

How to read search results in Sakai

Last Modified on 06/13/2025 3:27 pm IDT

 This article is designated for all users.

About

The search feature in My Media and Media Gallery helps you quickly find media by highlighting matching keywords in titles, descriptions, and other metadata. You can also refine your results with filters and sorting options. In this article, we'll cover how search results are organized and how to use these tools to find exactly what you need.

Search results

When using the search in each page, the media results are displayed as follows:

<input type="checkbox"/>		Interactive Video Quiz Gradebook in Blackboard This video describes how to create an assignment that uses Kaltura's Interactive Video Quiz's feature Keyword found in: 3 Tags 1 Caption Show More	  
<input type="checkbox"/>		How to Create a Custom Metadata Schema In this video, I will demonstrate how to Create a Custom Metadata Schema to your MediaSpace or KAF instance. Keyword found in: 2 Tags 4 Captions Show More	  
<input type="checkbox"/>		Hello world This is a description. Show More	  
<input type="checkbox"/>		Kaltura Training Services Overview This is a description. Show More	  

The title and description of the media are displayed next to the thumbnail. If the search keywords are found in either the Title or the Description, the keywords (partial or exact) are displayed highlighted in yellow.

On the thumbnail, a small icon indicates what type of media it is. If no icon is present, it's a video.

The time and date is displayed for Live, VOD, Kaltura Meetings, Simulive, and Webcast entries. The "Live" and "Schedule" indicators are displayed per the set scheduled time.

Clicking the media title or thumbnail redirects you to the media page.

Keyword found in:

If keywords are found in metadata fields other than Title or Description, they are displayed in the "Keyword found in:" section. Each metadata type found is clickable, for example, clicking the '2 Chapters' metadata button will display up to 5 chapters where the keywords are found:

A second click closes the displayed chapters.

When the metadata type is time based, a number is displayed on the left, indicating the location of the keyword in the media's timeline. Clicking the time indicator takes you to the video's page, where the video starts playing from the time indicated.

Show more

Click "Show More" to open all types of metadata and display 5 results of each metadata type.

Available metadata fields:

- **Tags** - Initial click displays 7 results.
- **Details** - Custom fields other than the basic metadata. The initial click displays 10 results.
- **Quiz** - Results from quiz Questions and Answers.
- **Chapters, Slides, Comments, Captions**

Clicking “Show More” also presents additional information below the video: Owner, Creation date, Published categories, Like, Views, and Comments.

Click “Show Less” to collapse the results.

New video technology that reveals an object's hidden properties | Abe Davis

Subtle motion happens around us all the time, including tiny vibrations caused by sound. New technology shows that we can pick up on these vibrations and actually re-create sound and conversations just from a video of a seemingly still object. But n...

Keyword found in:  17 Captions

-  00:17 -  I walk across the stage or
-  00:46 - on the right you see video of a sleeping infant but  I didn't tell you that
-  01:02 - But there's actually a lot of subtle motion going on here and  you were to
-  01:06 - touch the wrist on the left you would feel a pulse and  you were to hold the infant
-  01:45 - And so  we use their software on the left video.

[Show All](#) [Show Less](#)

If more than five keywords are found in any of the metadata types, the “Show all” link is displayed. This scenario may happen when searching for a word that re-appears many times in a captions file. “Show All” displays all the results found for this entry.

- Captions
- Polls
- Quiz
- Comments

Filter by

You can enhance your search results by using filters. The following displays the basic filters available.

The screenshot shows the 'My Media' interface with a search bar and a 'Filters' button. Below the search bar, there are several filter categories with checkboxes:

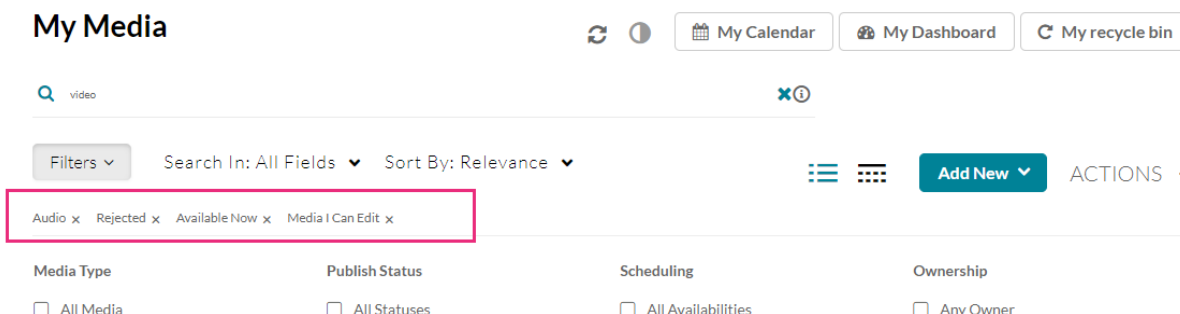

- Media Type:** All Media, Video, Quiz, Audio, Image, Webcasting Events, Room (checked), Powtoon.
- Publish Status:** All Statuses (checked), Private, Published, Pending, Rejected, Unlisted.
- Webcasts:** All Webcasts (checked), Live Webcasts, Upcoming Webcasts, Recorded Webcasts, Archived Webcasts.
- Ownership:** Any Owner (checked), Media I Own, Media My Group Owns, Media I Can Edit, Media I Can View, Media I Can Publish.
- Captions:** All (checked), Available, Not Available.
- Duration:** Any Duration (checked), 00:00-10:00 min, 10:00-30:00 min, 30:00-60:00 min, Custom.

At the bottom right, there are buttons for 'Clear All' and 'More Filters >'.

Click the “More Filters” arrows to navigate the filters.

Faceted search– allows you to apply multiple values for filtering. For example, you can search through all video files and all audio files at the same time.

After adding a filter, your selection of filters is displayed below the Filters button. Use the ‘x’ button to remove specific filters or use the ‘Clear All’ button on the bottom right.

The screenshot shows the 'My Media' interface with a search bar containing the word 'video'. Below the search bar, there are several filter categories with checkboxes:

- Media Type:** All Media.
- Publish Status:** All Statuses.
- Scheduling:** All Availabilities.
- Ownership:** Any Owner.

Below the filter categories, there is a row of filters with 'x' buttons to remove them: Audio x, Rejected x, Available Now x, Media I Can Edit x.

Basic filters availability depends on the page in which you are searching. Advanced filters may be enabled by your admin.

The Media Search Filters List

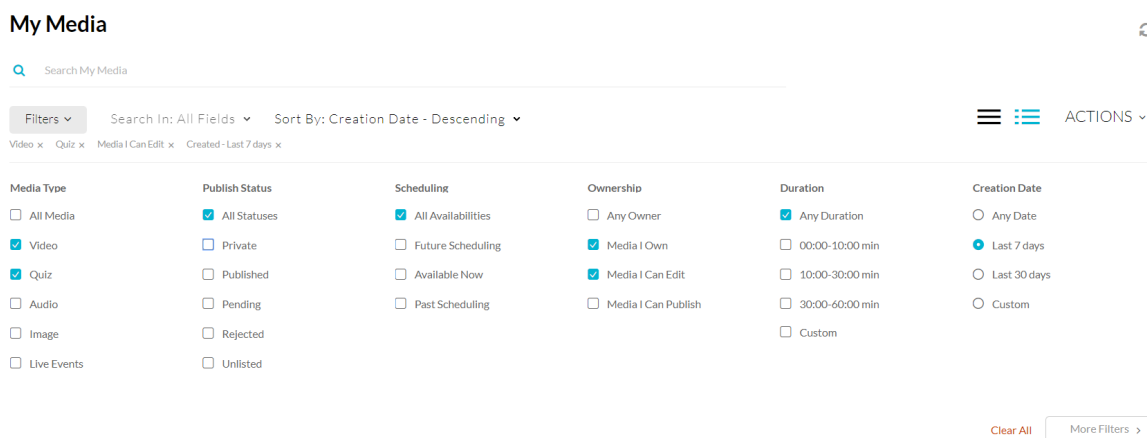

General Filters

- Media type – All Media/Video/Quiz/Audio/Draft/Image/Live Events/Room/Interactive video
- Publish status - All statuses / Private / Published / Pending / Rejected
- Scheduling – All Availabilities/Future Scheduling/Available Now/Past Scheduling
- Ownership – Any Owner/I Own/Media I Can Edit/Media I Can Publish
- Captions - All / Available / Not available
- Duration – Any/00:00-10:00 min/10:00-30:00 min/30:00-60:00 min/Custom
- Creation Date – Any/Last 7 days/Last 30 days/Custom
- Last Update Date – Any/Last 7 days/Last 30 days/Custom

Keywords & filters logic

Each filter is added as an AND to other filters, however, each value within each filter is added as an OR to same filters values.

For example, when choosing the following filters:

My Media

Search My Media

Filters Search In: All Fields Sort By: Creation Date - Descending

Video x Quiz x Media I Can Edit x Created - Last 7 days x

Media Type	Publish Status	Scheduling	Ownership	Duration	Creation Date
<input type="checkbox"/> All Media	<input checked="" type="checkbox"/> All Statuses	<input checked="" type="checkbox"/> All Availabilities	<input type="checkbox"/> Any Owner	<input checked="" type="checkbox"/> Any Duration	<input type="radio"/> Any Date
<input checked="" type="checkbox"/> Video	<input type="checkbox"/> Private	<input type="checkbox"/> Future Scheduling	<input checked="" type="checkbox"/> Media I Own	<input type="checkbox"/> 00:00-10:00 min	<input checked="" type="radio"/> Last 7 days
<input checked="" type="checkbox"/> Quiz	<input type="checkbox"/> Published	<input type="checkbox"/> Available Now	<input checked="" type="checkbox"/> Media I Can Edit	<input type="checkbox"/> 10:00-30:00 min	<input type="radio"/> Last 30 days
<input type="checkbox"/> Audio	<input type="checkbox"/> Pending	<input type="checkbox"/> Past Scheduling	<input type="checkbox"/> Media I Can Publish	<input type="checkbox"/> 30:00-60:00 min	<input type="radio"/> Custom
<input type="checkbox"/> Image	<input type="checkbox"/> Rejected			<input type="checkbox"/> Custom	
<input type="checkbox"/> Live Events	<input type="checkbox"/> Unlisted				

Clear All More Filters >

The logic followed is:

(Type = Video OR Quiz) AND (owner = Media I Own OR Media I Can Edit) AND (Created - Last 7 days)

When using keywords, results are returned based on scoring.

Searching for *Keyword1 Keyword2* will first show results that contain both keywords, and lower score results containing only one of the keywords, or partial results, lower on the results lists.

When adding keywords, the filter logic will use "(Keywords) AND (filters)".

Advanced search information can be found in the [Advanced Search article](#).
