Video Portal & LMS Video release notes - v5.166.x December 8, 2025

Version: 5.166x

Date Released: December 8, 2025

What's new

Responsive embed code

Responsive embedding is now available for sites using the Theming design system.

Once the **embedResponsiveness** toggle is enabled in the Embed module, users will see a *Responsive* choice in the 'Max embed size' menu. Selecting it generates an embed code that scales to the width of its container, making it easier to embed videos in responsive layouts. (*KMS-31347*)
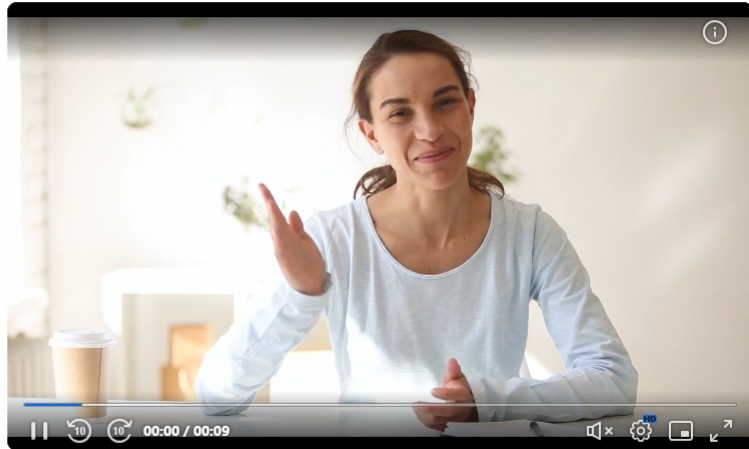

Embed

For more information, check out our article Share and embed media in Video Portal.

Improved moderator settings for Chat and Rooms

We've made it easier to manage Chat moderator and Room moderator settings across all room types. Permissions haven't changed - the settings are simply more consistent and easier to find.

For both single-entry rooms and channel rooms, moderator settings now appear in dedicated tabs on the entry or channel edit page. This gives room owners a clear place to review and update who can moderate chat activity, manage room content, and use backchannel tools. (*KMS-32612*)

For more information, check out our articles:

- Assign and manage moderators for Kaltura Rooms
- Create a Kaltura Room within a channel

Folders - Now fully self-serve

Video Portal and LMS Video admins can now enable the Folders feature directly in their Configuration Management console without need for assistance from a Kaltura representative. This makes activation quicker and gives admins more flexibility in managing folders in their site. (*KMS-32560*)

For information on Folders, check out our articles:

- Create and manage folders in Video Portal
- Create and manage folders in My Media in Canvas

Resolved issues

ID #	Description	Related app
SUP-50711	Issue with wrong html tags used in the text only component of the template pages was fixed.	KMS (DS)
SUP-50653	Enhance the admin text in the *AddToPlaylist* module to explain the fields better	KAF/KMS
SUP-50648	Fixed the issue where empty emailFrom in the EmailService Module for Kaltura Messaging Service caused error saving the module.	KMS/KAF (DS)
SUP-50575	Filter from the All Channel and My Channels pages are now removed per available channel types.	KMS (DS)
SUP-50500	Fixed the issue where channels associated with a Gallery produced error when subscribing.	KMS (DS)
SUP-50179	[Canvas] Media embedded In Context now can be added to a Media Gallery's playlist successfully.	KAF (v2ui)
SUP-50137	[D2L] Resolved the 400 error caused by cookies with header size that exceeds the Apache limit.	KAF (v2ui)
SUP-50096	[Canvas] Search bar in BSE's 'add from multiple media galleries' is now working as expected.	KAF (v2ui)
SUP-49877	[Canvas] [NEW ROOM] The issue where students who opened the media gallery first were being added as chat moderators was resolved.	KAF (DS, v2ui)
SUP-48606	[Canvas] BSE's preview player (thumbnail player) now show V7 player as expected	KAF (DS, v2ui)

Resolved accessibility issues

ID #	Description	Related app
ADA-3088	Added empty ALT (alt="") to thumbnail images in the template page playlists and media display on channel pages	KMS/KAF (DS)
ADA-2982	Set the appropriate Role for the "Appears in" indication on the media view page	KMS/KAF (DS)

Video Portal & LMS Video release notes – v5.165.x November 24, 2025

Version: 5.165.x

Date Released: November 24, 2025

What's new?

Video Portal / LMS Video Theming updates

Watch List edit

The **Watch List** edit page has been upgraded to the new Theming-based experience, aligned with the new edit playlist flow. In the updated page, users can remove items from their Watch List.

The page focuses on easy item removal, since the Watch List is automatically created and doesn't support custom naming, descriptions, or ordering. (KMS-32527)

For more information, visit our article Remove entries from your Watch List.

Kaltura Editor page

As part of the ongoing upgrade to the new Video Portal and LMS Video experience, the Kaltura Editor page has also been migrated. The Editor's functionality and interface remain the same for now, but its surrounding page layout now matches the updated experience. (KMS-32434)

To learn more about Kaltura's video editing tools, visit our article Introduction to Kaltura's video editing tools.

'My Agenda' tab on profile page (RSVP)

A new **My agenda** tab now appears on each user's profile page. It automatically lists all sessions the user has RSVPed to, with upcoming sessions shown first for quick access. This tab is available when the RSVP module is enabled. (KMS-32207)

For more information, visit our article My Profile page.

Admin setting to enable channel-based Kaltura Rooms

We've added a new setting for admins that lets them decide whether channels should have a dedicated Kaltura Room and whether those rooms are enabled by default. The new **channelRooms** field can be enabled under the Newrow module.

We also updated the text of the **allowedUsersOrRoles** field for better clarity. (KMS-32206)

For more information, visit our article Newrow module.

Search results sorting update

When users search globally or within My Media (in the new Theming-based experience), results will now automatically be sorted by relevance. In the future, we'll also give newer content more priority in search results. (KMS-31901)

To learn more about Kaltura's global search functionality, visit our article Global search in Video Portal.

Redirected pages and page types

Admins can now use the Alias Redirect module to redirect users from specific pages or entire page types, sending them to any internal or external destination. This helps admins simplify navigation, support content transitions, and create shorter, cleaner URLs without any code changes. (KMS-32490)

For more information, visit our article Aliasredirect module.

Resolved issues

ID #	Description	Related app
SUP-50167	Enhanced the thumbnails quality in the theming based All Channels page	KMS (DS)
SUP-49426	Fixed the issue where Partner level Moderation affected the application's header Logo updates	KAF/KMS
SUP-49252	Language Exceptions support for HTML was added to the Theming based Disclaimer and other locations.	KMS/KAF (DS)
SUP-48606	The issue where the BSE browsing section while text search preview player shows V2 player instead of V7 player was resolved.	KAF (v2ui)
SUP-48449	Fixed the issue where the preview V7 player in the Media Gallery's Pending tab lacks a Pause button, preventing users from pausing videos.	KMS/KAF (v2ui)

Resolved accessibility issues

ID #	Description	Related app
ADA-3001	Set the correct aria-controls reference for the Show more/Show less button on the global search page	KMS (v2ui)
ADA-2999	The media creator name/link on the playlist page of type list is now distinguishable from the surrounding text using an underline.	KMS (v2ui)
ADA-2997	The status message "There are no more media items." at the end of the playlist page of type list is now announced correctly by screen reader	KMS (v2ui)
ADA-2991	Focus no longer moves to the Hidden element after 'Details' tab in the media page.	KMS/KAF (v2ui)
ADA-2980	Fixed the use of menuItem role on the media page in video search results types.	KMS/KAF (v2ui)
ADA-2358	My Media - The actions menu is now announcing all list item accordingly.	KMS/KAF (v2ui)
ADA-1078	Text editor modal box focus is now staying in the modal.	KMS/KAF (v2ui)
ADA-862	This addresses accessibility issues on filters in the My Media, My History, and My Channels pages when zoomed to 400%.	KMS/KAF (v2ui)

Video Portal & LMS Video release notes - v5.164.x November 10, 2025
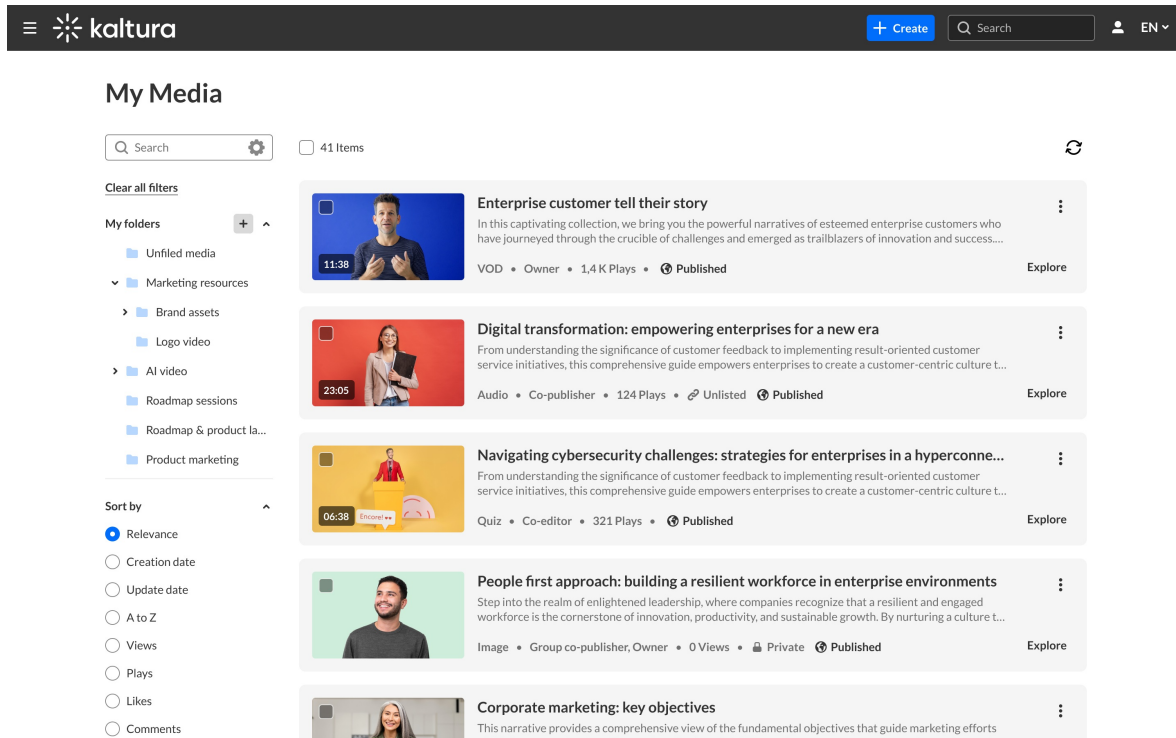

Version: 5.164.x

Date Released: November 10, 2025

What's new?

Folders in My Media (Video Portal & LMS Video)

Folders are now available in your personal My Media library across both the Video Portal and LMS Video! You can create folders and subfolders, organize your videos into a tidy hierarchy, and keep everything easy to manage and completely private to you.

Browse and embed media from your folders

When you embed media using Kaltura's Browse, Search, and Embed (BSE) tool, you can filter and choose items directly from your folders, making it fast and easy to locate and embed the right content.
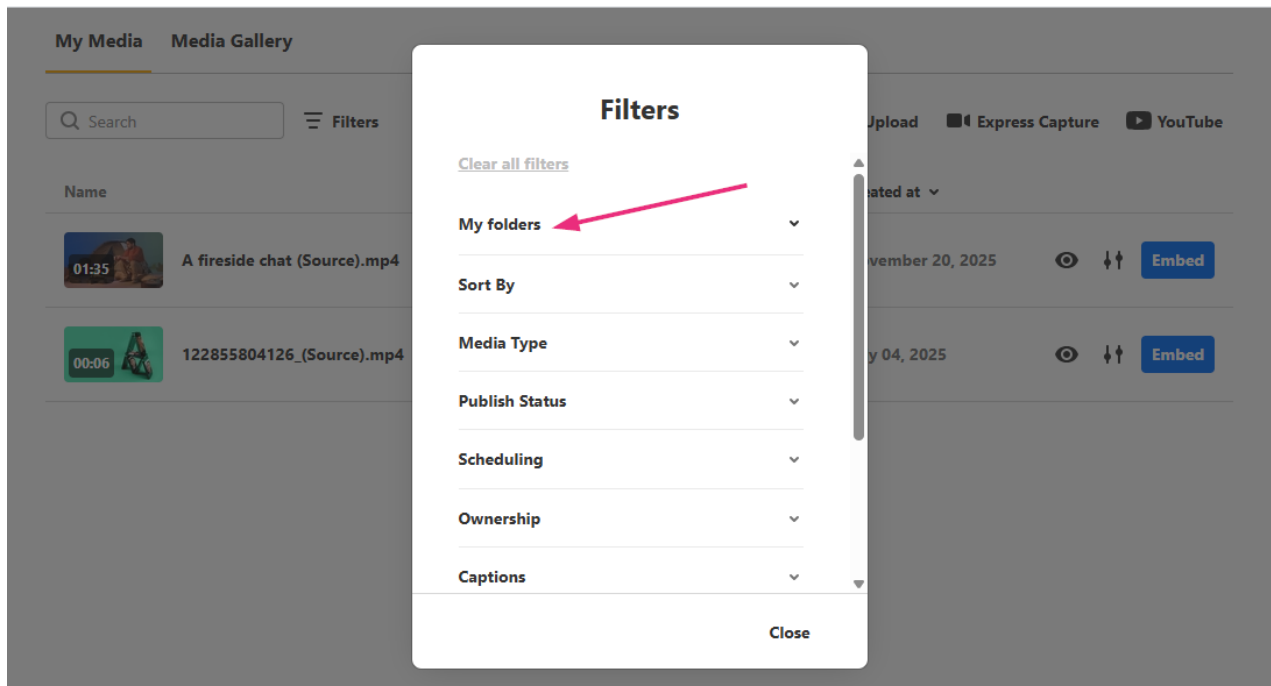

Use the Folders module in your Configuration Management console to manage folder settings (If you see the module but can't enable it, reach out to your Kaltura representative to switch it on for your account.)

For more details, see Create and manage folders in Video Portal and Embed Kaltura media in your LMS.

Invite to media (Video Portal & LMS Video)

We're introducing a new **invitation feature** that lets content owners generate **one-time access links** to specific media pages with no full site login required!

This is especially useful for inviting **external speakers or guests** to a Kaltura Room session or live event without granting them access to the rest of the portal or LMS. It also supports **internal use cases**, such as promoting existing users to speakers on the fly.
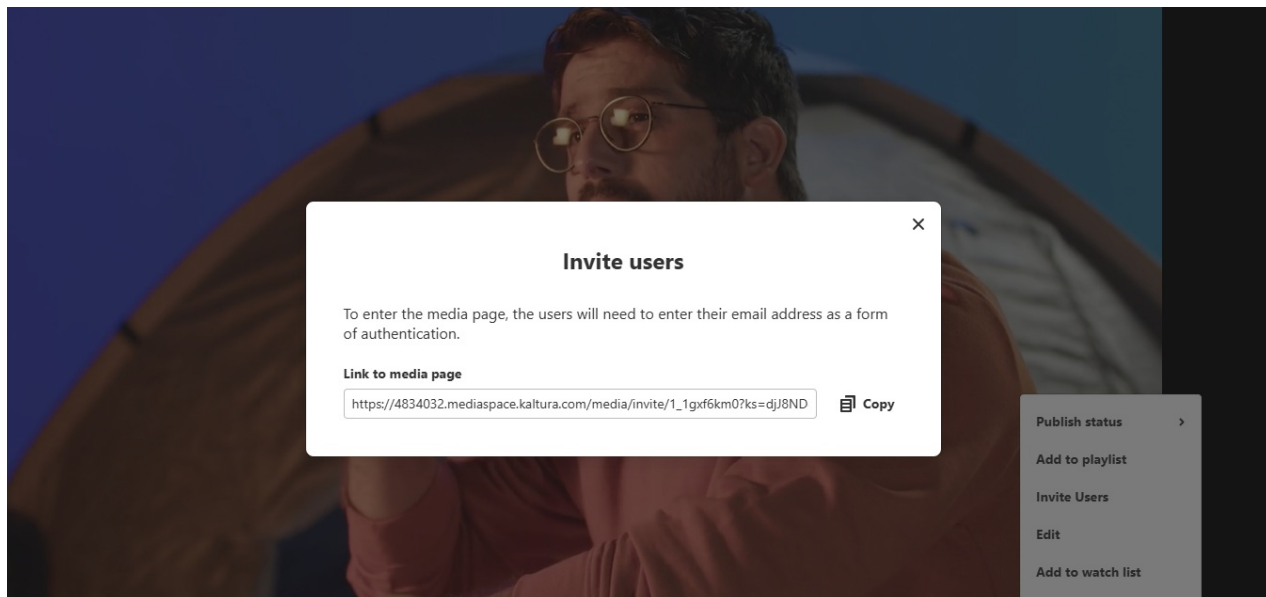

Use the InviteToMedia module in the Configuration Management console to enable and manage this feature. Once it's turned on, you can start generating one-time access links right away to simplify guest and speaker access.

> ℹ **Note for LMS/SSO Users:**
>
> If you're using this feature with an LMS integration or a KMS with SSO, be sure to check our guidelines on how to create new users and which domains to block for a smooth experience using the RestrictNewUserDomains field.

For more details, see Send an invitation link to join your Kaltura Room.

Admin access by IP restriction

We've added a new option to **restrict admin access to Kaltura Video Portal (KMS)** by IP rang, without affecting public site access. Admins can now enable '**Block KMS Admin Only**' under the **IPRestriction module** to allow only specific IPs or ranges to access the `/admin` area, while keeping the rest of the site publicly available.

This update improves security and compliance, replacing the previous solution with a built-in solution. (SUP-50420)

Video Portal & LMS Video release notes – v5.163.x October 27, 2025

Version: 5.163.x

Date Released: October 27, 2025

What's new?

Revamped playlist editing experience in Video Portal

We've redesigned the **edit playlist page** in Video Portal with a modern, user-friendly interface aligned with Kaltura's Theming design system.

Users can now easily reorder items via drag-and-drop, and add the same media multiple times to a playlist if desired. The experience adapts based on playlist type: personal playlists pull from My Media, while channel playlists pull from content within that channel.

Admins can enable the new experience from the Theming module using the **editPlaylist** feature. (KMS-31434)

To learn more, check out our article Edit a playlist in Video Portal.

Updated translations for LMS Video

The LMS Video language pack has been refreshed to include all new interface text added since the previous update. (KMS-32306)

Simplified moderation for Kaltura Room

You no longer need to make someone a co-editor to give them moderation rights. A new **Room** tab is now available on the edit media page, allowing you to grant **moderation access only** without giving full editing permissions. (KMS-30999)

> ⓘ Room moderators can join and manage the room but **cannot edit the entry itself**.

To learn more, check out our article Assign and manage room moderators.

Improved admin texts

We've updated the wording in the **kalturaAi** and **advancedAuth** modules in the Configuration Management console to make the descriptions and field labels clearer and easier to understand. (KMS-32199)

Video Portal & LMS Video release notes - v5.162.x October 5, 2025

Version: 5.162.x

Date Released: October 5, 2025

What's new?

⬚ Notification for unregistered login attempts

- Users who try to log in with an unregistered email, either via Magic Link or username/password, will now receive an email notification letting them know that the address isn't associated with the event. This helps guests quickly identify if they're using the wrong email address when trying to access an event. (KMS-31646)
- **Admin setup**: Admins can choose the email template from the Auth module using the `faildLoginEmailTemplate` field.

⬚ Tag search redirect

- Clicking a tag anywhere in the site will now open results in the new Theming design system search page, providing a consistent and modern experience. (KMS-31921)
- **Admin setup**: Admins can enable this behavior from the Theming module using the new `TagSearch` feature.

Video Portal & LMS Video release notes - v5.160.x September 1, 2025

Version: 5.160.x

Date Released: September 1, 2025

What's new?

Embed Kaltura Rooms anywhere in the LMS

Bring live sessions closer to your students with flexible room access. Admins and instructors can now make Kaltura Rooms available in any LMS area that supports rich text – not just the course Media Gallery. Whether it's a page, announcement, group space, or even a course calendar event, students get one-click access to join live sessions exactly where they interact with their course content.

Key benefits

- **Reach students where they are** – Provide access to live sessions in the spots students check most.
- **One-click access** – No extra links or logins; secure LMS authentication handles it.
- **Teach once, share everywhere** – Use a single room across multiple courses or sections; recordings automatically appear in every connected course gallery.
- **Add to the calendar** – Include room access in course calendar events so students never miss a session (note: event times are not auto-synced).

How it works

Use the Browse, Search, and Embed (BSE) tool in Kaltura LMS Video (KAF) to select your room and add it where it's most useful. Students click Join now to open the session in a dedicated room page, with no LMS distractions.

Learn more in our Knowledge Center article Embed Kaltura Rooms in your LMS via BSE.

Note: The feature is not available in the Moodle LMS, due to missing LTI capability in Moodle (CIM)

Resolved issues

Video Portal & LMS Video release notes - v5.159.x August 18, 2025

Version: 5.159.x

Date Released: August 18, 2025

What's new?

Responsive media embedding in all LMSs

We've finished enhancing **BSE** embeds across all LMS Video integrations to better adapt to different layouts and devices. Embedded media will now maintain its aspect

ratio and adjust its size based on the available width and height provided by the LMS and the viewer's screen size - ensuring a cleaner, more consistent fit. *(KMS-31630)*

If Support has previously helped you turn off the iframe height adjustment - typically in special cases such as **PS modules** or other custom embed scenarios - you can now re-enable it by using the *adjustLmsIframeHeight* toggle in the **browseandembed** module.

This change is not relevant to all clients. The toggle will be removed by the end of the year, at which point the setting will default to "Yes" for all accounts.

Resolved issues

ID #	Description	Related app
SUP-49386	Recycle bin message now supports language exception.	KMS/KAF
SUP-49186	The issue where the top bar in v7 player prevented opening Video Portal dropdown header (Theming) was resolved.	KMS

Video Portal & LMS Video release notes - v5.158.x August 4, 2025

Version: 5.158.x

Date Released: August 4, 2025

What's new?

Revamped My Playlists page

We've launched a completely redesigned **My Playlists** page, making it easier than ever to find, organize, and manage your video playlists. The page features a clean grid layout with visual thumbnails, filtering by ownership and creation date, and quick actions like edit, share, and delete, available right on each playlist.

Creating a new playlist is now streamlined with a dedicated pop-up window that

![Kaltura logo]

supports rich descriptions. If you don't have any playlists yet, you'll see an empty state with a message and a button to help you create your first one.

To enable, simply toggle on the 'myplaylist' feature within the Theming module.

This update brings the page into alignment with our latest design system, ensuring a modern and intuitive experience. (KMS-31436)

Learn more in our article My Playlists page in video portal - Theming .

What's new?

Revamped Gallery page

The Gallery page has been fully redesigned for a clearer, more intuitive experience across tabs (Sessions, Media, Channels, About).

Highlights

- Streamlined layout and navigation
- Breadcrumbs for orientation
- Updated action menus for contributors and owners
- Smart empty states with clear next steps
- Full interaction tracking for analytics

To enable, toggle on the 'Gallerypage' feature within the Theming module.
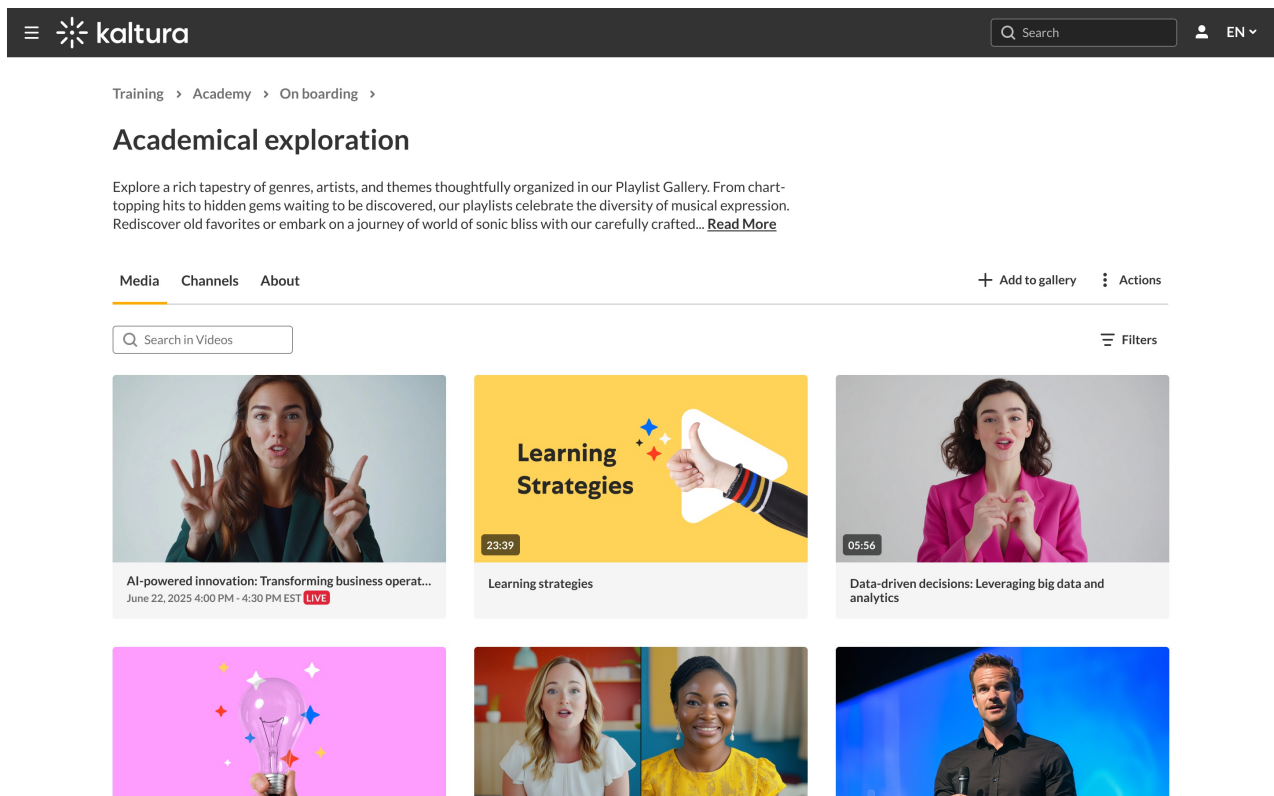

Mandatory captions

A new opt-in feature allows clients to require captions before publishing media. This applies to content published in Channels, Galleries, Course Media Galleries, and embedded via BSE.

The feature supports compliance with accessibility regulations in the EU and US and is configurable via the *Captions module*.

Video Portal & LMS Video release notes - v5.156.x July 7, 2025

What's new?

More updates in the new Video Portal and LMS Video

We're continuing to expand and enhance the new Video Portal and LMS Video experiences. These latest updates bring more familiar capabilities into the new environment, unifying workflows and improving usability across the platform.

Create playlists and town halls faster and easier

You can now create a new playlist or town hall without leaving your current page, saving you clicks and time. Simply click **Create** > **Playlist** or **Town hall**, and a pop-up window appears instantly, so you can set the name, mode, and availability right away.

This streamlined workflow keeps you focused and makes organizing your content and town halls smoother and faster than ever.

Video Portal & LMS Video release notes - v5.155.x June 23, 2025

Version: 5.155.x

Date Released: June 23, 2025
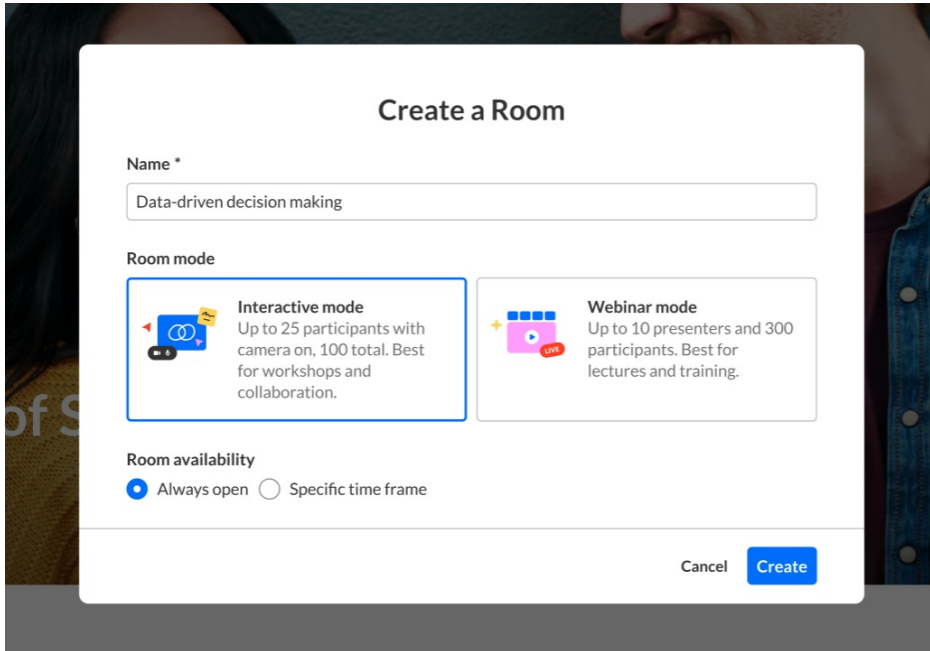

What's new?

More updates in the new Video Portal and LMS Video

We're continuing to expand and enhance the new Video Portal and LMS Video experiences. These latest updates bring more familiar capabilities into the new environment, unifying workflows and improving usability across the platform.

Create a Kaltura Room faster and easier

Creating a new Room no longer redirects you to a separate page. Now, when you click **Create** > **Meeting Room**, a pop-up window opens directly in your current view letting you set the room name, mode, and availability right away.

Import from YouTube simplified

Adding a YouTube video is now quicker and easier. Instead of being taken to a new page, you can paste the video URL into a pop-up window and import it instantly, without leaving where you are.

Video Portal & LMS Video release notes - v5.154.x June 10, 2025

Version: 5.154.x

Date Released: June 10, 2025
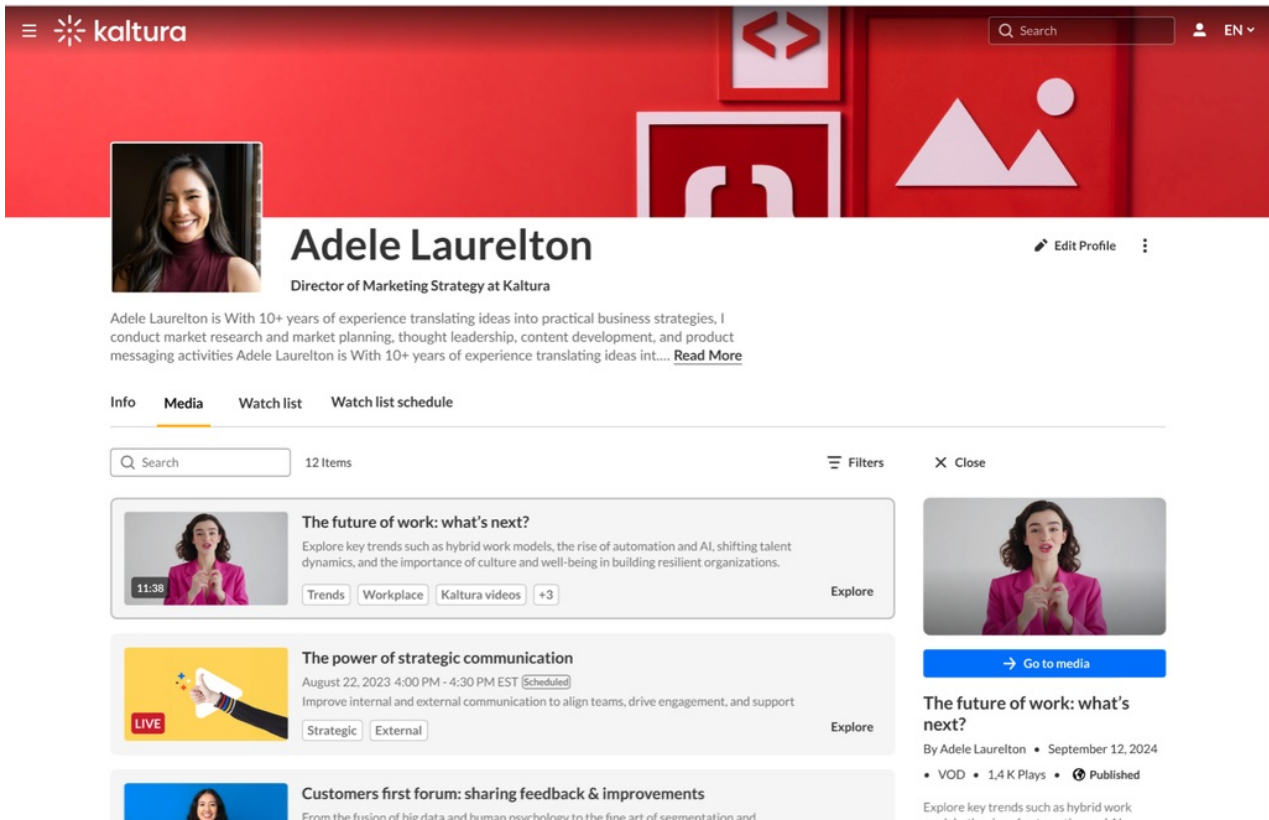

What's new?

More updates in the new Video Portal and LMS Video

We're continuing to expand and enhance the new Video Portal and LMS Video experiences. These latest updates bring more familiar capabilities into the new environment, unifying workflows and improving usability across the platform.

See all media by your favorite creators

A new Media tab has been added to profile pages, allowing users to view all videos and content created by the profile owner, based on entitlements. This replaces the old search results page shown when clicking a "Created by" link, offering a more intuitive and consistent way to explore user-owned content across the platform. See My Profile

page for information.

Redesigned Video Quiz creation page

The video quiz creation flow has been refreshed to match the new experience. When users click "Create Quiz" from the Create menu (in the Video Portal) or from My Media (in LMS Video), they'll enter a new, streamlined interface designed to align with the updated look and feel across the platform. See Set up a video quiz - Theming for information

Add to Channel – faster ways to contribute content

Users can now upload multiple videos, record with the Express Capture recorder, or add a YouTube video - directly from the channel page. These enhancements are available automatically in the new Video Portal and LMS Video for those using the updated channel experience. See Add media to a channel - Theming for information.

Video Portal & LMS Video release notes - v5.153.x May 27, 2025

Version: 5.153.x

Date Released: May 27, 2025

What's new?

▦Advancing the new LMS Video and Video Portal experiences

We're continuing to revamp both LMS Video and the Video Portal, built with the

Theming Design System. Here are the latest improvements:

- **Add to Channel/Media Gallery – now available in the new LMS Video and Video Portal** Channel managers can now add content directly from the channel- either from their existing media or by uploading new videos. This brings the same familiar workflow from the pervious version to the revamped platform experience.
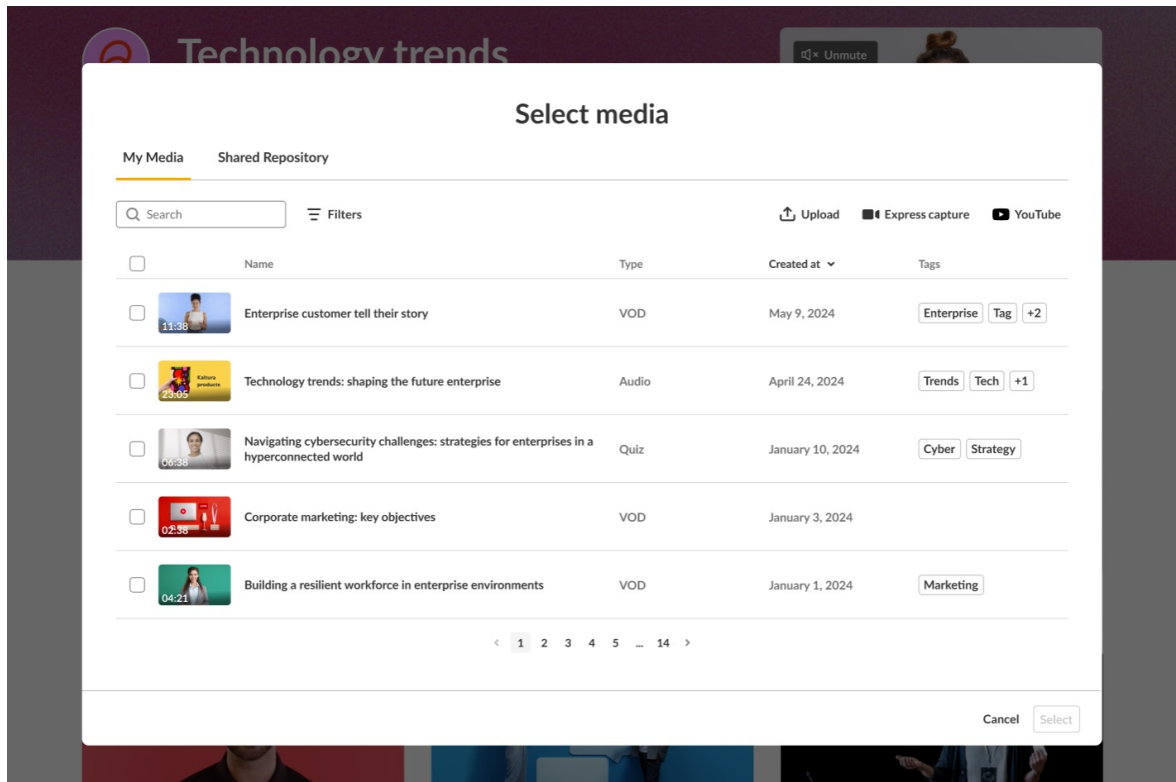

- **Browse, Search, and Embed – now with upload support in LMS Video**
  The new Browse, Search, and Embed experience in LMS Video is complete! This most recent update allows users to upload new videos directly from the BSE page - simplifying the embedding process, and bringing us to full feature parity with the previous version.
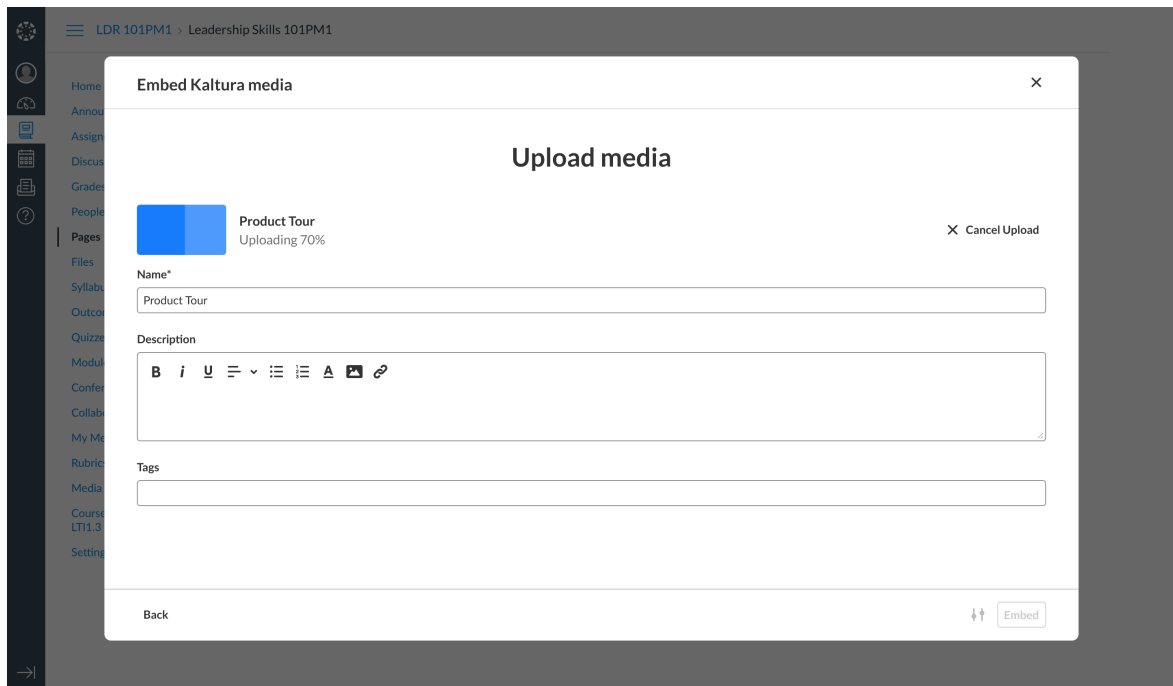

⬛ New access point for Interactive Video Paths (RAPT) analytics

The Interactive Video analytics dashboard is now directly accessible from the media page under the **three-dot menu** > **Analytics**. With this convenient access point, it's easier than ever to track viewer engagement, decision paths, and drop-off points for both linear and interactive video experiences. *(KMS-31260)*

Video Portal & LMS Video release notes - v5.152.x May 12, 2025

![Kaltura logo]

Version: 5.152.x

Date Released: May 12, 2025

What's new?

Browse, Search, and Embed (BSE) in LMS Video

- **Easily reuse videos across all your courses - Theming**

  Instructors often use the same videos across multiple courses. This capability is now supported in the Theming-based Browse, Search, and Embed experience. Instructors can quickly find and publish videos not only from their own media and the current course, but also <u>from any course media gallery they own</u>. This saves time, reduces duplicate uploads, and helps instructors get more value from every piece of content. (KMS-30662)
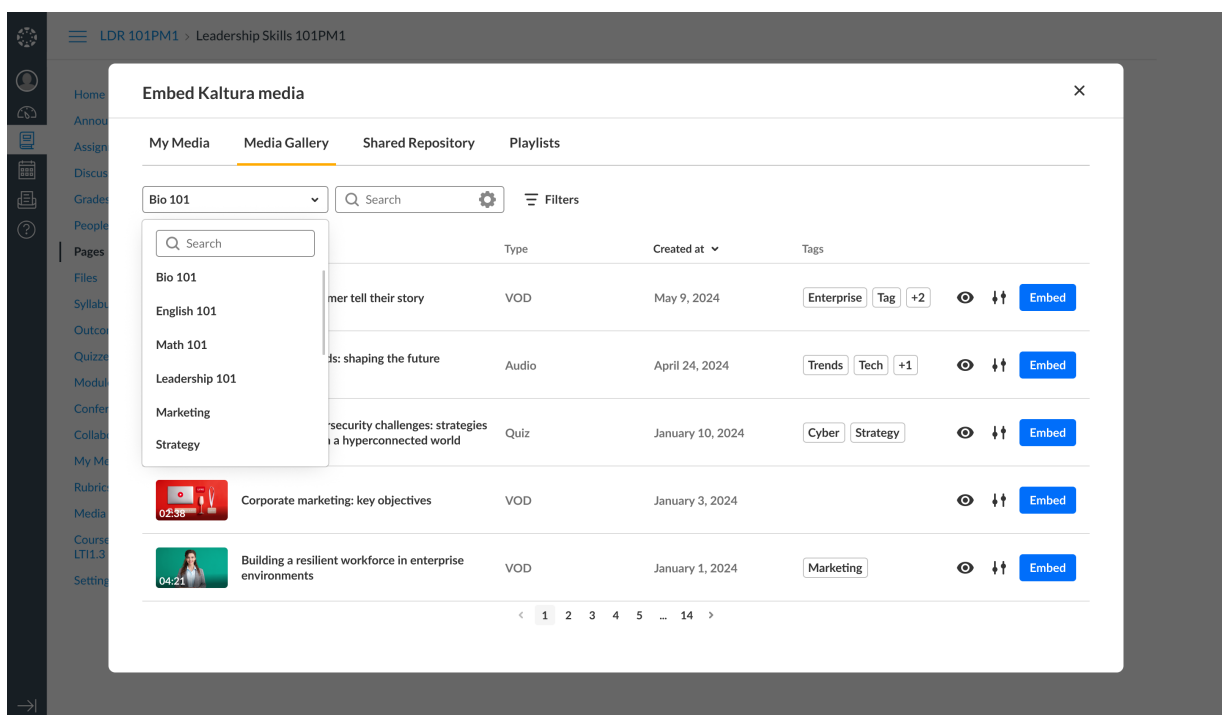

- **Make metadata mandatory** - **Theming**

  Previously, when users uploaded media through the **Add New** option in the BSE embed window, they could embed the content without completing metadata fields that were marked as required for publishing, such as tags, description, or custom metadata.

  Starting with this version, <u>embedding through BSE is now treated as a publishing action</u>. This means users must fill in all required metadata fields before they can

embed media. The **Save and Embed** button will remain disabled until all required information is provided.

This update applies to both **Theming** and **non-Theming** versions of BSE and ensures metadata requirements are consistently enforced across all upload flows.

Version: 5.151.x

Date Released: April 27, 2025

What's new?

Video Portal

Filter VOD entry analytics by playback context

You can now filter the entry (VOD) dashboard by **playback context** - the category or channel through which the media was accessed. This enhancement allows you to gain more granular insights into how your videos are being viewed within different course or group contexts. This feature respects user entitlements - users will only see categories they have access to.

> ℹ️ This feature is not available in KAF.

Video Portal & LMS Video release notes - v5.150.x April 7, 2025

Version: 5.150.x

Date Released: April 7, 2025

What's new?

A new way to Browse, search, and embed

We're happy to introduce a new and **revamped Browse, Search & Embed (BSE)** experience as part of our phased rollout of the new LMS Video. This updated version offers a modern design and a more consistent user experience, and makes it easier and faster for admins and students to embed media in their LMS.

Key improvements:

- **A fresh new design**: a cleaner, more modern look that feels simpler and more consistent across the platform.

- **Customizable columns**: Admins can now choose which fields appear in the BSE table (e.g., ID, Type, Tags, Plays, Views, Created At, and Updated At), offering greater flexibility.
- **Preview before you embed**: See what a video or audio file looks like before adding it to your LMS content.
- **Podcast support**: You can now embed audio files—including podcasts—directly from the BSE tool using Kaltura's updated audio player (v7). It's a great way to bring in more flexible, on-the-go learning options.

How to start using it:

You can enable the new BSE modal via the Theming module in your KAF Configuration Management console. Read more about the new BSE here.
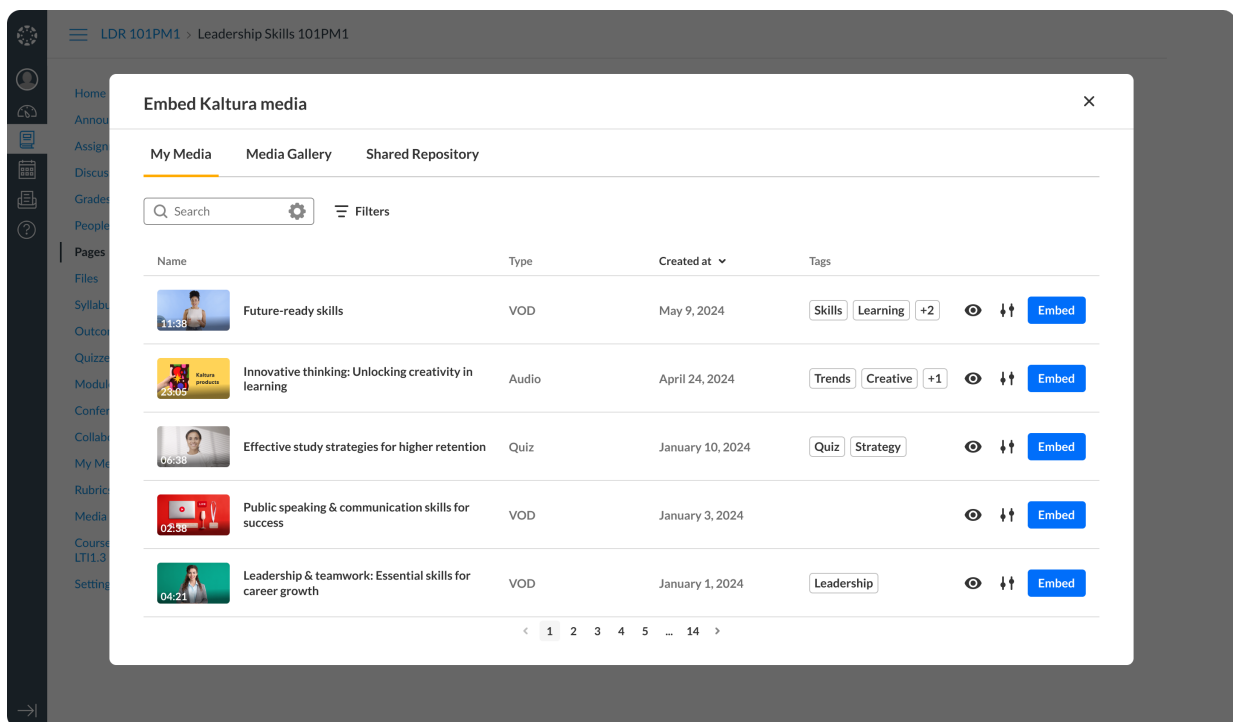

This is an early release, giving you a first look at the new BSE experience. More enhancements and capabilities are on the way - stay tuned!

Expect the following updates soon:

- **Embed from multiple courses**: Easily embed media from multiple courses.
- **Start time embed configuration:** Users will be able to set custom playback start time within the embed flow.
- **Quick creation tools:** Add media quickly from YouTube, upload, and Express Capture flows within the BSE tool.

Video Portal & LMS Video release notes – v5.149.x March 24, 2025

Version: 5.149.x

Date Released: March 24, 2025

What's new?

Enhanced calendar invites – more customization, easier management

Managing calendar invites is now easier and more customizable for all invitations to meetings or sessions in the Kaltura Rooms, webcasts, Simulive, and VOD with an upcoming schedule. These updates ensure attendees receive the right information with improved clarity around event details.

- **Edit invite title & location** – Admins can now update the title and location in calendar invites sent after registration to provide accurate details.
- **Send invites via email** – Users can have calendar invites sent directly to their email instead of downloading them manually. Admins can enable this feature in the Configuration Management console. (KMS-30854)
- **Customize invite text** – Admins can modify the text in calendar invites that users receive when adding scheduled sessions to their calendars. (KMS-31028)
- **New iCalendar module** – Admins can now manage all the 'Add to calendar' settings in one centralized place within the video portal Configuration Management console.

 For more information, check out the iCalendar module and the EmailTemplates module.

Video Portal & LMS Video release notes – v5.148.x March 10, 2025

Version: 5.148.x

Date Released: March 10, 2025

What's new?

- ## Seamless compatibility with Moodle 4.5

The updated Kaltura Moodle plugin now fully supports Moodle v4.5 (LTS), ensuring a smooth transition for institutions upgrading their LMS version. This update also maintains compatibility with Moodle 4.3 and 4.4.

New enhancements are available as part of this update:

More automated student activity tracking (ILMS-705)

- Instructors can now set a rule requiring students to submit an assignment before an activity is marked complete. Adding "Make a submission" as a requirement in Moodle's activity settings improves tracking accuracy and reduces manual effort. This eliminates the need for instructors to manually check submissions before marking activities as complete.

Set reminders for video-based tasks

Students and instructors can now schedule reminders in Timeline for Kaltura Video Assignments and Video Resources, helping them stay on top of deadlines, improving time management, and reducing missed submissions.

Quick access to My Media (ILMS-707)

Admins can now add **My Media** to the user menu, giving students and instructors a direct shortcut to their personal video libraries. This update simplifies navigation, making it faster and more convenient to find and manage media.
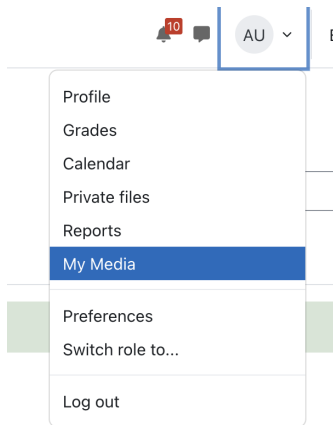

For more information on how to set this up, read here.

- ## Easier video labeling with search in Theming

Adding custom tags and labels to videos helps improve discoverability, making content easier to find and use across relevant contexts. As metadata lists grow, selecting the right labels can become time-consuming. To streamline this process, we added a **searchable dropdown** for *listType - Multi*, allowing faster and more efficient metadata selection, especially for organizations managing large video collections:
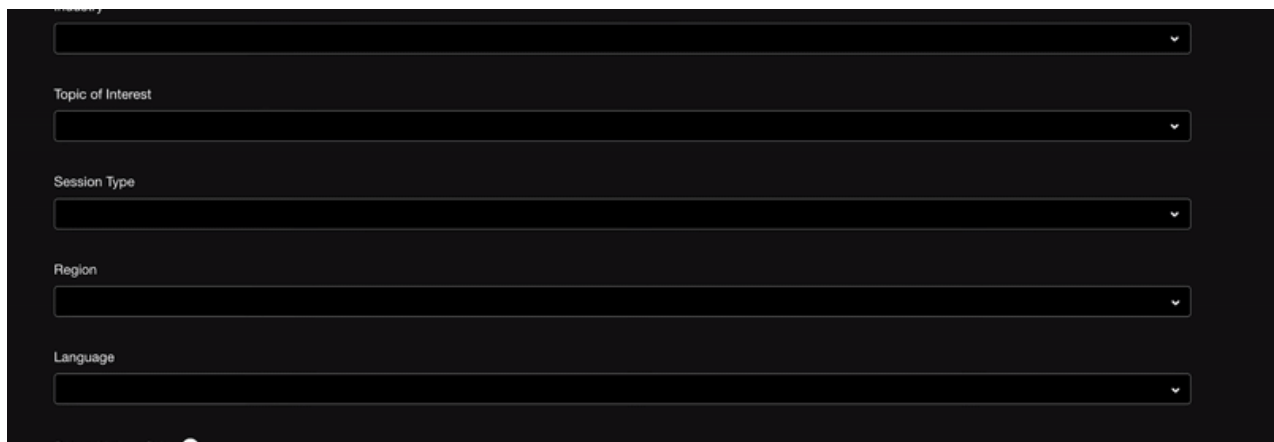

- ## Interactive video embedding is supported in Player v7

Instructors and content creators can now embed interactive videos (AKA RAPT or Interactive Video Paths) in their Video Portal and LMS Video using Kaltura Player v7. This update enables seamless integration of decision-based learning experiences, making interactive content more accessible and engaging.

ADA-958	Improved screen reader announcement for the Event Recording field description.	KMS
ADA-415	Fixed keyboard navigation in the Date Picker component when moving between months.	KMS

Video Portal & LMS Video release notes - v5.147.x February 24, 2025

Version: 5.147.x

Date Released: February 24, 2025

What's new?

New Theming pages and enhancements!

Video Portal (KMS) & LMS Video

Channel / Media Gallery additions

- **Search** - Search is now available on Theming Channel/Media Gallery pages, allowing users to find media and playlists within it quickly and easily. Read more here.
- **Media filters** - Filters are now available in the Media tab of the Theming Channel/Media Gallery page. Use filters to refine your media results based on specific attributes for easier content discovery. Read more here.
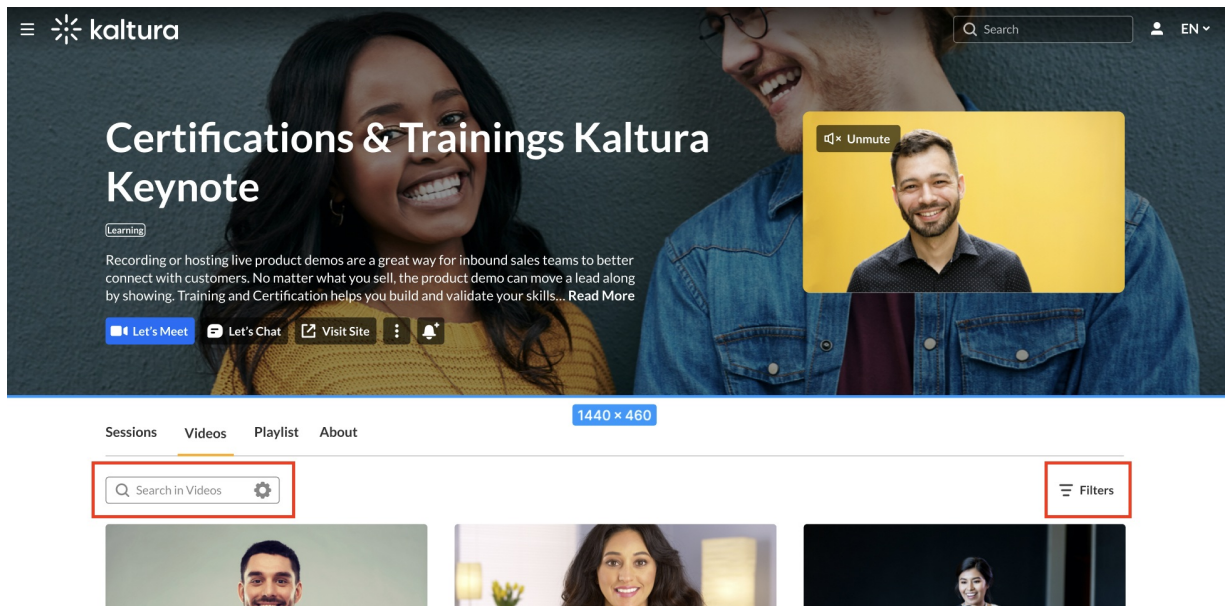

Video Portal (KMS)

The new Kaltura Room experience

The new Kaltura Room is now available in the Video Portal, with major enhancements over the legacy room (Newrow): **A beautiful, modern interface** for a more engaging user experience, **advanced branding options**; rich, powerful **chat & collaboration tools**, with quick polls, quizzes, survey questions, and a private backchannel chat for moderators; **interlude templates** (customizable transition videos with music and live countdown), and a private **green room** for speakers and admins to collaborate during breaks.

The Kaltura Room is unique in that it is **a persistent room** built for learning, offering special features like **Storyboard** (allowing instructors to prepare the session in advance, by uploading materials into the room and organizing them sequentially), whiteboards, Miro boards, breakout rooms, and more.

Adding the room to your video portal will allow you to train, upskill, and collaborate in real-time directly within your video platform, having recordings automatically ingested and curated, and creating a seamless, more secure user experience, eliminating the waste and risk of platform switching.

The new room has two modes: **interactive** (up to 25 on stage/100 total participants) and **webinar** (10 on stage/300 total participants).

Learn more here.
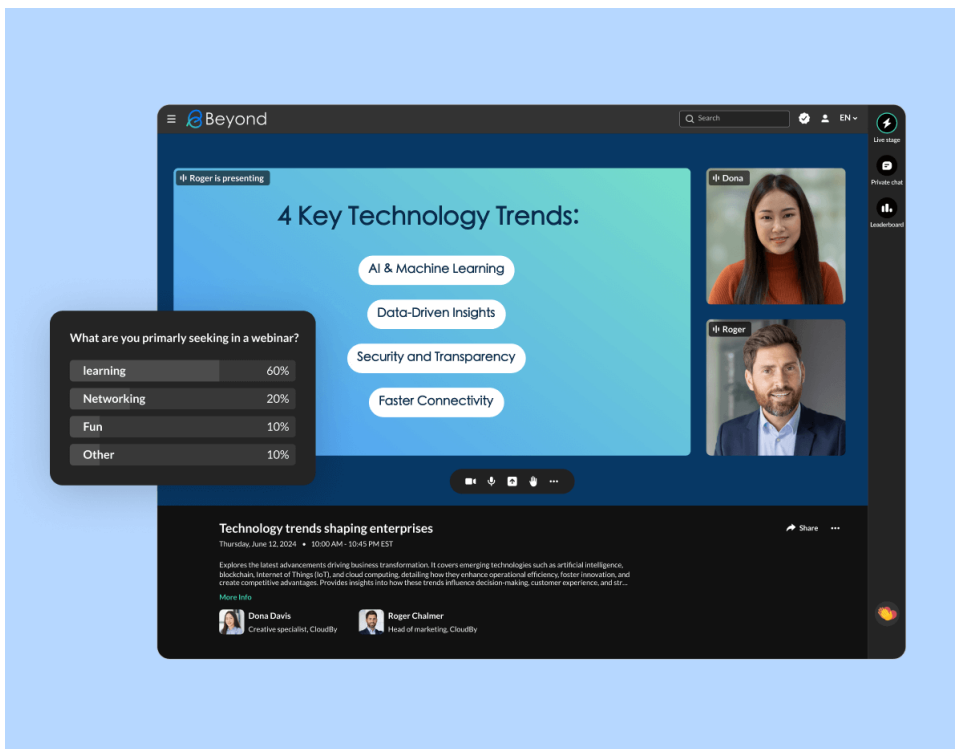

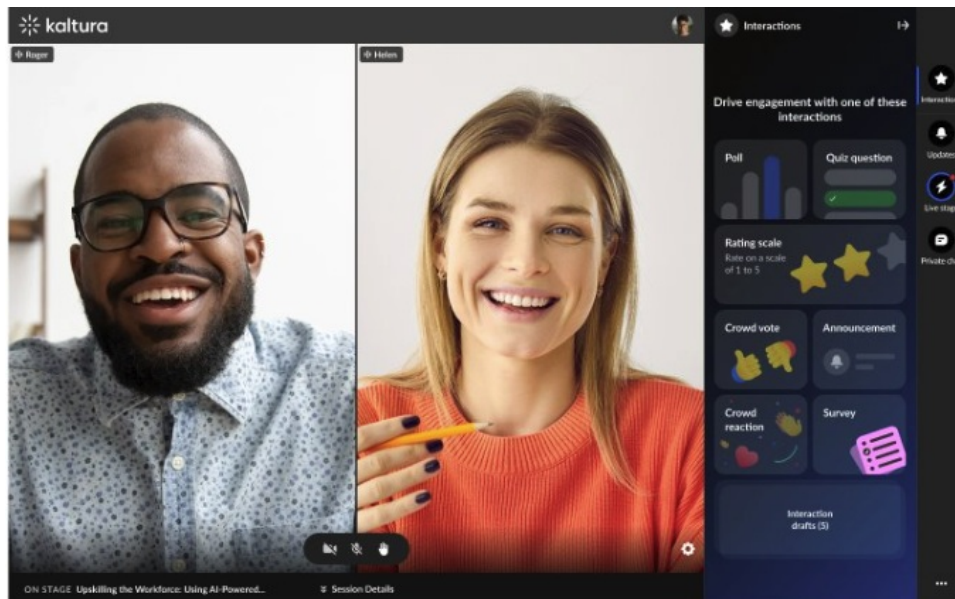

Revamped and unified Channels page

We're excited to introduce the revamped, Theming-based, Channels page! To streamline the experience, **All Channels** and **My Channels** have been combined into a single unified page, making it easier to browse and find channels in your video portal. Read more here.

LMS Video (KAF)

New publishing flow in Theming - The new Theming publish flow is now available in KAF!

- Publish your media directly from My Media (now with bulk publish support).
- Publish from the Media Page itself for a more streamlined experience.

Read more here.
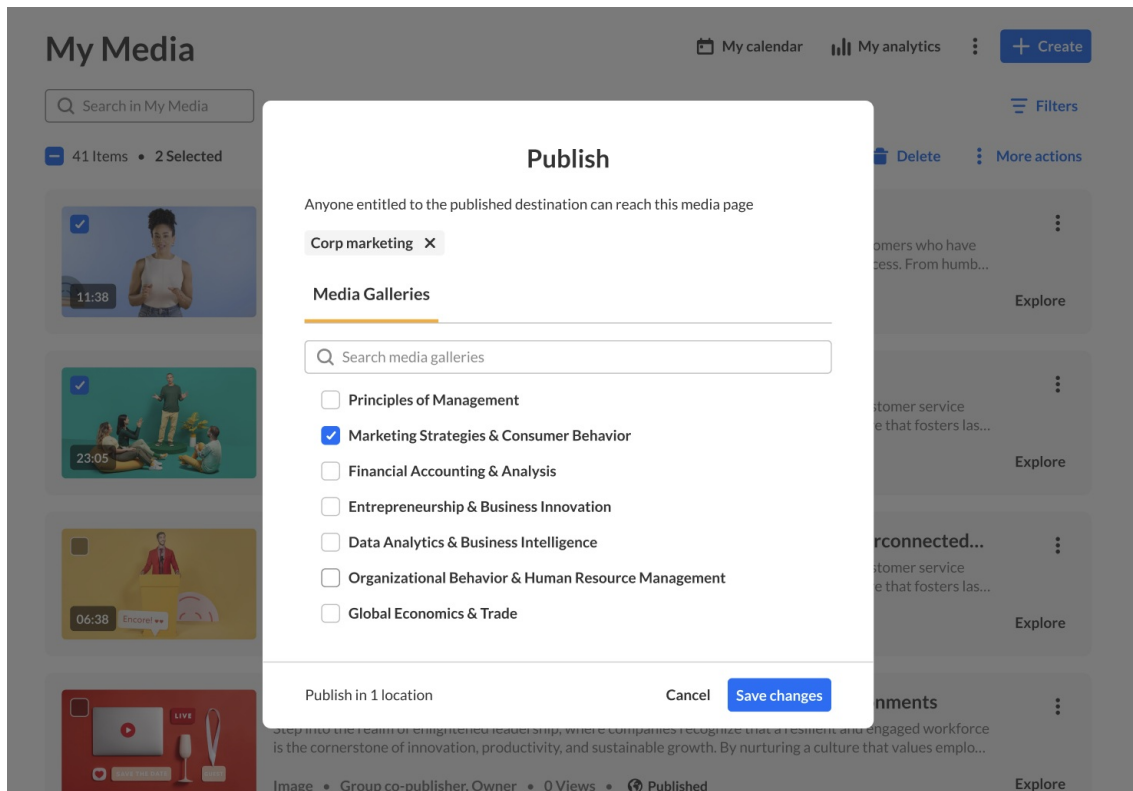

Quiz analytics enhancements!

(Available in both KMS & KAF)

To improve support for larger user groups (over 500 participants), the quiz analytics feature has been enhanced with the following updates:

- **New report available:** A new report is now accessible, making it easier to handle and review data from a larger number of quiz submissions.
- **Submissions ordered by 'last submitted':** Quiz submissions are now automatically sorted based on the most recent submission, allowing for quicker tracking of recent activity.
- **Improved user information flow:** Accessing individual user details has been streamlined for a more efficient and intuitive experience when viewing quiz attempts and scores.

Resolved issues

ID	Description	Related App
SUP-46591	Fixed an issue where My Media in Theming was not loading in some use cases.	KMS/KAF
SUP-36826	Resolved resume playback issue with the History module for Live VOD in the V7 player.	KMS
SUP-46904	Fixed an issue requiring two clicks in the "Login with Password" new flow.	KMS
SUP-46623	Resolved channels ordering issues in Channel Collections.	KMS
SUP-46603	Added missing og:video meta tags when loading a video entry page.	KMS
SUP-46565	Fixed an open redirect issue in KMS.	KMS
SUP-46502	Fixed an issue with 2FA QR codes on Android.	KMS
SUP-46372	Added a missing native error state to a radio field in the registration form.	KMS
SUP-45582	Fixed an issue with the number of quiz users displayed in Quiz Analytics.	KMS/KAF
SUP-44551	Adjusted the width of the Playlists Table List in the Channel Edit Page when descriptions are very long.	KMS/KAF
SUP-45376	Fixed an issue with the week start date in the calendar.	KMS/KAF

Resolved Accessibility Issues

ID #	Description	Related app
ADA-1508	Fixed keyboard navigation issue on the My History page at 400% zoom when selecting a specific feature.	KMS/KAF
ADA-2301	Added a missing description to the "Remove media from watch later list" button.	KMS/KAF
ADA-2300	Added a missing aria-label to the Add to Playlist page.	KMS/KAF
ADA-394	Fixed overlapping items at 400% zoom in the 'Created By' section of the Search page.	KMS

Video Portal & LMS Video release notes - v5.146.x February 10, 2025

Version: 5.146.x

Date Released: February 10, 2025

What's new?

- **Clickable links in PDF document entries** - We're excited to share that PDF links are now clickable within document entries! This enhancement improves accessibility and streamlines navigation for users. Read more about document entries here.

- **Video Portal Theming now applies to C&C** - With this enhancement, Video Portal's Theming design system is now automatically applied to C&C, eliminating the need for duplicate updates. Any changes made to Video Portal Theming will now seamlessly be reflected in C&C. (KMS-27836)

Upcoming

- Theming for the All Channels page.
- New Search and Filters in Channel Theming pages.
- BSE work to provide better BSE embeds in different sizes/aspect ratios on all LMSs. (KMS-30542)
- Kaltura's new Room with chat and interactions in the video portal.

Resolved issues

ID #	Description	Related app

A11Y-223	Added missing screen reader announcement for Search History in My Media Theming page.	KMS/KAF

Video Portal & LMS Video release notes - v5.145.x January 28, 2025

Version: 5.145.x

Date Released: January 28, 2025

What's New

- **Optical Character Recognition (OCR) Search in Video Portal and LMS Video!**

  This powerful enhancement builds on our advanced search capabilities, making all content in your central video repository fully searchable. OCR allows users to find information based on text visible within the video itself—such as text displayed in slides, charts, graphs, or other visual elements—helping students and employees locate what they need instantly, boosting productivity and efficiency.
  Enhance your content accessibility and discoverability today with OCR!

To enable OCR search, configure the Search module in your KMS/KAF admin.

Read more about OCR in search here.

- **Drive registration and engagement with clickable videos in your playlist component**

  Admins can now make videos in restricted playlists clickable on public template pages. Clicking prompts users to log in to watch the video, turning previews into a powerful tool for driving registration and engagement.

  Enable this feature by using the **clickableThumbs** field for the playlist component in the TemplatePages module in your KMS admin. To learn more, click here. (KMS-30606)

Upcoming

- Theming for the All Channels page.
- New Search and Filters in Channel Theming pages.
- BSE work to provide better BSE embeds in different sizes/aspect ratios on all LMSs. (KMS-30542)
- Kaltura's new Room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
SUP-46477	Fixed issue with the comment box on playlist pages.	KMS/KAF
SUP-46453	Resolved an issue with menu items of type "label" configured as the first item without a set homepage in Theming.	KMS
SUP-46317	Adjusted preview image behavior in BSE before embedding.	KAF
SUP-46284	Updated event names on social banners to display correctly in multi-language setups.	KMS
SUP-45855	Added support for replacing media in live entries.	KMS/KAF
SUP-43887	Enabled preview of media with ACP profile in BSE for V7 players before embedding.	KAF
SUP-44208	Improved caching to reflect content publishing on the Edit Media page after publishing to a channel from the channel.	KMS/KAF

Resolved Accessibility Issues

ID #	Description	Related app
ADA-1372	Removed redundant alt text from thumbnail images in the carousel component.	KMS/KAF
ADA-1173	Added visible names to timezone fields in the Edit Entry page for scheduled media.	KMS
ADA-801 ADA-798	Menus and submenus on Profile and Entry pages in Theming are now keyboard accessible and announced.	KMS/KAF
A11Y-231	Added screen reader announcement for error messages on the login page.	KMS
A11Y-204	Associated the email field with its error message on the login page.	KMS
A11Y-43	Added shadow to text in the News component to address color contrast issues.	KMS
A11Y-41	Added a title to the co-editor image button in the Groups component.	KMS
A11Y-40	Added a descriptive announcement for the "See All" link in the Groups component.	KMS
A11Y-36	Removed the announcement of empty headings in the Channels component.	KMS
A11Y-30	Added content context to the "Read More" button in the News component.	KMS
A11Y-29	Added context to the "Next" and "Previous" buttons in the carousel component.	KMS
A11Y-26	Removed automatic context changes on the "Watch Now" button when focused in the Hero banner.	KMS

Video Portal & LMS Video release notes - v5.144.x January 14, 2025

Version: 5.144.x

Date Released: January 14, 2025

What's New

- **Publish from upload** - Users can now update the media publish status (private/ unlisted/ publish) directly from the upload page, simplifying the process and enhancing workflow efficiency. This feature makes it easy to choose the publish status immediately after uploading media. Visit Upload media for information.
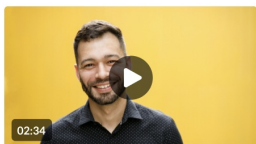

- **Add support for Kaltura messaging service** - We have added the latest Kaltura Messaging Service to KMS email sending capabilities (configured from the *emailService* module). This messaging service is based on SendGrid, and once enabled, can be applied to any registration emails, password recovery emails, or email invitations. (KMS-29222)
  With this update, KMS aligns with other Kaltura products already using his service,

and future plans are to expand its use to include the notification services. Visit EmailService module for information.

- **Security improvements** -
  - Removed *unsafe-eval* from the Content Security Policy on all Theming pages, improving overall security (KMS-30118).
  - Improved security measures for video replacement processes to ensure better protection (KMS-30457).

Upcoming

- Theming for the All Channels page.
- BSE work to provide better BSE embeds in different sizes/aspect ratio on all LMSs. (KMS-30542)
- New Kaltura room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
SUP-45317	Resolved the custom metadata dropdown menu limit on the edit page.	KMS/KAF
SUP-45083	Added an option in the **ltigrading module** to disable the IVQ grade submission status message.	KAF
SUP-44636	Fixed an issue in My Calendar where some recordings were not displayed.	KMS/KAF
SUP-46220	Fixed an issue with BSE search functionality in content users are entitled to by group ownership.	KAF
SUP-45806	Fixed an issue where My Media failed to load correctly when displaying a single media item with Theming enabled.	KMS/KAF
SUP-43801	Removed an unnecessary dropdown from the Analytics page.	KMS/KAF
SUP-42913	Fixed an issue with calendar invite emails in SSO.	KMS
SUP-40619	Fixed a multi-language issue for mandatory fields in descriptions and tags.	KMS/KAF
SUP-45460	Added missing translations to the My Playlists and Watch Later pages.	KMS/KAF

Resolved Accessibility Issues

ID #	Description	Related app
A11Y-204	Login page - we added context announcement to an error.	KMS
A11Y-231	Login page - we added voice announcement to an error message.	KMS
A11Y-210	My Media page - we added context announcement to the explore close button.	KMS/KAF
A11Y-211	Login page - we fixed an issue with logo announcement.	KMS
A11Y-221	Channel page - we added voice feedback for removing from wishlist.	KMS/KAF
A11Y-9	News section - we added 'read more' to be announced.	KMS
ADA-600	Entry page mobile view - we added labels to a dropdown menu.	KMS/KAF

Video Portal & LMS Video release notes - v5.143.x December 29, 2024

Version: 5.143.x

Date Released: December 29, 2024

What's New

- **Cleaner and better-looking mobile registration pages** - Registration-related pages have been improved for mobile devices. These enhancements fix alignment

issues and reduce unnecessary spacing on the Post-registration, Login, and Forgot Password pages, ensuring a smoother and more visually appealing experience. (KMS-29678)

Upcoming

- BSE work to provide better BSE embeds in different sizes/aspect ratio on all LMSs. (KMS-30542)
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the Video Portal.

Resolved Issues

ID #	Description	Related app
SUP-42361	Issue when adding collaborators with long user ID (longer that 42 characters) was resolved	KMS/KAF
SUP-44027	[KMS admin] The issue where admins could not add the apostrophe (') character as users' name was resolved.	KMS/KAF
SUP-44515	Add to calendar button - using Outlook Calendar - Session description display was adjusted	KMS/KAF
SUP-44812	The player field was removed from the Facebook module as Facebook removed the relevant API for this feature.	KMS
SUP-44839	The issue where newly created meeting rooms did not show in My Media due to a caching was resolved	KMS/KAF
SUP-45079	The issue where channel playlist shows expanded instead of carousel due to a line break in the playlist name was resolved.	KMS/KAF
SUP-45849	[Canvas] The issue where API errors would appear on discussion boards was resolved.	KAF
SUP-45936	reCAPTCHA links on Registration Form and Forgot Password pages were corrected.	KMS
SUP-46132	Speaker Card's Bio format is now accepting rich text and formatting.	KMS

![Kaltura logo]

Resolved Accessibility Issues

Video Portal & LMS Video release notes - v5.142.x December 16, 2024

Version: 5.142.x

Date Released: December 16, 2024

What's New

- **'Media I own' filter in My Media** - The updated **Ownership** filter in My Media now allows users to search specifically for content they own, separately from content owned by groups they are in. (KMS-29612)
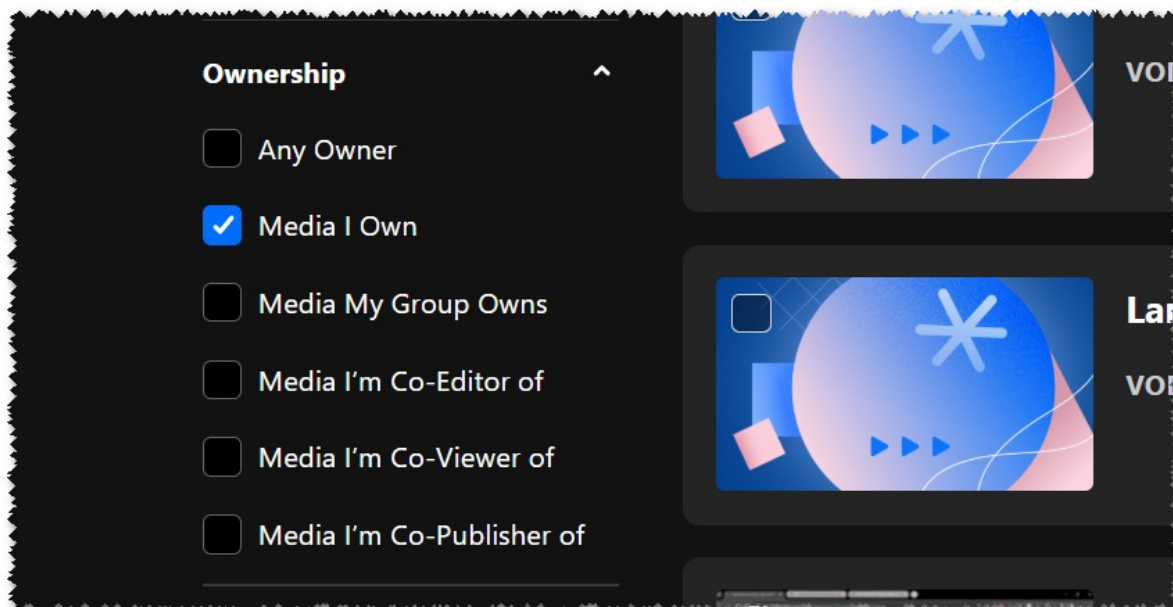

- **My Media - Bulk publishing** - Another missing piece of the puzzle has been added to Theming-based My Media: the ability to publish multiple media items at once. This feature will be automatically enabled for any instance already using Theming-based My Media.(KMS-27697)
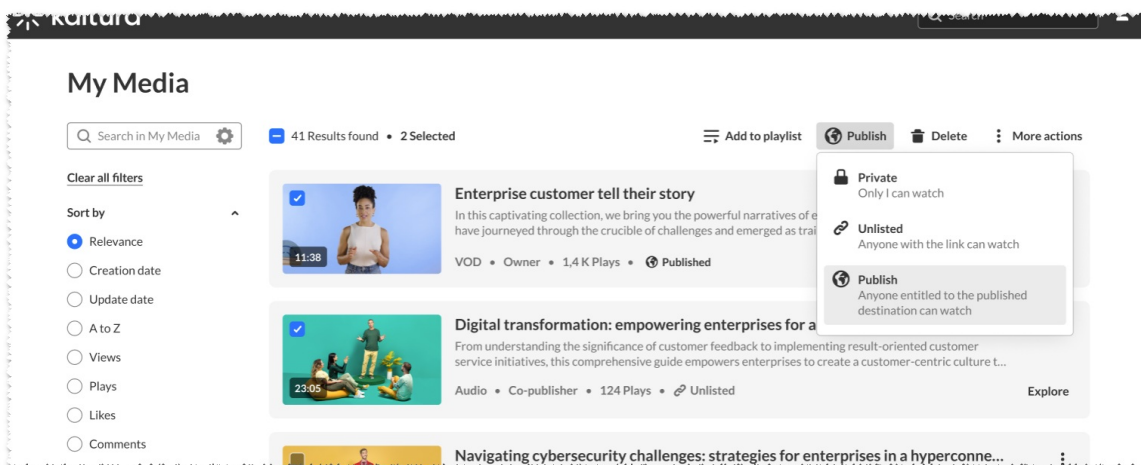

- **'Created from' indicator** - A new indicator, **showCreatedFromIndicator**, is now available for Theming-based media pages. This feature allows admins to display the

original content from which media was created, such as clips or quizzes.
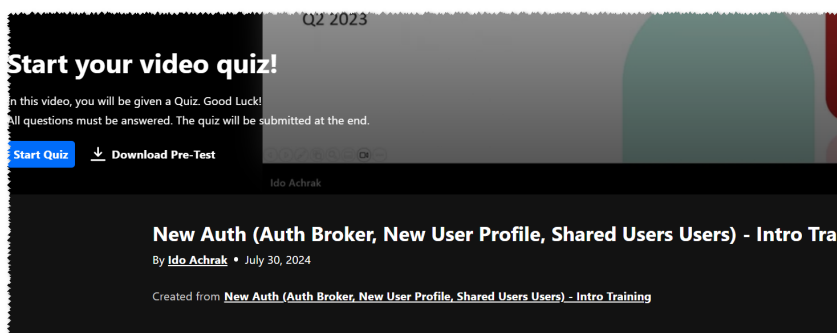

- **Custom Share modal configuration** - The Theming-based **Share** modal box can now be customized, enabling admins to choose which elements to display in the sharing modal on the media page (KMS-29377). This update also introduces new sharing options, including **Line** and **Pinterest**.
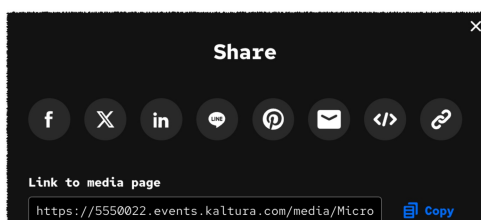

- **Improved Speaker information display** - The UI has been enhanced to display speakers' titles, company, and name in full, eliminating the need for tooltips. This improvement applies to the **Groups components**, **session cards**, and **Profile pages**. (KMS-30509).
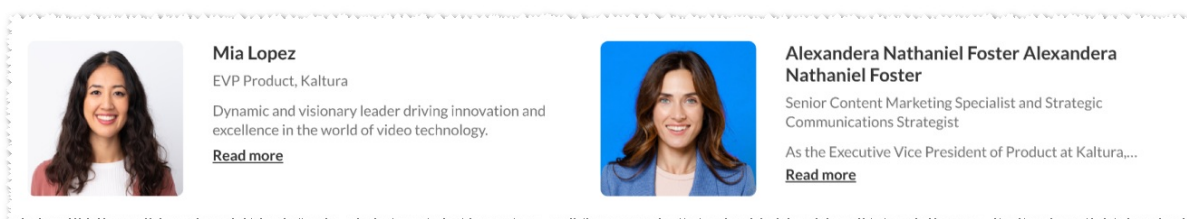

- **Template Pages - Playlist component channel filter** - A new filter has been added to the channel playlist component on template pages. This feature allows page creators to filter channel content, specifying VOD only or other types of content.

Upcoming

- BSE work to provide better BSE embeds in different sizes/aspect ratio on all LMSs. (KMS-30542)

- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the Video Portal.

Resolved Issues

ID #	Description	Related app
SUP-45889	The issue where the Theming-based speaker cards modal could not be closed on Apple devices has been resolved.	KMS
SUP-45849	[Canvas] The reason causing the API errors on discussion pages with more than one group was fixed.	KAF
SUP-45827	To prevent issues with login, we are now removing unwanted spaces from the email field on login page.	KMS
SUP-44516	Theming-based Session cards description with HTML now provides better spacing for removed HTML tags.	KMS
SUP-43803	V7 audio player in KMS will now show the transcript successfully.	KMS/KAF
SUP-43615	Player autoplay settings will now also be applied on the recycle bin videos playback.	KMS/KAF
SUP-37986	Post editing of a webcast's VOD using the KEA editor, users will be navigated to the webcast page as expected.	KMS/KAF

Resolved Accessibility Issues

ADA-1147	Better announcing of the position of the list item for the top right navigation items.	KMS

Video Portal & LMS Video release notes – v5.141.x December 02, 2024

Version: 5.141.x

Date Released: December 2, 2024

What's new

- **Theming-based Channel moderation (DS)** - (Available in Video Portal and KAFs) - The moderation page for channels is now available with Theming-enabled channels. This feature allows the channel owner to review content submitted by other users, and decide whether to approve or decline the publication of it to their

channel. Any instance with Theming enabled for channels with channel moderation already activated will automatically receive the new page. To learn more, explore our articles Channel Moderation - Theming and Moderate Media Gallery Content - Theming. (KMS-30102)
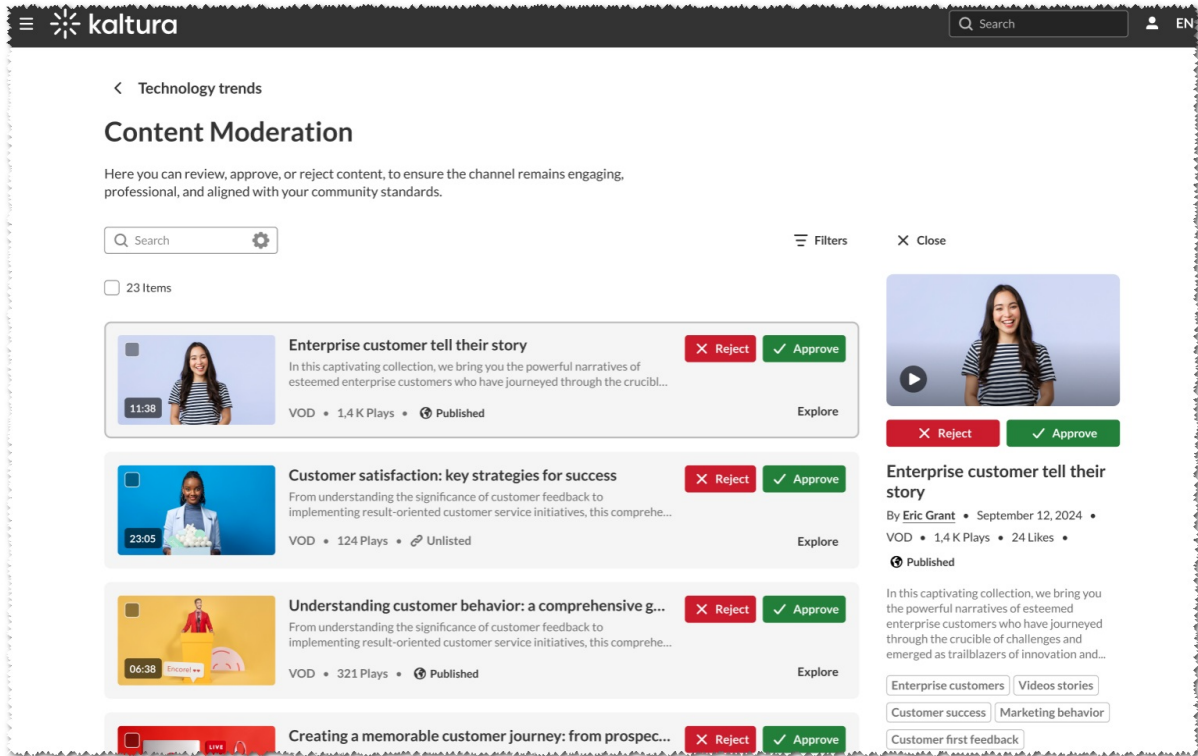

- **Secure embed - Support for third-party cookies - Authentication via Pop-up** (Available in Video Portal) - To better support instances with IDPs that do not allow the auth page to be loaded in an iFrame, we've updated the flow for configuring autoRedirectIframe (set to "no" to open the auth in a new tab).

  Previously, this flow could break due to third-party cookies being blocked or incorrect referrer settings. With this update, authentication will now occur in a pop-up. This resolves both issues, ensuring that users with blocked third-party cookies can log in directly from the page where the embed is located. (KMS-30433)

- **Theming-based Publish - Added icons for category types** - Icons have been added to indicate category types (channel or gallery) when publishing content. This improvement makes it easier to identify where your content is being published at a glance. (KMS-29111)

Upcoming

- Ability to control elements on the Theming-based sharing modal loaded on the

media page.
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
4736	Fixed the issue in D2L where BSE embeds of youtube entries were replaced with newer ones.	KAF

SUP-45203	Theming based session card - fixed the outline of keyboard focus	KMS/KAF

Video Portal & LMS Video release notes - v5.140.x November 18, 2024

Version: 5.140.x

Date Released: November 18, 2024

What's New

- **Theming-based Channel moderation (DS)** - Will be available next release.
- **Theming My Media (DS) - Publish single media action** (Available in Video Portal and KAFs) - Now content owners can publish individual content items from their DS-based My Media (KMS-28910).

- **Translations** - Translation assets have been updated for all supported languages, incorporating translations for new phrases and text added since the last language update. (KMS-30398)

- **Document Replacement** (Available in Video Portal and KAFs) - Media of type 'Document' can now be replaced using the replaceMedia feature set. This allows owners to update a document with corrections without the need to create a new media entry. (PSVAMB-70983)

Upcoming

- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.
- **Theming-based Channel moderation (DS)** - (Available in Video Portal and KAFs) - The moderation page for channels will soon be available with the Theming channels. Channel moderation allows the channel owner to go over content added to the channel by other users, and decide whether to approve or decline the publication of it to their channel.

  Any instance with Theming enabled for channels with channel moderation already activated will automatically receive the new page. (KMS-30102)

Resolved Issues

ADA-1960	Channel tooltip for the Channel Actions button now changes language accordingly.	KMS/KAF
ADA-1690	Added the missing role for the logout List element.	KMS

Video Portal & LMS Video release notes – v5.138.x November 4, 2024

Version: 5.138.x

Date Released: November 4, 2024

What's New

- **Template pages - Sessions component** (available for Kaltura Events) - This new component for template pages allow event owners to show sessions from the channel's agenda or from a dedicated playlist. This new component will allow event managers to place a list of sessions in the form of an agenda on their template pages, whether homepages, landing pages, or Coming Soon pages. Currently only available on custom Kaltura Events templates, it will be available to configure from Kaltura Events in the upcoming weeks. Learn more in the template page article.
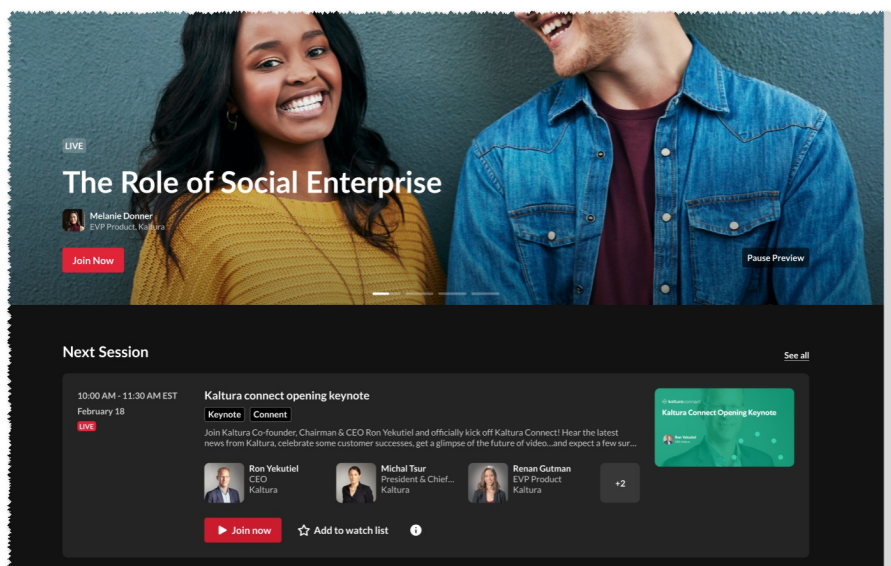

- **Media page speakers location** - On the Theming-based media page, the speakers component will now show above the custom data. This will not affect any instances where custom metadata is not in use, and will provide better visibility of the speakers for instances where it does. (KMS-29599)
- **Gallery moderation and permissions** - To enhance the gallery offering, we have cloned a few features from the channels to the galleries:
  - **Gallery moderation** - This allows admins to choose the default moderation status for newly created galleries, and to disable the ability to remove the moderation by gallery owners. (KMS-30179)
  - **Creation of galleries** - Admins can now choose what the roles are and who can create new sub-galleries. (KMS-30180)
- **Session cards** (available in Kaltura Events & Video Portal) - (Correction from previous release, this feature release was 5.138.x, and not the previous version.) The new Theming module session cards display scheduled sessions in different locations, such as the channel page, the template pages, and more. We have enhanced these cards in two ways:
  - The "Join Now" button will now update automatically when the event starts, without needing to refresh the page. Admins can also set a specific time before the event begins for the "Add to Calendar" button to automatically change to "Join Now," allowing users to join ahead of the start time.
  - Speaker information will now be visible directly on the session page, eliminating the need to navigate to the speaker's profile. This applies to speaker icons on media pages as well, and users can view this information without logging in.
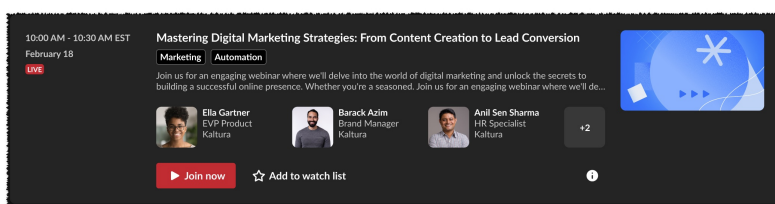

- **AuthBroker Role Mapping** - We have added to the AuthBroker module support for mapping of KMS roles based on multi values lookup in addition to the singular fields support that already exists. (KMS-30311)

Upcoming

- **Theming-based Channel moderation** - (available in Video Portal and KAF) - The moderation page for channels will soon be available as part of Theming. This feature allows channel owners to review content added by other users before

publishing it, and choose whether to approve or decline it. Instances with Theming already enabled for channels, and with channel moderation enabled, will automatically receive the new page.
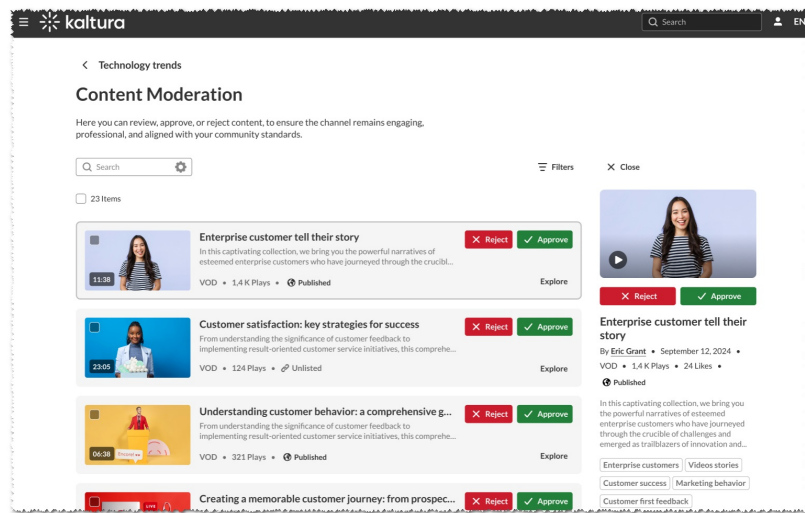

- **Document entry** - Replacement of document entry is now available from the media editing page. Learn more about document entries in our article View and manage a document entry. (PSVAMB-70192)
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
SUP-45224	Fixed the issue where unlisted media could not be published due to wrong custom metadata restrictions.	KMS
SUP-44900	Read more CTA text is now visible correctly on all screen sizes.	KMS/KAF
SUP-44829	The small thumbnails in a non-Theming-based room lobby now show as expected.	KMS

Resolved Accessibility Issues

ID #	Description	Related app
KMS-29326	Added the missing keyboard focus for all buttons and elements where it was missing.	KMS/KAF

Video Portal & LMS Video release notes - v5.137.x October 22, 2024

Version: 5.137.x

Date Released: October 22, 2024

What's New

- **Session cards** (available in Kaltura Events & Video Portal) - Please note that this feature was introduced on this version accidentally, and it is actually released in version 5.138.x.
- **Template pages - Banner component** (available in Kaltura Events & Video Portal) - A new setting has been added to the banner component, allowing admins to choose whether the CTA (Call to Action) opens in a new tab or the same tab.

Upcoming

- A new component for template pages is coming up, that will show sessions from the channel's agenda.
- The Theming-based "channel moderation" page, that allows channel owners to moderate content before presenting it on the channel.

Resolved Issues

ADA-409	Handling the tag search page in 400% zoom.	KMS
ADA-408	Handling the Edit Playlist page and Create Playlist page in 400% zoom.	KMS/KAF

Video Portal & LMS Video release notes - v5.135.x September 23, 2024

Version: 5.135.x

Date Released: September 23, 2024

What's New?

- **Canvas -** The use of 'publish from my-media' by LMS admins is designed to allow admins to publish to many courses in one click. Now, using the improved Canvas API, we are increasing the number of courses these admins will see from 100 to 200

(ILMS-701).

- **Browse & Embed - Player V7** - We have added new default sizes for the v7 player settings in the BSE module, in the desire to provide a simpler and more accurate embed and playback experience (ILMS-694).

Upcoming

- More accessibility work! Stay tuned for more updates.

Resolved Issues

ID #	Description	Related app
SUP-44598	Fixed the counter showing after deleting a comments	KMS/KAF
SUP-44559	Fixed the thumbnail creation issue in the timeline creation flow of slides and chapters	KMS/KAF
SUP-44557	Owners can now edit Live entries when the dvrEnabled & recordingEnabled fields are disabled.	KMS/KAF

Video Portal & LMS Video release notes – v5.133.x August 26, 2024

Version: 5.133.x

Date Released: August 26, 2024

What's New?

- **Accessibility** - As part of our Q3 efforts and in preparation for the VPAT, we are releasing the next batch of Core a11y accessibility fixes for DS (Theming Module).

- **iCal invite post webhook registration -** While iCal (Calendar invite) already exists for post-registration and post-invitation, admins can now send a calendar invite post-webhook registration (KMS-29944).

- **Template pages - Texts and bullets:** Admins can now choose for the text component on template pages *not* to be centered by default. Additionally, we've resolved an alignment issue with bullet points and numbering. (KMS-29597)

- **Theming based channel banner reset -** Admins can now revert the channel banner to its default with a single click on the channel edit page. (PSVAMB-62811)

- **Attachments links** - Added the `target="_blank"` to the attachments links, ensuring they open in a new tab. (KMS-29665)

- **REACH Task ID** - We have added the task ID in the request details for our users' convenience. (REACH2-1233)

- **Landing page -** The recently released 'landing page' feature is now updated to use Templatepages instead of Custompages. This change simplifies the setup and eliminates any confusion. To re-enable, admins should re-select the pre-created template page. (KMS-29647)

Upcoming

- More accessibility work! Stay tuned for more updates.

Resolved Issues

ADA-1486	Search page - filter dropdown button "More field " change of aria labels	KMS/KAF
ADA-1506	Search page - filter dropdown button "More field " better color of border button	KMS/KAF
ADA-1507	History page - Support for buttons on 400% zoom.	KMS/KAF
ADA-1512	Media page - Search in video button color contrast.	KMS/KAF

Video Portal & LMS Video release notes - v5.132.x August 12, 2024

Version: 5.132.x

Date Released: August 12, 2024

What's New?

- **Accessibility** - First batch of Core a11y fixes for Theming-based elements and pages have been released.

- **New filter - External applications** - Once enabled,Content owners using the new theming my-media (DS) can now filter by external applications in My-media, allowing them to see how their content is used in other applications. If you haven't used this feature yet, you can enable it from the categories module (KMS-29374). This is particularly useful when you have multiple instances, such as a KMS video portal and a KAF integration in an LMS, enabling the customer to see where each media is used within all apps.

- **Moodle 4.4 release** - A new Moodle plugin version to support Moodle 4.4 has been released. As a part of this version, we fixed several known bugs. The plugin supports Moodle versions 4.1(LTS), 4.2, 4.3, and 4.4. (ILMS-637)

- **Load more in Channel playlists** - In Theming-based channels, a 'Load More Playlists' button will appear when there are many playlists. This feature helps to speed up the channel's loading time. (KMS-29048)
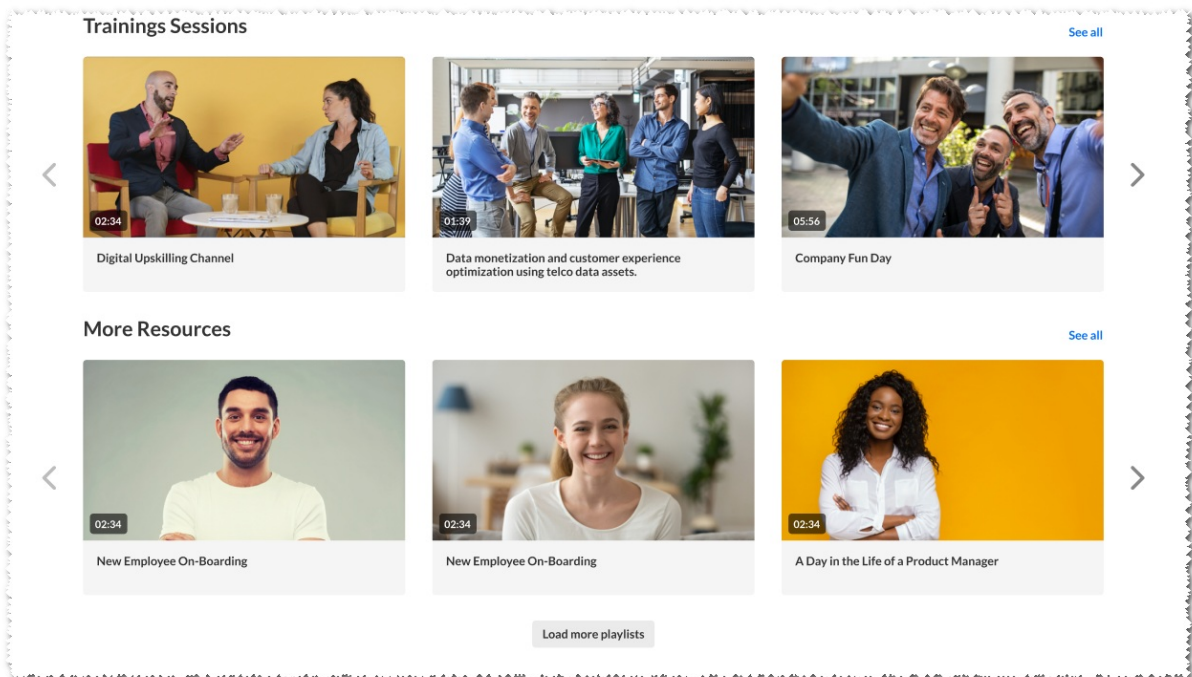

- **REACH Task ID** - We have added the task ID in the request details for our users' convenience. (REACH2-1233)

Upcoming

- More accessibility enhancements on Theming pages!

- **Landing page -** The recently released 'landing page' feature will be updated to use Templatepages instead of Custompages. This change simplifies the setup and eliminates any confusion. To re-enable, admins should re-select the pre-created template page. (KMS-29647)

Resolved Issues

ID #	Description	Related app
KMS-28496, KMS-29455	Added missing security headers.	KMS/KAF
SUP-44079	Fixed the issue where submitting the registration form via the KMS admin Editor UI was breaking the registration JSON.	KMS
SUP-43155	KMS Go Android - The issue of blank thumbnails appearing when KS restriction is enabled has been resolved.	KMS

ADA-719	Playlist Share & Embed - Added correct labels for controls.	KMS/KAF
ADA-711	Media page 'more' tags button role announcement was added.	KMS/KAF
ADA-564	Added a role to the "Action in progress" when using the search's 'click on filters'.	KMS/KAF

Video Portal & LMS Video release notes – v5.131.x July 29, 2024

Version: 5.131.x

What's new?

- **Theming-based My Media** and **Publish** - The **My Media** page is the latest to join the long list of Theming-based pages. In addition to the slick new UI, the page contains new vertical filters (the same as used in the Global search page), a new Explore section, and new bulk capabilities, allowing owners to change ownership and collaborators in one bulk action. See our article My Media - Theming for more information.

  Additionally, the new My Media page also features an updated UI for **Publishing** capabilities. Now available on both **My Media** and the single media pages, the UI provides a quicker way to change and view publishing statuses.
  You can turn on the new feature from the **Theming module.** See Publish media - Theming for more information.

An example of the theming based my-media
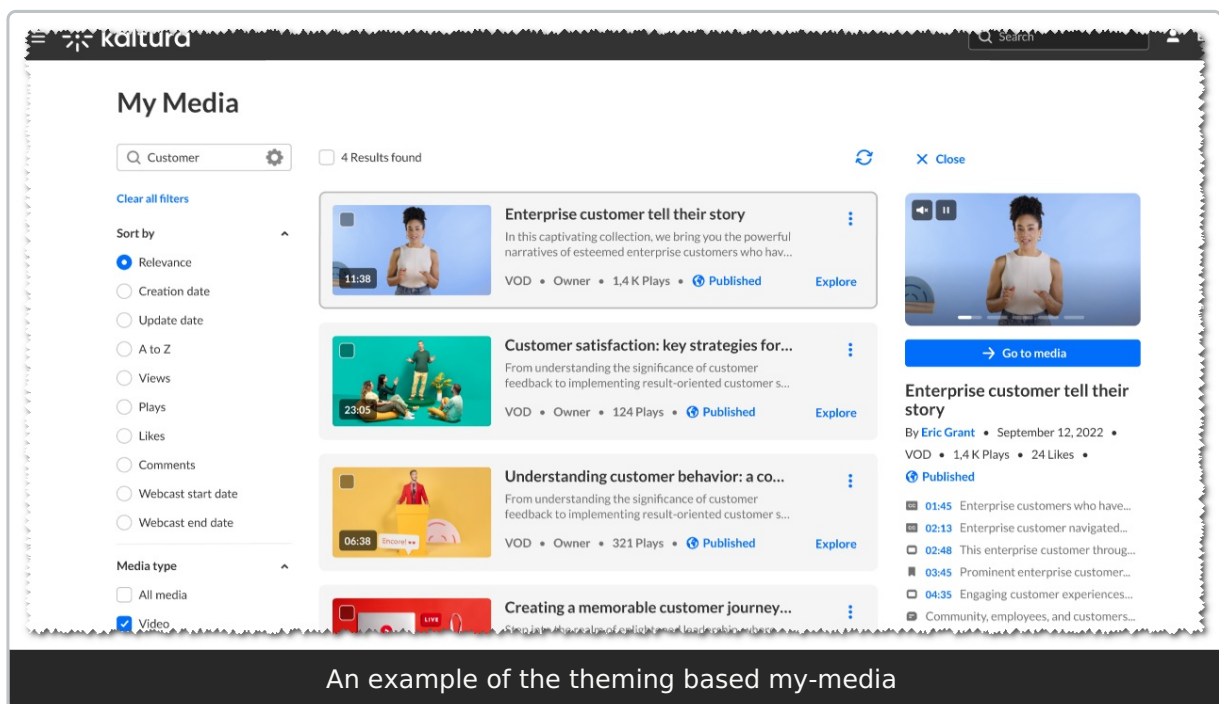

The new publishing capability will automatically appear on the media page if you're already using the Theming-based single media page, as shown below:
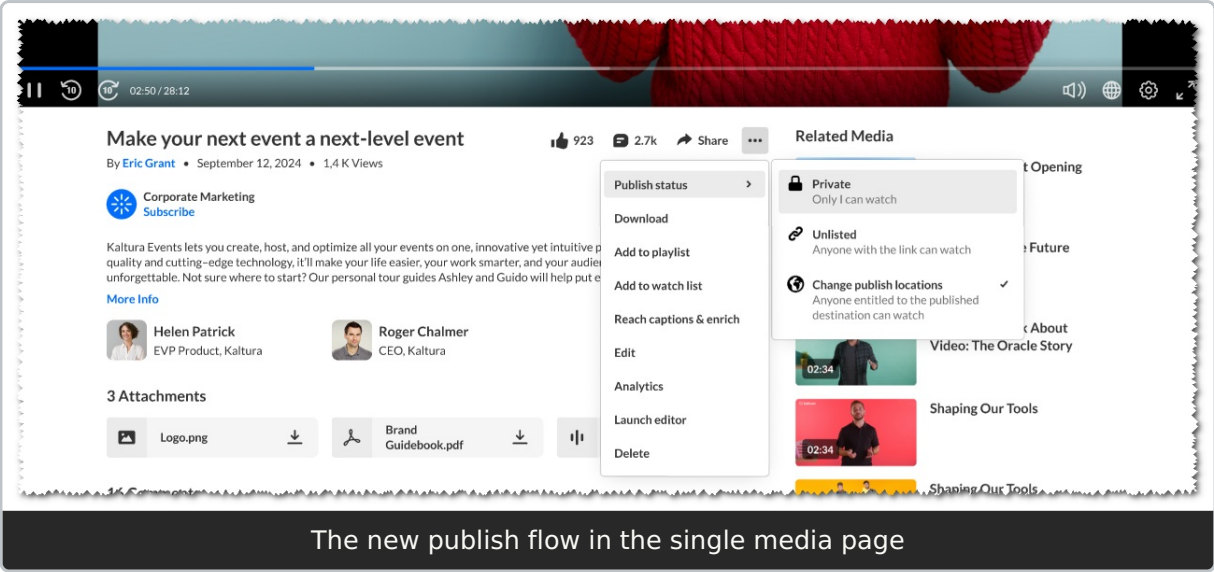

The new publish flow in the single media page

- **Template pages, Registration component** - An adjustment to the component now allows the registration to open on the template page, and not the "/register" page. (KMS-29730)
- **Registration page** - All drop-down fields now have a search function in them, allowing users to search for the right value. (KMS-28644)

Video Portal & LMS Video release notes – v5.130.x July 16, 2024

Version: 5.130.x

Date Released: July 16, 2024

What's new?

- **Landing page** - We are making some changes to the landing page. Please note that if you turned it on, you will need to re-enable it. (KMS-29664) The changes are:
  - Configuration UI was changed to a single landing page only.
  - Replaced the option to choose a custom page with a template page.

- **Express Capture** - Added a config to allow removing the "download a copy" button from the UI. (PSVAMB-62305)

What's cooking?

- Theming-based Publishing combined with a new Theming-based My Media page. Stay tuned for the official release date.

Resolved issues

ID	Description	KMS/KAF Related
SUP-43406	Caliper feed now sends events to the Learning Record Store after fixing the time format sent.	KAF
SUP-43386	Fixed the issue on search for users in the KMS admin user management page when using a specific type of login to the KMS admin.	KMS/KAF

Video Portal & LMS Video release notes - v5.128.x June 23, 2024

Version: 5.128.x

Date Released: June 23, 2024

What's new?

- **Publish** - Previously, if a collaborator published your content in a channel or category you didn't have access rights to, you couldn't unpublish it. Now, as part of our theming-based publishing updates, you can unpublish your media from any category or channel.(KMS-26945)
- **Multiple homepages and a new landing page** -This new feature in the **navigation** module allows admins to select a dedicated landing page for guests. Previously, guests would see either the login page or the same home page as all users, depending on the authentication settings. Now, you can create a specific page just for guests. For logged-in users, multiple homepages are available based on user groups. Different groups will see homepages tailored to their specific needs. See Navigation module fo more information. (KMS-28907).
- **Channel Subscription** - Admins can now choose to enable Channel Subscription by default for all channels from the Channelsubscription module. (KMS-29021)

Resolved issues

ID	Description	KMS/KAF Related
SUP-42641	Registration - Fixed the issue where some registration fields were not passed to the right report.	KMS
SUP-42981	Fixed the KMS Application Error for specific instances with unique playlist on homepage.	KMS
SUP-42979	Issue where user could not access the site due to the *customdatafilter* module was resolved.	KMS

Resolved A11Y issues

Video Portal & KAF release notes – v5.125.x May 6, 2024

Version: 5.125.x

Date Released: May 6, 2024

What's new?

- **Navigation - new custom page navbar item -** Admins are now able to connect the custom/template pages to the navbar and control the navbar item directly from the page itself using the page's published status. (KMS-28962)

Add items to the beginning of the main menu, before the categories. MediaSpace displays the items in the order you define here.

1 DELETE

type	Custom page	Select a menu item type to use in the navigation bar. Setting will change according to your selection.
name	Home	Enter the label for the menu item. The label is displayed in the main navigation bar.
page	home	Select a custom page to show. Custom page in status disabled will not be shown on the menu.

items

Add items that would be displayed in a drop-down menu

+ Add "items"

- **Playlist + Document entry -** For administrators who choose to enable it, the playlist player can now show document entries. The player shows the link to the Video Portal where the document can be viewed outside of the playlist. (KMS-28646)

- **Template pages analytics** - A new field *heroPlayerAnalytics* in the templatepages module now allows administrators to disable the player analytics on the template pages hero banner. (Note that the default is 'off'.) (KMS-28981)

ADA-663	[Accessibility] The 'Other creation tools' in the Create drop-down menu in the navigation is announced to SR.	KMS
ADA-641	[Accessibility] The non-Theming "Created by" line colors were adjusted to provide better contrast.	KMS/KAF
ADA-635	[Accessibility] My-media in table sorting now provides sorting status to SR.	KMS/KAF
ADA-563	[Accessibility] In the playlist edit / create pages, text fields are no longer identified only by placeholders.	KMS/KAF
ADA-552	[Accessibility] The text color of "Click here to search resource" on the webcast edit page was updated to improve contrast ratio.	KMS/KAF
ADA-511	[Accessibility] The language button role is now inside the required context.	KMS
ADA-402	[Accessibility] Media card in 400% zoom will now have tooltip for media name to show the full name.	KMS/KAF
ADA-310	[Accessibility] Accessible name for the "Search" text field is now available in addition to the placeholder text.	KMS
ADA-219	[Accessibility] Tab interface on edit entry page is now keyboard accessible.	KMS/KAF
ADA-159	[Accessibility] Focus on elements now has better visibility in FireFox.	KMS/KAF
ADA-50	[Accessibility] Both the thumbnail and title on a media card are now accessible and clickable.	KMS/KAF

Video Portal & KAF release notes – v5.123.x March 26, 2024

Version: 5.123.x

Date Released: March 26, 2024

What's new?

- **Theming in KAF - Single Media & Media Gallery pages** - Both KAF's 'Single Media' and 'Media Gallery' pages have been added to the Theming set, allowing administrators to set up their KAF/LMS with the theming-based capabilities. (ILMS-622)

In addition to the new visual appearance of the page, the media gallery comes with a new capability allowing admins and course owners to add a header on top of the page:
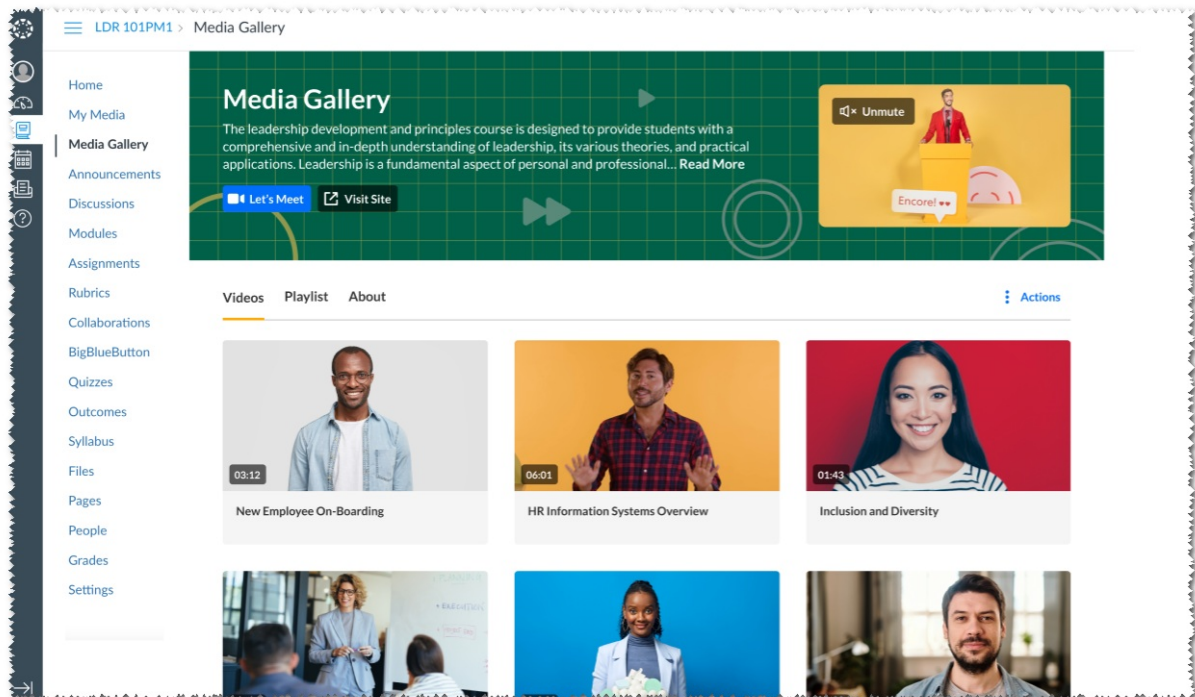

The media page now includes a "back" button to enhance user navigation within the app:
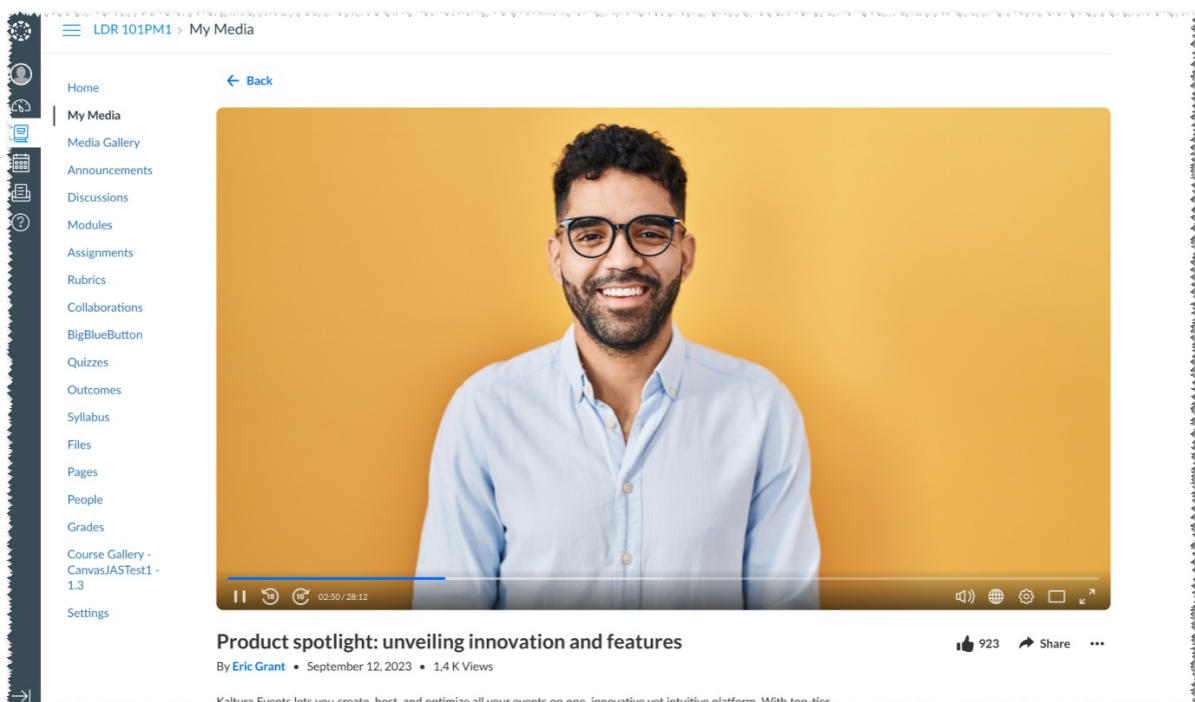

- **Hostnames module** - With the preparation for AuthBroker release, administrators can set up the site's mainSiteAlias directly from the hostnames module. (KMS-

28958) This is to support advanced features such as KMS admin login using AuthBroker (KMS-28556)

- **Player V7 - xAPI** - The v7 player events are now also sent as part of the xAPI events. (KMS-28605)
- **Template pages** - Smart hero buttons are now available on the "Text & Counter" hero, allow page owners to show a "register" or "login" button only if registration is turned on or only if the 'coming soon' module allows access. (KMS-28771)

Resolved issues

ID	Description	KMS/KAF Related
KMS-28844	[Accessibility] The "Skip to content" button on Theming pages is now working correctly, and appears with sufficient contrast.	KMS

ADA-136	[Accessibility] Tag search filters drop-down menus are now read correctly by all screen readers.	KMS/KAF
ADA-53	[Accessibility] Captions language in media edit page default icon is now showing in a different color.	KMS/KAF
ADA-48	[Accessibility] Cancel and save buttons on modal box now read as buttons.	KMS/KAF
SUP-35460	Login page - link field configuration now detects relative paths as expected.	KMS

Video Portal & KAF release notes – v5.122.x March 12, 2024

Version: 5.122.x

Date Released: March 12, 2024

What's new?

- **Theming**
  - **Groups & Users** - A new page has been added to the theming set, allowing a list of users to be displayed. You have the option to highlight specific users for any group in the system. This page includes a dedicated Template Pages component, offering two UI options: Carousel for larger groups and Side by Side cards for smaller groups of users. (KMS-28336)
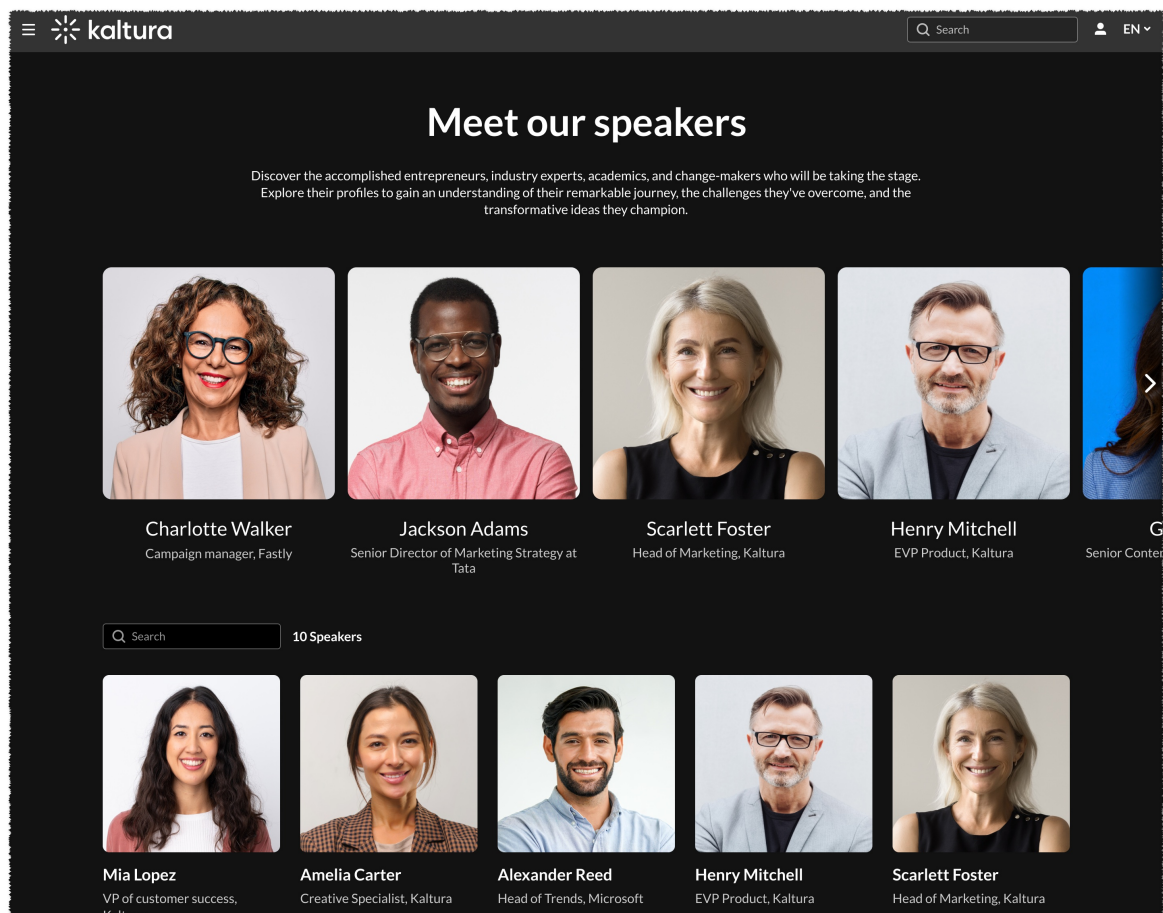

Learn more about the the page in the GroupPage Module and the Group page articles.

- ○ **Choose Search filters** - As part of the new release for the global search theming-based page, a new capability is now available allowing the admins to choose which filters to show. Enter the *search* module to update your settings. (KMS-28780)
- **Partitioned & 3rd Party Cookies** - A new feature will allow end users viewing a *secure embed* to navigate to the video portal in case the embed is in a cross domain situation that requires 3rd party cookies. (KMS-28780)
- **Secure embed & v7 player** - Secure embed codes using the v7 player are now able to use the history module in addition to the basic playback analytics. (KMS-27071)

Resolved issues

ID	Description	KMS/KAF Related
ADA-218	[Accessibility] Update to the navigation 'add new' menu, to behave as a tab panel.	KMS
ADA-145, ADA-585	[Accessibility] The "Toggle sidebar" icon on the global search page is no longer accessible with tab when disabled.	KMS
ADA-546	[Accessibility] Legacy Footer (from *application* module) is now included in landmark.	KMS
ADA-545	[Accessibility] Small correction to the Kaluta Capture download links to make them more human friendly.	KMS/KAF
ADA-542	[Accessibility] Fixed the issue where closing the filter modal overlay navigation to all elements beyond filter and sorting was impaired using keyboard.	KMS/KAF
ADA-202	[Accessibility] KMS admin "Knowledge Base" items are now keyboard accessible.	KMS/KAF
SUP-38145	REACH: Permission to edit captions using captionEditRole will now allow permitted users to edit captions for all content per the permissions given.	KMS/KAF
SUP-41401	The Kwebcast module no longer overrides the 'Q&A Expand on first play' settings. To update the settings, use the player studio.	KMS/KAF
SUP-41049, FEC-13540	Hotspots in playlist now appear correctly for playlists with multiple media types.	KMS/KAF
SUP-40297	Language: The missing msgstr fields in the default.po file were corrected.	KMS/KAF
ADA-198	[Accessibility] KMS admin "Upload CSS" button is now keyboard accessible	KMS/KAF
PSVAMB-50458	An XSS Vulnerability in KMS Admin User Management page was fixed.	KMS
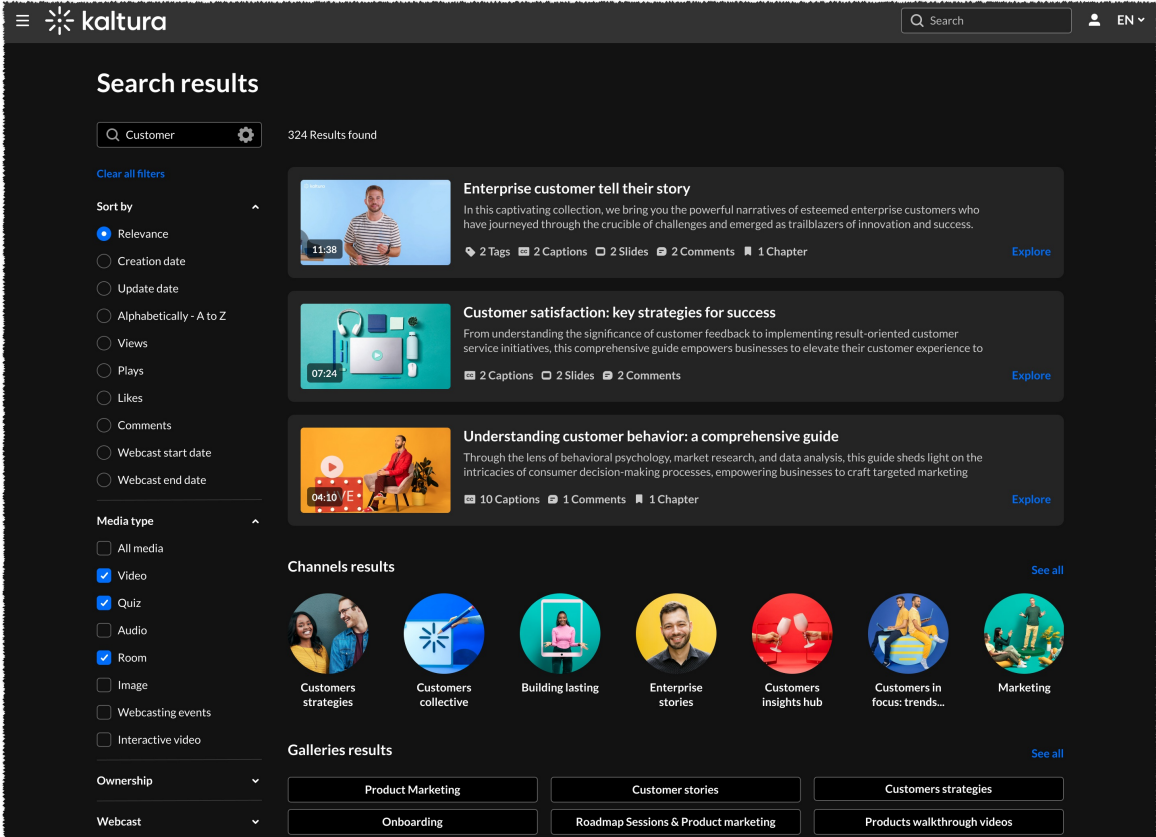

Video Portal & KAF release notes – v5.121.x February 25, 2024

Version: 5.121.x

Date Released: February 25, 2024

What's new?

- **Theming**
  - **Global Search** - The global search page is joining the theming based pages. As always, enable it from the Theming module using the *globalsearch* field. (KMS-27990)

A major change to the UI/UX is the vertical filtering (vs the horizontal filtering in the non-theming page). Learn more about the the page in the Global Search article.

- **Administration login page** - The login page for the KMS/KAF admin section is now a part of the Theming pages. Like all Theming pages, it's enabled from the Theming module, and is connected to the "login" toggle, allowing admins to choose when to use it. (KMS-28574)
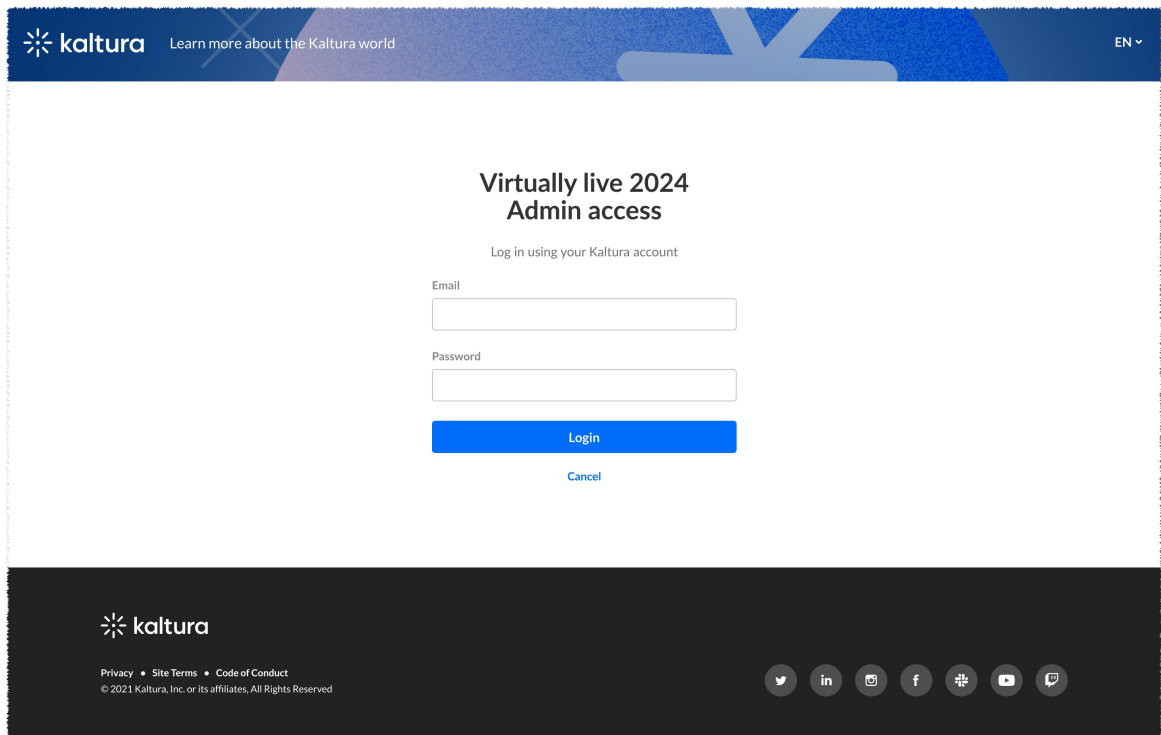

- **Chrome Partitioned Cookies secure embed handling** - As stated on previous releases, a new feature was introduced called "partitioned cookies".
  - In this release, we will be adding an automated support for instances using the secure embed feature, preventing the use of partitioned cookies in cases where the secure embed is set up to open outside of the iFrame (autoRedirectIframe=No) to prevent authentication loop. (KMS-28779)
  - In addition, for secure embed users who are using the authentication in the iFrame (autoRedirectIframe=Yes), a new alert will show to users in case the secure embed iFrame cannot save 3rd party cookies on the current site, allowing users to navigate to the site to view the media on the site. (KMS-28780)
  - Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies.
- **Registration** - Entry registration is now available for meeting room media pages. (SUP-37834)
- **REACH** - Added support for additional languages to the Kaltura catalog. (REACH2-1209)

Resolved issues

ADA-198	[Accessibility] KMS/KAF admin editor module, keyboard support and focus was added to the "Upload CSS" button.	KMS/KAF

Video Portal & KAF release notes – v5.120.x February 6, 2024

Version: 5.120.x

Date Released: February 6, 2024

What's New

- **Chrome Partitioned Cookies automatic support** - As stated on previous release, a new feature was introduced called "partitioned cookies". In this release we will be adding an automated support for KAF instances using the *Kaltura.com* domain, where the Partitioned Cookies will automatically be enabled on page load. (ILMS-636)

  To avoid the use of 3rd party cookies, please follow the instructions the How to avoid the "3rd party cookie" error message in the KAF based LMS Integrations article.

  Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies use with KMS and KAF.
- **Languages** - The application translated language set was updated (KMS-28704)
- **Badges** - Added support for rich text on the badge description. (KMS-28722)

- **Certification** - Added pagination to the certification page (KMS-28528)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-39563	Fixed the issue where viewing channel list for channels with no thumbnails on channels caused an error.	KMS
SUP-41153, SUP-40553	Fields names now change accordingly in the edit profile when changing a different 'fieldTitle' when using DS	KMS/KAF
SUP-40833	The Webhook Confirmation pages are now automatically added to the comingsoon whitelist	KMS
SUP-40736	Text in template pages text hero now fit the size correctly on mobile screen	KMS
SUP-40398	Fixed the issue with the theming upload page with custom metadata autofill	KMS/KAF
SUP-39732	[Path] Update path plugin to player v7 new plugin name, from "rapt" to "playkit-rapt"	KMS/KAF
SUP-39386	[YouTube] Enabled support for Youtube Shorts	KMS/KAF
SUP-34809	Added missing continuous scroll on playlist creation page	KMS/KAF
ADA-195, ADA-194	[Accessibility] Admin Pages "undo" and "Delete" buttons are now keyboard accessible	KMS/KAF

PSVAMB-49331	Fixed the issue where Kaltura capture did not open from mediaSpace for some configurations	KMS
KMS-28362	[Badges] Fixed some design issues with the badges UI	KMS

Video Portal & KAF release notes – v5.119.7x January 23, 2024

Version: 5.119.7x

Date Released: January 23, 2024

What's New

- **Chrome Partitioned Cookies support** - As stated by Google, the Chrome browser will start restricting 3rd party cookies gradually, and is introducing a new feature called "partitioned cookies" (AKA CHIPS). Partitioned cookies should be used when the sites are in a "cross domain" situation. If your KAF URL does not have an alias to match your LMS URL, that is a cross domain situation. To avoid the use of 3rd party cookies, please follow the instructions the How to avoid the "3rd party cookie" error message in the KAF based LMS Integrations article. To turn on the Partitioned Cookies support use the ***usePartitionedCookies*** Field in the Application module. Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies use with KMS and KAF. (KMS-28330)

- **Playlist links** - Continuing the work from previous releases, a new configuration is now available for both Channel playlists and Template Pages playlists, allowing the admin to choose what happens when clicking on "See all" for the playlist. Now admins can choose between going to the playlist player page (with the list of other entries in the playlist) or to the playlist grid page. The new config is available in the Template Pages for custom single playlist only using the ***PlaylistDisplay*** field. For Channel playlists, this feature can be setup from the channelplaylists module, using the ***PlaylistDisplay*** field (KMS-28480, KMS-28407)

- **Documents and Playlists** - Documents can now be added to playlists. The player currently will not display the document entries, but when using the Playlist Grid view, users will be able to see it. In upcoming releases, we will be adding support for document capabilities in the player. (KMS-28409)

- **Admin capabilities**
  - The "/version" URL is now available for guests. (KMS-28616)
  - Tokens can now be used in the email template's subject line (KMS-28393)

Resolved Issues

| ID	Description	KMS/KAF Related
ADA-68	[Accessibility] Added a label for channel playlists	KMS/KAF
ADA-47	[Accessibility] Added an indication when deleting a comment	KMS/KAF
ADA-55	[Accessibility] The home page Back and Previous buttons are now showing on the carousel when zoom is used.	KMS
ADA-70	[Accessibility] Added a more informative alt text for channel carousel image link	KMS
ADA-121	[Accessibility] Contrast button now works properly on the "like" and "info" buttons	KMS/KAF
SUP-38825	Channel members - the issue where group ID was displayed instead of group Name was fixed.	KMS/KAF
SUP-40340	Registration - upon registration by an unregistered user, the user will be sent a dedicated email - unregisteredEmailTemplate template.	KMS
SUP-40574	Fixed the issue where long titles overlapped the description when using the Detailed View inside channel/gallery pages.	KMS/KAF
SUP-40758	The words "Attachment" and "Attachments" in the media page are now translatable.	KMS/KAF

Video Portal & KAF release notes – v5.118.6x January 9, 2024

Version: 5.118.6x

Date Released: January 9, 2024

What's New

- **Theming - Playlist Grid page** - The Playlist grid page, available from the template pages and channel playlist, is now joining the theming based pags. (KMS-28408)
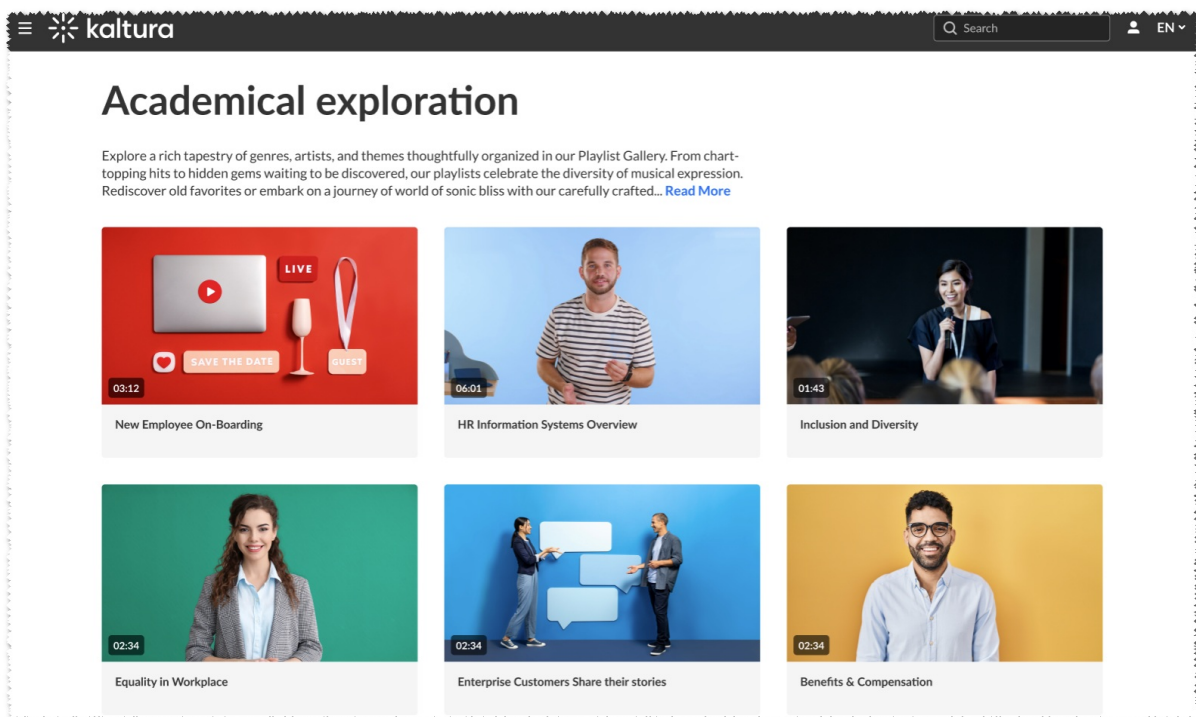

Make sure to turn it on using the **_playlistsgrid_** field on the **_theming_** module

- **Playlist Thumbnail links** - A new configuration is now available in the **_playlistPage_** module, allowing the admin to choose what happens when clicking on a playlist thumbnail links such as the ones in the template pages playlist component for manual playlists, or in the channel playlists. Now, admins can choose between going to the playlist player page (with the list of other entries in the playlist) or to the single media page. Note, that choosing the single media page means that the playlist context is left behind, however, the context of the channel is still kept. (KMS-28499,KMS-28406)

- **Sticky Navigation** - This new feature available for the theming header, allow you to keep the navbar always visible to your users, even on those long pages. Turn it on from the **_stickyNavbar_** field on the **_header_** module. (KMS-28527)

Resolved Issues

ID	Description	KMS/KAF Related
KMS-28557	Language tokens can now be added to the templatePages hero section's CounterDate field	KMS
