## KMS Version 5.142.x December 16, 2024

Version: 5.142.x

**Date Released: December 16, 2024**

What's New

- **'Media I own' filter in My Media** - The updated **Ownership** filter in My Media now allows users to search specifically for content they own, separately from content owned by groups they are in. (KMS-29612)

- **My Media - Bulk publishing** - Another missing piece of the puzzle has been added to Theming-based My Media: the ability to publish multiple media items at once. This feature will be automatically enabled for any instance already using Theming-based My Media.(KMS-27697)

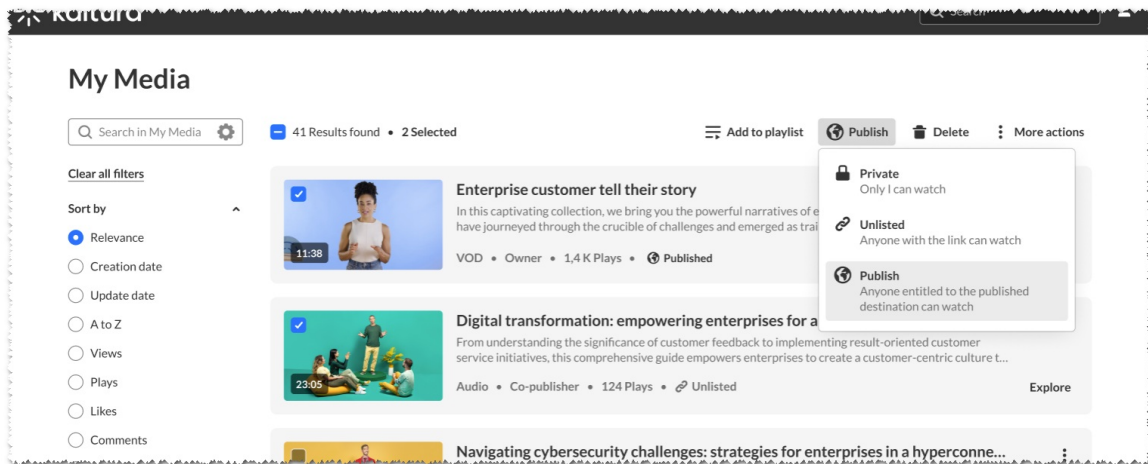

- **'Created from' indicator** - A new indicator, **showCreatedFromIndicator**, is now available for Theming-based media pages. This feature allows admins to display the original content from which media was created, such as clips or quizzes.
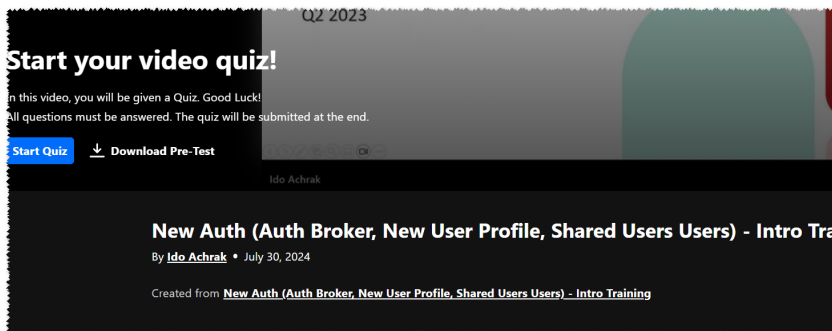

- **Custom Share modal configuration** - The Theming-based **Share** modal box can now be customized, enabling admins to choose which elements to display in the sharing modal on the media page (KMS-29377). This update also introduces new sharing options, including **Line** and **Pinterest**.
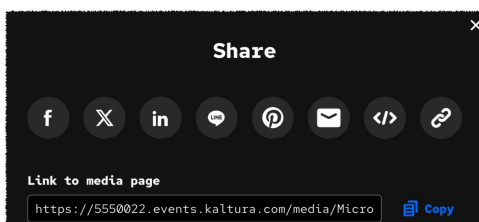

- **Improved Speaker information display** - The UI has been enhanced to display speakers' titles, company, and name in full, eliminating the need for tooltips. This improvement applies to the **Groups components**, **session cards**, and **Profile pages**. (KMS-30509).
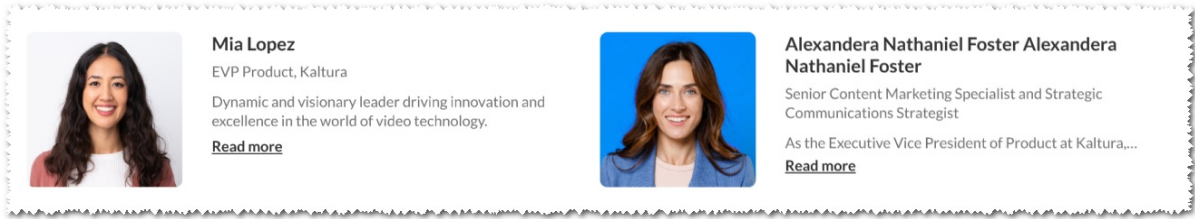

- **Template Pages - Playlist component channel filter** - A new filter has been added to the channel playlist component on template pages. This feature allows page creators to filter channel content, specifying VOD only or other types of content.

Upcoming

- BSE work to provide better BSE embeds in different sizes/aspect ratio on all LMSs. (KMS-30542)
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the Video Portal.

Resolved Issues

ID #	Description	Related app
SUP-45889	The issue where the Theming-based speaker cards modal could not be closed on Apple devices has been resolved.	KMS
SUP-45849	[Canvas] The reason causing the API errors on discussion pages with more than one group was fixed.	KAF

ADA-1430	Added visible labels for the playlist creation text fields.	KMS/KAF
ADA-1147	Better announcing of the position of the list item for the top right navigation items.	KMS

KMS Version 5.141.x December 02, 2024

Version: 5.141.x

Date Released: December 2, 2024

What's New

- **Theming-based Channel moderation (DS)** - (Available in Video Portal and KAFs) - The moderation page for channels is now available with Theming-enabled channels. This feature allows the channel owner to review content submitted by

---

other users, and decide whether to approve or decline the publication of it to their channel. Any instance with Theming enabled for channels with channel moderation already activated will automatically receive the new page. To learn more, explore our articles Channel Moderation - Theming and Moderate Media Gallery Content - Theming.(KMS-30102)
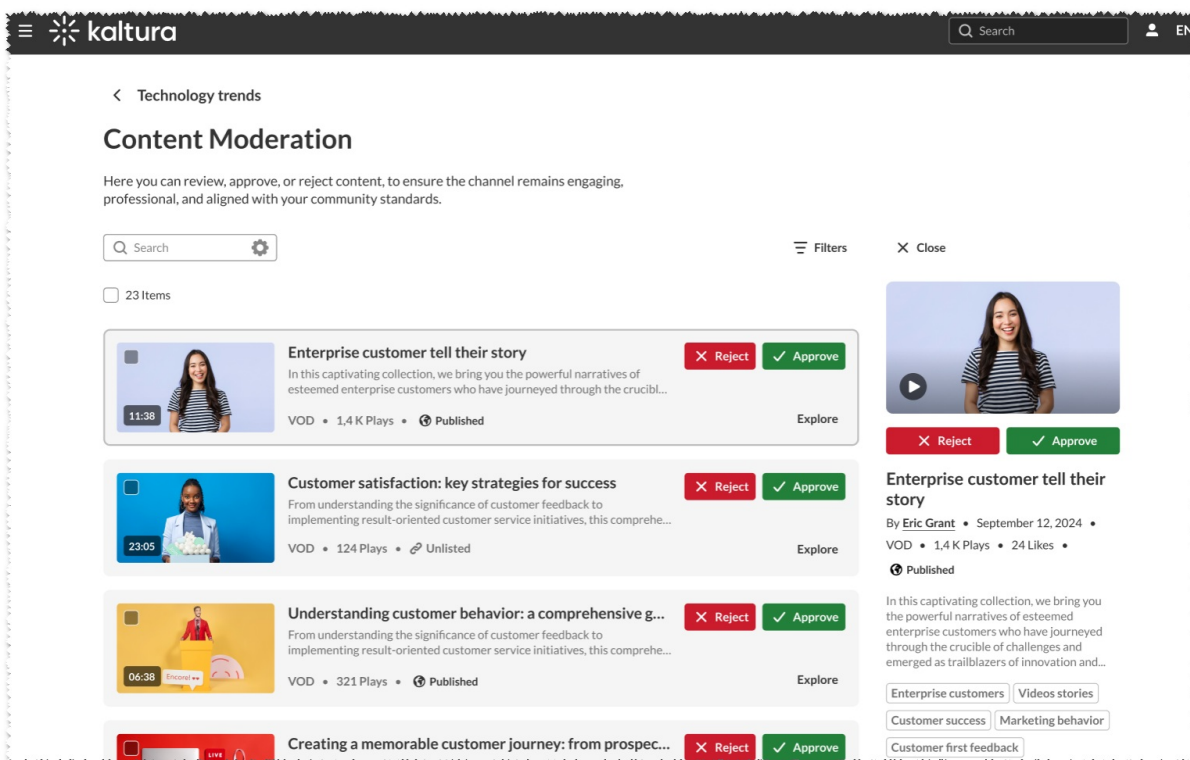

- **Secure embed - Support for third-party cookies - Authentication via Pop-up** (Available in Video Portal) - To better support instances with IDPs that do not allow the auth page to be loaded in an iFrame, we've updated the flow for configuring `autoRedirectIframe` (set to "no" to open the auth in a new tab).

  Previously, this flow could break due to third-party cookies being blocked or incorrect referrer settings. With this update, authentication will now occur in a pop-up. This resolves both issues, ensuring that users with blocked third-party cookies can log in directly from the page where the embed is located. (KMS-30433)

- **Theming-based Publish - Added icons for category types** - Icons have been added to indicate category types (channel or gallery) when publishing content. This improvement makes it easier to identify where your content is being published at a glance. (KMS-29111)

Upcoming

- Ability to control elements on the Theming-based sharing modal loaded on the media page.
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
4736	Fixed the issue in D2L where BSE embeds of youtube entries were replaced with newer ones.	KAF
KMS-29980	Theming based Session page - Fixed the issue where the high/low letters in the hero banner's session name appear cut.	KMS/KAF
SUP-45461	resolved the issue where special char in the application title caused Webhook registration emails Registrations to not be sent.	KMS
SUP-45176	Fixed the issue where supportSecureEmbed setting was ignored for the user's resumes playback	KMS
SUP-43410	xAPI Statements are now sent successfully for Secure Embeds	KMS
SUP-45601	Added support for HTML on the Multi-Auth login page description	KMS
SUP-45571	Added support for Chinese traditional/simplified for the CnC legal text	KMS
SUP-45254	Analytics is now available for Co-Editor when using the Theming based media page	KMS/KAF
SUP-45054	Fixed the issue where a broken thumbnail appears for channels with no media	KMS

SUP-44658	Channel playlists from restricted channels, will now redirect users to login first.	KMS
SUP-44630	The thumbnails for media in the BSE are now showing in the correct proportions.	KAF
SUP-41356	Fixed the issue in the embedded playlist player's (v2) message at top that was hiding some playback controls.	KMS
SUP-44749	Document - Playlist with only documents now load correctly on the dedicated player.	KMS/KAF

Resolved Accessibility Issues

ID #	Description	Related app
ADA-1317	Made adjustments to the Kaltura Video Editing Tools (KEA) to better support %400 zoom.	KMS/KAF
ADA-2001	Theming based media page - Ensure aria-controls properties are pointing to a valid ID	KMS/KAF

ADA-1692	Added empty alt (alt='') for channel thumbnail links images, and made sure that the links are properly announces.	KMS
ADA-1691	Aria-labels instructions of the channel thumbnail links are now translatable to other languages ("link to /channel-name/")	KMS
ADA-1613	Tabbing sequence in the header was adjusted	KMS
SUP-45203	Theming based session card - fixed the outline of keyboard focus	KMS/KAF

KMS Version 5.140.x November 18, 2024

Version: 5.140.x

Date Released: November 18, 2024

What's New

- **Theming-based Channel moderation (DS)** - Will be available next release.
- **Theming My Media (DS) - Publish single media action** (Available in Video Portal and KAFs) - Now content owners can publish individual content items from their DS-based My Media (KMS-28910).

- **Translations** - Translation assets have been updated for all supported languages, incorporating translations for new phrases and text added since the last language update. (KMS-30398)

- **Document Replacement** (Available in Video Portal and KAFs) - Media of type 'Document' can now be replaced using the replaceMedia feature set. This allows owners to update a document with corrections without the need to create a new media entry. (PSVAMB-70983)

Upcoming

- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.
- **Theming-based Channel moderation (DS)** - (Available in Video Portal and KAFs) - The moderation page for channels will soon be available with the Theming channels. Channel moderation allows the channel owner to go over content added to the channel by other users, and decide whether to approve or decline the publication of it to their channel.
  Any instance with Theming enabled for channels with channel moderation already activated will automatically receive the new page. (KMS-30102)
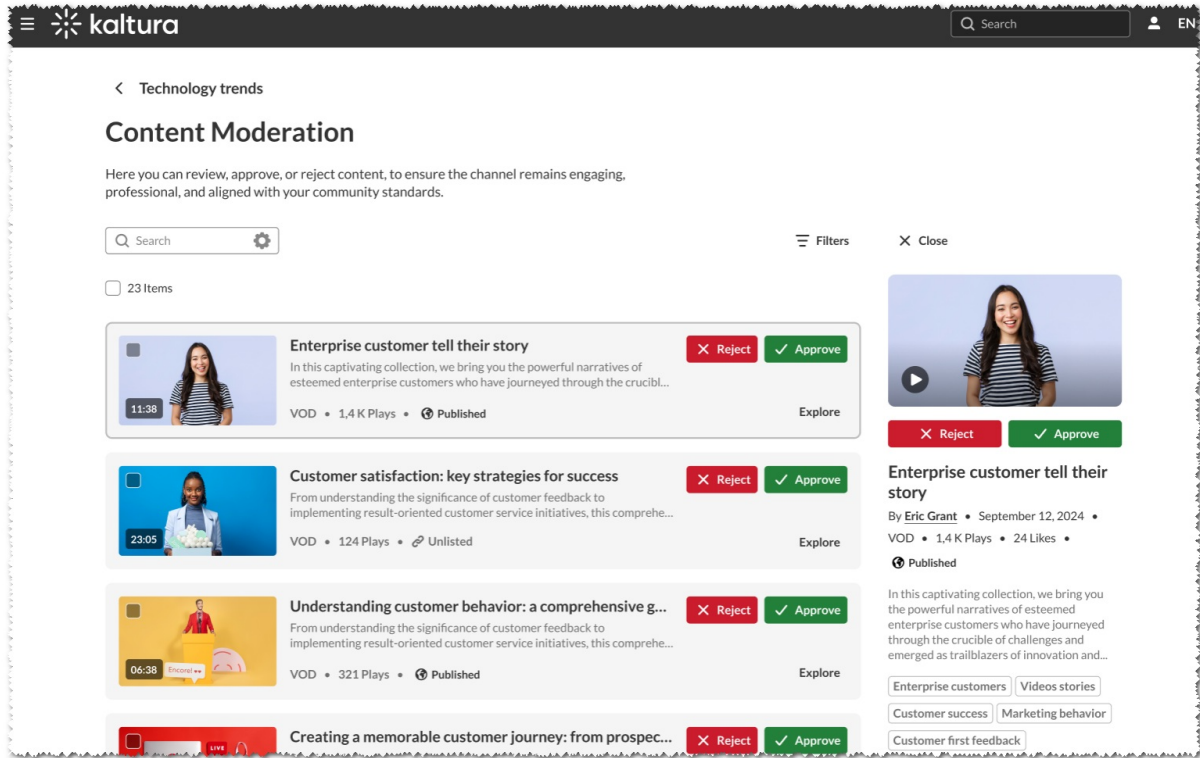

Resolved Issues

ID #	Description	Related app
SUP-45414	Thumbnails for live sessions will get the raw thumbnail presenting a clear image.	KMS/KAF
SUP-45203	Theming based Session card (DS) buttons border fix to show correctly.	KMS/KAF
SUP-45135	Media Gallery playlist now support more than 30 items per playlist.	KAF
SUP-45099	Lecture capture auto login from the application to the KMS using multi auth SSO issue was resolved.	KMS
SUP-45081	Updated the links shared from the Share modal, to support videos with apostrophe (') in the title.	KMS
SUP-44749	fixed the issue where playlists with documents only did not load unless specific entry is requested.	KMS
SUP-43504	Fixed the issue with the theming based header, where if used with gallery with many sub galleries, the scroll bar behavior not persistent.	KMS

Resolved Accessibility Issues

ID #	Description	Related app
ADA-1960	Channel tooltip for the Channel Actions button now changes language accordingly.	KMS/KAF
ADA-1690	Added the missing role for the logout List element.	KMS

KMS Version 5.138.x November 4, 2024

Version: 5.138.x

**Date Released: November 4, 2024**

What's New

- **Template pages - Sessions component** (available for Kaltura Events) - This new component for template pages allow event owners to show sessions from the channel's agenda or from a dedicated playlist. This new component will allow event managers to place a list of sessions in the form of an agenda on their template pages, whether homepages, landing pages, or Coming Soon pages. Currently only available on custom Kaltura Events templates, it will be available to configure from Kaltura Events in the upcoming weeks. Learn more in the template page article.
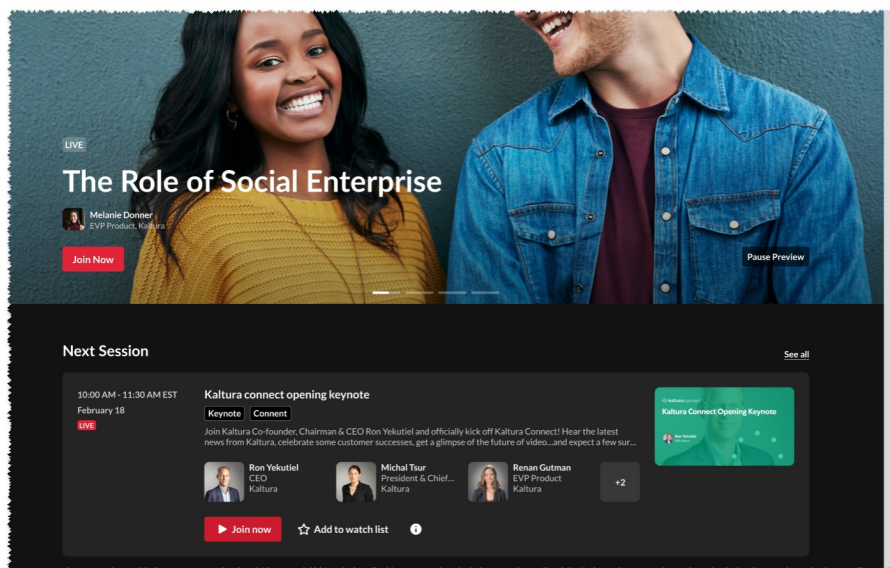

- **Media page speakers location** - On the Theming-based media page, the speakers component will now show above the custom data. This will not affect any instances where custom metadata is not in use, and will provide better visibility of the speakers for instances where it does. (KMS-29599)
- **Gallery moderation and permissions** - To enhance the gallery offering, we have cloned a few features from the channels to the galleries:
  - **Gallery moderation** - This allows admins to choose the default moderation status for newly created galleries, and to disable the ability to remove the moderation by gallery owners. (KMS-30179)
  - **Creation of galleries** - Admins can now choose what the roles are and who can

create new sub-galleries. (KMS-30180)

- **Session cards** (available in Kaltura Events & Video Portal) - (Correction from previous release, this feature release was 5.138.x, and not the previous version.) The new Theming module session cards display scheduled sessions in different locations, such as the channel page, the template pages, and more. We have enhanced these cards in two ways:
    - The "Join Now" button will now update automatically when the event starts, without needing to refresh the page. Admins can also set a specific time before the event begins for the "Add to Calendar" button to automatically change to "Join Now," allowing users to join ahead of the start time.
    - Speaker information will now be visible directly on the session page, eliminating the need to navigate to the speaker's profile. This applies to speaker icons on media pages as well, and users can view this information without logging in.
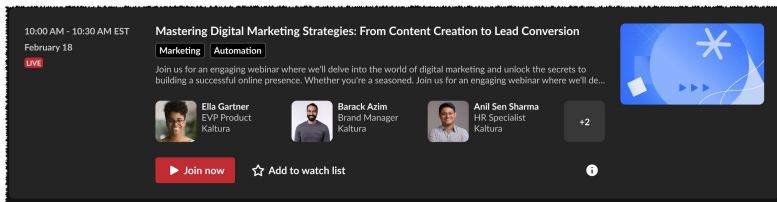

- **AuthBroker Role Mapping** - We have added to the AuthBroker module support for mapping of KMS roles based on multi values lookup in addition to the singular fields support that already exists. (KMS-30311)

Upcoming

- **Theming-based Channel moderation** - (available in Video Portal and KAF) - The moderation page for channels will soon be available as part of Theming. This feature allows channel owners to review content added by other users before publishing it, and choose whether to approve or decline it. Instances with Theming already enabled for channels, and with channel moderation enabled, will automatically receive the new page.
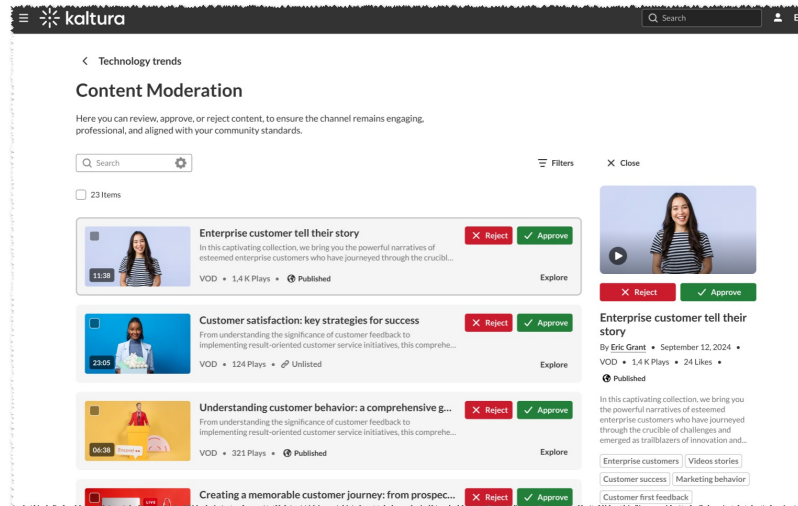

- **Document entry** - Replacement of document entry is now available from the media editing page. Learn more about document entries in our article View and manage a document entry. (PSVAMB-70192)
- New auth method allowing quicker access to the event sites.
- New Kaltura room with chat and interactions in the video portal.

Resolved Issues

ID #	Description	Related app
SUP-45224	Fixed the issue where unlisted media could not be published due to wrong custom metadata restrictions.	KMS
SUP-44900	Read more CTA text is now visible correctly on all screen sizes.	KMS/KAF
SUP-44829	The small thumbnails in a non-Theming-based room lobby now show as expected.	KMS

Resolved Accessibility Issues

ID #	Description	Related app
KMS-29326	Added the missing keyboard focus for all buttons and elements where it was missing.	KMS/KAF

KMS Version 5.137.x October 22, 2024

Version: 5.137.x

Date Released: October 22, 2024

What's New

- **Session cards** (available in Kaltura Events & Video Portal) - Please note that this feature was introduced on this version accidentally, and it is actually released in version 5.138.x.
- **Template pages - Banner component** (available in Kaltura Events & Video Portal) - A new setting has been added to the banner component, allowing admins to choose whether the CTA (Call to Action) opens in a new tab or the same tab.

Upcoming

- A new component for template pages is coming up, that will show sessions from the channel's agenda.
- The Theming-based "channel moderation" page, that allows channel owners to moderate content before presenting it on the channel.

Resolved Issues

KMS Version 5.133.x August 26, 2024

Version: 5.133.x

Date Released: August 26, 2024

What's New?

- **Accessibility** - As part of our Q3 efforts and in preparation for the VPAT, we are releasing the next batch of Core a11y accessibility fixes for DS (Theming Module).

- **iCal invite post webhook registration -** While iCal (Calendar invite) already exists for post-registration and post-invitation, admins can now send a calendar invite post-webhook registration (KMS-29944).

- **Template pages - Texts and bullets:** Admins can now choose for the text component on template pages *not* to be centered by default. Additionally, we've resolved an alignment issue with bullet points and numbering. (KMS-29597)

- **Theming based channel banner reset -** Admins can now revert the channel banner to its default with a single click on the channel edit page. (PSVAMB-62811)

- **Attachments links** - Added the `target="_blank"` to the attachments links, ensuring they open in a new tab. (KMS-29665)

- **REACH Task ID** - We have added the task ID in the request details for our users' convenience. (REACH2-1233)

- **Landing page -** The recently released 'landing page' feature is now updated to use Templatepages instead of Custompages. This change simplifies the setup and eliminates any confusion. To re-enable, admins should re-select the pre-created template page. (KMS-29647)

Upcoming

- More accessibility work! Stay tuned for more updates.

Resolved Issues

ID #	Description	Related app
KMS-29693	Text in tags in the registration page is now showing correctly.	KMS
SUP-38945	Media published to a channel's playlist is now removed from the unlisted category	KMS
SUP-40608	Faster "My content analytics" page load.	KMS/KAF
SUP-41583	Secure Embed - Embedded Video now has resume playback	KMS
SUP-41699	Removed the KS from v7 oEmbed code	KMS
SUP-42881	Channel Privacy settings will now show grayed out for managers who do not have sufficient creation privileges.	KMS

KMS Version 5.132.x August 12, 2024

Version: 5.132.x

Date Released: August 12, 2024

What's New?

- **Accessibility** - First batch of Core a11y fixes for Theming-based elements and pages have been released.

- **New filter - External applications** - Once enabled,Content owners using the new theming my-media (DS) can now filter by external applications in My-media, allowing them to see how their content is used in other applications. If you haven't used this feature yet, you can enable it from the categories module (KMS-29374). This is particularly useful when you have multiple instances, such as a KMS video portal and a KAF integration in an LMS, enabling the customer to see where each media is used within all apps.
- **Moodle 4.4 release** - A new Moodle plugin version to support Moodle 4.4 has been released. As a part of this version, we fixed several known bugs. The plugin supports Moodle versions 4.1(LTS), 4.2, 4.3, and 4.4. (ILMS-637)
- **Load more in Channel playlists** - In Theming-based channels, a 'Load More Playlists' button will appear when there are many playlists. This feature helps to speed up the channel's loading time. (KMS-29048)
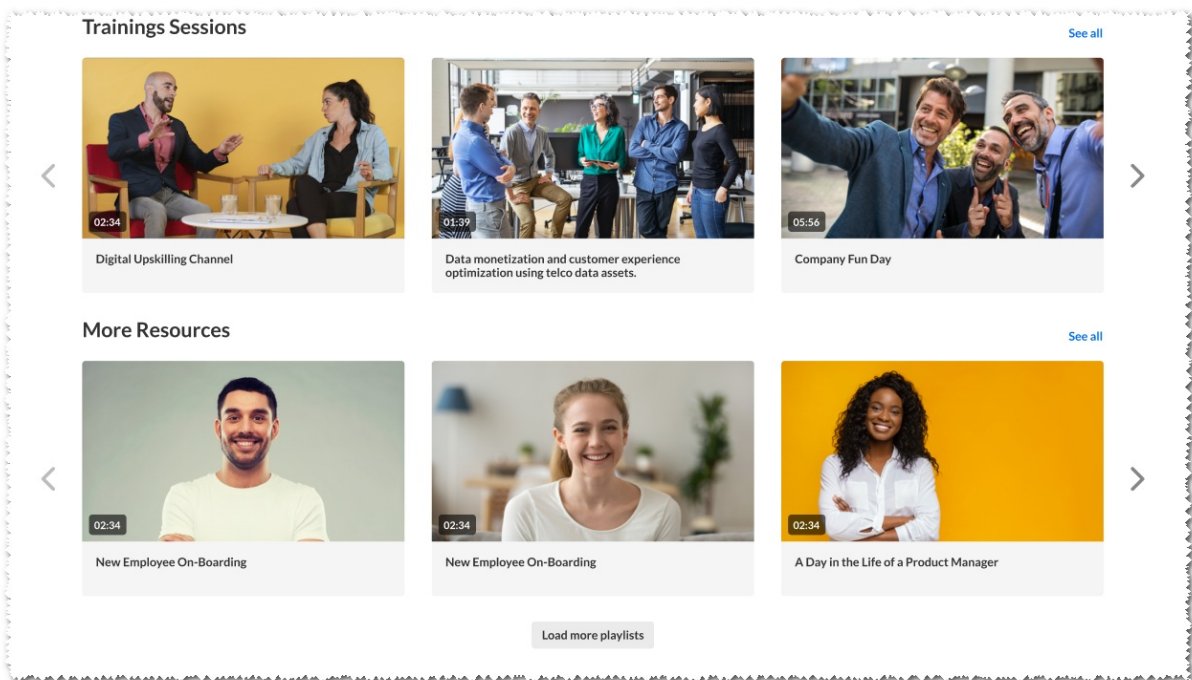

- **REACH Task ID** - We have added the task ID in the request details for our users' convenience. (REACH2-1233)

Upcoming

- More accessibility enhancements on Theming pages!

- **Landing page -** The recently released 'landing page' feature will be updated to use Templatepages instead of Custompages. This change simplifies the setup and eliminates any confusion. To re-enable, admins should re-select the pre-created template page. (KMS-29647)

KMS Version 5.131.x July 29, 2024

Version: 5.131.x

Date Released: July 29, 2024

What's new?

- **Theming-based My Media** and **Publish** - The **My Media** page is the latest to join the long list of Theming-based pages. In addition to the slick new UI, the page contains new vertical filters (the same as used in the Global search page), a new Explore section, and new bulk capabilities, allowing owners to change ownership

and collaborators in one bulk action. See our article My Media - Theming for more information.

Additionally, the new My Media page also features an updated UI for **Publishing** capabilities. Now available on both **My Media** and the single media pages, the UI provides a quicker way to change and view publishing statuses.

You can turn on the new feature from the **Theming module.** See Publish media - Theming for more information.
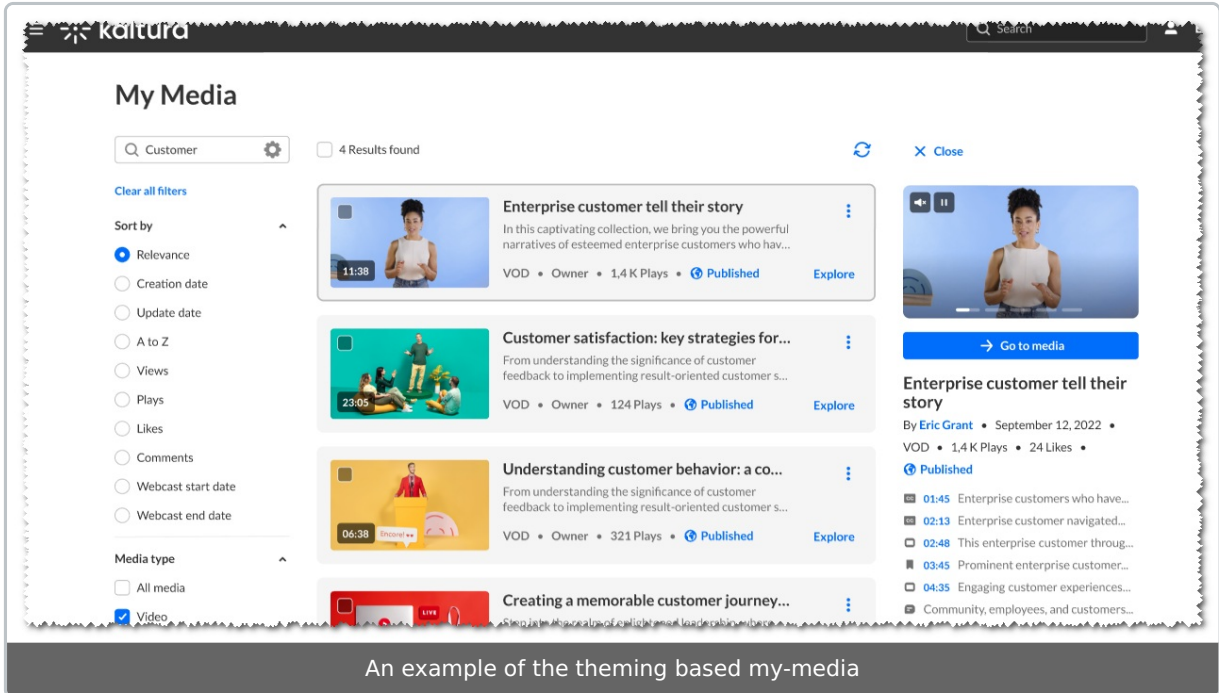

An example of the theming based my-media

The new publishing capability will automatically appear on the media page if you're already using the Theming-based single media page, as shown below:
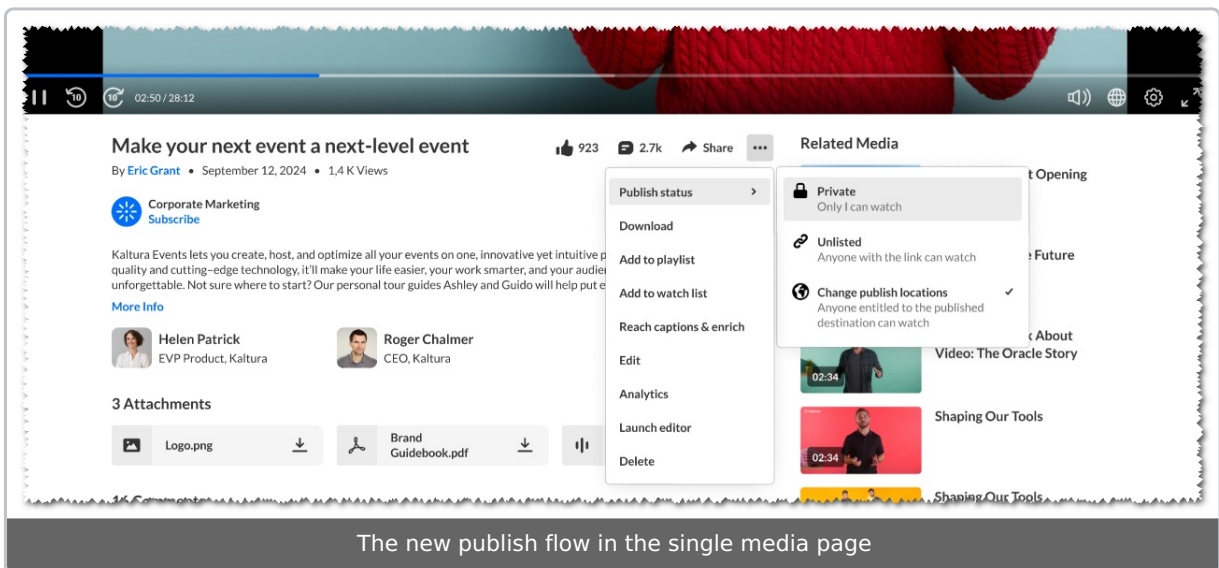

The new publish flow in the single media page

- **Template pages, Registration component** - An adjustment to the component now allows the registration to open on the template page, and not the "/register" page. (KMS-29730)
- **Registration page** - All drop-down fields now have a search function in them, allowing users to search for the right value. (KMS-28644)

KMS Version 5.130.x July 16, 2024

Version: 5.130.x

Date Released: July 16, 2024

What's new?

- **Landing page** - We are making some changes to the landing page. Please note that if you turned it on, you will need to re-enable it. (KMS-29664) The changes are:
  - Configuration UI was changed to a single landing page only.
  - Replaced the option to choose a custom page with a template page.
- **Express Capture** - Added a config to allow removing the "download a copy" button from the UI. (PSVAMB-62305)

What's cooking?

- Theming-based Publishing combined with a new Theming-based My Media page. Stay tuned for the official release date.

KMS Version 5.128.x June 23, 2024

Version: 5.128.x

Date Released: June 23, 2024

What's new?

- **Publish** - Previously, if a collaborator published your content in a channel or category you didn't have access rights to, you couldn't unpublish it. Now, as part of our theming-based publishing updates, you can unpublish your media from any category or channel.(KMS-26945)
- **Multiple homepages and a new landing page** -This new feature in the **navigation** module allows admins to select a dedicated landing page for guests. Previously, guests would see either the login page or the same home page as all users, depending on the authentication settings. Now, you can create a specific page just for guests. For logged-in users, multiple homepages are available based on user groups. Different groups will see homepages tailored to their specific needs. See Navigation module fo more information. (KMS-28907).
- **Channel Subscription** - Admins can now choose to enable Channel Subscription by default for all channels from the Channelsubscription module. (KMS-29021)

KMS Version 5.125.x May 6, 2024

Version: 5.125.x

Date Released: May 6, 2024

What's new?

- **Navigation - new custom page navbar item -** Admins are now able to connect the custom/template pages to the navbar and control the navbar item directly from the page itself using the page's published status. (KMS-28962)
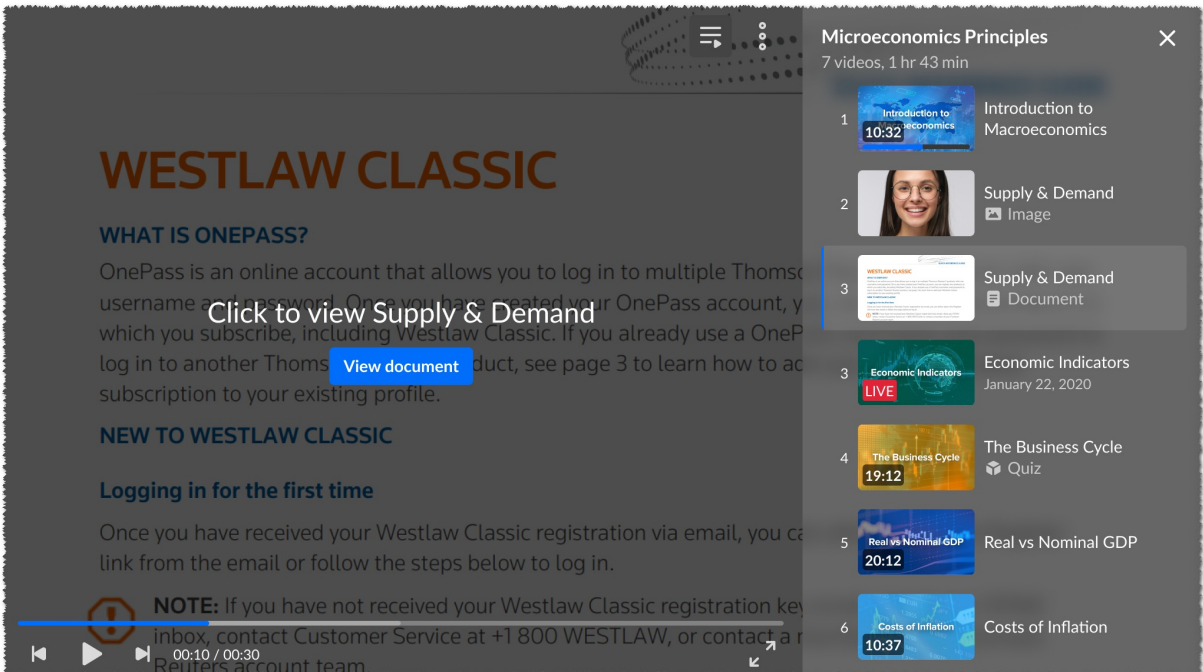

- **Playlist + Document entry -** For administrators who choose to enable it, the playlist player can now show document entries. The player shows the link to the Video Portal where the document can be viewed outside of the playlist. (KMS-28646)

- **Template pages analytics** - A new field *heroPlayerAnalytics* in the templatepages module now allows administrators to disable the player analytics on the template pages hero banner. (Note that the default is 'off'.) (KMS-28981)

ADA-219	[Accessibility] Tab interface on edit entry page is now keyboard accessible.	KMS/KAF
ADA-159	[Accessibility] Focus on elements now has better visibility in FireFox.	KMS/KAF
ADA-50	[Accessibility] Both the thumbnail and title on a media card are now accessible and clickable.	KMS/KAF

KMS Version 5.123.x March 26, 2024

Version: 5.123.x

Date Released: March 26, 2024

What's new?

- **Theming in KAF - Single Media & Media Gallery pages** - Both KAF's 'Single Media' and 'Media Gallery' pages have been added to the Theming set, allowing administrators to set up their KAF/LMS with the theming-based capabilities. (ILMS-622)
  In addition to the new visual appearance of the page, the media gallery comes with a new capability allowing admins and course owners to add a header on top of the page:
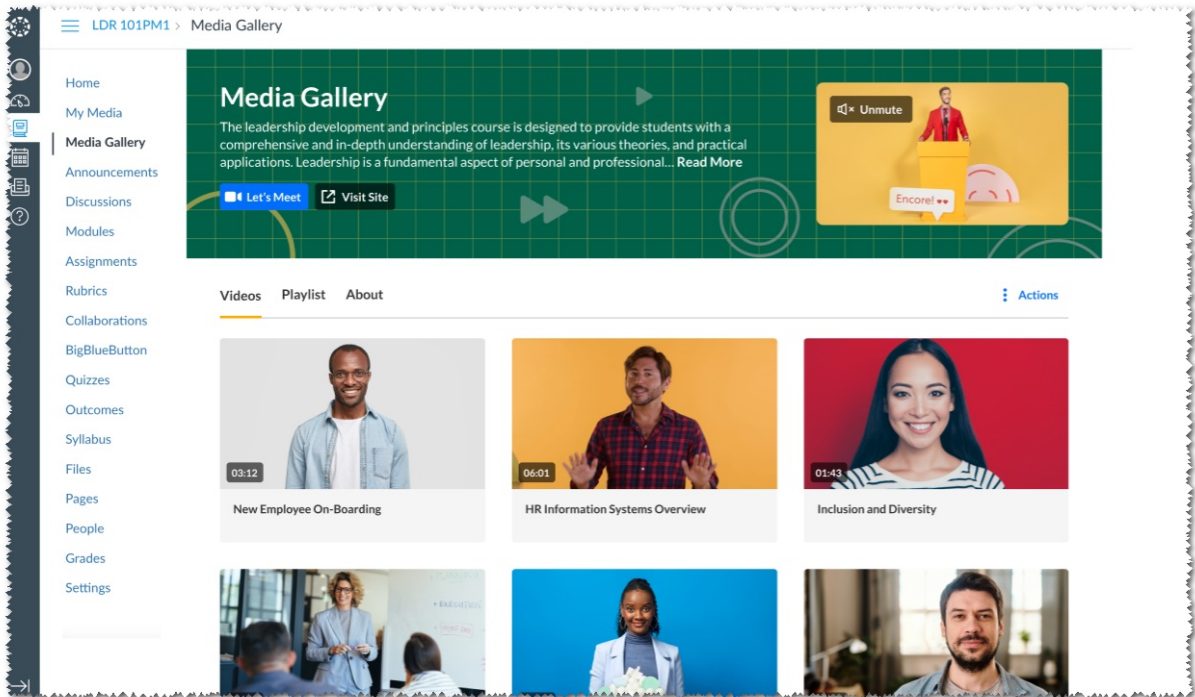

The media page now includes a "back" button to enhance user navigation within the app:
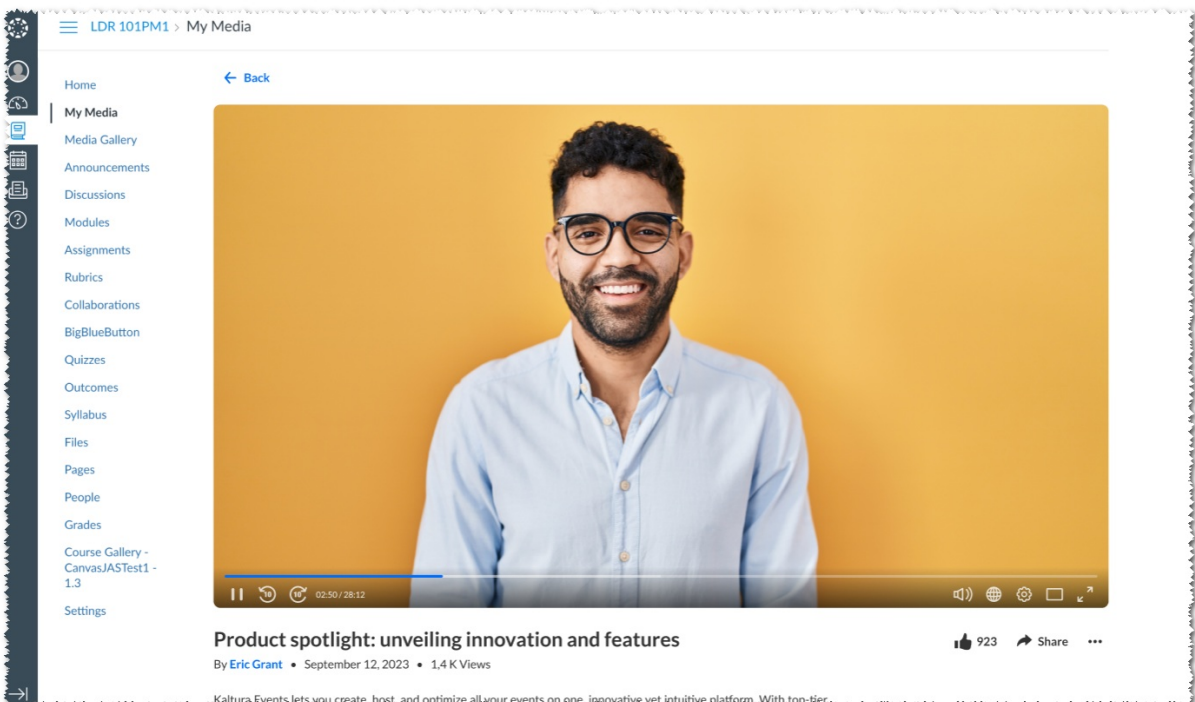

- **Hostnames module** - With the preparation for AuthBroker release, administrators can set up the site's mainSiteAlias directly from the hostnames module. (KMS-28958) This is to support advanced features such as KMS admin login using AuthBroker (KMS-28556)
- **Player V7 - xAPI** - The v7 player events are now also sent as part of the xAPI events. (KMS-28605)

- **Template pages** - Smart hero buttons are now available on the "Text & Counter" hero, allow page owners to show a "register" or "login" button only if registration is turned on or only if the 'coming soon' module allows access. (KMS-28771)

Resolved issues

ID	Description	KMS/KAF Related
KMS-28844	[Accessibility] The "Skip to content" button on Theming pages is now working correctly, and appears with sufficient contrast.	KMS
KMS-28858	[Accessibility] Template pages - playlist component - tab focus on a thumbnail acting as a link is now on, covering the whole thumbnail.	KMS
ADA-593	[Accessibility] The 'Upload completed' message is read correctly using aria-alert.	KMS/KAF
ADA-589	[Accessibility] We have added missing aria labels to the KMS admin search bar.	KMS/KAF
ADA-588	[Accessibility] We have added missing aria labels to the channel's table view button.	KMS/KAF
ADA-579	[Accessibility] KMS admin red delete button color was adjusted to provide better contrast.	KMS/KAF
ADA-575	[Accessibility] KMS admin dropdown focus indicator is now clearly visible.	KMS/KAF
ADA-573	[Accessibility] KMS admin checkbox focus indicator is now clearly visible.	KMS/KAF
ADA-571	[Accessibility] KMS admin module titles are not marked as headings (h2).	KMS/KAF
ADA-570	[Accessibility] KMS admin Modules menu now indicates current page link to SR.	KMS/KAF
SUP-41075	The issue in the KMS admin Manage Users page, where user's roles appeared not to show due to column width, has been fixed.	KMS/KAF
SUP-41321	The issue with some registration statuses for attendees, where users did not get the 'participated' status due to server time difference, was resolved.	KMS
ADA-555	[Accessibility] Footer landmark was added to the footer.	KMS
ADA-547	[Accessibility] Rich text editor in edit/upload tooltips now shows when tabbing too.	KMS/KAF
ADA-314	[Accessibility] Fixed the issue where NVDA announced two roles for the "Show more" button in non-theming-based search.	KMS
ADA-171	Very long filters in non-theming-based search now display correctly.	KMS/KAF
ADA-167, ADA-163	[Accessibility] Contrast for non-textual icons was increased (min 3:1).	KMS/KAF
ADA-166	[Accessibility] Increased the contrast of the "x results found" text in non-theming-based search.	KMS/KAF
ADA-162	[Accessibility] Inactive tabs on media page now have sufficient contrast.	KMS/KAF

ID	Description	KMS/KAF Related
ADA-150	[Accessibility] My Playlist - aria-controls attribute now point to an element in the same document as expected.	KMS/KAF
ADA-136	[Accessibility] Tag search filters drop-down menus are now read correctly by all screen readers.	KMS/KAF
ADA-53	[Accessibility] Captions language in media edit page default icon is now showing in a different color.	KMS/KAF
ADA-48	[Accessibility] Cancel and save buttons on modal box now read as buttons.	KMS/KAF
SUP-35460	Login page - link field configuration now detects relative paths as expected.	KMS

KMS Version 5.122.x March 12, 2024

Version: 5.122.x

Date Released: March 12, 2024

What's new?

- **Theming**
  - **Groups & Users** - A new page has been added to the theming set, allowing a list of users to be displayed. You have the option to highlight specific users for any group in the system. This page includes a dedicated Template Pages component, offering two UI options: Carousel for larger groups and Side by Side cards for smaller groups of users. (KMS-28336)
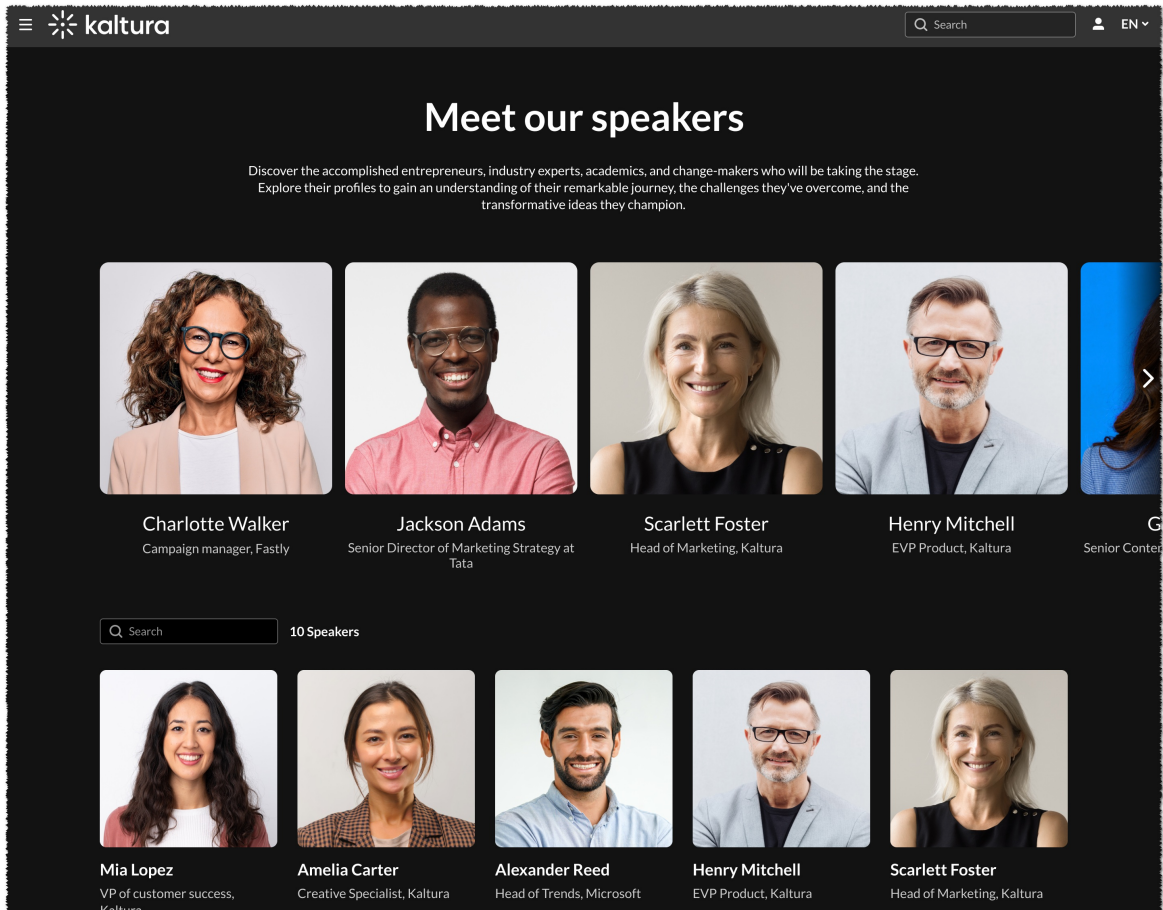

Learn more about the the page in the GroupPage Module and the Group page articles.

- Choose Search filters - As part of the new release for the global search theming-based page, a new capability is now available allowing the admins to choose which filters to show. Enter the *search* module to update your settings. (KMS-28780)

- **Partitioned & 3rd Party Cookies** - A new feature will allow end users viewing a *secure embed* to navigate to the video portal in case the embed is in a cross domain situation that requires 3rd party cookies. (KMS-28780)

- **Secure embed & v7 player** - Secure embed codes using the v7 player are now able to use the history module in addition to the basic playback analytics. (KMS-27071)

Resolved issues

ID	Description	KMS/KAF Related
ADA-218	[Accessibility] Update to the navigation 'add new' menu, to behave as a tab panel.	KMS
ADA-145, ADA-585	[Accessibility] The "Toggle sidebar" icon on the global search page is no longer accessible with tab when disabled.	KMS
ADA-546	[Accessibility] Legacy Footer (from *application* module) is now included in landmark.	KMS
ADA-545	[Accessibility] Small correction to the Kaluta Capture download links to make them more human friendly.	KMS/KAF
ADA-542	[Accessibility] Fixed the issue where closing the filter modal overlay navigation to all elements beyond filter and sorting was impaired using keyboard.	KMS/KAF
ADA-202	[Accessibility] KMS admin "Knowledge Base" items are now keyboard accessible.	KMS/KAF
SUP-38145	REACH: Permission to edit captions using captionEditRole will now allow permitted users to edit captions for all content per the permissions given.	KMS/KAF
SUP-41401	The Kwebcast module no longer overrides the 'Q&A Expand on first play' settings. To update the settings, use the player studio.	KMS/KAF
SUP-41049, FEC-13540	Hotspots in playlist now appear correctly for playlists with multiple media types.	KMS/KAF
SUP-40297	Language: The missing msgstr fields in the default.po file were corrected.	KMS/KAF
ADA-198	[Accessibility] KMS admin "Upload CSS" button is now keyboard accessible	KMS/KAF
PSVAMB-50458	An XSS Vulnerability in KMS Admin User Management page was fixed.	KMS

KMS Version 5.121.x February 25, 2024

Version: 5.121.x

Date Released: February 25, 2024

What's new?

- **Theming**
  - **Global Search** - The global search page is joining the theming based pages. As always, enable it from the Theming module using the *globalsearch* field. (KMS-27990)
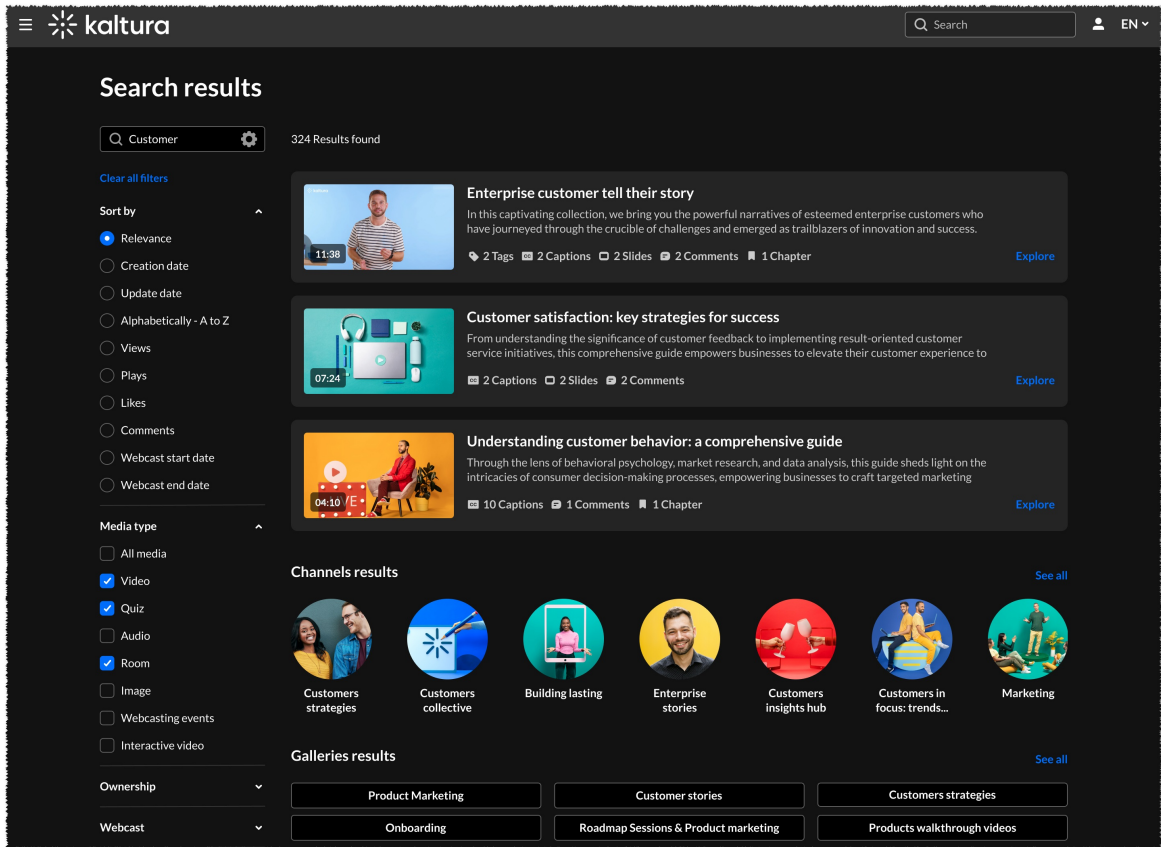

A major change to the UI/UX is the vertical filtering (vs the horizontal filtering in the non-theming page). Learn more about the the page in the Global Search article.

- **Administration login page** - The login page for the KMS/KAF admin section is now a part of the Theming pages. Like all Theming pages, it's enabled from the Theming module, and is connected to the "login" toggle, allowing admins to choose when to use it. (KMS-28574)
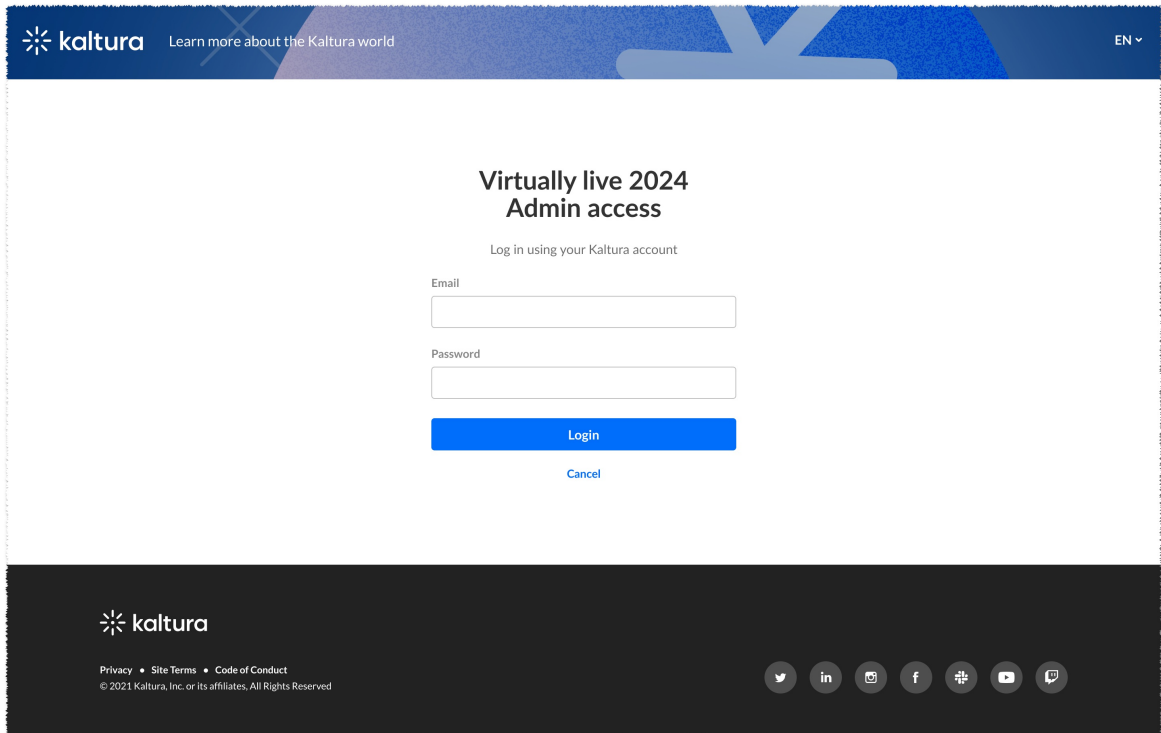

- **Chrome Partitioned Cookies secure embed handling** - As stated on previous releases, a new feature was introduced called "partitioned cookies".
  - In this release, we will be adding an automated support for instances using the secure embed feature, preventing the use of partitioned cookies in cases where the secure embed is set up to open outside of the iFrame (autoRedirectIframe=No) to prevent authentication loop. (KMS-28779)
  - In addition, for secure embed users who are using the authentication in the iFrame (autoRedirectIframe=Yes), a new alert will show to users in case the secure embed iFrame cannot save 3rd party cookies on the current site, allowing users to navigate to the site to view the media on the site. (KMS-28780)
  - Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies.
- **Registration** - Entry registration is now available for meeting room media pages. (SUP-37834)
- **REACH** - Added support for additional languages to the Kaltura catalog. (REACH2-1209)

KMS Version 5.120.x February 6, 2024

Version: 5.120.x

Date Released: February 6, 2024

What's New

- **Chrome Partitioned Cookies automatic support** - As stated on previous release, a new feature was introduced called "partitioned cookies". In this release we will be adding an automated support for KAF instances using the *Kaltura.com* domain, where the Partitioned Cookies will automatically be enabled on page load. (ILMS-636)
  To avoid the use of 3rd party cookies, please follow the instructions the How to avoid the "3rd party cookie" error message in the KAF based LMS Integrations article.
  Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies use with KMS and KAF.
- **Languages** - The application translated language set was updated (KMS-28704)
- **Badges** - Added support for rich text on the badge description. (KMS-28722)
- **Certification** - Added pagination to the certification page (KMS-28528)

Resolved Issues

PSVAMB-49331	Fixed the issue where Kaltura capture did not open from mediaSpace for some configurations	KMS
KMS-28362	[Badges] Fixed some design issues with the badges UI	KMS

KMS Version 5.119.7x January 23, 2024

Version: 5.119.7x

Date Released: January 23, 2024

What's New

- **Chrome Partitioned Cookies support** - As stated by Google, the Chrome browser will start restricting 3rd party cookies gradually, and is introducing a new feature called "partitioned cookies" (AKA CHIPS). Partitioned cookies should be used when

the sites are in a "cross domain" situation. If your KAF URL does not have an alias to match your LMS URL, that is a cross domain situation. To avoid the use of 3rd party cookies, please follow the instructions the How to avoid the "3rd party cookie" error message in the KAF based LMS Integrations article. To turn on the Partitioned Cookies support use the ***usePartitionedCookies*** Field in the Application module. Visit our article Preparing for third-party cookie restrictions for additional information about partitioned cookies use with KMS and KAF. (KMS-28330)

- **Playlist links** - Continuing the work from previous releases, a new configuration is now available for both Channel playlists and Template Pages playlists, allowing the admin to choose what happens when clicking on "See all" for the playlist. Now admins can choose between going to the playlist player page (with the list of other entries in the playlist) or to the playlist grid page. The new config is available in the Template Pages for custom single playlist only using the ***PlaylistDisplay*** field. For Channel playlists, this feature can be setup from the channelplaylists module, using the ***PlaylistDisplay*** field (KMS-28480, KMS-28407)

- **Documents and Playlists** - Documents can now be added to playlists. The player currently will not display the document entries, but when using the Playlist Grid view, users will be able to see it. In upcoming releases, we will be adding support for document capabilities in the player. (KMS-28409)

- **Admin capabilities**
  - The "/version" URL is now available for guests. (KMS-28616)
  - Tokens can now be used in the email template's subject line (KMS-28393)

Resolved Issues

ADA-121	[Accessibility] Contrast button now works properly on the "like" and "info" buttons	KMS/KAF
SUP-38825	Channel members - the issue where group ID was displayed instead of group Name was fixed.	KMS/KAF
SUP-40340	Registration - upon registration by an unregistered user, the user will be sent a dedicated email - unregisteredEmailTemplate template.	KMS
SUP-40574	Fixed the issue where long titles overlapped the description when using the Detailed View inside channel/gallery pages.	KMS/KAF
SUP-40758	The words "Attachment" and "Attachments" in the media page are now translatable.	KMS/KAF

KMS Version 5.118.6x January 9, 2024

Version: 5.118.6x

Date Released: January 9, 2024

What's New

- **Theming - Playlist Grid page** - The Playlist grid page, available from the template pages and channel playlist, is now joining the theming based pags. (KMS-28408)
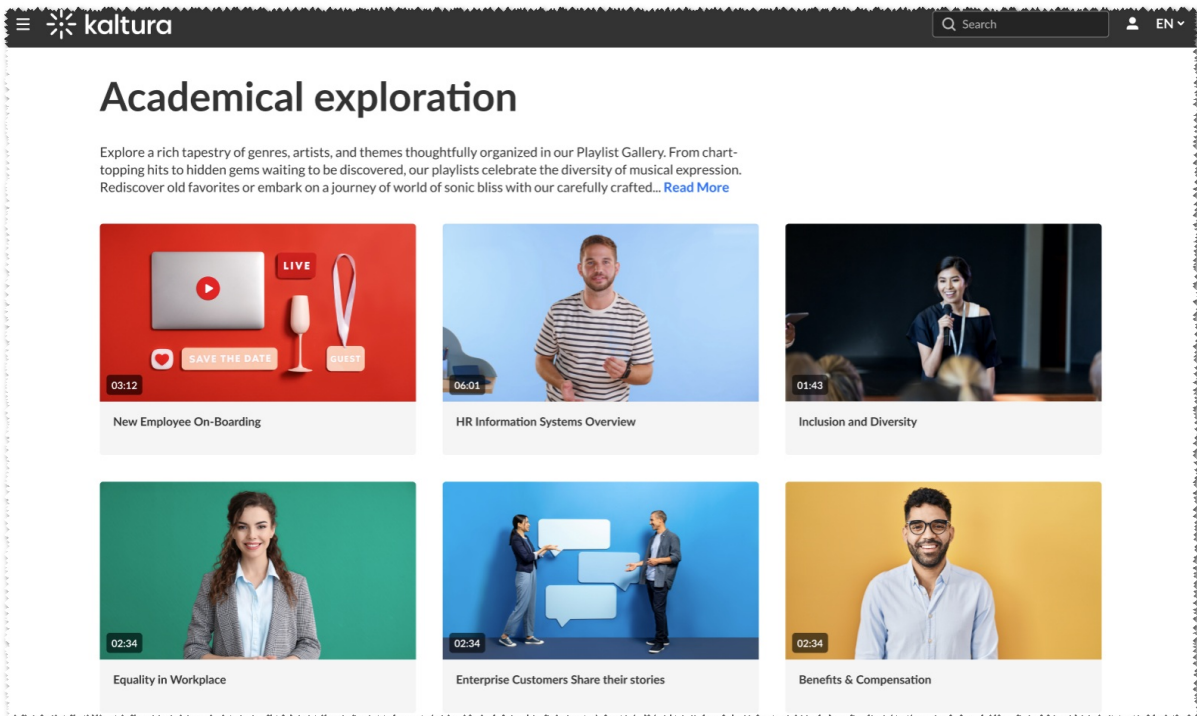

Make sure to turn it on using the **playlistsgrid** field on the **theming** module

- **Playlist Thumbnail links** - A new configuration is now available in the **playlistPage** module, allowing the admin to choose what happens when clicking on a playlist thumbnail links such as the ones in the template pages playlist component for manual playlists, or in the channel playlists. Now, admins can choose between going to the playlist player page (with the list of other entries in the playlist) or to the single media page. Note, that choosing the single media page means that the playlist context is left behind, however, the context of the channel is still kept. (KMS-28499,KMS-28406)

- **Sticky Navigation** - This new feature available for the theming header, allow you to keep the navbar always visible to your users, even on those long pages. Turn it on from the **stickyNavbar** field on the **header** module. (KMS-28527)

KMS-28557	Language tokens can now be added to the templatePages hero section's CounterDate field	KMS

KMS Version 5.117.7x December 26, 2023

Version: 5.117.7x

Date Released: December 26, 2023

What's New

- **Theming - High Contrast Accessibility feature** - While our products created to stand with the WCAG AA standard, some users like to use a higher contrast mode. The High Contrast button is now available on the theming header, allowing these users to turn it on and off as they please. Admins may turn it on from the *Accessibility* module using the *showContrastButton* toggle (KMS-27716).
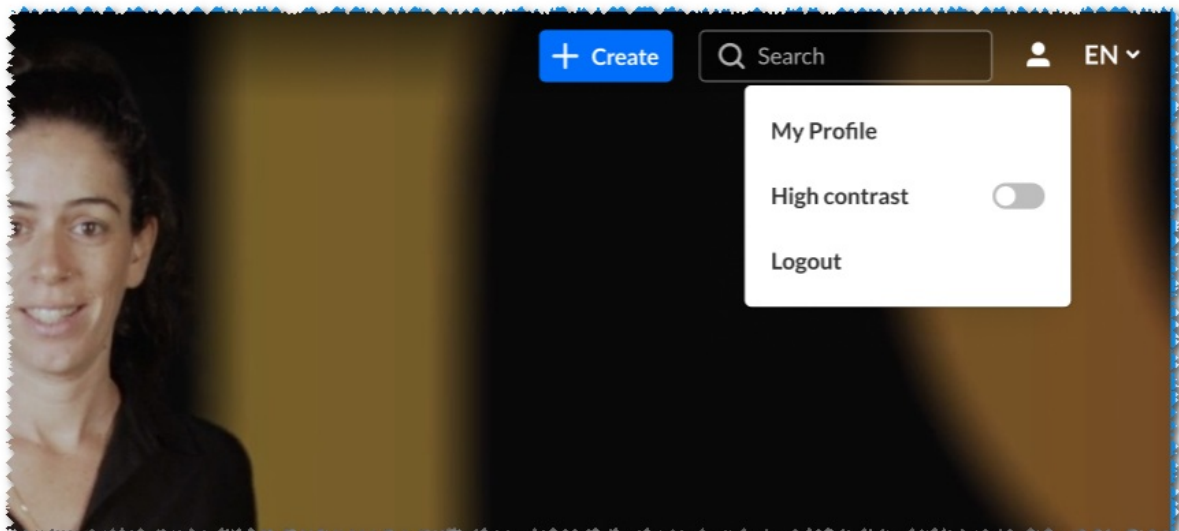

- **Meeting Rooms** - Our new room experience is now available for early access. You can try out the new room experience and enable it for your users from the *MeetingEntry* module. Please note the new room experience does not include all features and functionality currently available in the room experience. (KMS-26882)
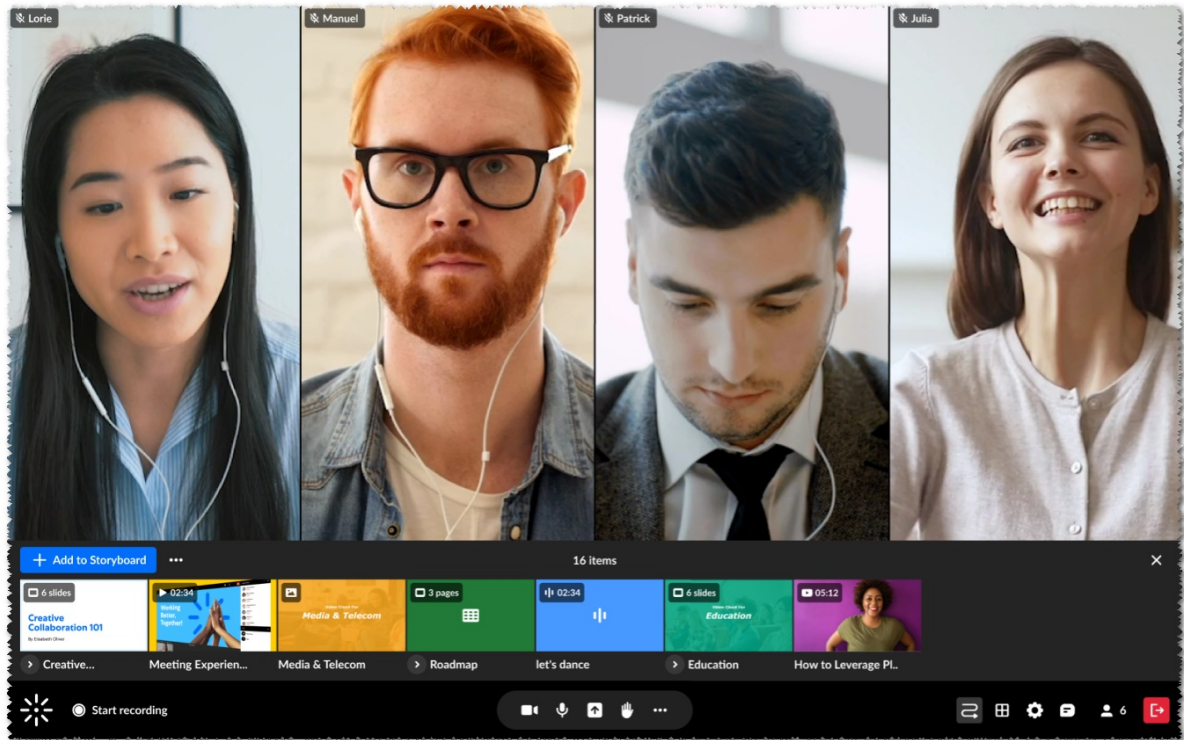

- **Caliper analytics improvements** - The improvements comes in the form of new fields available in the Caliper module, allowing admins to choose which Course ID and which User ID is sent from Kaltura KAF to Caliper. This feature will assist in making the Kaltura-Caliper analytics integration more tailor-made to fit your organizational workflows and get a better understanding of courses and user data. (ILMS-621)

![Kaltura logo]

KMS Version 5.116.05x December 11, 2023

Version: 5.116.05x

Date Released: December 11, 2023

What's New

- **Theming**
  - **Express Capture** - The express capture is joining the list of theming based pages. The upload flow is using the new theming based upload as well, allowing for content uploaders with the full capabilities of the new set. As usual, turn on the new page UI from the Theming module.(KMS-27342)
  - **Entry page** - A small visual change when the related media component is hidden or not used, the actions buttons and share are now expanded to the right. (KMS-28058)

Resolved Issues

ID	Description	KMS/KAF Related
ADA-52	[Accessibility] The KMS admin page for groups management went through accessibility tests and fixes.	KMS/KAF
ADA-57	[Accessibility] Added alt text for the home page images on the hero.	KMS
ADA-92	[Accessibility] Added header to the Kaltura Capture page	KMS/KAF
SUP-39751	Changed the text of the EST time on meetings schedules, to show it does not support daylight saving.	KMS/KAF
SUP-38686	Third level sub galleries are now accessible with the new theming navigation.	KMS
SUP-38009	[REACH] The 'something went wrong' error when trying to view captions for requests that were deleted/removed by the vendor was resolved.	KMS/KAF

KMS Version 5.115.05x November 28, 2023

Version: 5.115.08x

Date Released: November 28, 2023
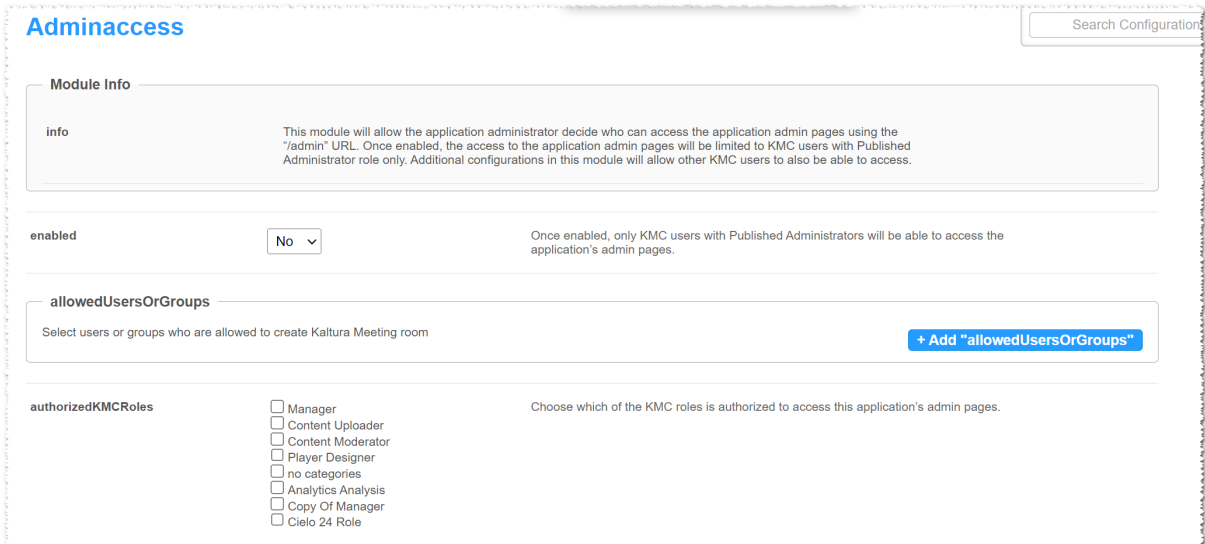

What's New

- **Stitch videos & images** - Enable this new KMS/KAF feature and allow your users to create new media from multiple videos or images. Enable the *Mediastitching* module to start using this feature. Read more in the Media Stitching article.
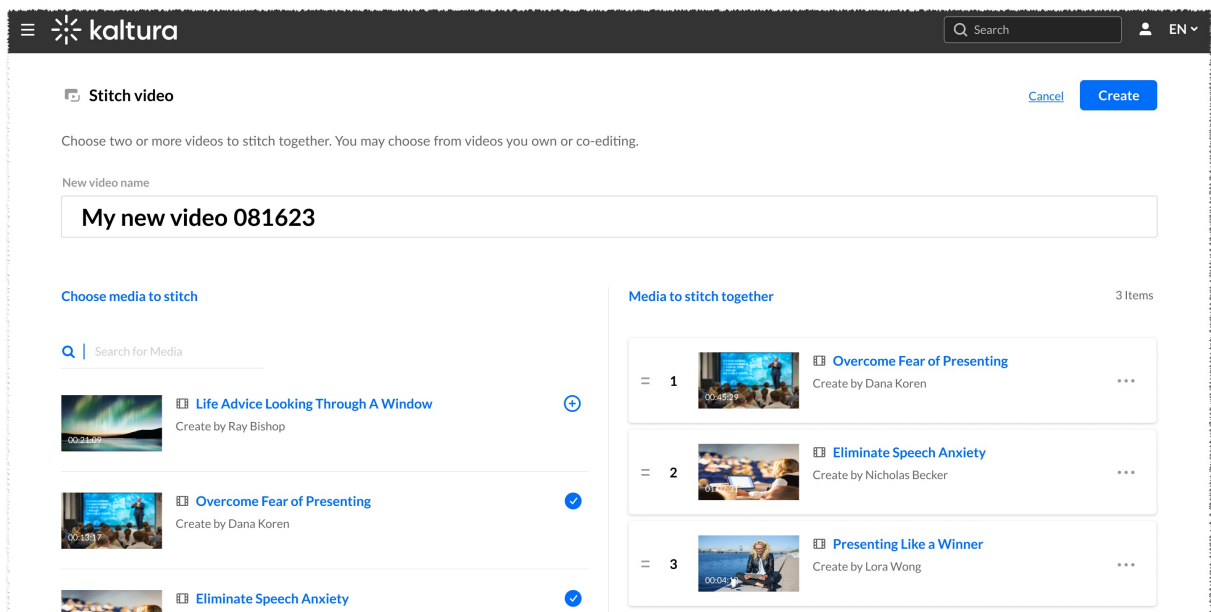

- **Admin management** - A companion feature to the previous release, allowing app

admins to add KMC users automatically to groups (KMS-28257), now the app admins can also choose which KMC user can login to the application's admin pages. The new module **adminaccess** is now available in both KMS and KAF, allowing the admins to decide which KMC admins can enter the site. This will allow admins to provide access to the KMC for analytics only purposes for example, while blocking these users from entering KMS or KAF admin pages. Note that the "Allowed Groups" capability will only be available on the next release. (KMS-28371)

- **Video quiz gradebook integration improvements (KAF)**
  - **Success/failure message -** We added an indication process of success/failure message in sending grades into the gradebook for the quiz taker to ensure the quiz was finalized and the grade status was notified.
  - **"Retry quiz" option** – Now, the quiz taker will have a retry option of sending the grade to the Gradebook when there is a failure in the sending process.

SUP-39779	[Admin pages] The issue where pasting a rich text into some fields might triggers an updates to an image field	KMS/KAF
SUP-39408	Updated the BSE player upgrade tool message to provide more information about multi-instance use.	KAF
ADA-75	[Accessibility] Updated the media tab on channels and galleries to have the accessible name contain a match for the string of the visible label (WCAG 2.5.3: Label in Name).	KMS/KAF
SUP-40000	[Room] Updated the room templates to have quizzes feature available.	KMS/KAF
ILMS-620	[D2L] No "Quiz Submitted" request when using V2 player and no notification/grade	KAF

KMS Version 5.114.6x November 13, 2023

Version: 5.114.6x

Date Released: November 13, 2023

What's New

- **Theming** - To make the theming based pages easier to customize using CSS, new static classes were added in many pages. Additional small UI adjustments were made, to provide a pixel perfect look to these new pages.
- **Template Pages** - A new component is now available in the template pages -

Banner & CTA. This component allow the page builder to add a CTA button with a link, a description with title, and even a image for decorative background:
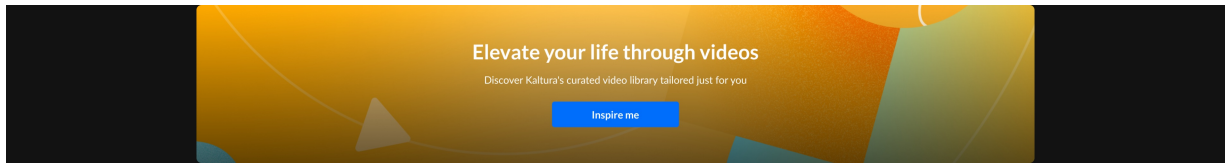

- **Admin Authentication** - This new ability will allow KMS admins to choose a group to place all KMC users who login to the site into it. Meaning, any KMC user who logs into the site, will be added to a dedicated group. To start using this feature, fill up the *adminsGroup* field in the Auth module.

SUP-38076	Canadian French is now available in upload captions modal box	KMS/KAF
SUP-39295, SUP-39587	Fields on the dedicated SSO registration form can now be setup without the need to show on the external/main registration form	KMS
SUP-38267	The themeing based upload page, a new option of "none" was added to custom metadata fields of type dropdown list to prevent autofill of this type of metadata.	KMS/KAF
SUP-38096	On the Template Pages we have removed the limit of 10 media items per playlists on the "see all" pages	KMS
SUP-38997	[AU cloud] The hostnames module "add" button is now available for use.	KMS/KAF

KMS Version 5.112.7x October 16, 2023

Version: 5.112.7x

Date Released: October 16, 2023

What's New

- **Theming**
  - **Document Entry** - This new module is now available for all to use. It provides the ability to drag and drop documents (*.pdf;*.doc;*.docx;*.ppt;*.pptx;*.xls;*.xlsx;*.csv;*.txt;) and view them in their My-Media. These type of entries can be shared, published, viewed in the page, and be downloaded.
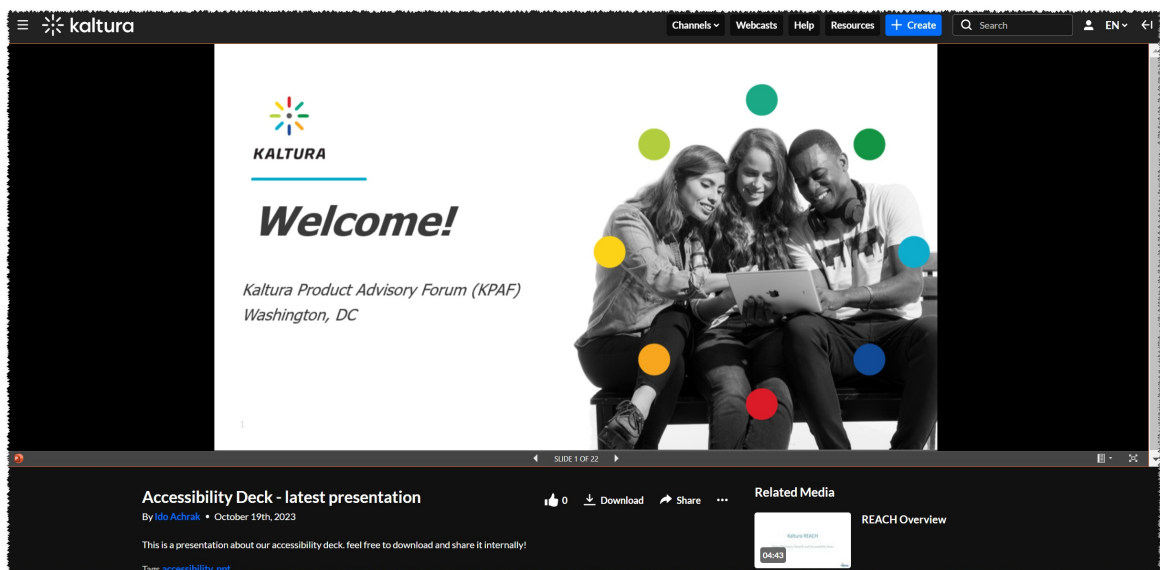

- **Registration** - We have added support in the registration for UTM params (KMS-28109)
- **Meeting room recordings** - Meeting room recordings in KMS were updated to pass more information on the recorded entry (SUP-36907). This was done so that newly created recording will have the following:
  - Owner = Always the room owner or Channel owner
  - Creator,Co-editor, Co-publisher = The user who initiated the recording

Resolved Issues

KMS Version 5.110.04x September 12, 2023

Version: 5.110.04x

Date Released: September 12, 2023

What's New

Security fixes - A few security fixes were deployed around the channel page. (KMS-27941,KMS-27940,KMS-27939,KMS-27938).

Resolved Issues

ID	Description	KMS/KAF Related
KMS-27899, SUP-38656	Languages - we removed the line breaks from history default texts to allow for a better translation of the text.	KMS/KAF
SUP-38346	Some elements in the playlist playback page that were showing twice on the screen now appear as expected.	KMS/KAF
SUP-37135	Fixed the issue with a 403 error appearing when playing from Channel Playlists when live media with recording is a part of the playlist.	KMS/KAF
SUP-38788	Create a new channel playlist is now available for event-based sites, using the dedicated playlist module.	KMS
SUP-38441	The issue where a channel in multiple collections is sorted the same in all collections was resolved.	KMS
SUP-38660	Fixed the 500 error when accessing the KMS admin "Manage Group" page.	KMS/KAF

KMS Version 5.109.98x August 27, 2023

Version: 5.109.98x

Date Released: August 28, 2023

What's New

- **Registration**
  - **Embedded registration** - This new capability allows admins to take the registration form and embed it as is, without the need to build a webhook registration from scratch. (KMS-27714) Read more in our Siteregistration article.
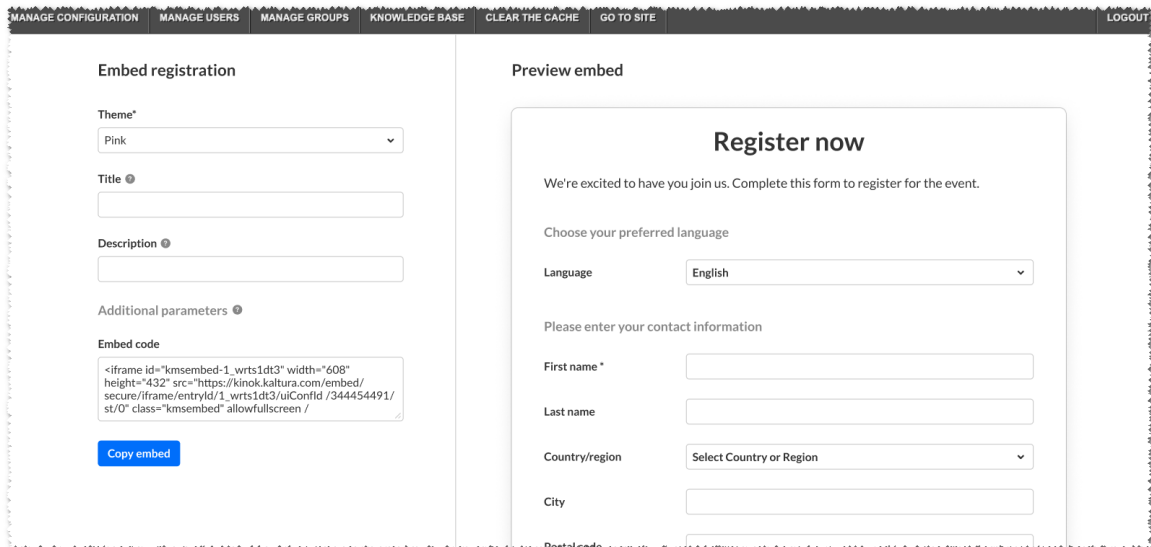

- **Registration component on template pages** - Now users can register directly from the landing page or homepage when using the TemplatePages module. This new component will open the registration page directly on the page, keeping the guests here, and providing a quick link to the registration. (KMS-27712) Read more in our Templatepages article.
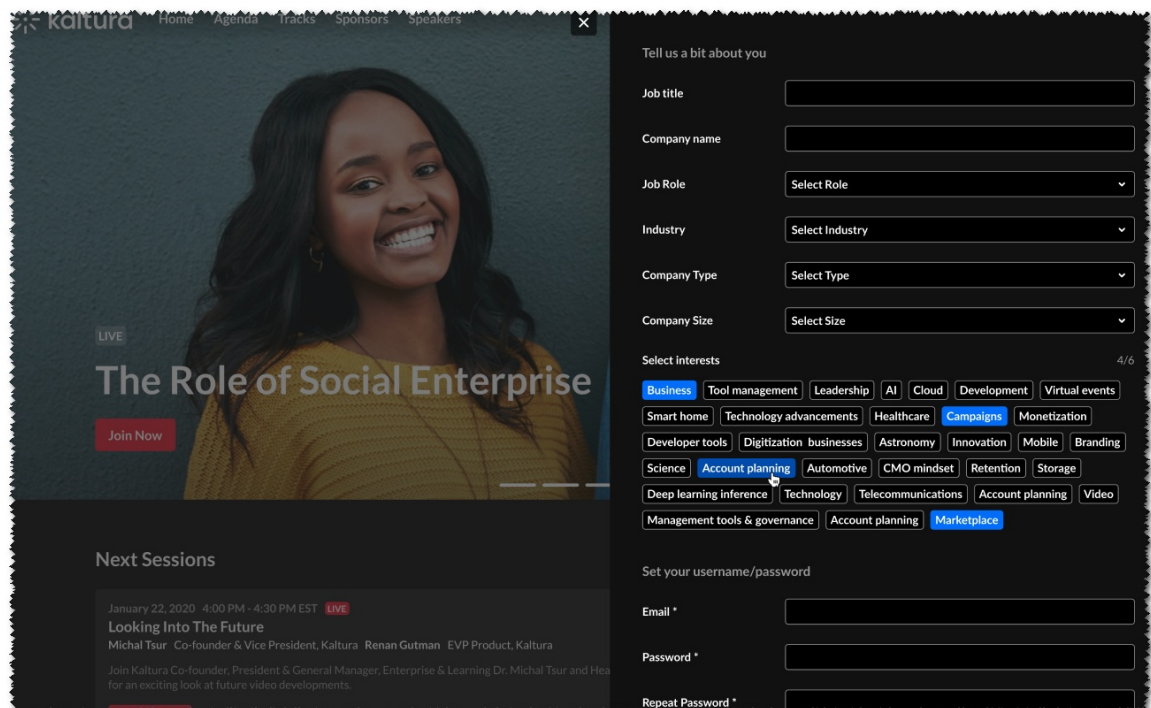

- **Tags selection UI change** - No longer in a modal box, the tag selection (used, for example, as a "select your interests" use case) in all registration forms is now showing inline to support the embedded registration, and the template pages component. (KMS-27756)

- **Channels component on template pages**
  - This brand-new component on the template pages enhances the visibility of your

Channels. Simply select the relevant channel collection and show it on your landing / home page. (KMS-27627). Read more in our Templatepages article.
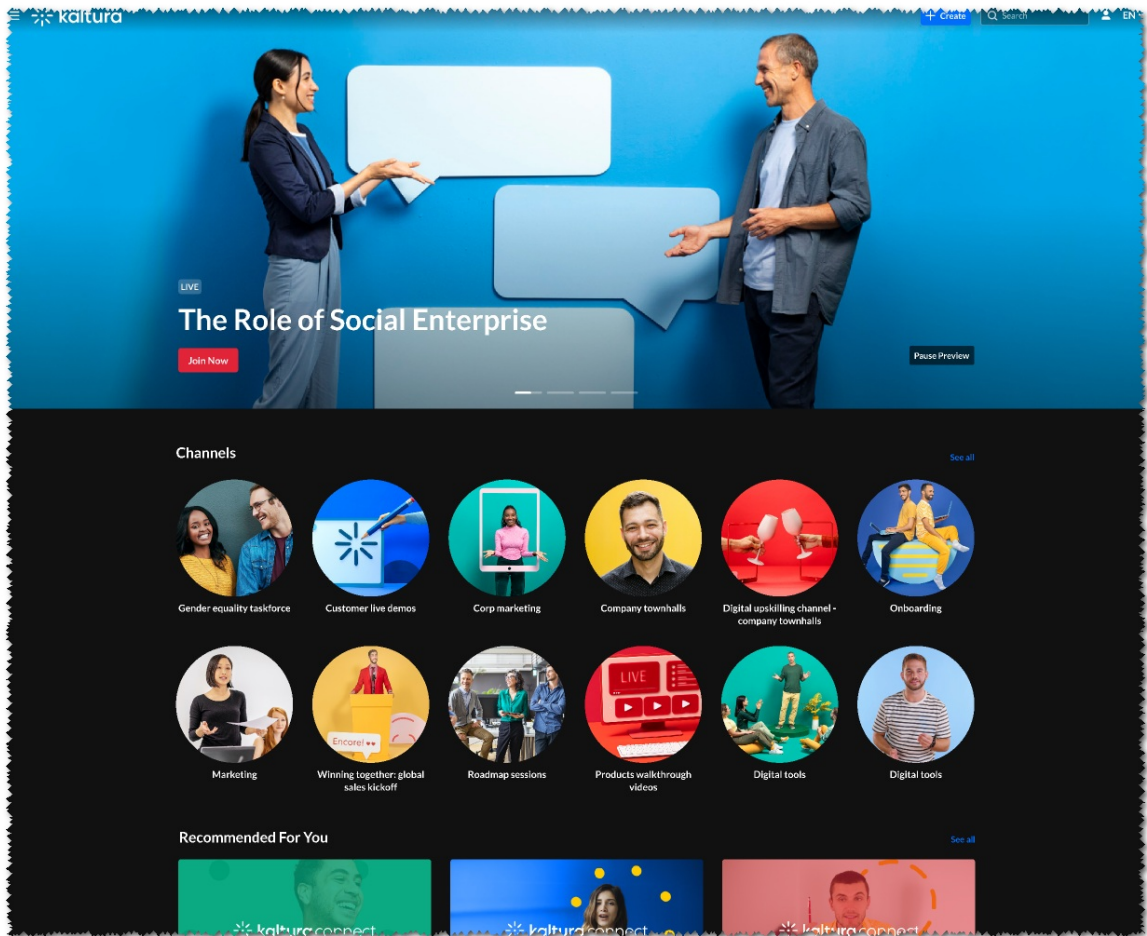

- **KMS Recycle Bin** - Some changes and alignments to the page's texts. (KMS-27758)
- **Twitter icon** - Due to the Twitter logo change to "x", we have made the adjustments in the Share and Footer's Twitter icon. (KMS-27845)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-38788	Creation of channel playlists when the events playlist module on is now working as expected.	KMS
SUP-38680	Channel collections slugs now supports capital letters.	KMS
SUP-38657	The default admin text on empty history page is now available for translations.	KMS/KAF
SUP-38656	The "clear history" pop-up message in the history page is now available for translations.	KMS/KAF
SUP-38661	The save button on the channel edit advanced settings page is now available for translations.	KMS
SUP-38660	Fixed the HTTP 500 error displayed in the "Manage Group" section in the KMS admin, when specific types of groups are presented on the page.	KMS/KAF
SUP-38564	Fixed the issue in Template pages where a speaker description box is hidden behind a live session card.	KMS

SUP-38549	Issue with the new Brightspace Editor where the video does not play (Hotspots related) due to missing scripts on the page was resolved with the help of the D2L team and requires Brightspace version upgrade to 20.23.8.	KAF

KMS Version 5.109.91x August 14, 2023

Version: 5.109.91x

Date Released: August 14, 2023

What's New

- **Playlist creation flow** - Made a small adjustment to the way we create playlist, instead of a modal box, the user is redirected to a playlist creation page, where they can start working on the playlist content. (KMS-25188) Read more in our Create a

playlist article.

- **My Content Analytics** - To the previously released My Content Analytics page, we added a dedicated type in the **headerMenu** module. This will provide an auto display for relevant users only. Read more in our Headermenu article.

Resolved Issues

ID	Description	KMS/KAF Related
SUP-34896	Using language exception message for "Access Denied" error message now has support for html.	KMS/KAF
SUP-37019	Added support for the SSO users when using Email Validation on the single media registration feature.	KMS
SUP-37158	The "addNewLabel" for the express capture text now apply with using Theming based header.	KMS
SUP-38270	The Media Gallery playlists are aligned left.	KAF
SUP-37112	[Accessibility] Color contrast of icons on homepage playlists was fixed.	KMS
SUP-37791	KAF admin "Login As" feature is now available.	KAF
SUP-38055	[Canvas] Setting the start time for a player v7 BSE embeds now applies correctly.	KAF
SUP-38194	Opening an item from a large channel playlist now loads the matching name to the video.	KMS

KMS Version 5.109.85x August 1, 2023

Version: 5.109.85x

Date Released: August 1, 2023

Resolved Issues

- **Theming Media page** - A new page was added to the theming feature set. Currently available as **Early Release**, this page provides many of the existing features of the previous UI. Feel free to try it out while we're working on adding more features. Read more in our article Media Page.
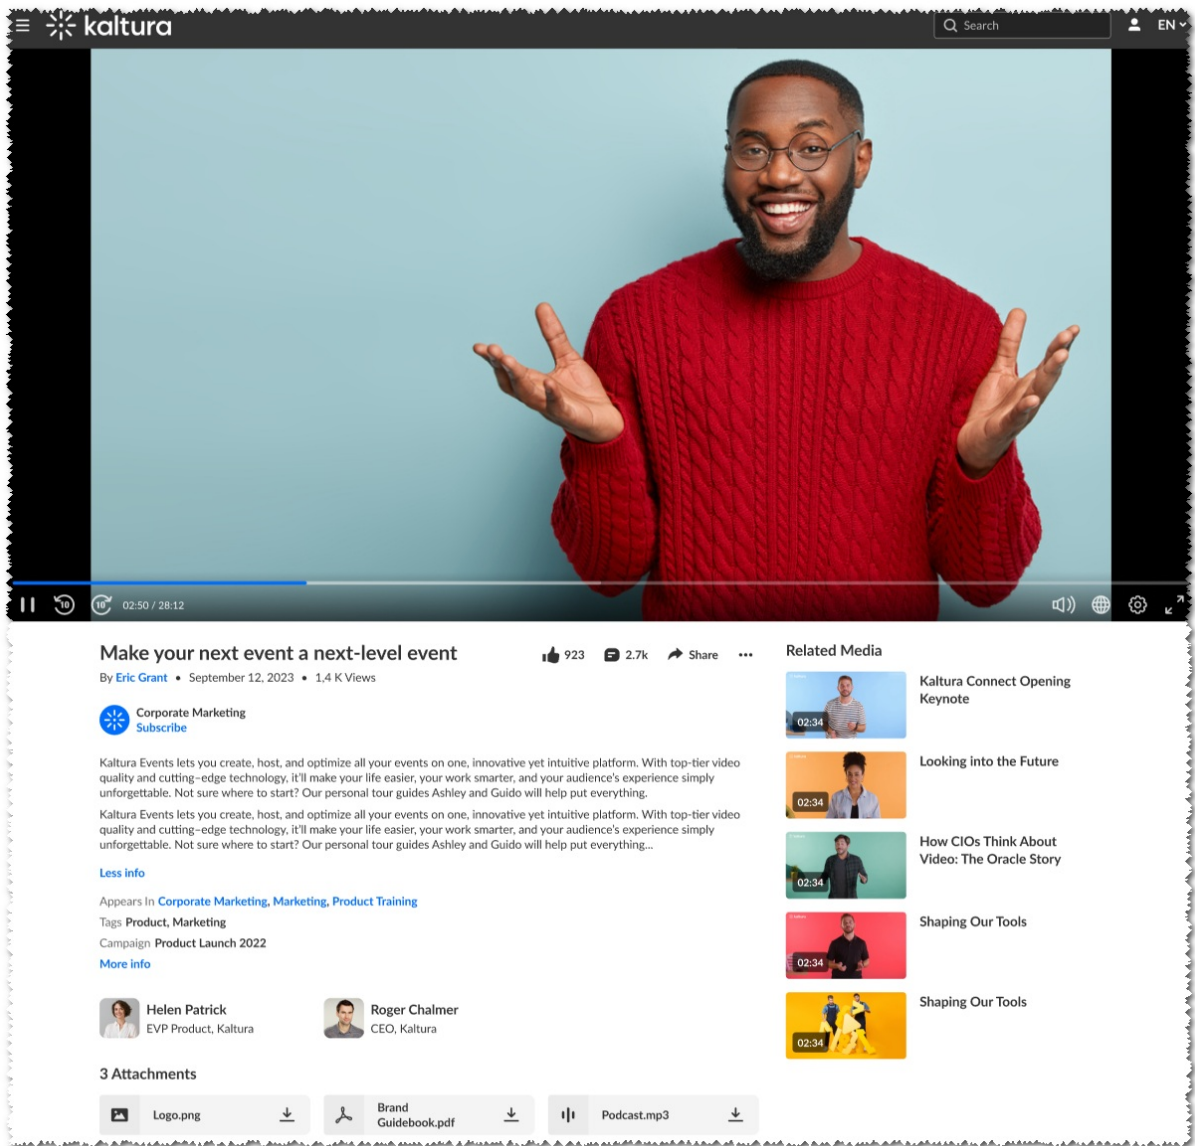

- **Updated Theming Editor** - This new editor provides the ability to create an intricate customization to the colors and hues of the site, all with a click of a button. (KMS-27547)
  - New "Monochromatic mode" allows you to choose the primary color, and let the studio do the rest.
  - The "Custom mode" enables you to choose two colors that will harmoniously blend together to create the perfect tones. Another great addition is the ability to choose the header's color. Read more in our article Theme Editor.
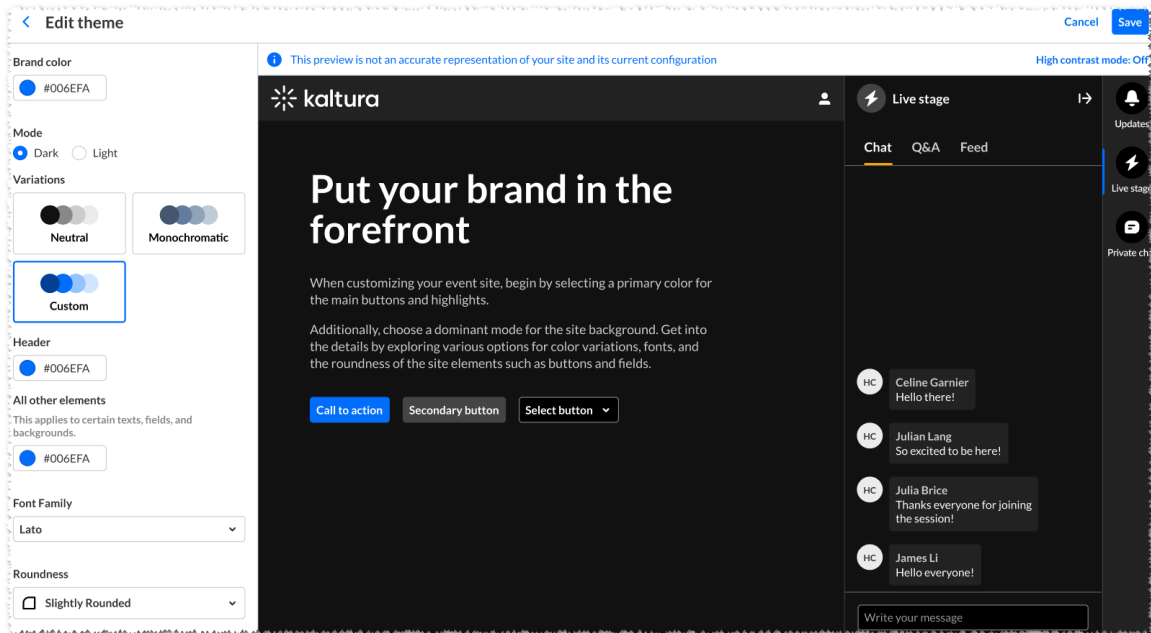

- **Theming on KAF/LMSs -**
  - A navigation button to the "My content analytics" page is now available on the My-Media page (ILMS-591).
  - Upload page - a 'Back' button was added to the page, providing an easier way to navigate back to the My-Media page (ILMS-584).
- **KMS Recycle Bin** - Coming out of Limited Availability, the Recycle Bin module is now an on-demand feature. This feature will allow users to recycle media instead of deleting it, as well as restore media if needed. Contact your Kaltura representative to enable the feature. (KMS-27600) Read more in our article Recycle Bin.
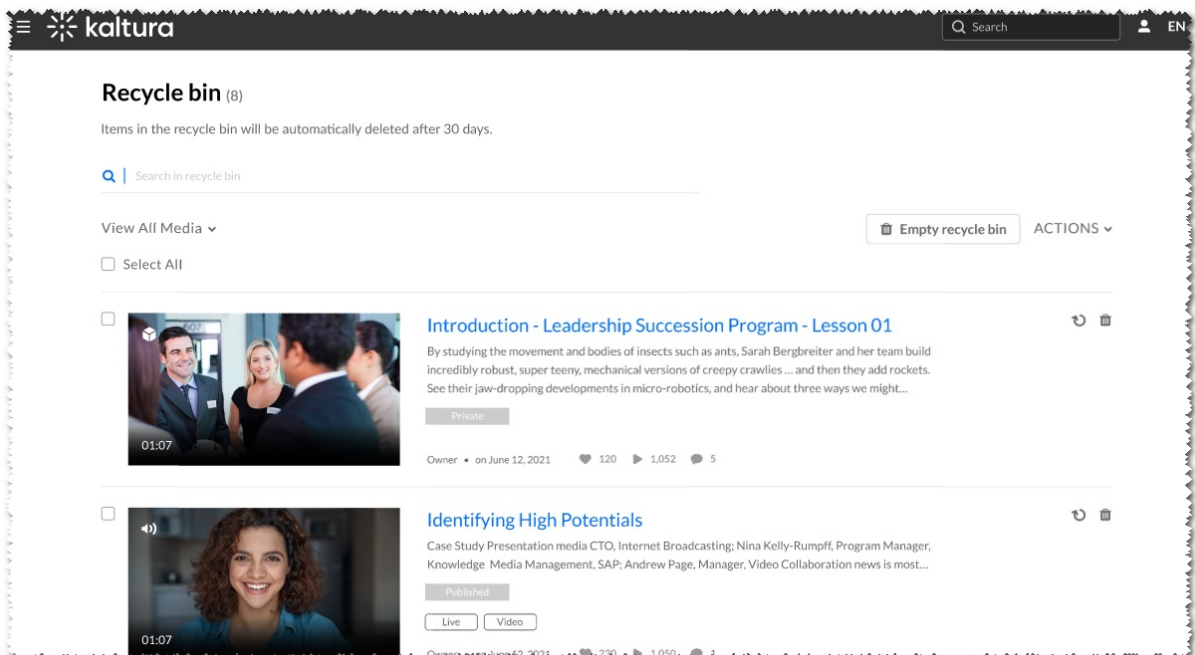

- **Magic Link** - Login by email security enhancements were added, such as re-

captcha protection on the login page to protect from multiple requests attacks (KMS-27598), and HTML tags injection (KMS-27597).

Resolved Issues

ID	Description	KMS/KAF Related
ILMS-574	[BSE Player V7] - The Thumbnail embed option was removed from the BSE, for v7 embed player.	KAF
SUP-38180, SUP-37318	Canvas - 2 issues where media gallery playlist launch results in access denied after upgrading to LTI 1.3 were resolved.	KAF
SUP-38178	The issue where the pop-up section of session in the new theming channel UI did not show bullets was resolved.	KMS
SUP-37851	Issue with the Lecture Capture login page when using the theming login page was resolved.	KMS/KAF

KMS Version 5.109.756 July 16, 2023

Version: 5.109.75x

Date Released: July 16, 2023

Resolved Issues

ID	Description	KMS/KAF Related
SUP-38086	Users with viewerRole is now searchable in the add collaborator modal box.	KMS/KAF
SUP-38088	Sorts other than the defaults will now show the full content of My-media in Canvas.	KAF
SUP-37592	Player V7 playlist share and embed now supports all share options.	KMS
SUP-37525	KMS admin changes to reflect the correct behavior: - to remove the metaDataInReadMore field - to change the texts around readMoreEnabled	KMS
SUP-37467	Channel playlists can now hold both a media entry and its clipped entries.	KMS/KAF
SUP-36467	Calendar - Fixed the issue where a recurring event fell on the exact day of the Daylight Savings change in week view, and will show an hour later.	KMS/KAF

KMS Version 5.109.752 July 4, 2023

Version: 5.109.752
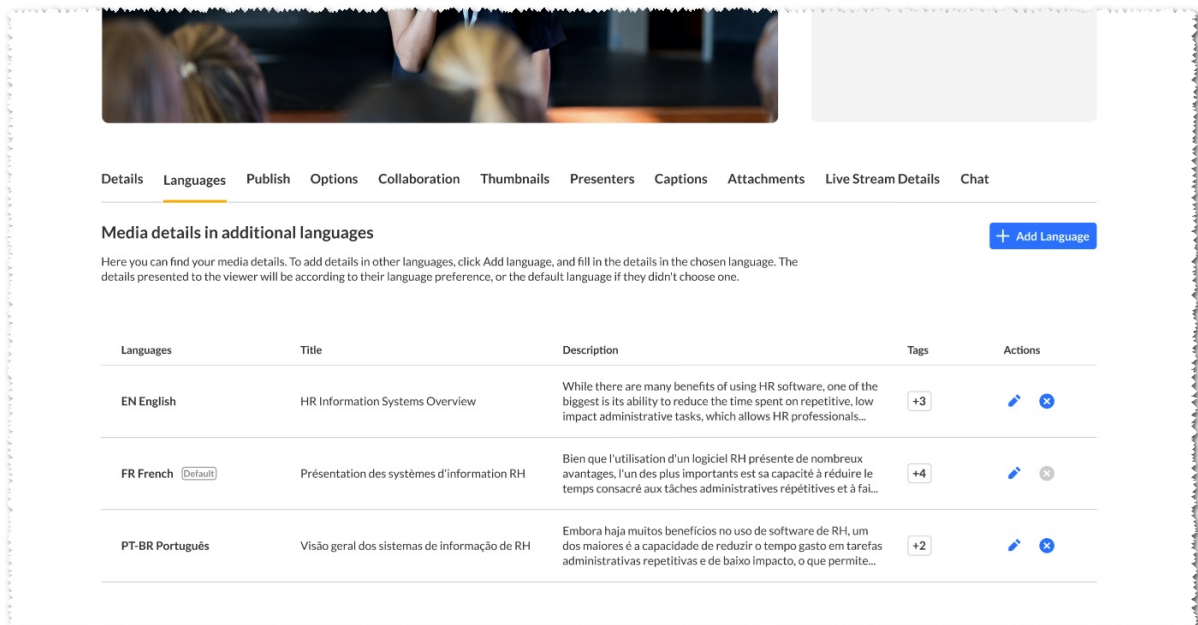

Date Released: July 4, 2023

What's New?

- **My Personal Content Analytics** - Now content uploaders can see their content analytics in one location. While the ability to do so from each media separately already existed, with this release, content uploaders now have a dashboard that displays all their content analytics in one page. (KMS-27373)
  Learn more about how to enable it in My Content Analytics - Admin article.
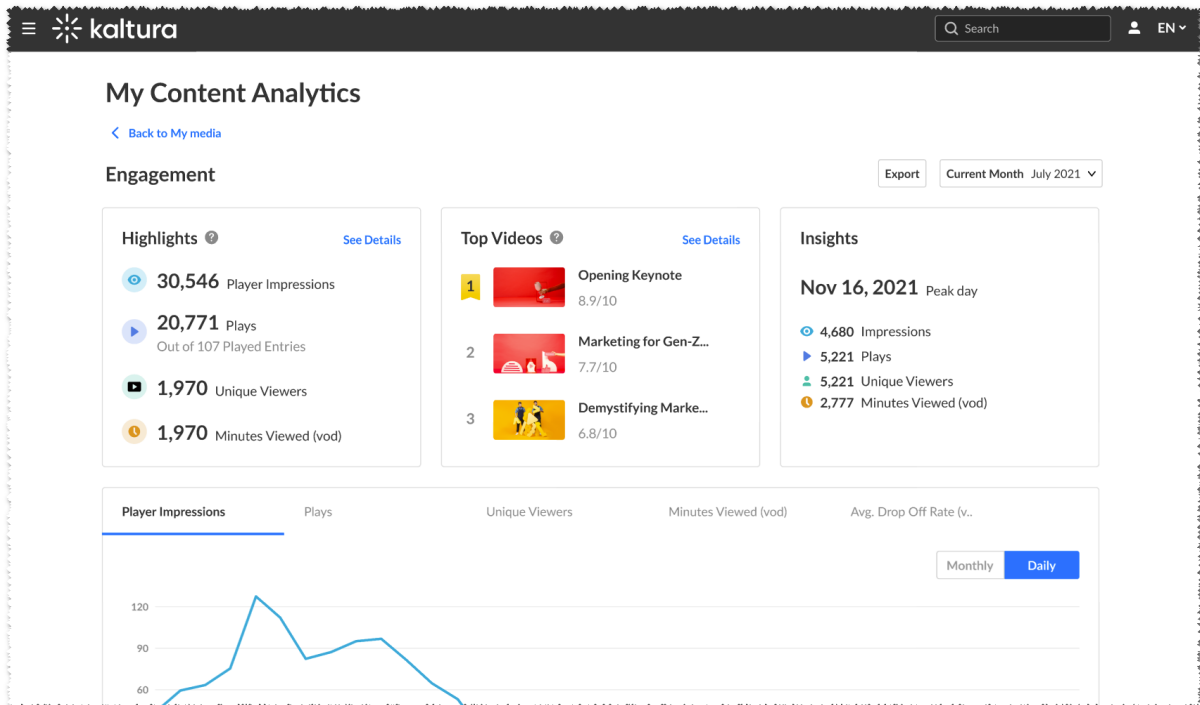

- **Media localization** - Kaltura applications support many languages and users can choose to display the system in their desired language. The new **Media localization** feature now enables content owners to translate their each and every individual media, allowing viewers to read the name, tags, and description in their chosen language. (KMS-26478)
  Learn more in the Media Localization article.

- **Theming based features**
  - **Create a new channel** - A new Gr (KMS-25187). Read more in our Create a channel article.
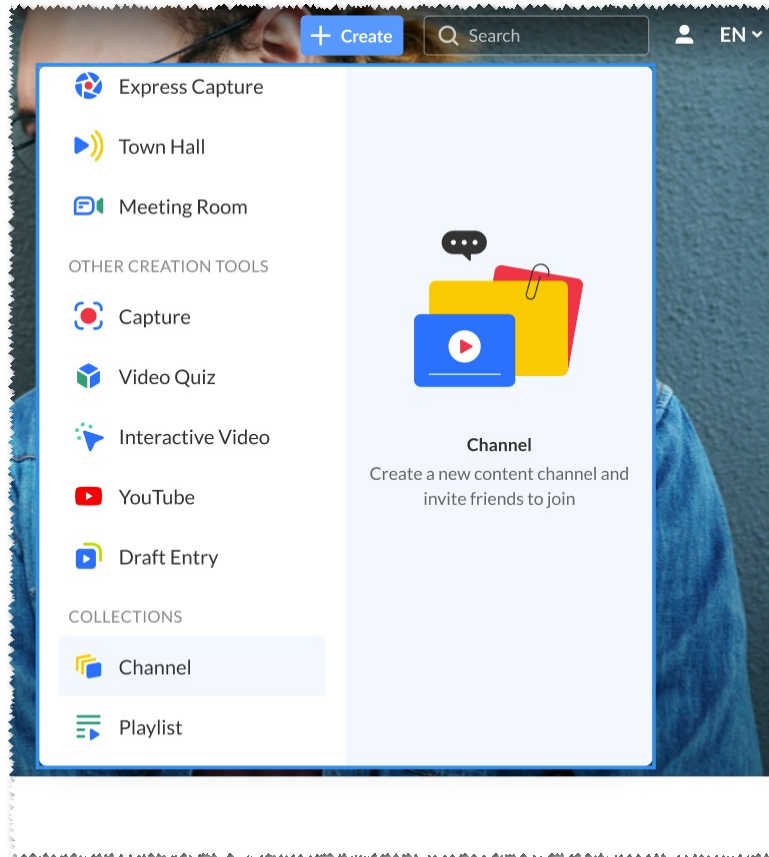

- Capture download page - Admin can now hide the client download links from the capture page when using the new Theming-based page (using the AllowDownloadingClient field) (KMS-27633).
- Template pages - Images hero carousel - In cases where you don't have media to show on your hero banner, you can now display a playlist of images with dedicated Call-to-Action buttons linked to any URL you desire. (KMS-27466) Read more in our Templatepages article.

SUP-36463	Removed the unnecessary "Back" button when adding a Youtube video.	KMS/KAF

KMS Version 5.109.56x May 28, 2023

Version: 5.109.56x

Date Released: May 28, 2023

What's New?

- **Meeting rooms changes** - Adding a new API that will provide each personal room with a dedicated entry. This is part of the efforts of bringing room analytics into all Kaltura products. (KMS-27343,NR2-7286)
- **Player V7**
  - **BSE audio embeds** - We added a few size options for the audio players default in the Browseandembed module, making it easier on admins to have a few more presets.

- ○ **Add Quiz to playlist** - The "add quiz to playlist" option is now available for applications where the main playlist player is set to a v7 player. (KMS-27242)
- **Media Collaboration** - Now admins can decide to hide groups from collaboration search directly from the MediaCollaboration module. Users and groups can be manually excluded; all others can be found in search. (KMS-27372)
- **Theming bulk upload** - Now supports parallel chunk uploads to provide a better and faster upload experience (KMS-27368)
- **Captions editor** - Design enhancements to the captions editor (REACH2-1161):
  - ○ New look and feel
  - ○ Separated the search & replace functionalities
  - ○ Added highlights for timing errors
  - ○ Cancelled the player's drag & drop

KMS Version 5.109.03x January 30, 2023

Version: 5.109.03x

Date Released: January 31, 2023

What's New

- **Live** -   New capabilities on the live offering
  - **Live Re-Stream** - Customers using Kaltura's Live Broadcasting services can now choose to re-stream their live event to any RTMP based live broadcasting service. Customers broadcasting on Kaltura Live can use this new feature to broaden their audience reach by broadcasting live events to social services such as Youtube Live and Facebook Live concurrently. Customers would still need to

handle only a single live stream to Kaltura, while we will take care of the rest by replicating the live stream and streaming it to additional live broadcasting services. (KMS-26589)

- **Live Low Latency** - Live streaming entries can now be configured to deliver low latency live streams using Low Latency HLS. (KMS-26542)

Resolved Issues

KMS Version 5.108.28x September 19, 2022

Version: 5.108.28x

Date Released: September 19, 2022

What's New

- **Theming** - The Theming Header and Footer are coming out of Open Beta, and moving to General Availability.
  You may give your KMS a new look, with a few clicks. This also opens the door for a wide range of new features coming up.
  Want to get started? Just to try out? Take a look at the article Getting Started with the Theming Module. This article provides a step by step guide on how to get started with these great new theming features.

Resolved Issues

ID	Description	KMS/KAF Related
SUP-32553	The issue where a new Lecture Capture event was set with a default start time from the platform time instead of the application time, was resolved.	KMS/KAF
SUP-32523	Manual sorting on My channels was removed, as is it only relevant to the Theming Channel Collections page.	KMS
SUP-31722	The TimeAndDate module no longer causes issues in cases where additional characters caused a problem in the filter by date range in the page search.	KMS/KAF
SUP-33985	[Accessibility] Search results now read the thumbnail link title correctly by Screen Readers.	KMS/KAF
SUP-33962	[Accessibility] The image for the search's "no results" is now set to empty alt (alt=""), as it is a decorative image.	KMS/KAF
VIRTC-30430	[Accessibility] Each section of a related content on a media page is now clickable as a whole, and not the individual elements (reduces repetitive links in the page).	KMS
SUP-33570	[Meeting Rooms] The start/join meeting button on the meeting room lobby is now visible in all available mobile browser alignments.	KMS

KMS Version 5.108.22x September 5, 2022

Version: 5.108.22x
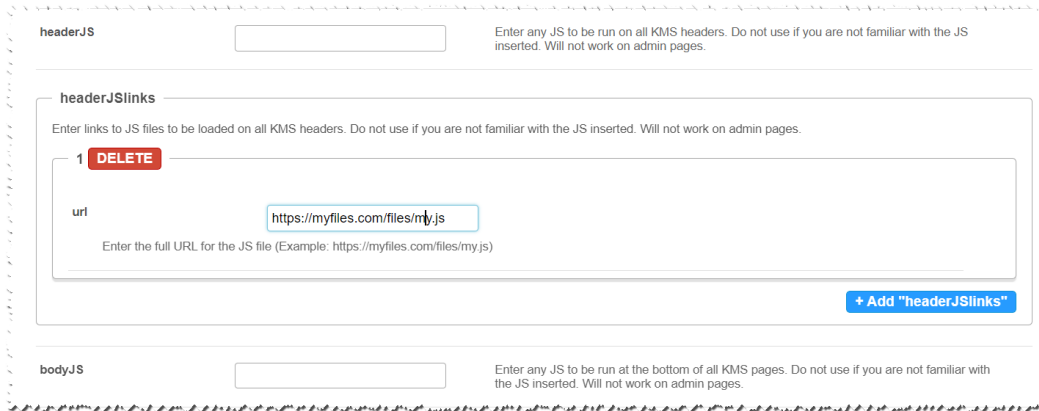

Date Released: September 5, 2022

What's New

- **Theming** - The Channel page and Channel Collections are joining the list of Theming module features in the open Beta. Related documentation will be published in upcoming weeks.
  - An updated Channel page with two options to present your content is available: you may choose to display a vertical list or horizontal tabs. In addition, you can now also add a video at the top of the page and CTA buttons on the banner.
  - A new page may be created containing Channel Collections. A channel collection contains multiple channels that may be displayed as a grid or as a list. The collection may also include filtering options specific to the collection and a

manual sort order for the channels in the collection.

- **Add to Calendar -** Google Calendar - Line-breaks ("<br>") and paragraph tags ("<p>") in the description are now supported in the Google Calendar invite.
- **Admin - Insert JS** - These new fields under the Application module allow admins to insert JS on all KMS pages, either by adding the JS directly in the app admin, or using a link to a hosted JS file. (KMS-26216)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-30728	Date translation on the single media registration now works as expected.	KMS
SUP-33519	The error on the "Add Collaborator" modal box was fixed.	KMS/KAF
SUP-33778	The Language Exception table in the admin module is displayed properly.	KMS/KAF
SUP-33778	[2FA flow] Users are now prompted to scan a new QR code after resetting the password.	KMS

KMS Version 5.106.96x February 21, 2022

Version: 5.106.96x

Date Released: February 21, 2022

Resolved Issues

ID	Description	KMS/KAF Related
SUP-31044	Now, when a Group is the owner of a media, users in the group are able to delete the media.	KMS/KAF
SUP-29886	The format of the date and time in the media entry page for "Asset updated at" now aligns with the other dates on that page.	KMS/KAF
KMS-25181	Meeting entries are no longer allowed to be added to a playlist. This is to prevent users from making mistakes and thinking that it can be displayed in the Playlist view page.	KMS/KAF

KMS Version 5.106.91x February 9, 2022

Version: 5.106.91x

Date Released: February 9, 2022

What's New

- **Media Edit Page** - A description was added to the "Presenters" tab (SUP-30490)
- **Application Admin Page** - Some UX enhancements were added to the Backup Configuration feature. (SUP-30772)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-30292	[Accessibility] The icons on top of the media thumbnails in the Media Gallery are now displaying correctly when using the high contrast mode.	KAF
SUP-30651	[Accessibility] The Next/Previous buttons in the Channel and Media Gallery playlist are now read correctly by SR.	KMS/KAF
SUP-30736	The custom CSS for media now works correctly on applications with an access control profile.	KMS/KAF
SUP-30742	[BB Ultra] The issue in Firefox 96.0, where FF enforces Cookie Policy Same-Site=lax, resulting with access denied was resolved.	KAF

KMS Version 5.106.81x January 24, 2022

Version: 5.106.81x

Date Released: January 24, 2022

What's New

- **Import from OneDrive** – A new feature of importing content from OneDrive is available for all KMS and KAFs.

  The OneDrive module provides the ability for users to ingest content from their personal OneDrive folder by adding an 'Import from OneDrive' button in the Add New menu. This feature allows users to manually upload Microsoft Teams meeting recordings directly to their KMS/KAF accounts. (KMS-24340)

  See more in the Import from OneDrive to Kaltura article.
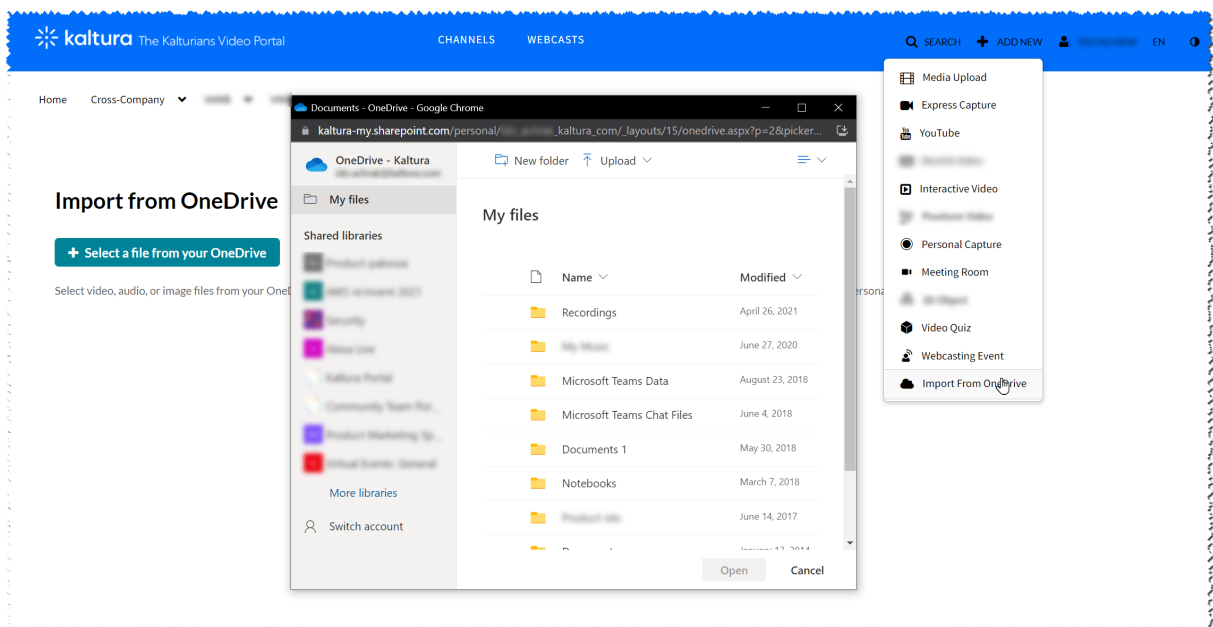

- **Updated languages for KMS and KAF -** See the Supported KMC, KMS & KAF Languages article for more information. (KMS-25148)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-30795	[UI] Adjusted the vertical gap between thumbnails in channel/media gallery pages	KMS/KAF
SUP-30742	Added the SameSite None and secure to support the new Firefox change for SameSite cookie policy. (BB Ultra)	KAF
SUP-30722	[Meeting Rooms] The "Join Meeting" button in the channel/media gallery now works correctly for attendees.	KMS/KAF
SUP-30525	Source download links now appear correctly for all Zoom type entries.	KMS/KAF
SUP-30488	[BSE] Video Submissions entries are added to the relevant context category.	KAF
SUP-30464	Updated the description to clarify that liveEntry is not supported for the Registration module.	KMS
SUP-30273	Search by caption timestamp in KAF instances, will no longer show an error.	KAF
SUP-30143	[Meeting Rooms] New meeting rooms edit page now shows the correct information on the first page load.	KMS/KAF
SUP-30009	[BSE] Added Annoto plugin support to the BSE Thumbnail embed.	KAF
SUP -29952	Text changes in the KMS admin Recscheduling module	KMS/KAF
SUP-28023	[BSE] Added the minimalBSERole settings on BSE V3 and changed the default to privateOnly role.	KAF
SUP -27149	[UI] Fixed the UI when using the "Change ownership" feature, to show all users on the modal box correctly.	KAF

KMS Version 5.106.78x January 11, 2022

Version: 5.106.78x

Date Released: January 11, 2022

What's New

- **Meeting Rooms –** Added the ability for admins to choose to publish the recording automatically to the same categories the entry is in. Read more in the Record Your Live Session article. (KMS-25020).

Resolved Issues

KMS Version 5.106.69x December 27, 2021

Version: 5.106.69x

Date Released: December 27, 2021

What's New

- **Meeting Rooms – Single room**

  The Kaltura Meetings Room is a new media type within the applications, enables each permitted user to create their own meeting room.

  The new rooms are easily created with scheduling which display a countdown to the meeting start time. The new entry type provides owners with a similar set of capabilities as any other entry type such as setting collaborators, adding a thumbnail, and publishing to channels.

  The new feature will be available via a new module called meetingEntry for all applications using the Kaltura Meetings and Virtual Classroom customers (KMS-24013)

  Read more in the Working with Meeting Rooms article.

Resolved Issues

ID	Description	KMS/KAF Related
SUP-29985	Added the ability for users with viewerOnly role to delete playlist they created.	KMS
SUP-30102	Captions can now be added in bulk for content owned by groups, by the group members	KMS/KAF
SUP-30038 SUP-30037	UI fixes on the channel page, to make sure elements do not go over each other on mobile devices (Start Meeting button and channel description).	KMS
SUP-29651	[Accessibility] Text in the publishing modal was changed to provide a clearer understanding of the flow for SR users.	KMS/KAF
SUP-29717	Setting Moderation on a channel is now persistent and does not change automatically.	KMS/KAF
SUP-29829	Removed the margin between the playlist player and transcript widget in MediaSpace	KMS
SUP-28603	Users can now publish more than 15 media items from a Shared Repository	KMS/KAF
SUP-30354	Enhance security on links to comments	KMS
SUP-29246	SAML - Direct links to private entries now redirect users to the SAML login	KMS
SUP-29049	Added missing translations for the upload cancelled text.	KMS/KAF

💡 **Wishing you all Happy Holidays**

KMS Version 5.106.61x December 13, 2021

Version: 5.106.61x

Date Released: December 13, 2021

What's New

- **History module**

  Playlist History – The history feature in KMS is getting an enhancement. Once turned on, the History module in KMS will remember the user's spot in a playlist. When reaching the playlist page again, the player will start the user's playback from the last entry watched.
  A new indicator was also added to the playlist Details page, showing a progress bar on each media. (PSVAMB-25131)

Path History – Path media (interactive videos) will now show up in the My-History section as viewed. Due to the nature of the media, 'complete' and 'progress' indication are not available. (SUP-29845)

- **KMS Admin** – Texts changes to the "Backup Configuration" pop up message to make the process clearer. (SUP-21262)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-30287	Enhance channel loading time in KMS	KMS
SUP-30301	Webcast Events Portal completely blank white page	KMS
SUP-29329	Registration - Use shorten URL when the ICS calendar 'location' value is too long	KMS
KMS-24978	Local - The custom metadata dates are now properly localized	KMS/KAF
SUP-29149	[Accessibility] Media page options tab are now automatically pass to the tab content upon selection of tab	KMS/KAF

KMS Version 5.106.56x December 1, 2021

Version: 5.106.56x

Date Released: December 1, 2021

What's New

- **Flexible Date Format** – The TimeAndDate module is a new module providing a flexible way to set the format of the site's date display. Admins can now select the format they want to display by using predefined tokens.
  For example, to display '*Day.Month.Year*' (e.g. '*22.4.2019*') the admin can fill in the following tokens '*D.M.YYYY*'.

  Admins can also add text by using brackets.
  For example, to display '*November the 5th*' the admins will fill in the following tokens: '*MMM [the] Do*' (Notice the use of the word 'the' in the brackets).

  In addition, admins may select different date formats for different languages. This is

very useful for languages such as Japanese, where the date standard requires special characters.

For example, To show '*2020年 5月11日 月曜日*', Fill in the following tokens: ' *YYYY[年] MM[月] DD[日] dddd*'.

The TimeAndDate module replaces the "**dateFormat**" field from the Application module, and the field will no longer be available. You will also notice that some other time/date related fields moved from the Application module to the TimeAndDate module. (KMS-23795, KMS-24959, KMS-24964, KMS-24743)

- **Global site tokens** – This new feature located under the Languages module, allows admins to create text tokens that can be placed into text fields in the KMS admin. The values for these tokens will be replaced by the value given to them in the Languages module. This is a feature designed for use cases where a constant change of text is required in the site. (KMS-24932) For more information see Custom Tokens in the article Localization for KMS/KAF Administrators - How to Change Your Kaltura Application Language?

- **Languages** - Updated translations to the KMS PO files. (KMS-24876)

Resolved Issues

KMS Version 5.106.24x October 5, 2021

Version: 5.106.24x

Date Released: October 5, 2021

What's New

- **New Language Exception UI display in the admin Languages module**
  The Languages module LanguageException field has been enhanced to improve reviewing and managing language exceptions. (KMS-24473)The new configuration displays the language exceptions in a table. In addition a cloning feature has been added that simplifies editing a language exception. When cloning a language exception each language exception may be edited separately, and then saved. Note: Saving the individual language exception does not require another save on the module level.
  All existing language exceptions are automatically displayed in the new language exceptions table in the new table format. There is no need to redefine existing language exceptions.

- **SAML/SSO Group Sync**

  Added the ability to clear the users' groupHash in the Manage Users window.   This feature is only relevant for instances that store groupHash in a user's metadata as part of the groupSync process. This option is available in the Actions dropdown only when ssoGroupSync or SamlGroupSync is enabled on the instance. This allows admins using the groupSync to clear the saved list of a user used on the user's login (but will not remove the user from any groups). (SUP-28015)

Resolved Issues

ID	Description	KMS/KAF Related
SUP-28278	Fixed the issue where the channel theme was not affecting the channel playlist correctly.	KMS/KAF
SUP-28818	Added validation on the URL of the channel, to validate that the channel ID exists and is numeric.	KMS
KMS-24539	Removed the redundant PHP code included in the aria-label html tags when translating tags in the dedicated tag search page.	KMS
SUP-29018	Quiz: Fixed the issue in the KMS/KAF admin, where using the preventForwardSeeks field to enhance the player did not work.	KMS/KAF
SUP-28853	Download module: Enhanced the ability of the module to download the new source flavors as fallback.	KMS/KAF
SUP-28637	BlackBoard Ultra: Fixed the issue where ";amp&" and other special characters were inadvertently displayed on the media description.	KAF

KMS Version 5.106.154 September 13, 2021

Version: 5.106.154

Date Released: September 13, 2021

What's new

- **New module – securityTxt**

  The new securityTxt module allows you to enable the "/security.txt" file in the site. (KMS-24594)

  The security.txt file is a standard for websites' security information that is meant to allow security researchers to easily report security vulnerabilities. You can read more about it, and also create your own security text in securitytxt.org.

Resolved Issues

ID	Description	KMS/KAF Related
SUP-28587	[PATH] Added support for Path projects used with access control of type KS restriction.	KMS/KAF
SUP-28656	[Webcast/Live] The live entry page now shows the correct thumbnail after the VOD recording is connected to the live entry.	KMS
SUP-28724	[YouTube Embeds] Fixed the issue where "404 resource not found error" is showing in the developer tools, due to the scrubber slider preview.	KMS
SUP-24484	[Facebook share] Fixed the issue where the wrong thumbnail for live entries shows on the shared post.	KMS
SUP-28944	[Moodle, Quiz] Embedded quizzes now work correctly when using embedded via the external tool in Moodle.	KAF

SUP-28092	[KMS admin] We removed the *showUserEmailColumn* field from the *Userreports* module, as it is not relevant in the new analytics dashboards.	KMS/KAF

KMS Version 5.106.113 August 30, 2021

Version: 5.106.113

Date Released: August 30, 2021

What's new

- **BSE (browse Search and Embed) Playlists and Media embeds** - KAF embed settings under the Browseandembed module were updated to address different aspect ratio issues. Explanatory text was added on the embeds sizes. (SUP-28301, SUP-28321)

  The default values for new instances are now updated to be:
  - 608x372 (was 608x402)
  - 400x255 (was 400x285)
  - 304x201 (was 304x231)

    Accounting for 30px from the navigation bar.

    This will not affect any custom sizes previously created by admins.

Coming soon - To support v7 player additional changes will affect the new player embeds. Additional updates will be provided accordingly.

SUP-26896	[IVQ, Canvas] Changed the size of the quiz player in different launch pages to make sure the quiz is not cut off at the bottom.	KAF - Canvas
SUP-25383	The filter "Media I Own" now displays only content that the user owns, not group-owned media.	KMS/KAF
SUP-27644	Channel Playlist media icons are no longer center-aligned.	KMS/KAF
SUP-27940	Media owned by a group can now be shared by the group members.	KMS/KAF

KMS Version 5.105.41 June 14, 2021

Version: 5.105.41

Date Released: June 14, 2021

What's New

- **Admin texts** – Some changes to the KMS/KAF admin pages:
  The user's action "Clear Groups" (KMS-23814), and the Language module field descriptions (KMS-24035).
- **Social Share modules** – To allow better viewership sharing when sharing pages

other than video page, we added the ability to add general site meta tags such as logo and description for both Facebook and Twitter social share modules. (KMS-23996, KMS-23985)

Resolved Issues

ID	Description	KMS/KAF Related
KMS-24041 ; KMS-23700	[Admin] Language Exceptions – improved support was added for CSV imports containing commas and HTML tags.	KMS/KAF
SUP-24979	The issue with playlist embeds, where the actual embed sizes are different than selected was resolved. (For Blackboard the minimum Building Block version: v5.4.7)	KAF
SUP-27419	[Blackboard] BSE embeds using Chrome version 90.0.4430.85, no longer presents the re-login screen. (The minimum Building Block version: v5.4.6.)	KAF
SUP-26497	Users no longer can save a Webcast event End Date that happens before the Start Date.	KMS/KAF
SUP-26638	When using a channel playlist in a private channel, an unauthenticated user now receives the appropriate message.	KMS
SUP-25995	The Kaltura Capture in-app disclaimer text now accepts HTML tags.	KMS/KAF
SUP-26656	The "required" tooltip for tags in the entry metadata in the edit page are now displayed properly below the field.	KMS/KAF
SUP-25298	The media publish status is now displayed correctly for all entries in the My-Media page for owners not members of the published category.	KMS/KAF
SUP-27729	[Blackboard Ultra] Users set with the LTI role Learner and Instructor in different courses, can publish content from My-Media only to the Course gallery where they are enrolled as an Instructor.	KAF

ID	Description	KMS/KAF Related
KMS-24038	[LTI 1.3 – Canvas – Caliper] Caliper events now pass correctly from KAF when using LTI 1.3	KAF
SUP-27682	A Home page with playlists no longer shows a 500 error when misconfigured playlists are added.	KMS
SUP-25443	Added support for groups when using profileNotifiedUsers in the Reach module, for email notifications. (The group must be set with an email address.)	KMS/KAF

KMS Version 5.105.15 May 11, 2021

Version: 5.105.15

Date Released: May 11, 2021

What's New

- New Navbar Item 'type' **-** Using the Navigation module, admins may create navbar items that transfer the user from the current KMS into another, automatically logging them in. Please note that the user ID must be available in both KMSs and both KMSs must be under the same account (i.e., have the same Partner ID). (KMS-23674)

- Watch Later – Once enabled by the admin via the Watchlater module, a new menu item (Add to Watch Later) displays on the ACTIONS menu for each media page. This

menu item allows a user to add media to a Watch Later playlist. (KMS-23856)

Please note that KMS admin may enable the Watch Later feature without enabling the playlist capability and a direct link to the watch later page may be added to the user navigation using the following URL: {site_URL}/watchlater.

KAF admins may also enable the Watch Later feature, allowing users to add media to the Watch Later playlist, then watch the media later in KMS (assuming they have permissions to the media in KMS).

For more information on Watch Later, please see Create and Add Media to a Playlist, My Playlist Page, Edit Playlist Details, and Playlist Administrator's Guide.
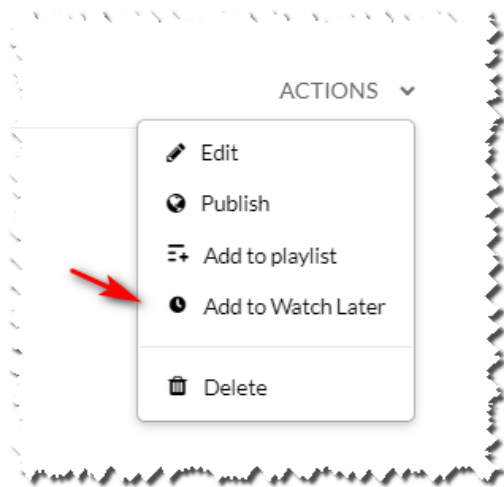

- Time/Date Module - Admins may now select how the date is represented in the application. Three formats are available and each is used in different locations, according to the context and space available. In addition, an admin may apply a different date format for different application languages. For example, an American format may be applied for English speakers, and a European format for the French speakers.(KMS-23809)

  For more information, please see the TimeAndDate module and the article Date and Time Format Display Locations.

NOTE - Currently, the TimeAndDate module only applies to one location – the new global search scheduling time and date. In the next release, the TimeandDate module will replace the '*dateFormat*' field under the Application module. To prepare for this switch, please take time to set up the new module. If you would like to use the defaults, no action is required.

Resolved Issues

ID	Description	KMS/KAF Related
SUP-25669	[Moodle] The issue where courses created via the API automatically were set with moderation after first launch of the course gallery has been fixed.	KAF
SUP-26803	The Add to playlist editor only shows the content of which you are the owner or co-publisher.	KMS/KAF
SUP-27305	Category title for galleries now displays when the IncludeCategories field is set to 'No'.	KMS
SUP-25574	The application does not enforce auto continue for playlists' embed. Admins that want to enable auto continue may set the feature to work this way from the player settings in the KMC Studio.	KMS/KAF
SUP-27107	[MS Teams] Access Denied message no longer displays when connecting for the first time.	KAF

ID	Description	KMS/KAF Related
	connecting for the first time.	
SUP-26481	Add to playlist icons now display properly on all KAFs,.	KAF
SUP-25863	The 'Start Meeting' text displays correctly for the meeting room moderator when the newrow.com domain is configured.	KMS/KAF
SUP-25996	Express Capture is now available for groups as well as roles and specific users.	KMS/KAF
SUP-26491	The outdated text in the Replace Media page has been removed.	KMS/KAF
SUP-26124	The texts for the default URLs in the client module have been revised to provide more clarity.	KMS/KAF
SUP-26062	'Load More' now works properly when searching in KAF shared repository.	KAF
SUP-25657	In KAF, playlists with less than three media items now display the media aligned left.	KAF
SUP-23309	The Styling module now changes the colors of the header buttons correctly.	KMS
SUP-26314	The banner text now displays properly when ordering captions.	KMS/KAF
KMS-23902	The Japanese language code has been corrented and chnaged from `ja_temp` to `ja`.	KMS/KAF
KMS-23906	Interactive Videos now play in KAF when default entitlement enforcement is set to "on".	KAF

KMS Version 5.104.667 April 6, 2021

Version: 5.104.667
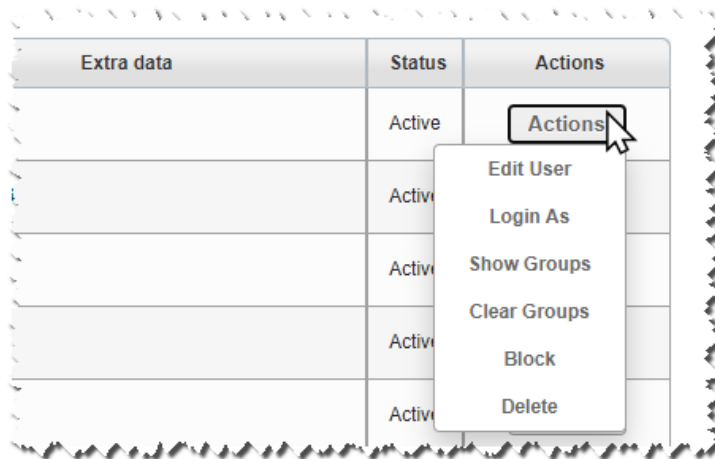

Date Released: April 6, 2021

What's New

- **Search and Webcast Schedule** – The live event scheduling Time and Date has been added to the live media results in the global search and applies to all scheduled entries: live, VOD, Kaltura Meetings, Simulive, and Webcasts. The "live" and "schedule" indicators work per the set schedule time. (KMS-23275)

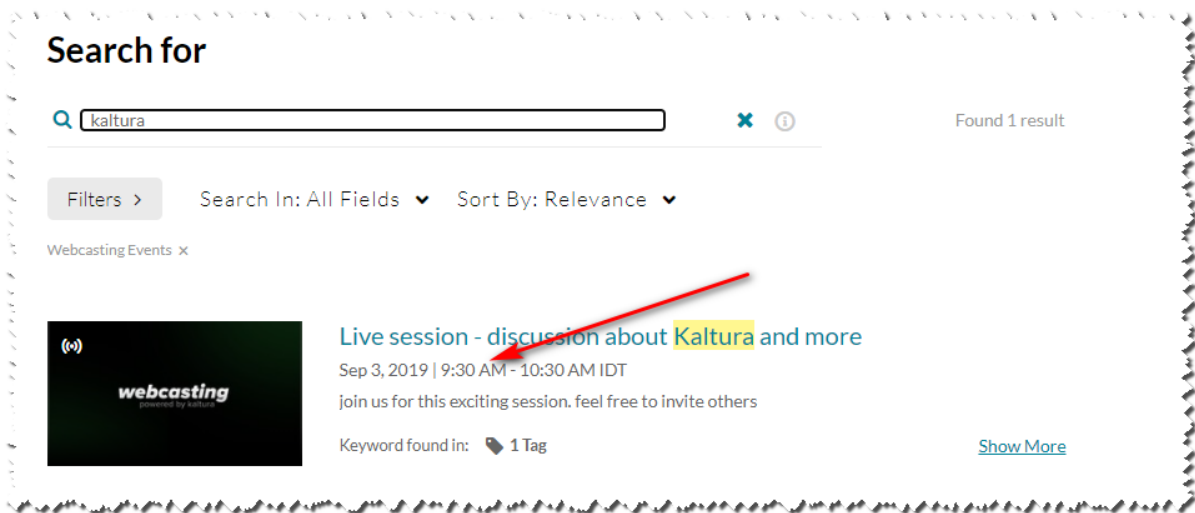

- **Application Admin Enhancements**
    1. Login As - The Login As feature has been enhanced and now supports multi authentication. (KMS-23025)
    2. Navigation – Each navigation item can be restricted to more than one group using the allowedGroups section. (KMS-23149)
    3. Removed all references to Flash and krecord – With the deprecation of Flash by Adobe, all the features with references to Flash or krecord have been removed. (KMS-22995)
    4. Clean up – Redundant fields from Captions module were removed. (KMS-22621)
    5. User Management– In the User Management tab, you can now:
        a. See the groups to which an individual user belongs. (KMS-23258)

b. Toggle between columns to either display a user's "extra data" or a user's "registration status". This choice of what to display is selected using the extraUserInfoRow field in the Application module. Both column displays present a different field from the user's object to the admin. (VIRTC-1668)
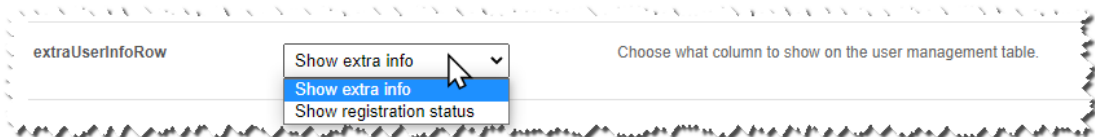

6. Images uploaded from the KMS admin use the default KMS Access control profile The KMS automatic default for Access Control Profiles is used for images in KMS admin.   (KMS-23121)

- **Language**

1. New Language support – Finnish, French Canadian. (KMS-22421) For more information, see the Application module.
2. Updated translations for Italian. (KMS-23368)
3. Language selector from the URL parameter - The ability to use a URL parameter to direct users to KMS with a preset language in a multi-language KMS has been added. When specifying the language parameter in the URL, it is as if the user selected a language from the Language drop down.
   For example:
   if you specify {siteURL}/{specific url}**?lang=es** the following happens:
   The page loads in Spanish, and the selected language in KMS on the top right will be set to Spanish.
4. Export/Import Language Exceptions – In the Languages module, admins can now export/Import Language Exceptions using a CSV. (KMS-23257)
5. Custom Data translation – Using language exceptions, admins can now translate the custom data fields' names, to show in the esearch filters and entry page UI.

(KMS-23210)

6. We have consolidated the 'Appears in' occurrences to 'Appears In' in the PO files/translations. (KMS-23376) Adding a language exception for the 'Appears In' string now applies to both places where 'Appears In' is displayed so that the text 'Appears in ' and the appears in below the entry title is localized.

- **New Open Beta – Presenters Module** - This feature is currently available as an open beta. The new core Presenters module allows every media owner to add application users to the media page (live and VOD), indicating that these users are either appearing in the media, presenting, or just involved in the making of it. This feature is planned to be coupled with the new user profile page which is intended for release at a later date. (KMS-21789)
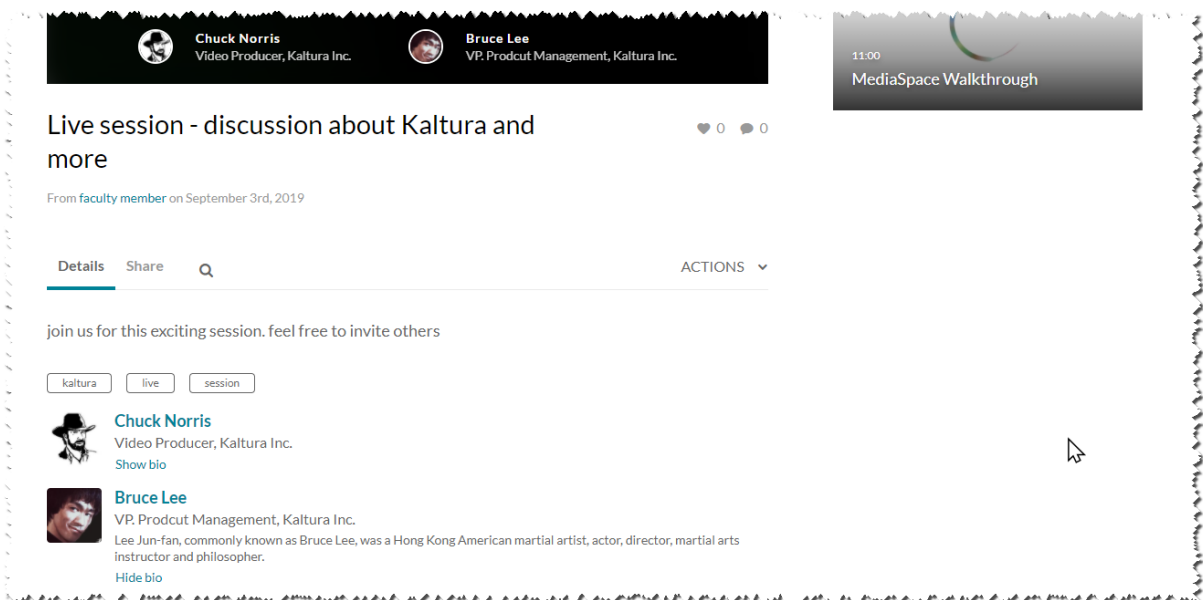

Resolved Issues

ID	Description	KMS.KAF Related
