

Idomoo User Guide

Last Modified on 04/20/2022 12:48 am IDT

Once you receive a link to the entry page, you can access the entry page and view the campaign with your personalized video.

In our example below, our user, Assaf, accessed the entry page using his link and is able to view his personalized video.

The screenshot shows a video player interface. At the top right, there is a search icon and the text "SEARCH" and "ASSAF BERKOVITZ". The video content area displays a blue background with the text "Hi Assaf Berkovitz, We're here to help you every step of the way" and icons of a house and a heart. Below the video, the title "Idomoo Campaign" is shown with a play button, a view count of 3, and a comment count of 0. Below the title, it says "From February 3rd, 2022".

 You must be logged into KMS to view your personalized video. If you are not logged into KMS, a default, non-customized video will be shown.

 Users who are not part of the CSV that was uploaded to Idomoo will receive an error message on the player.
