

Refresh My Media in Brightspace

Last Modified on 02/25/2025 2:45 pm IST

 This article is designated for all users.

About

If you don't see a recently added media item, or if a media item appears in search results but not in your My Media page, it might be due to caching. Simply use the Refresh option to update your My Media page and display the most recent entries.

To refresh My Media

In the upper right corner of the **My Media** page, click the refresh  icon.

The screenshot shows the 'My Media' page interface. At the top right, there are three buttons: 'My recycle bin', 'My Analytics', and a refresh icon. A red arrow points to the refresh icon, which is enclosed in a red box. Below the buttons is a search bar labeled 'Search My Media' and a filter icon. Further down, there are navigation options: 'Filters >', 'Search In: All Fields', and 'Sort By: Creation Date - Descending'. On the right side of this section, there are icons for list view, grid view, and a '+ Create' button, followed by an 'ACTIONS' dropdown menu. The main content area shows a list of media items. The first item is a video thumbnail with a green background and a black frame, titled '122855804126_(Source)'. Below the thumbnail, it says 'Published' and 'Owner on September 27, 2023'. There are also icons for like, play, and comment.

Your My Media page is refreshed.
