

Interactive sessions overview

Last Modified on 11/13/2025 11:06 pm IST

 This article is designated for all users.

Interactive sessions allow attendees to connect with others during your virtual event. Hosts can use this collaboration space to provide demos with advanced moderation controls, breakout rooms that allow smaller group interactions, and so much more! Engage attendees through interactive tools like chat, breakout rooms, live polls, screen sharing, whiteboard, and more. Enhance your event experience by adding an interactive session with the speaker right after the session for a small group of attendees to interact with the speaker in a more intimate environment.

Interactive sessions support up to 100 participants, with a maximum of 30 on stage and the remaining 70 as viewers.

Interactive session

Sessions that gather everyone in an engaging discussion, brainstorm, or anything in between.
