Jive Extension July 2014 Release Notes - v1.1

Version: 1.1

Date Released: July, 2014

Supported Jive versions: N/A

KAF version: 5.9.55

Overview

These release notes pertain to the Kaltura Video Plugin for Jive, V1.1, released July, 2014, KAF version 5.9.55

General Plugin Info

Kaltura Plugin supports Jive versions 6 and 7 (and all its minor versions).

It supports Jive on-premise deployment as well as hosted deployment (a single Jive instance hosted and managed on Jive cloud). It doesn't support Jive SaaS (multi-tenant environment).

It is supported on Jive web application, visiable and operational on desktop and through mobile browser. It is not supported in Jive native app.

Kaltura modules that are available in this plugin are 'my media' for Jive user, 'video gallery' for Jive spaces and embedding a video inside blogs, discussions and documents.

Known Issues

ID#	Summary	Planned Fix date
KMS-3236	The player's skin doesn't change on Browse Search and Embed preview screen	Uploaded to Production on Aug 10

ID#	Summary	Planned Fix date
