

Interactive Video Quiz

Last Modified on 11/13/2025 10:19 pm IST

About

Kaltura video quizzes let organizers embed interactive questions directly into video content, turning passive viewing into an engaging learning or feedback experience. For event organizers, they're useful for gauging audience understanding, collecting insights during or after sessions, and increasing engagement with on-demand event videos. The built-in analytics also help measure participation and refine future event content.

See the [Kaltura Video Quiz category](#) of our Knowledge Center for complete information.
