

# Refresh My Media in Moodle (legacy)

Last Modified on 05/05/2026 11:17 am IDT

 This article is designated for all users.

## About

Due to caching, a media entry can appear in search results but not yet display in **My Media**. The refresh option updates your media library and shows the most recently added entries.

## Refresh your media library

In the upper right corner of the **My Media** page, click the **refresh icon**.

Your media library updates and displays the latest media entries.
