## August 2025

- Genie got smarter: Next-level question analysis
- New formats added: Tables and full-text responses
- Genie got conversational: Threaded experience
- Genie speaks your language: Multi-lingual support

## July 2025

- OCR support
- Channel-specific Genie
- Class Genie
- Genie on public Video Portal environments

## Content Lab

An AI-powered video enrichment and repurposing engine, automatically creating clips, quizzes, summaries, and chapters tailored to your audience, helping you boost engagement and maximize the value of your content.

New features released each month in 2025:

## August 2025

- Summary & chapters - Custom instructions
- Clips - Improved UI for custom instructions
- Custom quiz instructions
- Improved quiz question placement
- Selective metadata publishing

## July 2025

- Content Lab for Events

## June 2025

- Multilingual support

- Clip draft management

#### May 2025

- Increased number of clips generated per request
- Improvement to the clips algorithm
- Create with AI button now available on entries list in KMC
- Clips trimmer improvements
- Clips - Reuse prompt

#### April 2025

- Metadata enrichment for Content Lab

#### March 2025

- Combined clips

#### February 2025

- Initial release of Content Lab

### Video Portal and LMS Video

A customizable media hub for storing and sharing media collections across your organization.

New features released each month in 2025:

#### November 10, 2025

- Folders update
- Invite to media
- Admin access by IP restriction

#### October 27, 2025

- Revamped playlist editing experience in Video Portal
- Updated translations for LMS Video
- Improved admin texts

- Notification for unregistered login attempts

- Tag search redirect

August 18, 2025

- Responsive media embedding in all LMSs

August 4, 2025

- Revamped My Playlists page

July 21, 2025

- Revamped Gallery page
- Mandatory captions

July 7, 2025

- Create playlists and town halls faster and easier

June 23, 2025

- Import from YouTube simplified

June 10, 2025

- See all media by your favorite creators
- Redesigned Video Quiz creation page
- Add to Channel – faster ways to contribute content

May 27, 2025

- Advancing the new LMS Video and Video Portal experiences
- New access point for Interactive Video Paths (RAPT) analytics

May 12, 2025

- Browse, Search, and Embed (BSE) in LMS Video -
  - Easily reuse videos across all your courses - Theming
  - Make metadata mandatory - Theming

April 27, 2025

- Video Portal - Filter VOD entry analytics by playback context

April 7, 2025

- A new way to Browse, search, and embed

March 24, 2025

Enhanced calendar invites – more customization, easier management

March 10, 2025

- Seamless compatibility with Moodle 4.5
- Easier video labeling with search in Theming
- Interactive video embedding is supported in Player v7

February 24, 2025

- Video Portal (KMS) & LMS Video
  - Channel / Media Gallery additions
- Video Portal (KMS)
  - Revamped and unified Channels page
  - Quiz analytics enhancements
- LMS Video (KAF)
  - New publishing flow in Theming
  - Quiz analytics enhancements

February 10, 2025

- Clickable links in PDF document entries
- Video Portal Theming now applies to C&C

January 28, 2025

- Optical Character Recognition (OCR) Search in Video Portal and LMS Video!
- Drive registration and engagement with clickable videos in your playlist component

January 14, 2025

- Publish from upload
- Add support for Kaltura messaging service
- Security improvements

## Player V7

A fast-loading, reliable, and customizable HTML5 player designed for an exceptional viewing experience.

New features released each month in 2025:

#### November 9, 2025

- Prioritize audio description (Video & Reels Player)
- Sort audio tracks alphabetically (Video, Audio & Reels Player)
- CPE Tracker
- Banner messages

#### August 17, 2025

- Prioritize regular audio tracks (video, audio and reels player)

#### July 20, 2025

- Text Protection
- Timeline sound visualization (Beta)

#### July 6, 2025

- Extended audio description additions and updates

#### June 22, 2025

- Player debug keyboard shortcut
- Link to original video

#### May 25, 2025

- Debug info

#### March 9, 2025

- Extended audio description
- Metadata-based CTA
- Improved stream failover

#### February 9, 2025

- Dynamic watermark link

#### January 7, 2025

- Live viewers counter
- Multi-language transcript support on audio player

## Kaltura Management Console

The central hub and primary application within the Kaltura platform, serving as the commanding interface with robust capabilities for overseeing and controlling all aspects of video content across your Kaltura applications.

New features released each month in 2025:

### November 9, 2025

- Filter for Uncategorized Entries

### October 26, 2025

- Obfuscated secrets in KMC
- Responsive sizing toggle in Share & Embed for Player embeds

### September 20, 2025

- Upload document entries to KMC
- Document entries moderation

### July 20, 2025

- New language support for manual captions
- 10-Second viewing analytics update

### July 6, 2025

- Manual upload for Extended audio description files
- Enhanced user matching in Zoom connector

### June 19, 2025

- Sample content in KMC Studio now available across SaaS Regions

### June 15, 2025

- Automate Workflows with Admin tags
- Automate Workflows with Live entries and with hidden entries

### May 25, 2025

- Automate workflows with Custom Metadata

- Multi-Category publishing for Zoom recordings
- KMC Analytics update

April 8, 2025

- Remove users without deleting

February 23, 2025

- Teams integration - Choose whether recordings are uploaded with transcription.
- Updated translation options for KMC pages

February 9, 2025

- Teams integration - Find uploaded recording owners by user email, in addition to user ID.

## Canada - Planned Upgrade - Product Availability

**Date Released: December - February 2025**

Going forward, your environment will be fully aligned with our main cloud, receiving all the latest updates and innovations at the same time as our global customers. This ensures your experience always remains current and up to date.

### About

As part of the Regional Cloud upgrade planned for Canada in January 2026, this region will gain full access to Kaltura Events & Webinars, along with the Kaltura Room. These two powerful Kaltura products will deliver enhanced live streaming scalability and reliability to the region.

### Kaltura Events & Webinars

Kaltura Events & Webinars allow you to create, manage, and track one-of-a-kind experiences that will expand your reach, strengthen your brand, and build a strong pipeline, all in one comprehensive platform.

## Regional Cloud Release 24Q4 - v24.3.1

**Version:**24Q4

**Date Released:**Dec 2024

Release - Singapore (SG) Regional Cloud - December 13, 2024

Planned Release - Canada (CA) Regional Cloud - December 22, 2024

Planned Release - Australia (AP) Regional Cloud - January 10, 2025

### Major update coming to Kaltura's Regional Clouds

We're excited to announce a major upgrade to Kaltura's **Regional Clouds** in Canada, Singapore, and APAC (Sydney), introducing impactful enhancements in core products to improve usability, expand functionality, and deliver advanced customization options.

### Highlights of the upgrade include -

- **Kaltura Player V7 and Player Studio**

The move to **Kaltura Player V7** delivers sleek design, unparalleled performance, and enhanced functionality, offering a superior viewing experience for your audience. Complementing this is the **Player Studio**, a game-changing tool that makes it easier than ever to create and customize players, ensuring they align perfectly with your brand and viewers' needs. You can explore the key differences between Player V2 and Player V7 using our [comparison tool](#).

- **The new Video Portal UI (aka Theming Module/ Design System)**

The Video Portal UI is gradually being revamped, with most end-user pages already upgraded. These include **My Media**, **Channel Page**, **Global Search** (enabling powerful searches across your entire Video Portal), **Entry Page**, and more. The update introduces advanced tools such as the **Theme Editor**, which allows you to customize your portal without coding, and **Template Pages**, enabling you to create dynamic landing pages featuring banners, playlists, and calls-to-action. Enhanced navigation features like sticky menus and channel collection ensure an intuitive, engaging user experience that keeps your content front and center.

This change is also gradually rolling out to **LMS Video**, bringing the same refreshed design and powerful capabilities to learning management system integrations.

- **Content creation and management tools**

With the **Recycle Bin**, recovering deleted media is now quick and easy, while **document entry support** enables the uploading and sharing of PDFs and presentations as standalone items or within playlists. The **Media Stitching** tool streamlines content creation and repurposing, allowing users to combine multiple videos and images into a single cohesive asset.

These upgrades are designed to empower your users, enhance engagement, and future-proof your platform with advanced tools and functionality.

For a complete list of features and updates included in this upgrade, view the table and links below.

## Key Product Summary

\*The following versions include Product upgrades from Jan. 2023 - Aug.2024.

Product	Version	Release Notes
Backend	Tucana-20.17.0	<a href="#">Github</a>
