

How to chat with attendees

Last Modified on 10/31/2023 4:04 pm IST

Audience engagement is vital during your Virtual event. Kaltura encourages event organizers to offer attendees ways to interact with event speakers and moderators by asking questions, sharing ideas and more using the “Moderated chat” available in sessions and channels.

Moderators can be assigned in both different live or simulive sessions and channels .

To get access to the moderator view, make sure that the user (moderator) has been added as a “Moderator” by the Kaltura team.

See [Moderator app](#) for complete details.
