Upload or Remove the header background image.   |
| showLanguageSelector         | Show the language selector on multi-language instances.   |
| linkExpiration               | Expiration (in seconds)   |
| loginFailureText             | Change the error text for users on the login page <a href="#">Recaptcha</a> .   |
| registrationForm             | Open the <a href="#">Registration Form Editor</a> .   |
| <a href="#">loginLogFrom</a> | Write log on user login from specified time. no value means all logged in users will be set as 'attended' status.   |
| verificationSentTitle        | Title of the page presented after the request for email verification ( <code>/registration/verify</code> )  |
| verificationSentText         | Enter the text for the page presented after the request for email verification ( <code>/registration/verify</code> )  |
| useCaptcha                   | Turn on the re-captcha on the registration form and on the activation page. If enabled, make sure to setup the <a href="#">Recaptcha</a> module first.  |
| <b>customLogo</b>            | Leave empty to use logo settings from the <a href="#">Header</a> module.  |
| logoImageUpload              | Upload a logo image to display on the top of this page. The image will be displayed at its native resolution. Note: the size of the logo image affects the layout of the page. Recommended logo size is 325px wide x 41px high. Leave empty to use settings from the <a href="#">Header</a> module. |
| logoAltText                  | Enter alternate text for the logo. Leave empty to use settings from the <a href="#">Header</a> module.  |

|                       |  |
|-----------------------|--|
| logoLink              | <p>Select the click behavior of the logo on this page:</p> <p>[1] Enter 'false' if you do not want the logo to be clickable;</p> <p>[2] Enter 'home' to display the home page (displayed when MediaSpace opens);</p> <p>[3] Enter a full URL (starting with https://) to open a different page in a new browser tab;</p> <p>[4] Leave empty to use settings from the <a href="#">Header</a> module.</p>  |
| allowEditRegistration | <p><input checked="" type="checkbox"/> Form Registration</p> <p><input checked="" type="checkbox"/> Invite Registration</p> <p><input checked="" type="checkbox"/> Webhook Registration</p> <p><input checked="" type="checkbox"/> SSO registration</p> <p><input checked="" type="checkbox"/> Manual users</p> <p>Select which of the registration types users are allowed to edit their registration details using the “/registration/edit” URL. Uncheck all to disable the feature.</p> |
| allowUnregister       | <p><input checked="" type="checkbox"/> Form Registration</p> <p><input checked="" type="checkbox"/> Invite Registration</p> <p><input checked="" type="checkbox"/> Webhook Registration</p> <p><input checked="" type="checkbox"/> SSO registration</p> <p><input checked="" type="checkbox"/> Manual users</p> <p>Select which of the registration types users are allowed to unregister using the “/unregister” URL. Uncheck all to disable the feature.</p>                             |
