Kaltura Room release notes - August, 2026

Date Released: August 2, 2026

What's new?

Skip and frame controls on stage

We're introducing frame-by-frame and time-based skip controls for video playback on stage, giving moderators finer control when reviewing video content during a session. Simply click **Frame Controls** then click on the desired option - skip backward or forward by 2 or 5 seconds or use Previous Frame/Next Frame to step through the video frame by frame.

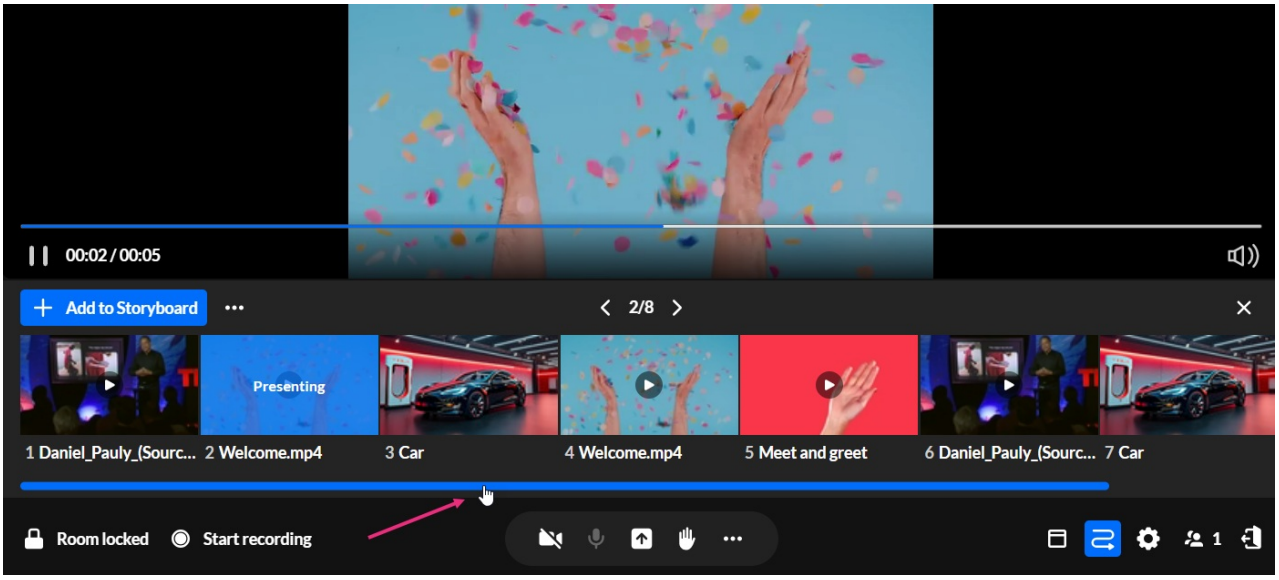

See our Knowledge Center article for complete details.

Storyboard scroll bar always visible

The Storyboard scroll bar is now always visible, making it easier for users to notice when more items are available beyond the current view. Hovering over the scroll bar enlarges it.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

For complete information, see our Knowledge Center article.

Refreshed room lobby screens

Room lobby screens have been refreshed, with theming now inherited from the hosting application. Enjoy refreshed views for Wait to join, Access denied, Room full, Disconnected, Session ended, and many other screens.

See, for example, this Knowledge Center article.

Kaltura Room release notes - May 2026

Version: KME 2.1.11

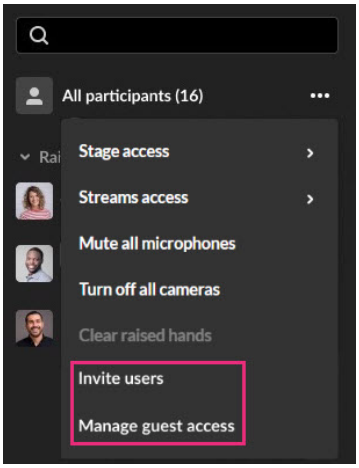

Date Released: May 2026

What's new?

Moderator invite capabilities from the Participant tab

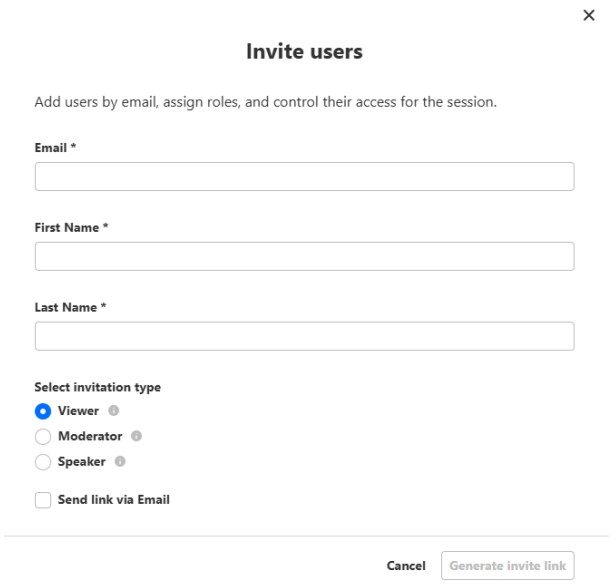

Moderators can now **invite users and guests directly from the Participants tab** inside a session, reducing friction when adding participants mid-session.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Invite registered users

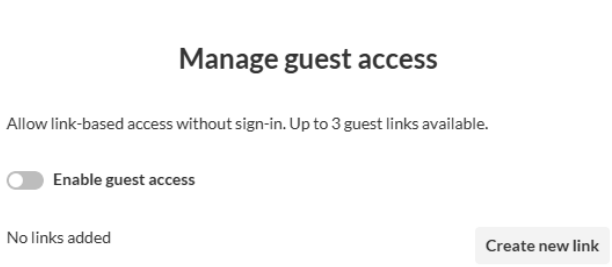

- From the Participants tab, moderators can access the three-dot menu and select "Invite users."
- This opens the 'Invite users' window, allowing the moderator to invite registered users to the session.

See our Knowledge Center article for more information.

Manage guest access

- Moderators can now control whether external users are allowed to join their session.
- Clicking 'Manage guest access' opens a window where moderators can allow external participants to join and create a shareable guest access link.

See our Knowledge Center article for more information.

Resolved Issues

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Support ticket ID #	Description
KME-3029	Fixed an issue where when a user entered the Room, the Participants tab was not displaying in the C&C panel even though all required settings were corrected configured.
SUP-50842	Fixed an issue where customers using multilingual Events templates were experiencing missing translations across multiple languages in the Room and C&C features.

Kaltura Room release notes - March 2, 2026

Version: N/A

Date released: March 2, 2026

What's new

Assign Moderator and Speaker roles to an entire group in Kaltura Rooms

You can now assign the **Moderator** or **Speaker** role to a group of users, not just individual users, in Kaltura Rooms.

When you assign a role to a group, all current and future members of that group receive the role when they join the session.

For more information, see our article Assign and manage moderators for Kaltura Rooms.

Kaltura Room release notes - February 1, 2026

Version: N/A

Date released: February 1, 2026

What's new

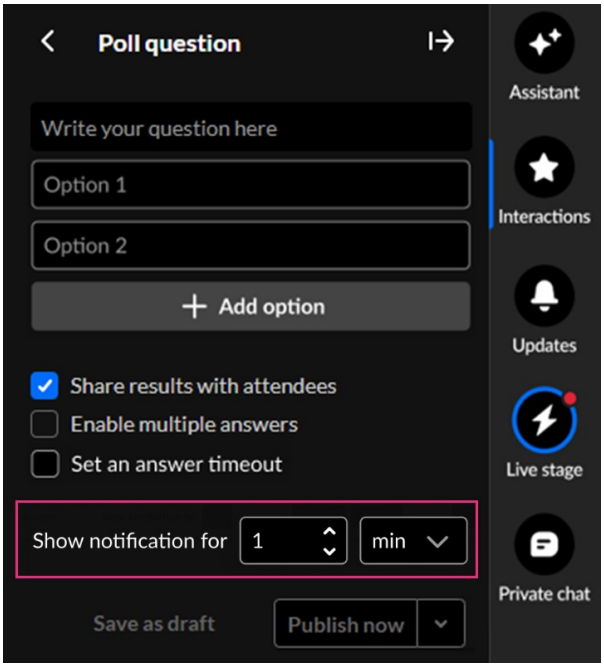

Control interaction notification duration

Moderators can now control how long interaction notifications remain visible to attendees in the Chat & Collaboration widget before they automatically disappear. This helps reduce distractions and improves the attendee experience.

Duration ranges are fixed and can be configured in seconds or minutes.

- Seconds: 5–60 seconds
- Minutes: 1–10 minutes

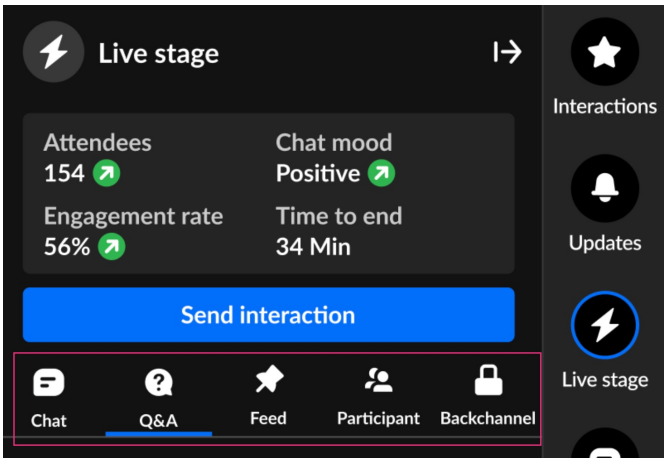

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Check out this Knowledge center article to see, for example, how to set the duration of a poll question in the Interactions tab.

Customize optional text labels under Live stage icons

We're enhancing the Live Stage navigation by allowing customizable text labels under the existing Live Stage icons (Chat, Q&A, Feed, Participant, Backchannel). This improves discoverability and clarity, especially for new users or those who use Chat & Collaboration less frequently.

Please contact your Kaltura representative to enable this feature on your account.

For a refresher on the Live stage tab of Chat and Collaboration, see our Knowledge center article.

Kaltura Room release notes - December 7, 2025

Version: N/A

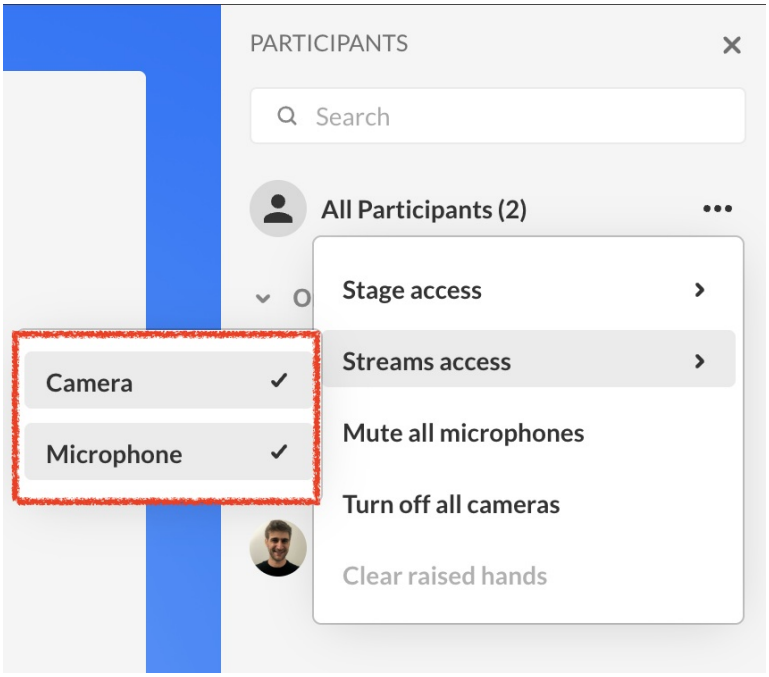

Date Released: December 7, 2025

What's new

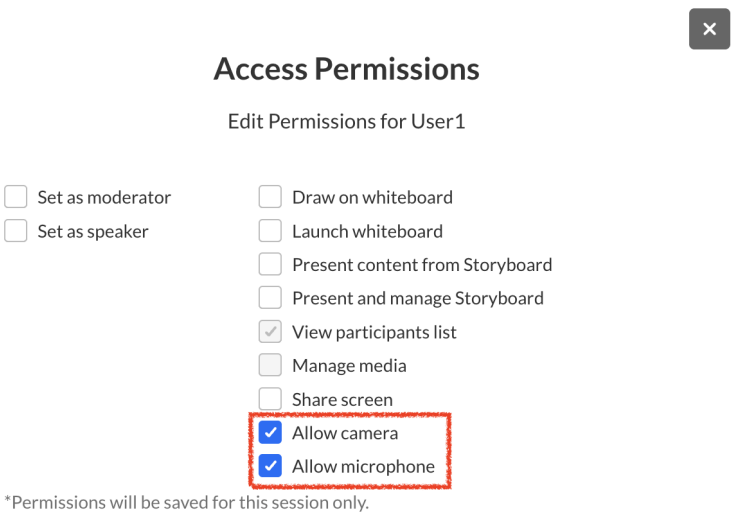

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Device control

We're introducing a powerful new moderation feature that gives session moderators enhanced control over participant audio and video permissions.

User control

Device Access allows hosts to manage who can activate their camera or microphone during a session. This feature is particularly useful for maintaining order in large meetings, managing classroom environments, or controlling presentation flows.

Key capabilities:

Global control - Apply device access restrictions to all participants simultaneously, with automatic exceptions for Moderators/speaker roles who retain full access.

Individual control - Target specific participants to remove or grant device permissions without affecting others in the session.

Transparent user experience - When a participant's device permissions are restricted, they receive a clear notification explaining that the host has temporarily disabled their ability to activate camera or microphone.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Flexible restoration - Hosts can restore device permissions at any time, either for individual users or for the entire session.

Kaltura Room release notes - November 9 , 2025

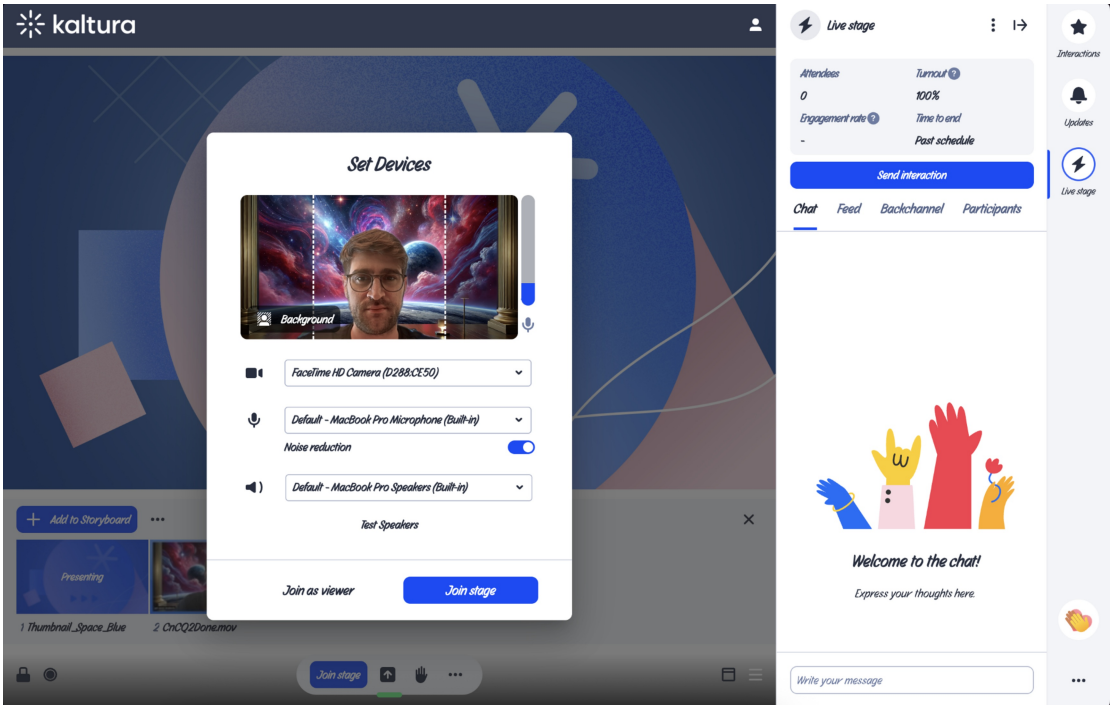

Version: N/A

Date Released: November 9, 2025

What's new?

Theming support

We're excited to announce that Kaltura Rooms now fully support Theming. This means that when Theming is enabled, rooms automatically inherit the active theme's colors and fonts, with no extra setup required.

Key Capabilities:

- **Automatic Theme Inheritance**: Rooms now automatically inherit Theming configurations from their hosting applications
- **Dynamic Font Adaptation**: Room fonts automatically adjust to match the hosting app's typography
- **Seamless Integration**: No additional setup needed; Theming is applied automatically when creating rooms

To set it up for legacy Video Portal / LMS Video, visit our article Theming module.

For Events, see our article Brand the event.

Kaltura Room release notes - September 14 , 2025

Version: N/A

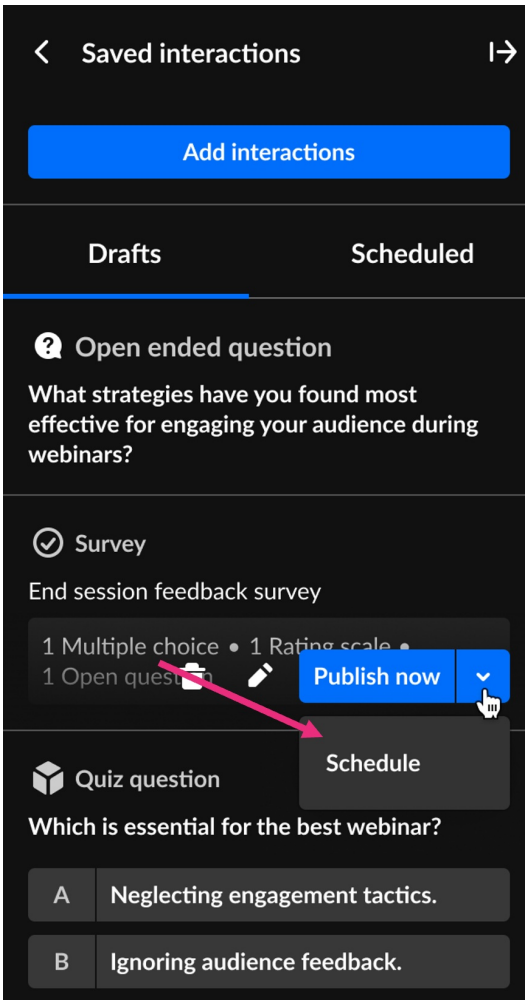

Date Released: September 14, 2025

What's new?

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Schedule and manage engagement interactions

Moderators can now schedule and time polls, quizzes, surveys, and other engagement tools to better plan participation during live sessions.

Choose when interactions go live

- Set publish time based on session schedule
- Configure triggering range from 1 to 120 minutes after session start or before session ends
- Set specific date and time for interaction publication

Choose how long interactions stay live

- Live countdown and status indicators
- Interactions automatically conclude at set duration
- 1-60 minute range accommodates different interaction types

See scheduled drafts in one place

Scheduled items appear in a dedicated Scheduled tab.

- The scheduling option is not available from the moderator app.
- Crowd reactions and announcements can't be scheduled.

For more details, see our Knowledge Center article.

Kaltura Room release notes - August 17, 2025

Version: N/A

Date Released: August 17, 2025

What's new?

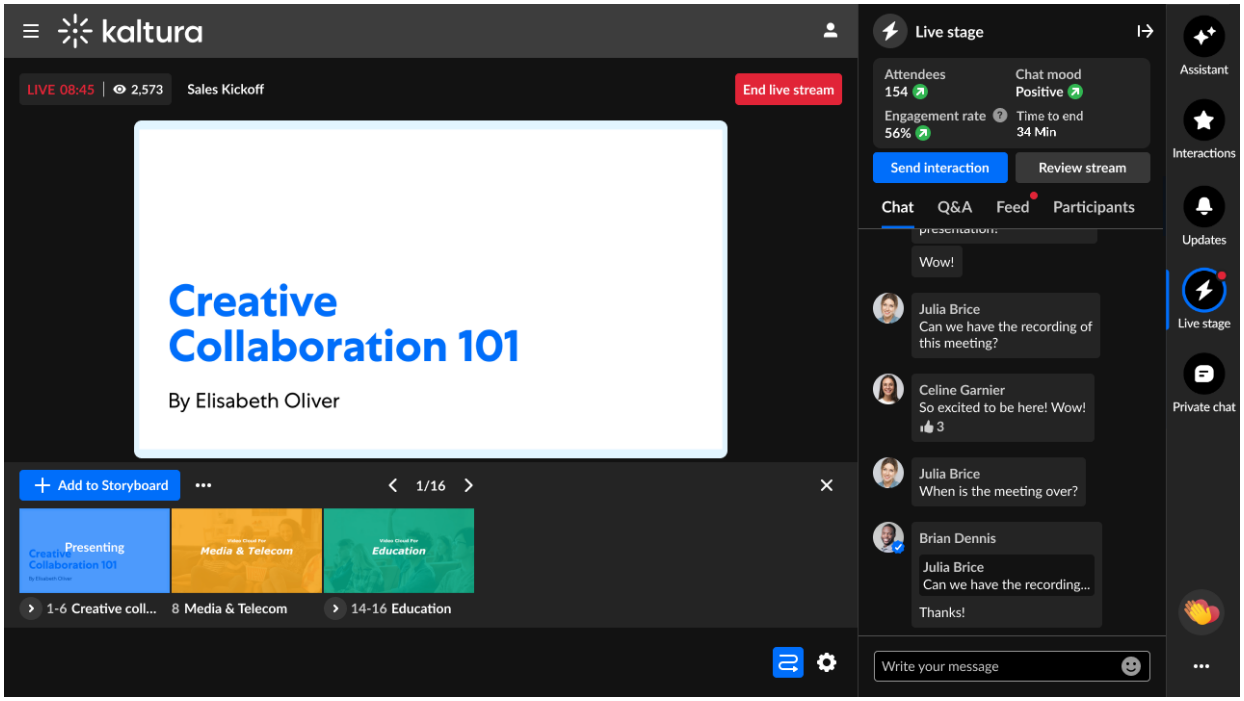

Stream health analytics dashboard and player preview

You can now view essential stream health analytics and monitor the live player during your Live webcast session. Access to this capability is found via the **Review Stream** button on the Chat and Collaboration widget right next to the Send interaction button on the Group chat, Q&A, Feed, and Backchannel tabs.

Key capabilities:

- **Integrated stream health analytics** - Monitor essential streaming metrics in real-time
- **Live player previe**w - View your broadcast directly within the Live webcast studio, including the dual screen plugin to review the cue points
- **Unified workflow** - Access all streaming insights without leaving your workspace

> This feature is only available in the Kaltura webcast studio during a live stream.

Want more information on this feature? See Stream health analytics and player preview.

Kaltura Room release notes - August 10, 2025

Version: N/A

Date Released: August 10, 2025

What's new?

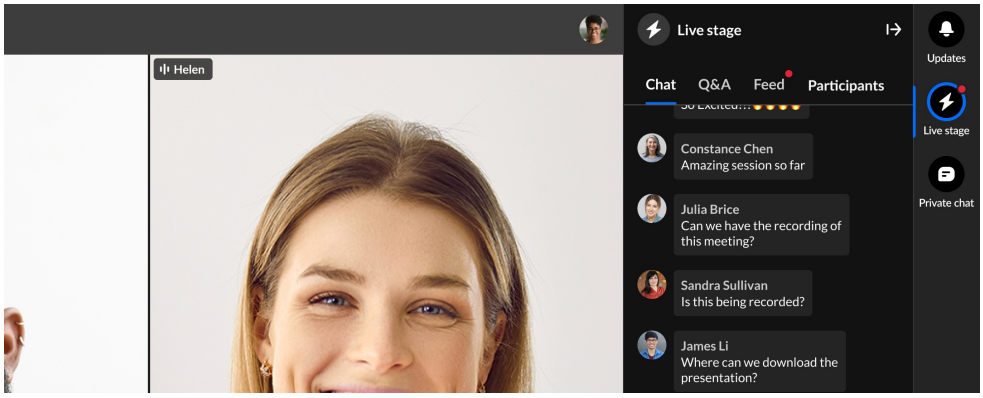

Activity indicators in Live Stage section

Activity indicators now appear on Group chat, Q&A, Feed, and Backchannel tabs. These indicators help you stay in sync

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

across all tabs by signaling when there's new activity in tabs you're not currently viewing. These visual cues make sure you never miss what matters - even when you're multi-tasking across multiple tabs.

- A notification dot on the Chat or Backchannel sub-tabs indicates there is a new message.
- A notification dot on the Q&A sub-tab indicates new questions or new chat under existing answers.
- A notification dot on the Feed tab indicates that a new item has been published to the feed.

The notification dot disappears once the user clicks on the tab.

A notification dot also displays on the **Live Stage icon** when the widget is closed and there's activity in any tab.

For more details, see our Knowledge Center article.

Extended language support

Chat and Collaboration now opens in your selected language. Users can change the language from the hosting platform (not inside the widget), and the widget will automatically refresh with the updated settings. See the list of officially supported languages here.

Kaltura Room release notes - July 21, 2025

Version: N/A

Date Released: July 21, 2025

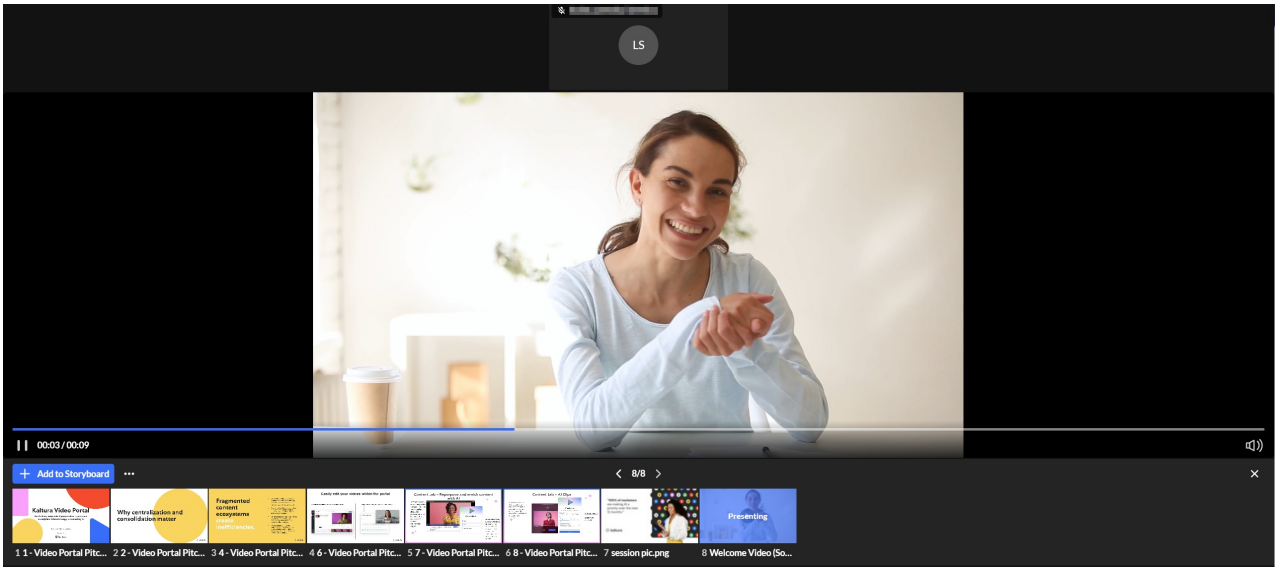

What's new?

Video and audio auto-play on storyboard

Video and audio files now start playing automatically when presented from the storyboard, eliminating the need to manually click the play button. This streamlines your presentation flow as media begins seamlessly as soon as it appears on stage.

This enhanced functionality works whether you click directly on a media file or navigate to it using the arrow controls. Sound is enabled by default to deliver a more engaging and immersive experience for your audience.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

For more details, see our Knowledge Center article.

Kaltura Room release notes - July 6, 2025

Version: N/A

Date Released: July 6, 2025

What's new?

Mini session analytics dashboard in Chat and Collaboration

We're excited to announce enhanced visibility into session engagement and performance metrics for moderators. This update provides valuable insights to help you better understand and optimize session management.

Key capabilities:

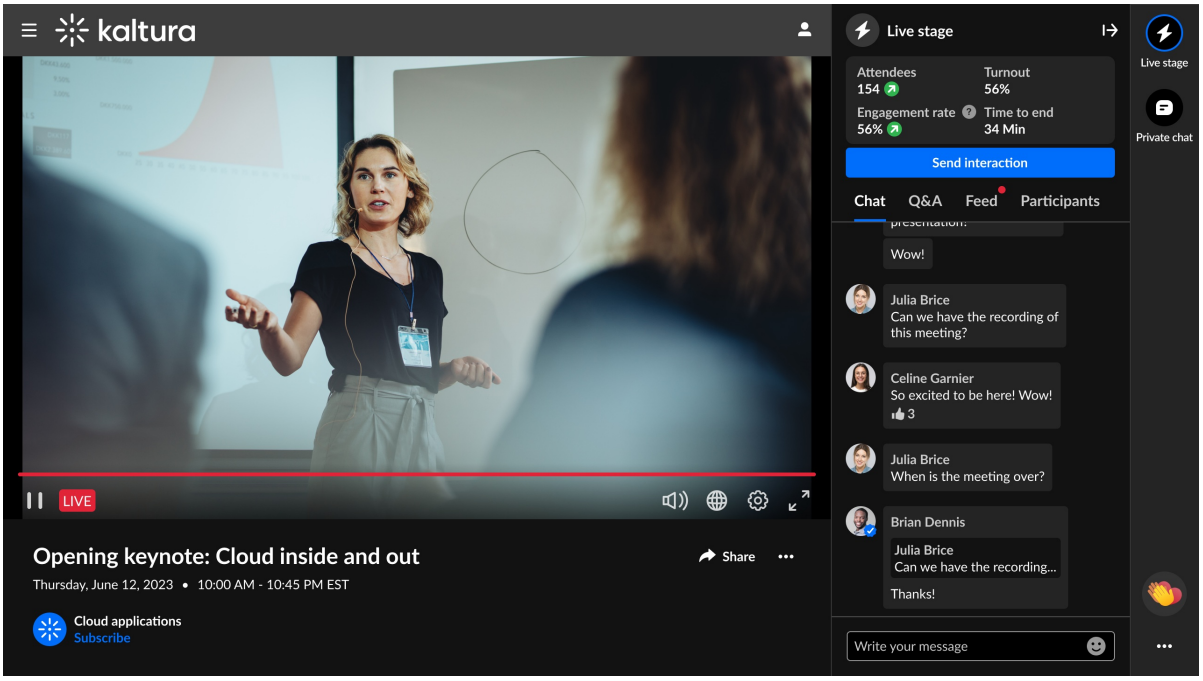

- **Enhanced visibility** - Get comprehensive insights into session engagement metrics and overall performance
- **Real-time monitoring** - Track how your sessions are performing as they happen
- **Improved decision-making** - Use data-driven insights to optimize your moderation approach

Data points available:

- **Turnout** - Number of attendees on session vs. registrants
- **Attendees** - Number of users currently watching the session
- **Engagement rate** - Real-time engagement metrics
- **Time to end** - For scheduled sessions, displays a countdown to session end

Example of the Mini session analytics dashboard on the Live stage tab of the Chat & Collaboration widget:

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

For more details, see our Knowledge Center article.

Kaltura Room release notes - June 22, 2025

Version: N/A

Date Released: June 22, 2025

What's new?

Clear chat history

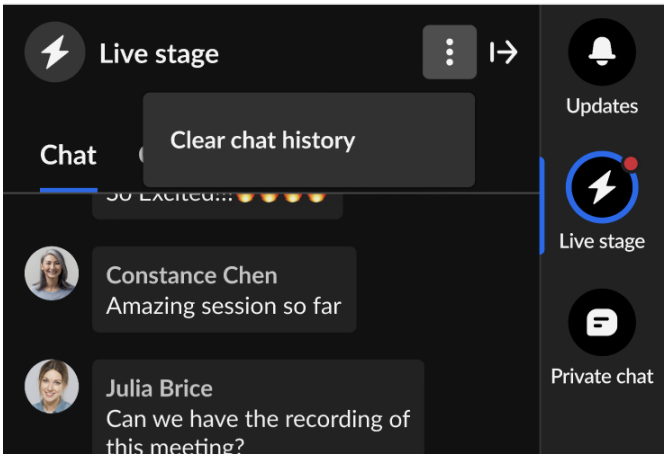

Moderators using the Chat and Collaboration widget can now clear chat messages during the session, giving them more control over chat visibility and moderation.

- Available in group and backchannel chats
- Chats are hidden from view but remain available in the session reports
- Helps streamline live session management

When chats are cleared, the data is not permanently deleted. It remains hidden from view but will still be available in the session reports for future reference.

See Chat and collaboration (C&C) widget for moderators in Kaltura Rooms for more information.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

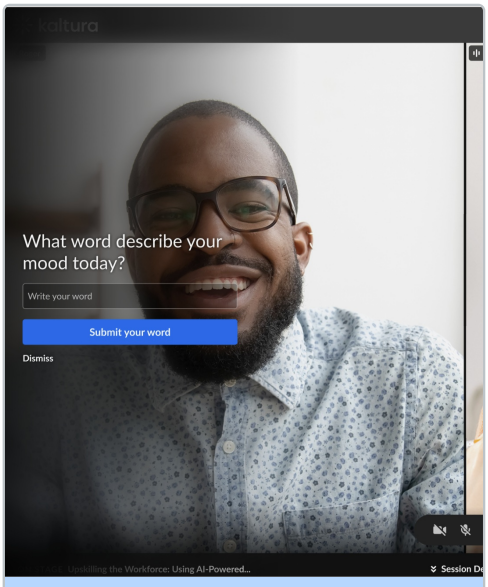

Word cloud

We're excited to introduce Word cloud - a new interaction to engage participants through real-time, visual responses to a prompt. This full-screen overlay invites users to submit words or ideas, which are displayed as a dynamic word cloud.

It's ideal for:

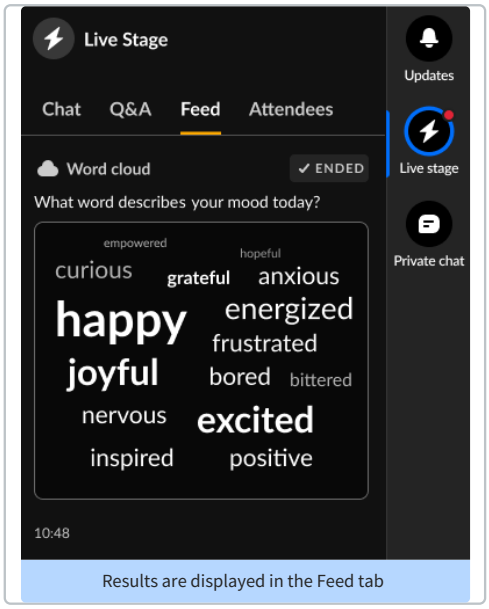

- **Learning & Education**: Helps learners explore key concepts, vocabulary, or themes through interactive word exploration
- **Brainstorming Sessions**: Facilitates creative thinking and idea generation in collaborative environments
- **User Feedback Collection**: Gathers opinions, sentiments, or responses in an engaging, visual format
- **Content Discovery**: Guides users through related topics or categories in an intuitive way

See Chat and collaboration (C&C) widget for moderators in Kaltura Rooms for more information.

Word cloud question in toast popup

Storyboard preview

When hovering over or selecting items in your Kaltura Room's storyboard, you'll now see a thumbnail preview of each slide. This enhancement helps you:

- **Plan ahead**: Know exactly what content is coming next without disrupting the session
- **Navigate confidently**: Quickly identify the right slide before switching
- **Maintain session flow**: Review your presentation structure without changing what participants see on screen

Kaltura Room release notes - June 8, 2025

Version: N/A

What's new?

Audio on storyboard

Session producers can now add audio files to their Kaltura Room sessions via the Storyboard, allowing seamless integration of audio content into sessions.

Key features:

Flexible player visibility settings - As a session producer, you can choose whether the player is visible or hidden from participants, enabling different use cases:

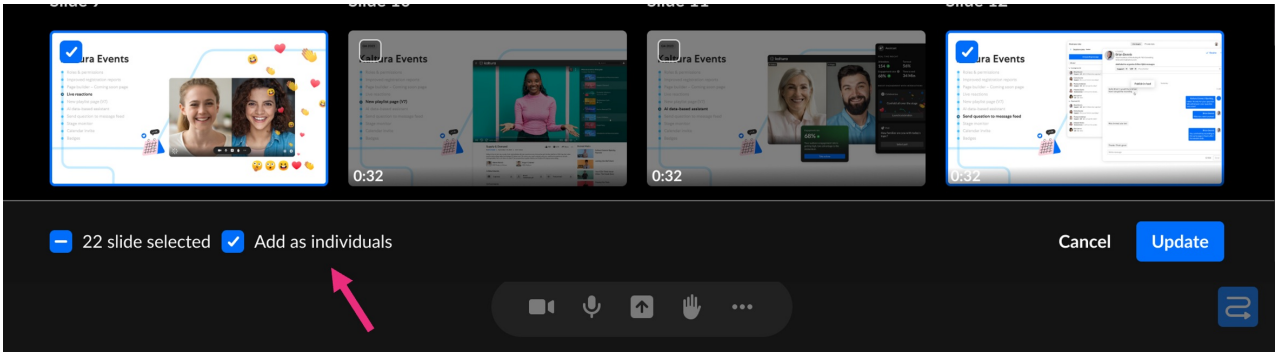

- **Hidden player mode**: Participants cannot view or interact with audio controls (except for volume). Perfect for adding background music or voice-over narration that enhances scene content.
- **Visible player mode**: Participants can view audio duration, and interact with volume controls. Ideal for interactive tutorials, learning modules and other educational content.

Adding audio gives you greater flexibility in designing immersive, audio-enhanced sessions tailored to your user experience goals and specific learning objectives. Read more here.

Add presentation slides as individual scenes in the storyboard

Moderators can now choose to upload presentation slides as individual scenes, instead of one grouped item. A new **Add as individuals** checkbox is available when uploading, which is selected by default. This gives you more flexibility to rearrange, present, or remove slides one by one.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Multi-language support for Kaltura Rooms

Kaltura Rooms now open in your selected language in Events, legacy Video Portal and LMS integrations. Users can change the language from the hosting platform (not inside the room), and the room page will automatically refresh with the updated settings. See the list of officially supported languages here.

Kaltura Room release notes - May 8, 2025

Version: N/A

Date Released: May 8, 2025

What's new?

We're excited to share the latest updates to our Chat & Collaboration (C&C) experience!

Speakers engage directly

Speakers now have full access to view and answer Q&A questions and use the backchannel for easy coordination - all without leaving the C&C interface. No need to jump between screens - everything is in one place.

For example, take a look at our Events Chat & Collaboration article to learn more.

Jump right in (moderators)

Moderators can now access sessions faster than ever. Clicking 'Open Moderator App' from a session will take them directly to the relevant session view, without the need to scroll and search.

For more details, check out our Knowledge Center article.

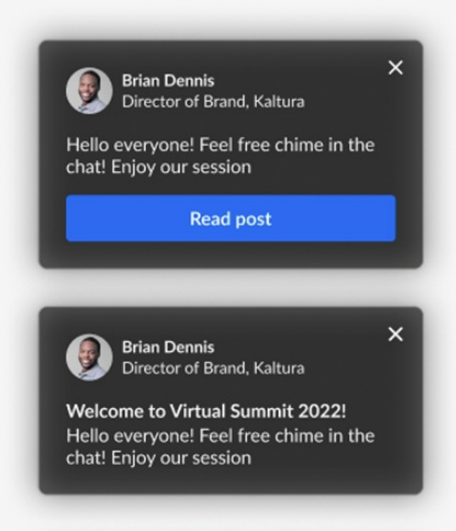

Longer questions allowed

We've increased the character limit for questions across all interaction widgets from 150 to **300 characters**. This improvement is ideal for longer in-session surveys, more detailed Q&A exchanges, and richer audience feedback.

Smarter notifications (and more coming!)

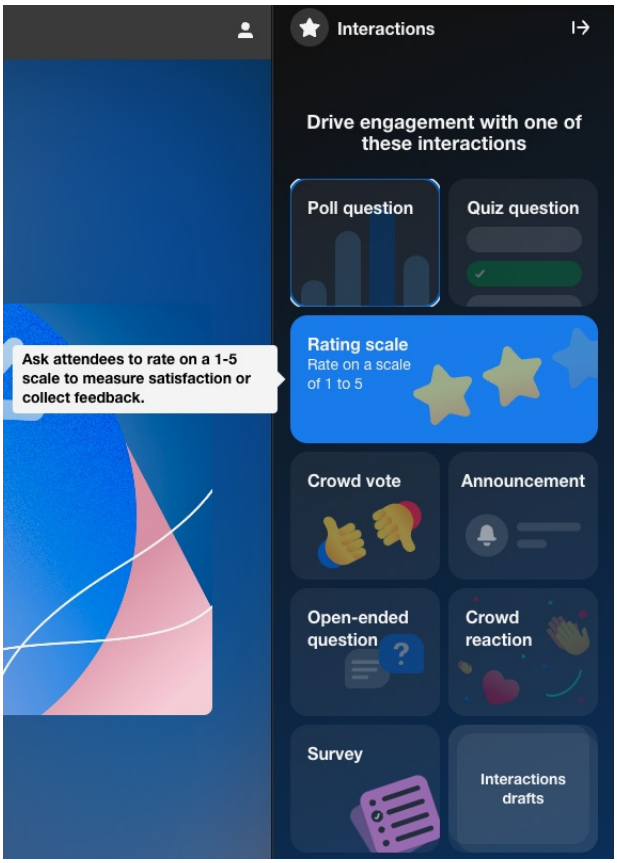

We've refreshed the notification interface for a cleaner, more intuitive experience. This also lays the groundwork for future enhancements like real-time word clouds and deeper interaction insights.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Interactions tooltips

We've added helpful tooltips to our interaction area. These tooltips guide users through the best uses for each feature while providing quick explanations and tips, helping everyone master all functionality with ease.

Kaltura Room release notes - April 2025

Version: N/A

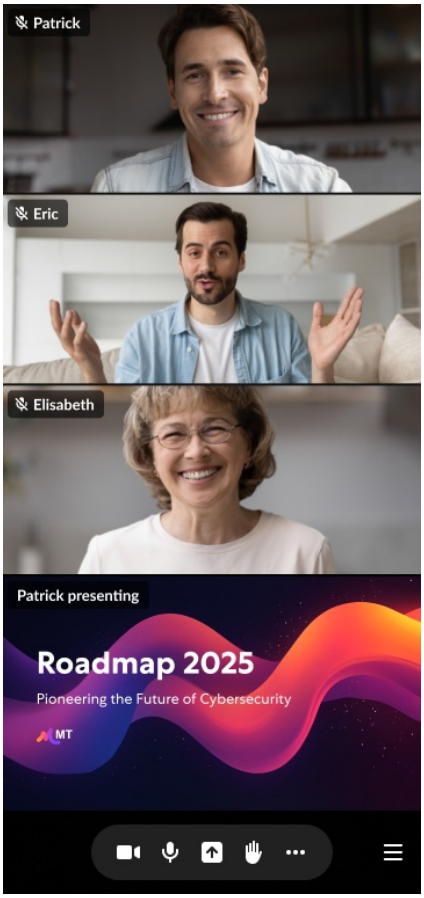

Date Released: April 2025

What's New

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Join from anywhere - Mobile Browser Support - A major update is here! Users can now join Kaltura Room sessions directly from their mobile browser — no app download needed! Whether joining through legacy Video Portal, LMS Video, or Events, users stay fully within the hosting platform's ecosystem for a seamless and consistent experience.

With the new mobile browser experience, mobile users get full interactive capabilities - they can participate in polls, quizzes and group chats and even go on stage using their mobile device, just like in the desktop experience. This update increases accessibility, boosts flexibility, and keeps users connected from anywhere.

For more details, check out our Knowledge Center article.

Desktop Safari support - Mac users can now join sessions directly from Safari — no need to download the Electron app. Enjoy the full Kaltura Room experience from your browser, staying in-platform and fully engaged.

New recording protocol (phased rollout) - We're beginning a gradual rollout of a new recording protocol during Q2.

Upcoming

Multi-language support for Kaltura Room.

Kaltura Room release notes - February 2025

SUP-46609	Reset user player preferences when entering a room for optimizing the player experience to the session
SUP-46636	Add session time_in and time_out to report 6000
SUP-46482	Webcasts will now remain stable even if a user quickly re-enters the room after leaving

Kaltura Room release notes - January 2025

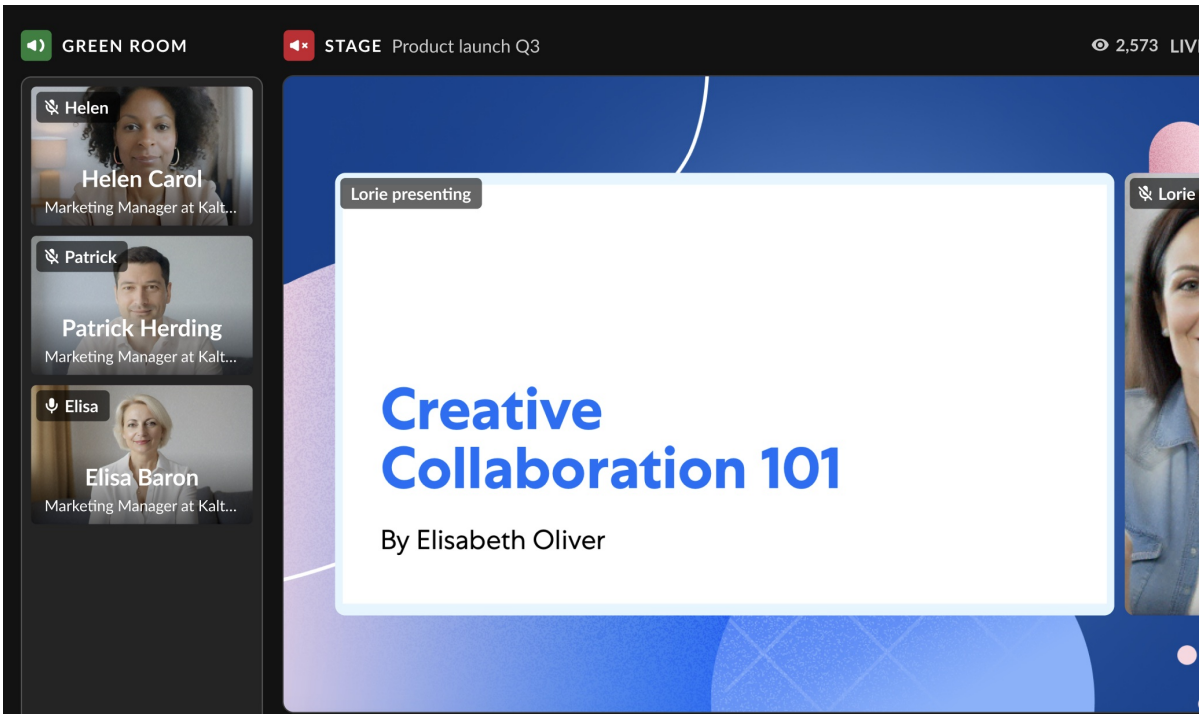

Version: N/A

Date Released: January 26th 2025

What's New

Studio green room -

- Upon first entry into the Studio, the Green Room will now be unmuted by default.
- To enhance the user experience, we've updated the personal audio controller for both the stage and the Green Room:
  - **Red** indicates muted audio.
  - **Green** indicates active audio.

For more details, check out our Knowledge Center article.

Kaltura Room release notes - December 2024

Version: N/A

Date Released: December 2024

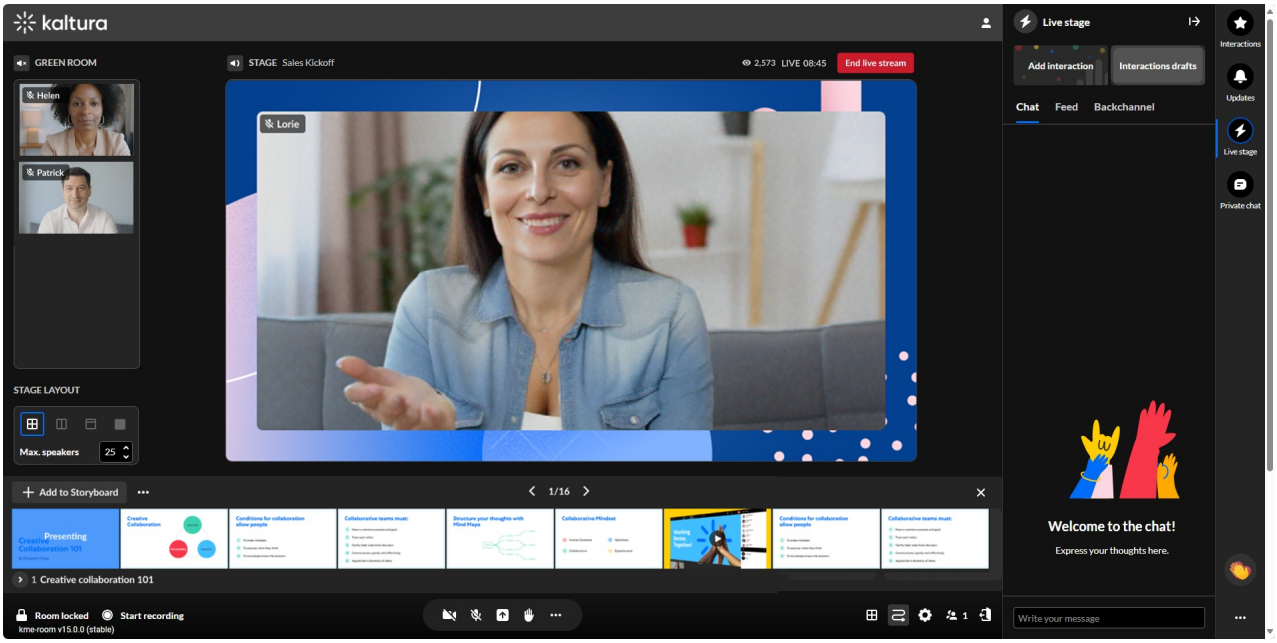

What's New

Studio green room - We're introducing a powerful new green room feature for our studio users, enabling smoother

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

production workflows. This dedicated space allows moderators and speakers to

- Connect and communicate privately before going live
- Control their audio experience by muting the stage and hearing only the green room conversation
- Use green room conversations as a back channel, creating more professional broadcast-style productions
- Maintain clear communication channels with the production team

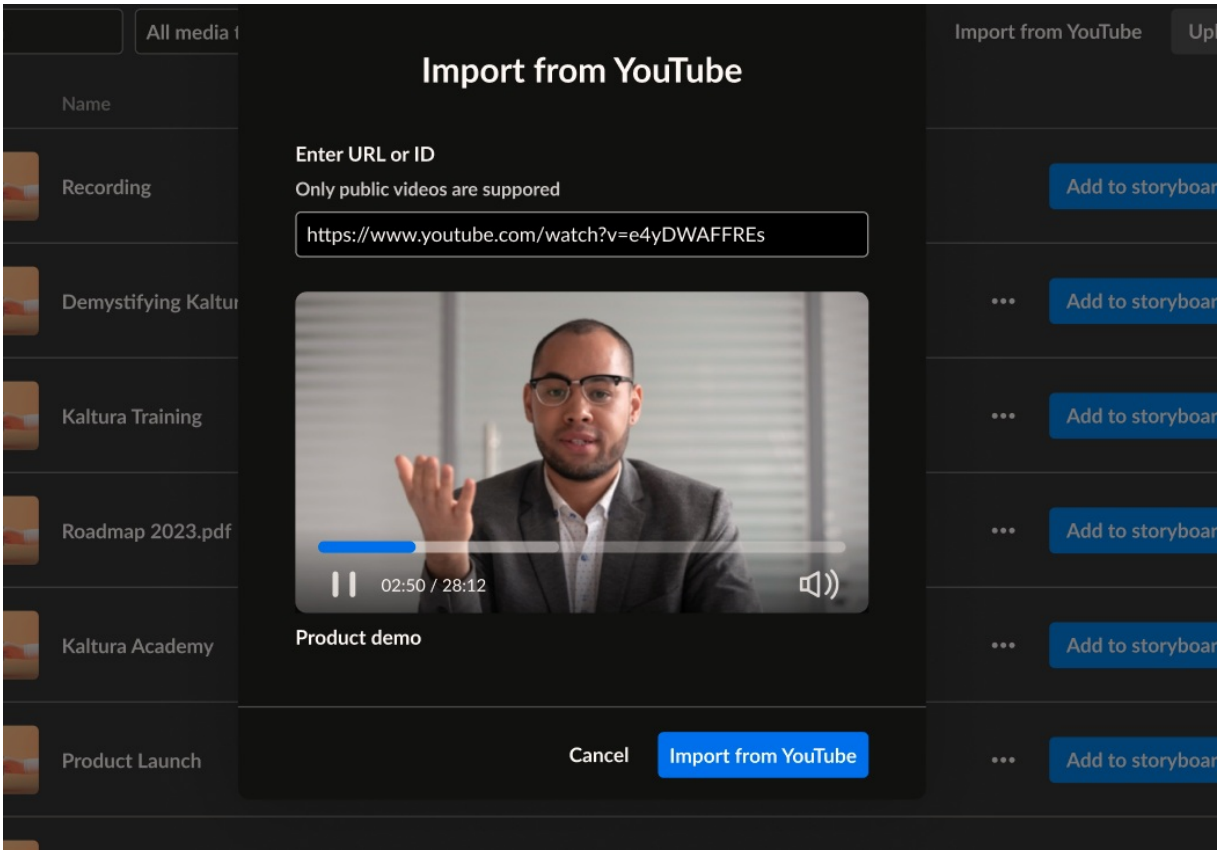

For more details, check out our Knowledge Center article.

Direct YouTube integration - High-resolution video playback and a smooth viewing experience are core values of the Room, and the addition of direct YouTube imports will be a great enhancement with:

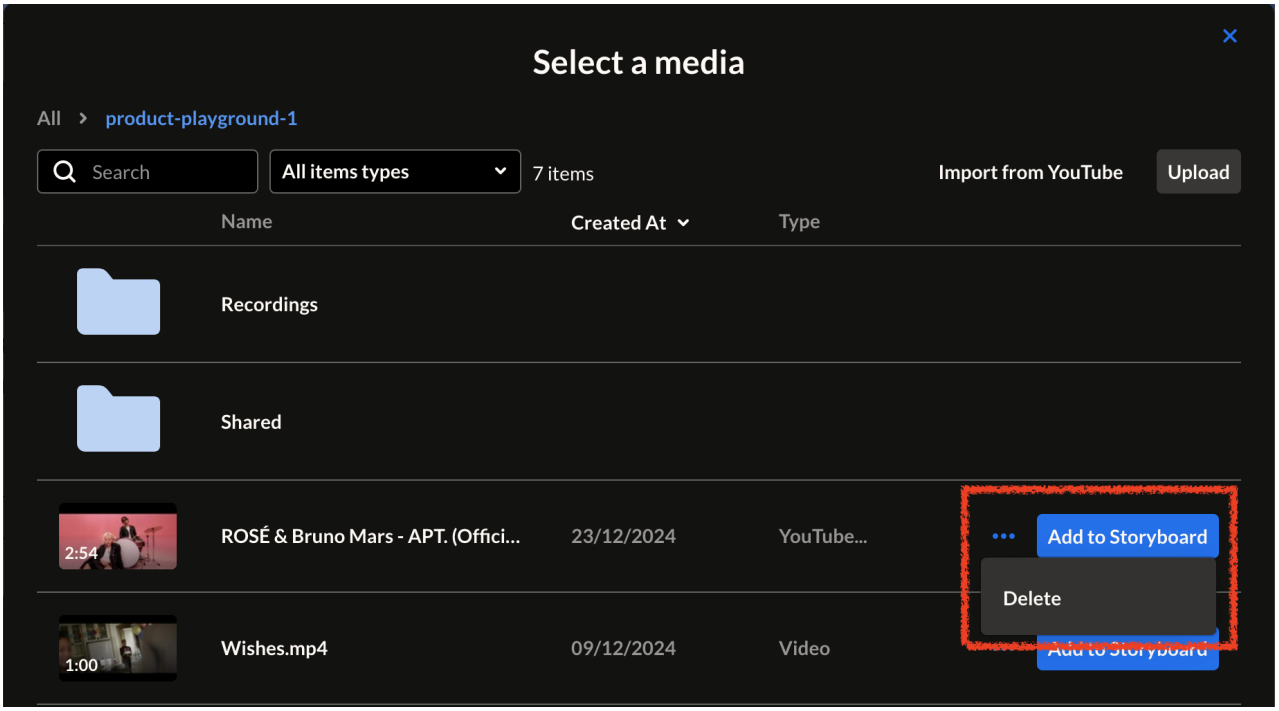

- Enhanced audio quality
- Synchronized playback for all participants
- Seamless viewing experience regardless of individual internet connections

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

For more details, check out our Knowledge Center article.

Media Manager clean-up - We're giving users more control over their content by allowing them to delete media directly from the Media Manager. This helps users maintain an organized workspace and manage their storage more efficiently.

For more details, check out our Knowledge Center article.

Upcoming

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Improvement to the reconnection experience during network disruptions. This enhancement will help maintain meeting continuity and reduce disruptions during unstable network conditions.

Kaltura Room release notes - September 8, 2024

Kaltura Meetings Version: 1.8.6

Kaltura Meetings: September 8, 2024

What's New?

Hi Everyone,

- **Content only view**: Moderators can now display media on stage while speaking, without appearing on screen themselves. This will help enhance audience focus on the content.
- **Mirror self-camera view**: Users can now toggle the mirror effect on their camera view, allowing for a more customizable self-view experience.
- **Silent connect:** improve the user experience while there are network issue and how the application manage to keep this user in the session.

What's fixed?

- **Echo effect**: We've resolved the audio echo issue that occurred when users shared their entire screen.
- **Whiteboard stability**: The whiteboard issue affecting users logging in through LTI integration has been addressed, ensuring a more stable experience.

Kaltura Meetings release notes - August 25, 2024

Kaltura Meetings Version: 1.8.5

Kaltura Meetings: August 25, 2024

What's New?

Improved slide navigation and performance

- **Faster loading:** Slides clicked on the storyboard now load significantly quicker.
- **Loading indicator:** A new loading icon has been added to clearly indicate when a slide is in the process of loading.
- **Slide focus:** A clickable focus icon was added to the Storyboard, to allow an instant return to the presenting slide when flipping through slides.

These enhancements provide a smoother and more efficient slide navigation experience.

What was fixed?

- **Interlude sound:** The interludes' sound was not audible during broadcasts. This issue has been resolved (KME-2071).
- **Dual player screen:** During rapid slide transitions, the dual screen would sometimes freeze and display a black screen. This has been fixed. Slides will now only be shown on the dual screen if they are shared for over two seconds (KME-2048).

Upcoming

- Storyboard Video autoplay

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- User camera mirroring

NR2-7253 SUP-32890 SUP-33403 SUP-33383 SUP-33380	Cleanup protocols for the participants list have been improved.

Kaltura Meetings Version 1.3.4 - July 17, 2022

Kaltura Meetings Version: 1.3.4

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Date Released: July 17, 2022

The capability to blur the screen background is now available for all Chrome users.

Resolved Issues

Key	Summary
NR2-7199	Added the ability to blur the user's background, supported in Chrome. Implementation for additional browsers will follow soon.
NR2-7067	It is now possible to record up to 24 hours of a session.
NR2-7207 SUP-33338 SUP-33313	Stabilized the chat feature for faster navigation.
NR2-7175	A new animation has been added to the room loading.
NR2-7155	The "Globally shared folder" for SSRV accounts can now be accessed from any room connected to the account.
SUP-33196	Ensured consistent management of course and chapters creation for SSRV accounts.

Kaltura Meetings Version 1.3.3 - July 3, 2022

Kaltura Meetings Version: 1.3.3

Date Released: July 3, 2022

Resolved Issues

Key	Summary
SUP-29104	Added a distinction between recordings from the main room and recordings from the break out rooms to the recording API results and filters.
SUP-28128	Up to 30 questions can now be created in a room quiz Quiz 30
SUP-32838	Now the GetContent API, property "tp_file_id" supports up to 40 characters
SUP-32084	When one of the speakers presenting content from the playlist disconnects, the playlist's autoselection will be reset.
NR2-7029	When starting a breakout, the whiteboard will be closed if it is the active content in order to avoid creating content that won't be available to users in the breakout room

Coming Up

- **Background blurring.** We are working on allowing participants to blur their background virtually. The participant video is going to be clear while the surroundings behind her or him is going to be hidden by blurring. This new functionality is coming soon but not yet on our coming release.

Kaltura Meetings Version 1.3.2 - June 19, 2022

Kaltura Meetings Version: 1.3.2

Date Released: June 19, 2022

Resolved Issues

Key	Summary
SUP-32589	Combine with Kaltura Simulive solution to create flow between recorded and live experiences.
SUP-25656 NR2-7079	Improve playlist stability when multiple moderators enter the room
NR2-6830	Stabilize quizzes functionally

Coming Up

- **Background blurring.** We are working on allowing participants to blur their background virtually. The participant video is going to be clear while the surroundings behind her or him is going to be hidden by blurring. This new functionality is coming soon but not yet on our coming release.

Kaltura Meetings Version 1.3.1 - June 7, 2022

Kaltura Meetings Version: 1.3.1

Date Released: June 7, 2022

New in this version

- **Improved video quality.** We enhanced the quality of the camera in the room.
  - Added the ability to fit the video cam to the window resolution in presenter mode
  - Increased the default bit rate of the media server

Resolved Issues

Key	Summary
SUP-32657	When using XL room mode, the cluster would sometimes not be raised in the preset region
SUP-32086	An issue where, when the room was embedded in an iframe, external links at the T&C were not redirect
SUP-31555	Moderators can now dismiss quick polls for all participants (following applicable notification), or by the participant himself/herself
NR2-6975	The video type in the files list now has a new icon
NR2-6900	Self-serve accounts. Upgrade Now flow is now improved
NR2-6898	Self-serve accounts. Course management sometimes was inaccessible for canceled subscriptions

Coming Up

- **Background blurring.** We are working on allowing participants to blur their background virtually. The participant video is going to be clear while the surroundings behind her or him is going to be hidden by blurring. This new functionality is coming soon but not yet on our coming release.

Kaltura Meetings Version 1.3.0 - May 15, 2022

Kaltura Meetings Version: 1.3.0

Date Released: May 15, 2022

Resolved Issues

Key	Summary
NR2-6938	When the participant list is disabled in the room for moderators and participants, the raised hand button is not displayed.
SUP-32125	The issue where watching recordings from the CMS would display an error before start playing when using a slow internet connection has been fixed.
SUP-32007	The issue where filtering messages on Q&A Chat would filter messages on Room Chat as well has been fixed.
SUP-31472	Copy Invitation button of the room's Invite Module (for moderators) is now copying the invite text to the clipboard.
SUP-31343	The UI when translating the room to languages with longer texts than English is now improved.
SUP-31076	The issue where email addresses of participants in quiz result report were displayed incorrectly for users that were created via LTI integration has been fixed.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

SUP-30944	Recordings files names are now indicating the right date even when the user who initiated the recording set a wrong date in her or his device.
SUP-28433	Files are now displayed fully in recordings, even with portrait like aspect ratio.
NR2-6951	Optimized the participant's camera resolution when setting her as presenter when content is shared.
NR2-6898	Self Serve. Room settings ("manage course") will now indicate whether a subscription is available.

Coming Up

- **Background blurring.** We are working on allowing participants to blur their background virtually. The participant video is going to be clear while the surroundings behind her or him is going to be hidden by blurring. This new functionality is coming soon but not yet on our coming release.

Kaltura Meetings Version 1.2.9 - May 1, 2022

Kaltura Meetings Version: 1.2.9

Date Released: May 1, 2022

New in this version

- **Improved Video Quality**. Session participants' video cameras are now streamed in higher quality and with better performance.
  - Increased default video cameras resolution.
  - Improved resolution adjustment mechanism, such that the resolution is immediately responsive to various factors such as the number of video cameras on the screen, participant's connection quality and the screen size.
  - Improved bitrate control to support the higher resolutions.

Resolved Issues

Key	Summary
NR2-6758	Self Serve. Improved experience and interface for users who upgrade their accounts.
NR2-5836	Quizzes. The issue where sometimes quiz type selection would disappear during answers creation has been fixed.
NR2-3985	Recordings are now limited to 5 hours with applicable warning notification when reaching the limit.

Coming Up

- **Background blurring.** We are working on allowing participants to blur their background virtually. The participant video is going to be clear while the surroundings behind her or him is going to be hidden by blurring. This new functionality is coming soon but not yet on our coming release.

Kaltura Meetings Version 1.2.8 - April 17, 2022

Kaltura Meetings Version: 1.2.8

Date Released: April 17, 2022

Resolved Issues

Key	Summary
NR2-5081 SUP-29690	Added a button ("back to room files") for navigating back to the room files, when browsing across other rooms files folders in a session, including in breakout rooms.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

SUP-31753	The issue where sometimes quiz results would not be updated for moderators after quiz ended has been resolved.
SUP-32029	The issue where session stats would sometimes not be recorded properly when using XL room mode has been resolved.
NR2-6757	Self-Serve accounts. Improved UI for upgrading account, providing a clearer path to adding features and rooms.
NR2-5856	Added a clear indication that a moderator has to end an active quiz before launching a new one.

Coming Up Next

- **Improved Video Quality**. We are going to stream the session participants' video cams in a higher quality and with improved performance.
  - The video resolution is going to be adjusted responsively to the number of video cams on the screen, with a new higher resolution mode when applicable.
  - The improved video quality will be launched with a more efficient streaming to further improve quality and performance.

Kaltura Meetings Version 1.2.7 - April 3, 2022

Kaltura Meetings Version: 1.2.7

Date Released: April 3, 2022

New in this version

- **New customization capabilities**. Admins can now customize rooms in new ways. In addition to Logo, upper bar background color and upper bar text color, admins can now customize:
  - Stage background image (replacing the current green gradient), for a single room or for all the rooms of the account.
  - Lobby banners background image (aka Course Image), for all the rooms of the account, in addition to a single room as available today.
  - Favicon Image.

Resolved Issues

Key	Summary
SUP-31461	The issue where sometimes multiple playlists were created while uploading playlists via API has been resolved.
SUP-30253	The issue where quiz questions were limited to a single line has been resolved.
SUP-29220	The issue where a re-ordering of chapters in the Course Management System would not be saved has been resolved.
SUP-31265	The issue were newly uploaded files could not be added to a quiz has been fixed.
SUP-31182	The issue where quotation marks would appear as Unicode in quiz answers has been fixed.
SUP-31007	The issue where rarely an audio stream would be lost has been fixed.
SUP-30141	Added the ability to download detailed average results of a quiz from the room.
SUP-29798	The issue with downloading quick poll results from the course management system has been resolved.
SUP-28260	The issue where some special chat characters would appear as '&amp' in chat logs has been fixed.
NR2-6402	Added a clear 'Join Room' button to the slate when attempting to enter a room using guest link.
NR2-6835	The issue where on rare cases users who would join the session with their camera off would not be heard by others has been resolved.

Coming Up Next

We are working on further improving performance and streaming quality.

Kaltura Meetings Version 1.2.6 - March 6, 2022

Kaltura Meetings Version: 1.2.6

Date Released: March 6, 2022

New in this version

- **Viewing Layouts**: We renewed the participants videos layouts in the room, as follows:
  - New mode - active speaker(s): By default, the last speakers' videos appear on the stage or in the bottom videos tray (adjusted to the user screen size and to the number of Live users currently in the session). Active speaker mode replaces the previous carousel mode.
  - Gallery mode: Is still the alternative layout. The performance and UI using this viewing layout are now improved.
  - Recordings and webcasts: Now include the active speaker mode, unless a 'Presenter' was set in the session. If a 'Presenter' was set in the session: When no content is shared, her camera appears on the entire screen; when content is shared, her camera singly appears in the video tray.
- **Silent Reconnect**. We improved the way we handle connectivity, especially when the user connection was lost for a short period of time. User will be reconnected without noticing when possible, and auto-refresh will take place only when needed.

Resolved Issues

Key	Summary
SUP-30749	The issue where sometimes PPT files couldn't be added to a playlist has been resolved.
SUP-29943	Changed the "Leave Session" tooltip to avoid confusing experience for non-moderators.
SUP-29212	The issue where moderator could sometimes see a non-moderator banner prompting them to raise their hand has been fixed.
SUP-29688	Quick Polls results would now be dismissed automatically for users who didn't dismiss them manually.
NR2-6679	Improved the UI of the session lobby banners (e.g. "Class ended", "Waiting for the host to arrive", etc.)
NR2-6591	Native mobile app deeplinking - the issue where the slate prompting to download the app on iPad would direct users to Play Store (Google Play) instead of AppStore has been resolved.

Coming Up Next

- This section includes a heads-up for the coming release. Please note that the content of this section is subject to changes.
- **Additional customization capabilities**. We are going to allow for admins to customize their rooms in additional ways with a simpler interface. The new capabilities will include ability to customize:
  - The session stage background image (to replace the current green gradient), for a single room or for all the rooms of the account.
  - The lobby banners background image (aka Course Image), for all the rooms of the account (in addition to for a single room which is available today).
  - Possibly more (stay tuned!).
- The new capabilities will be available with a simple interface from the Course Directory. Also, we will provide these capabilities for embedded rooms (using LTI tags). A guide will be published.
- **These new capabilities are only adding options to customize, and will not change the current colors of rooms or companies**.

Kaltura Meetings Version 1.2.5 - February 27, 2022

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Kaltura Meetings Version: 1.2.5

Date Released: February 27, 2022

Resolved Issues

Key	Summary
SUP-31095, SUP-31205, SUP-31193	The issue where sometimes a "module does not exist" error would appear when assigning participants to breakout rooms has been resolved.

Coming Up Next

- We added this section to our Release Notes in order to give you a heads-up for the coming release. Please note that the content of this section is subject to changes.
- Our next release (Version 1.2.6) is planned for March 6th and it expected to include:
  - **Viewing Layouts**: Renewed participants videos layouts. The new layouts will include:
    - Active speaker(s): By default, the last up-to-6 speakers' videos will appear on the stage (adjusted to the user screen size and to the number of Live users in the room). Active speaker mode will replace the current carousel mode.
    - Gallery mode: Will remain as an alternative. The performance when more than 25 participants are Live (video on) will be improved.
    - Recording and webcast: Will have the active speaker mode. If a 'presenter' was set in the room, she will appear on the entire screen (when no content is shared), and alone in the video tray (when content is shared).
  - **Silent Reconnect**. We are improving the way we handle connectivity, especially when the user connection was lost for a short period of time. User will be reconnected without noticing when possible, and auto-refresh will take place only when needed.

Kaltura Meetings Version 1.2.4 - February 13, 2022

Kaltura Meetings Version: 1.2.4

Date Released: February 13, 2022

New in this version

- **Webcast and YouTube entries on the Video Library**. Moderators can now play Webcast (live) and YouTube entries in the room or add them to the playlist. In addition, moderators can filter by entry type (Audio, Video, YouTube, Webcast and Image) while searching on the Video Library. Note: Playing entries is only applicable to rooms with an integration to the Kaltura "Video Library".
- **Chat History Retention.** Chat history retention policy can now be set for the messages in Room Chat, Q&A Chat and Moderators Chat. With the new policy, chat messages can be set to be deleted automatically after a predefined period. In addition, the new settings allow to delete all past chat messages at a selected time. Contact your Kaltura Rep to enable chat history retention policy for your account.

Resolved Issues

Key	Summary
SUP-29584	The issue with quotation mark that appeared as Unicode in quiz answers has been resolved.
SUP-28332	The issue where sometimes sending support logs would return an error has been resolved.
SUP-30839	The issue with pasting images on a Whiteboard or during annotation has been resolved.
SUP-30328	The issue where auto assigning participants to breakout rooms would sometime assign them to an additional room has been resolved.
SUP-24140	The issue where a black screen would rarely appear during presentation when a guest user would be set as a moderator and another guest user as a presenter.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

SUP-31146	The issue where access was blocked for some iPhone users using Safari browser has been resolved.
NR2-6542	The issue where, in large rooms with auto device activation settings set to off, moderators could not set participants, who didn't activate their devices, Live has been solved.
NR2-6349	Added confirmation notifications after changing password from the Profile page in the Course Directory.

Kaltura Meetings Version 1.2.3 - Jan 30, 2022

Kaltura Meetings Version: 1.2.4

Date Released: February 13, 2022

New in this version

- **Webcast, Audio, YouTube and Image entries from Video Library**. Moderators can now add additional media types (namely, Entries) to the room playlist or broadcast them in the room. The new media types are: Webcast, Audio, YouTube and Image. Previously only Video (VOD) was enabled. In addition, moderators can filter the desired media types while searching in the Video Library. Note: The new media types are relevant only to rooms with integration to the Kaltura "Video Library".
-

Resolved Issues

Key	Summary
SUP-30799	The issue that occurred when the maximum number of live participants was reached in a room and a moderator allowed another participant to become live, has been fixed.
SUP-24836	The UI issue with assigning student to courses via the Course Directory has been fixed.
SUP-25654	The issue with adding quizzes to a globally shared playlist from within a room has been fixed.
SUP-29948	The issue where users would be notified that their audio stopped working even if their audio quickly reconnected has been resolved.
SUP-30731	The issue when assigning participants to breakout rooms using an imported list has been fixed.
NR2-3604	Closed Captions - a user who enters a room that is captioned may now enable captions immediately.
NR2-6414	Adjusted the UI of several modals to fit long rooms names.
NR2-6392	The issue where preventing files to download would also prevent recordings to download has been fixed.

Kaltura Meetings Version 1.2.1 - Jan 2, 2022

Kaltura Meetings Version: 1.2.1

Date Released: January 2nd, 2022

Happy New Year ☒

New in this version

- Course Management System "facelift" - Updated CMS with a fresh look and feel
  - Updated login page
  - Updated "contact support" page

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

- New default room image

Kaltura Meetings Version 1.1.9 - Dec 19, 2021

Kaltura Meetings Version: 1.1.9

Date Released: December 19th, 2021

New in this version

- **Room Capacity Setting** - Moderators can now limit live sessions capacity from within the room's settings menu.
- **Publish Recording Checkbox** - Users can now use the new "Publish Recording" checkbox, on the start recording dialog, to control whether the current recording should be automatically published on a Media channel. this feature is only available in kaltura media library integrated rooms.
- kaltura favicon - we have updated our browser favicons to be the kaltura logo.

Resolved Issues

Key	Summary
NR2-5973	Fixed a UI issue where top bar menu would hide the notifications ribbon
NR2-5975	Fixed an issue with living participants in when room is set to Large Mode
SUP-27397	Fixed some instability issues experienced during quizzes launch
SUP-30142	Fixed an issue with quizzes average score calculation
SUP-27330	Fixed an issue where quick polls would show extra participant count on recorded sessions
SUP-29113	Fixed a mismatch between aggregated participants analytics and detailed ones

Kaltura Meetings Version 1.1.8 - Nov 28, 2021

Kaltura Meetings Version: 1.1.8

Date Released: November 28th, 2021

New in this version

- **Simplified "Go-Live" flow** - New flow allows moderators to trigger the "Go-Live" flow from their side without waiting for the participant to actively enable their devices. A moderator can choose any participant, click their LIVE button in the participants list and trigger their "Go-Live" process. The user would then get a devices activation pop-up and choose whether togo live and with which audio devices. See this article for more details.
- **Insert multiple photos** - Added the ability to insert multiple photos by choosing multiple files at a time from the files menu and adding them to a whiteboard or any annotated document.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Resolved Issues

Key	Summary
NR2-5912	Added localization support for the mobile app download banner
NR2-5920	Added, per customer, the ability to choose whether to push for mobile app download
NR2-5856	Fixed an issue where quizzes would occasionally not launch correctly when launched from a playlist
NR2-5863	Fixed an issue where quiz summary would show wrong number of participants
NR2-5849	Fixed an issue where mobile users would show in room's participants list while redirected to mobile app download
SUP-30126	Fixed an issue where in some cases XL rooms were failing to launch when configured to multiple presenters mode
SUP-28688	Fixed an issue where occasionally webcam light would stay on while webcam video stream was turned off

Kaltura Meetings Version 1.1.7 - Nov 14, 2021

Kaltura Meetings Version: 1.1.7

Date Released: November 14th, 2021

New in this version

- **Paste on Whiteboard** - Whiteboard now supports pasting images directly from your clipboard. Images copied from a web browser or using the OS snipping tools can be easily pasted on the whiteboard or on any document while being presented on stage.

Resolved Issues

Key	Summary
NR2-3315	Fixed inaccuracy in free draw line start point
NR2-3787	Fixed the issue where the eraser tool was available to non-moderators
NR2-5558	Fixed mixed up between "indifferent" and "sad" vote counts on quick poll logs
NR2-5564	Corrected whiteboard tools' tooltips
NR2-1360	Fixed whiteboard's import file menu user interface
NR2-4404	Improved image resizing functionality in whiteboard and annotations
NR2-4907	Fixed an issue with text boxes not being up-dated when whiteboard permissions are revoked
NR2-5025	Fixed whiteboard selection drop-down menu user interface
NR2-5418	Selecting another whiteboard tool while typing in text box now dismisses active text box automatically
NR2-5676	Fixed an issue with the circle drawing tool on whiteboard and annotations
SUP-28777	Quick poll's exported logs now include LTI credentials for Single Sign On users
SUP-29619	Fixed an issue where moderators returning from breakout rooms would fail to control room's playlist
SUP-29540	Fixed an issue with Terms & Conditions hyperlinks redirecting the user away from the virtual room

Kaltura Meetings Version 1.1.6 - Oct 31,2021

Kaltura Meetings Version: 1.1.6

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

Date Released: October 31st, 2021

New in this version

- The Breakout rooms pre assignment list now support participants names or emails both for guests, registered users or SSO users.
- Added a context menu allowing to assign participants to breakout rooms by right clicking and choosing the destination room from a dropdown menu.
- Moderators can now "mute-all" in breakout rooms.

Resolved Issues

Key	Summary
NR2-5761	Added mute-all functionality for moderators in breakout rooms.
NR2-5764	Fixed a UI issue where the annotation color palette was showing on top of the recording notification.
NR2-5545	Added the ability to assign participants using a "right click" context menu.
NR2-5565	Fixed the issue where whiteboard numbering would not reset when clearing breakout rooms.
NR2-2131	Fixed an issue where users with revooked moderation rights could still use annotation tools.
NR2-4089	Added the ability to set live broadcasting entries or URLs through LTI tags.
NR2-5537	The selected slide frame color on the thumbnails tray was changed to a brighter color to be more apparent.
NR2-5787	Fixed an issue where occasinally some recordings would continue after being stopped.
SUP-29723	Fixed the echo cancellation issue where in some cases some mics were not disabled during media playback.
SUP-29349	Fixed an issue with audio streams that were breaking and prevented some users from hearing other users.
SUP-28777	Quick polls reports updated to include LTI user data.
SUP-28864	New rooms and new breakout rooms no longer open with the whiteboard but with a clear stage in webcam carousel view.

Kaltura Meetings Version 1.1.5 - Oct 17, 2021

Kaltura Meetings Version: 1.1.5

Date Released: October 17th, 2021

New in This Release

- Added the ability to disable the media 'echo cancelation' feature that was added on the previous release (1.1.4). Controlling the feature is now possible both through Kaltura backend or from within the room, using the room mode Settings menu. By default, all microphones are disabled while a video is being played in the room. This is to prevent echoes caused by participants' speakers being streamed back into the room. Microphones are re-enabled automatically when the video is paused or stopped. The microphone settings may be configured both through the room Settings menu or at the company level by Kaltura's backend.
- **We changed the naming** of 'Virtual Classroom' and 'Webinar' room modes into 'Standard' and 'Large' room modes accordingly. Functionality of both modes remains unchanged. See Set Class Mode: Standard Room vs Large Room (previously virtual classroom vs webinar) for more information.
- The **Breakout Rooms V2** feature has been changed to the new v2 version on all accounts as of Monday, October 18th. Breakout Rooms v2 offers support for larger sessions, automatic room assignments and pre-assignments, round

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

robin room switching, "mix-it-up" for assignments re-shuffling and much more. See the Breakout Rooms article for more information.

Resolved Issues

Key	Summary
NR2-5649	Added an in room setting to disable the new "mute during media play" behavior.
NR2-5557	Added a backend configuration to prevent automatic session recording publishing on MediaSpace.
NR2-5369	Added a backend configuration to allow maximum recording duration of longer than 5 hours.
NR2-5411	Updated the Kaltura desktop client download banner for Safari browser users.
NR2-5696	Fixed the issue where speaking indication would still display while speakers are muted during media playing.
SUP-29435	Fixed an issue where selecting a search result through Files would result in navigating to the wrong folder.

Kaltura Meetings Version 1.1.4 - Oct 3, 2021

Kaltura Meetings Version: 1.1.4

Date Released: October 3rd, 2021

New in This Release

- Breakout Rooms V2 - Our new Breakout Rooms offer support for larger sessions, automatic room assignments and pre-assignments, round robin room switching, "mix-it-up" for assignments re-shuffling and much more. See the Breakout Rooms article for more information. Contact us to enable the beta version on your account, or wait till October 17th for global deployment of the final release.
- Audible Recording Notifications - added configurable audio announcements to the textual notifications when session recording starts or upon entrance to a session that is being recorded. Contact your sales representative to enable this feature on your account.
- Textual recording notifications now persist until manually dismissed by the user.
- Customizable Terms & Conditions - Added the ability to present users with a customized and configurable Terms & Conditions sheet. Contact your sales representative to enable this feature on your account.
- Eliminated the need to enable devices upon entering a session. Users are now directed to the devices selection menu.
- Kaltura's player version in KME rooms was updated and now allow for captions playback where available and volume level control.
- Added the ability to enable dial-in bridge for KME virtual rooms through API eliminating the need to open the room to get the dial-in key.

Resolved Issues

Key	Summary
NR2-5360	Fixed the echo issue when streaming videos with speakers on by automatically muting all participants during media playback.
NR2-5492	Fixed an issue with chat log scrolling.
NR2-3419	Fixed the "you are muted" message sensitivity to avoid constant display in loud environments.
NR2-5159	Fixed the issue where human captions could not be assigned in breakout rooms.
NR2-5425	Fixed the issue where new folders were being displayed above the breakout shared folder in the breakouts folder.
SUP-29079	Fixed an issue where some participants could not access files in breakout rooms despite having right permissions.

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

SUP-28620	Fixed an issue where navigating away from default room's folder "too soon" would be ignored when default folder completed loading.
SUP-28781	Fixed possible inaccuracies in some user stats.
SUP-28991	Fixed the issue where live broadcasting / webcasting encoder stopped during a broadcast session.
SUP-29092	Email addresses in breakout pre-assign list are no more case sensitive (beta)
SUP-29333	Fixed the issue where breakout timer was missing from other moderators' breakout manager window (beta)
SUP-26923	Fixed an issue with the "hide profile pictures" backend configuration.
SUP-27051	Chat export timestamps display was fixed.
SUP-27882	Fixed the issue where deleted chat message would still show in the last message preview.
SUP-29081	Fixed an issue with quizzes menu getting stuck for some users.
SUP-27948	Blocked automatic translation tools from translating user names.
SUP-28715	Fixed a UI issue where a black bar was displayed in "presenter" mode.

Kaltura Meetings Version 1.1.3 - Sep 12, 2021

Kaltura Meetings Version: 1.1.3

Date Released: September 12, 2021

Resolved Issues

Key	Summary
NR2-5491	Promoted moderators now keep privileges when the page is refreshed.
NR2-5406	The desktop sharing stability issue was fixed.
SUP-28049	The recording stability issue was fixed.
SUP-26923	The issue with "hide profile picture" configuration was resolved.
SUP-28063	The Kaltura Quiz editor user interface issue was fixed. The next question can now be easily accessed.
SUP-29006	The issue where the profile picture upload was failing has been resolved.
SUP-27284	The issue with the microphone activation after a HW mute has been resolved.

Kaltura Meetings Version 1.1.2 - Aug 29, 2021

Kaltura Meetings Version: 1.1.2

Date Released: August 29, 2021

Resolved Issues

Summary	Key
Improved accessibility of chat window for keyboard navigation.	NR2-5316
Changed MS office files conversion engine to improve fonts and graphics conversion.	NR2-5401
Improved horizontal resizing on whiteboard and annotations.	SUP-27906
Preview slides tab focus on active slide issue was fixed.	SUP-28568
TURN servers version updated.	NR2-5049

Kaltura Meetings Version 1.1.1 - Aug 15, 2021

Kaltura Meetings Version: 1.1.1

Date Released: August 15, 2021

Resolved Issues

Key	Summary

Copyright © 2025 Kaltura Inc. All Rights Reserved. Designated trademarks and brands are the property of their respective owners. Use of this document constitutes acceptance of the Kaltura Terms of Use and Privacy Policy.

SUP-28706	Fixed erroneous data issue on "quick polls" results.
SUP-28698	Course tools menu icons presentation issue in Firefox browser was fixed.
SUP-28505	Fixed an issue where users could not be promoted to moderators from the extended participants menu.
SUP-26860	Fixed the issue of duplicated recording folder when recording breakout sessions.
SUP-26509	Closed Captions button is now fixed to the lower stage bar.
SUP-25156	Fixed the issue where clicking the participants list scroll bar would close the drop down menu.
NR2-5267	Added a session expiration notification in case user session has expired and requires a browser refresh.
NR2-4925	Improved documents conversion process to produce lighter files and improve session stability and performance.
NR2-4760	Closed Captions window is now floating and can be moved on stage to users' convenience.

Kaltura Meetings Version 1.1.0 - Aug 1, 2021

Kaltura Meetings Version: 1.1.0

Date Released: August 1, 2021

New On This Release

What's New

Lock the Door - Enabled on all rooms

The Lock the Door feature, allows Instructors to lock the door to their virtual room and admit participants in selectively. Lock the Door may be configured in many ways to fit a variety of use cases. An instructor may use this feature to ensure that no one enters the room while session preparations are being made, or before the room stage is set. The room door may be locked automatically when the room is launched or preset to lock minutes later. The Lock the Door feature may also be used to increase security measures when holding external meetings with guests from outside the organization

For more information, see the article about the Lock the Door feature.

Focus Areas

- Breakout Rooms
- Quizzes
- Media Streams stability
