

Refresh My Media in Canvas (legacy)

Last Modified on 05/04/2026 4:27 pm IDT

 This article is designated for all users.

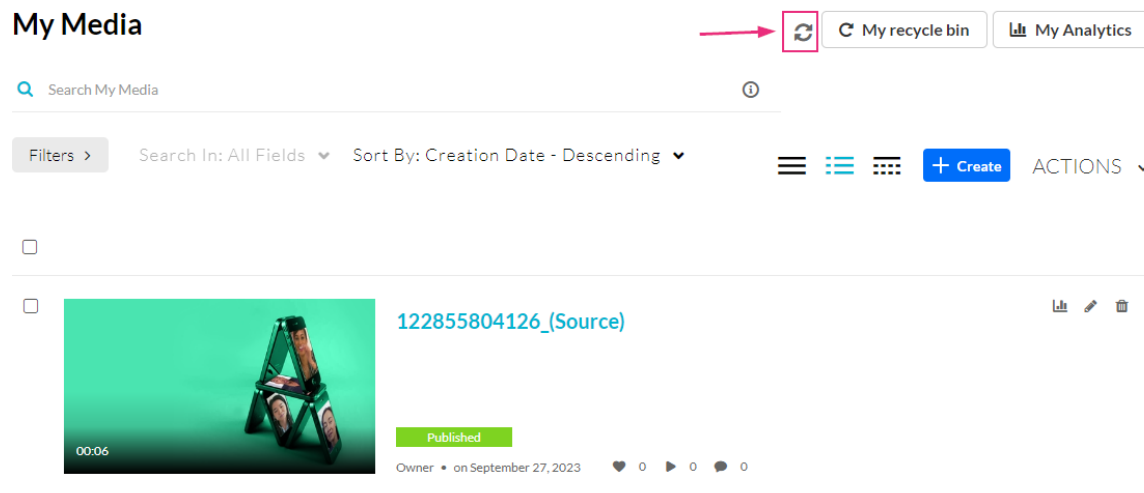

About

If you don't see a recently added media item, or if a media item appears in search results but not in your My Media page, it might be due to caching. Simply use the Refresh option to update your My Media page and display the most recent entries.

These instructions apply to the legacy **LMS Video** integration. If you're using LMS Video with Theming, please refer to the [LMS Rich Media Extensions category](#).

To refresh My Media

In the upper right corner of the **My Media** page, click the refresh icon.

The screenshot shows the 'My Media' page interface. At the top right, there are three buttons: 'My recycle bin', 'My Analytics', and a refresh icon (a circular arrow). A red arrow points to the refresh icon, which is enclosed in a red box. Below the buttons is a search bar with the text 'Search My Media'. Underneath the search bar, there are filter options: 'Filters >', 'Search In: All Fields', and 'Sort By: Creation Date - Descending'. To the right of these filters are icons for list view, grid view, and a '+ Create' button. Below the filters, there is a list of media items. The first item is a video thumbnail with the title '122855804126_(Source)'. The video player shows a duration of '00:06' and a 'Published' status. Below the video player, there is a small text 'Owner • on September 27, 2023' and icons for heart, play, and comment, all with a '0' next to them.

Your My Media page is refreshed.
