

## Entry level analytics in Brightspace (legacy)

Last Modified on 05/05/2026 9:23 am IDT

 This article is designated for all users.

### About

The entry level analytics dashboard helps you track how users engage with your content, where they watch it from, and which devices they use. You can explore and compare engagement over different time periods and filter by location, category, and more. To learn more see [Working with the Entry Level Analytics Dashboard](#).

You may lose some functionality if your display screen is under a certain width or when in mobile view.

To learn more about Kaltura analytics terms and definitions, please refer to [Kaltura Analytics Terminology](#).

### How player impressions lead to engagement

## Engagement funnel

The engagement funnel shows the viewer journey, from discovery to viewing the entire video. The following metrics are shown in the funnel:

- Player impressions
- Plays
- Plays that reach [x]% play through - this can be selected by the user.

## Top countries

The **Top Countries** section ranks the geographical distribution by plays. The heatmap shows the countries, the darker the shade, the more plays for that country. The table ranks the countries by plays and also shows plays distribution compared to total number of plays.

You can drill down to region by selecting a country on the map or from the table. Select a region to drill down to cities.

## Devices overview

The **Devices Overview** section displays the distribution of devices usage by plays. You can see on which device viewers watched the entry.

## Top domains

The top domains are ordered by domains that had the most number of plays in the selected time frame. For each domain the following metrics are available:

- Domain name
- Plays
- Plays distribution - Number of plays divided by the total number of plays in the selected timeframe.
- Player impressions
- Player impression ratio - Number of plays divided by number of impressions.
- Minutes viewed

- Average completion rate - Average percentage of completion, across all plays.
