 This article is designated for all users.

About

If you don't see a recently added media item, or if a media item appears in search results but not in your My Media page, it might be due to caching. Simply use the Refresh option to update your My Media page and display the most recent entries.

To refresh My Media

In the upper right corner of the **My Media** page, click the refresh  icon.

The screenshot shows the 'My Media' page interface. At the top right, there are two buttons: 'My recycle bin' and 'My Analytics'. A red arrow points to a refresh icon (a circular arrow) located between these two buttons. Below the buttons is a search bar labeled 'Search My Media'. Further down, there are filters and sorting options: 'Filters >', 'Search In: All Fields', and 'Sort By: Creation Date - Descending'. A blue '+ Create' button and an 'ACTIONS' dropdown menu are also visible. The main content area shows a media item with a thumbnail image of a green background and a black object, titled '122855804126_(Source)'. The item is marked as 'Published' and has a timestamp of '00:06'. Below the item, there are icons for heart, play, and comment, all with a count of 0.

Your My Media page is refreshed.
