Usage Overview Dashboard

The Usage Overview dashboard includes reports for the current month/year usage per Publisher ID (PID). The default view is the current month. Users may choose to change this view.

If the information is displayed for a parent KMC account (per PID) - the info is aggregated for the PID and all its child accounts.

Metrics for the following time periods are displayed:

- Current Month
- 12 Months usage up to Current Month

As a reference for analytics terms and definitions, please see the [Advanced Analytics Terminology](#) article.
