

Create chapters and add slides in Brightspace

Last Modified on 05/14/2025 4:47 pm IDT

28 This article is designated for all users.

About

Chapters and slides enhance the viewer's experience by providing structured navigation and additional visual elements within videos. Chapters act as bookmarks, allowing users to easily navigate to specific sections or topics, while slides offer synchronized visuals that complement the main content. In this article, we'll walk you through how to create, edit, and utilize chapters and slides to optimize your video content and improve viewer engagement in Kaltura's video portal.

Viewers interact with the extended player and don't have access to the editing timeline. Within the player, viewers can navigate chapters and slides and search for text within them. For more information, check out our article Dual Screen.

i

The Chapters module must be enabled before using this feature.

A

In KAF instances that are set with remote storage configuration, slides on entries are stored and played from the remote storage.

Create chapters

1. Access the edit media page and click on the **Timeline** tab.

🔆 kaltura

The media's timeline displays.

2. Click the Create New Chapter icon.

The chapter settings display.

Chapter Thumbnail	Chapter Information		
🎽 Auto	Enter Chapter Title	0:03.20	Save
Lupload	Enter Chapter Description	Enter comma separated Search Tags	View in Player Delete Chapter

3. Move the cue point to the desired position of the first chapter.
