About

This guide covers how to edit and manage your media, offering options like metadata management, publishing settings, thumbnail customization, and more, so you can ensure your content is exactly how you want it.

 You may lose some functionality if your display screen is under a certain width or when in mobile view.

 The instructions below are for non-Theming users. If you have [Theming](#) enabled, please refer to our article [Edit media - Theming](#).

Access the edit media page

 If you cannot access your My Media Page content/actions or display editing tabs, as your administrator to give you the required permission.

From My Media page

1. Access the [My Media page](#). Your My Media Page lists previously uploaded media.
2. Choose one of the following methods:
 - o Click the pencil icon next to the desired media.

My Media

The screenshot shows the 'My Media' interface. At the top, there is a search bar with the text 'Search in My Media'. Below the search bar, there are filters and sorting options: 'Filters >', 'Search In: All Fields', and 'Sort By: Creation Date - Descending'. To the right of these options are icons for list, grid, and table views, and an 'ACTIONS' dropdown menu. Below the filters, there is a 'Select All' checkbox. The main content area displays two media entries. The first entry is titled 'Introduction - Leadership Succession Program - Lesson 01' and has a video thumbnail showing a person on a stage. The second entry is titled 'Identifying High Potentials' and has a video thumbnail showing a man speaking. Each entry includes a title, a brief description, a status tag (Private or Published), and metadata such as 'Owner' or 'Co-Publisher', 'Updated' time, and engagement metrics like hearts, play counts, and comments.

- o Click on the thumbnail or title of the desired media, then choose Edit from the

ACTIONS drop down menu.

From My Channels / Media Gallery page

1. Access [My Channels/Media Gallery](#).
2. Click on a channel thumbnail to open a <channel/Media Gallery_name> page.
3. Click on the Media tab.
4. Click the three dots on the lower right side of a media item and click on the Edit (pencil) button.

The Edit Media Page displays. Following is a portion of an Edit Media Page.

 The editing tabs that are displayed depend on your MediaSpace/KAF admin configuration.
