

Edit media in Canvas (legacy)

Last Modified on 05/04/2026 3:32 pm IDT

 This article is designated for all users.

About

This guide covers how to edit and manage your media in your KAF application, offering options like metadata management, publishing settings, thumbnail customization, and more, so you can ensure your content is exactly how you want it.

You may lose some functionality if your display screen is under a certain width or when in mobile view.

If you cannot access your My Media page content/actions or display editing tabs, ask your administrator to give you the required permission.

These instructions apply to the legacy **LMS Video** integration. If you're using LMS Video with Theming, please refer to the [LMS Rich Media Extensions category](#).

Access the edit media page

From My Media

1. Access My Media.
2. Click the pencil icon next to the desired media.

My Media

Search My Media

 The tabs that are displayed on your edit media page depend on your admin configuration.

Once you're on the edit media page, you can:

- Edit media metadata
- Setup metadata in different languages for your media
- Publish media
- Schedule media
- Enable clipping
- Disable comments and close discussion
- Change media ownership and add collaborators
- Set and modify thumbnails
- Enable media download
- Upload and manage captions
- Add attachments
- Manage chapters and slides
- Replace media
- Customize the entry display

- Delete the entry
 - Launch the Editor
-
