AddNew module

Content updated: 03/25/2022

This article is designated for administrators.

About

The **AddNew module** is used to add the **+Create** button located at the top right of the navigation bar. The **+Create** drop-down menu and its contents are configured in this module.

This module is supported in both Content Hubs and LMS Extensions.

Before you start

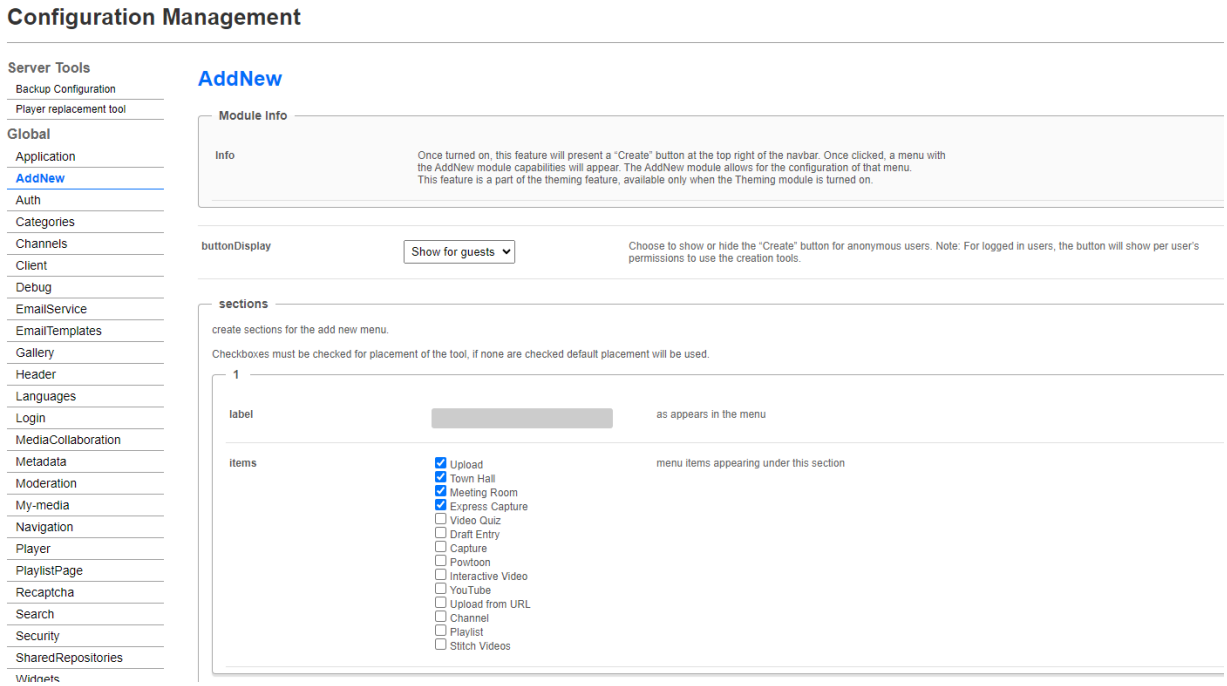

Enable the Theming module as well as the **Header** option within the module's features section.

Configure

Go to your Configuration Management console, locate the **AddNew** module in the left panel, then select it. You can also navigate directly using a link: `https://{your_site_url}/admin/config/tab/addNew`

The **AddNew** page displays.

buttonDisplay - This field lets you choose whether to show or hide the +Create button for anonymous users. For logged-in users, the button is displayed based on their permissions to add media. Choose from the following options:

- Show for guests
- Hide for guests
- Do not show

For more information about permissions, see our article legacy Video Portal and KAF roles and permissions.

Sections

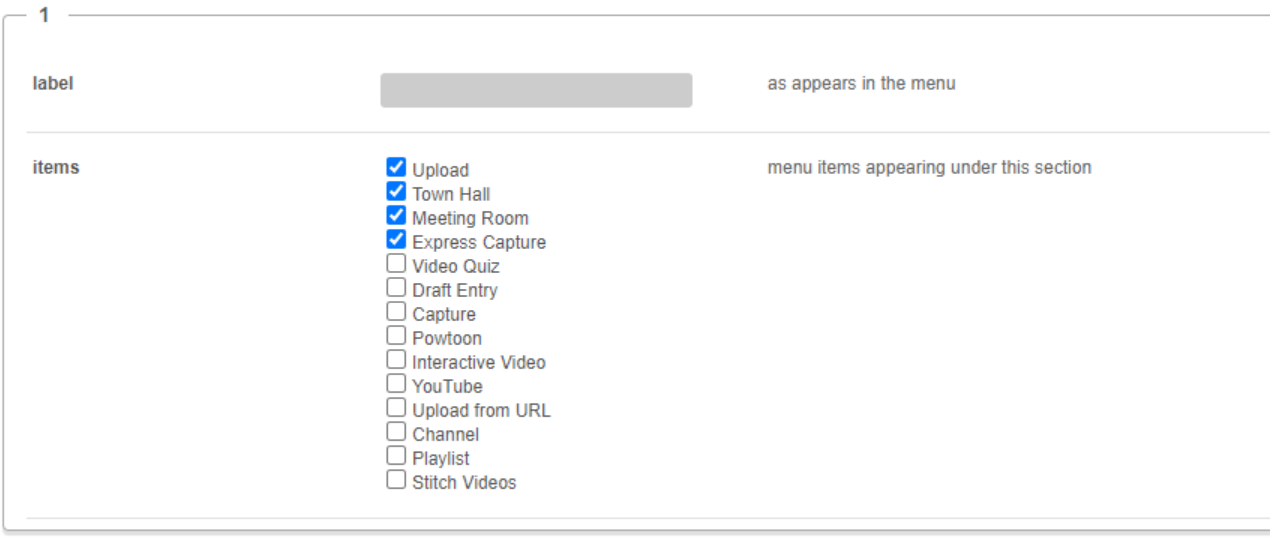

Here you can control what tools to show in the +Create menu, and in which section of the menu. The +Create menu is split into three sections and allows you to promote the most used creation tools/apps to the top of the menu. You can also choose to have all the tools in one section if that works for you.

The checkboxes next to the menu items determine their placement in the menu. **Unchecking an item does not remove it from the menu**; it will appear instead in its default location (unless checked in a different section). To fully remove an item, disable its module (see below).

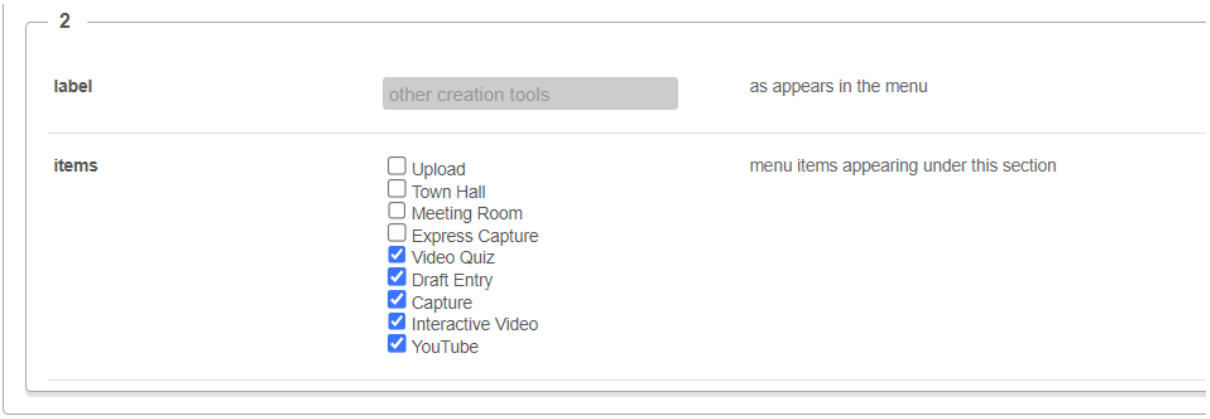

Section 1

To place the most-used tools in the first section, check the boxes next to each one.

Section 2

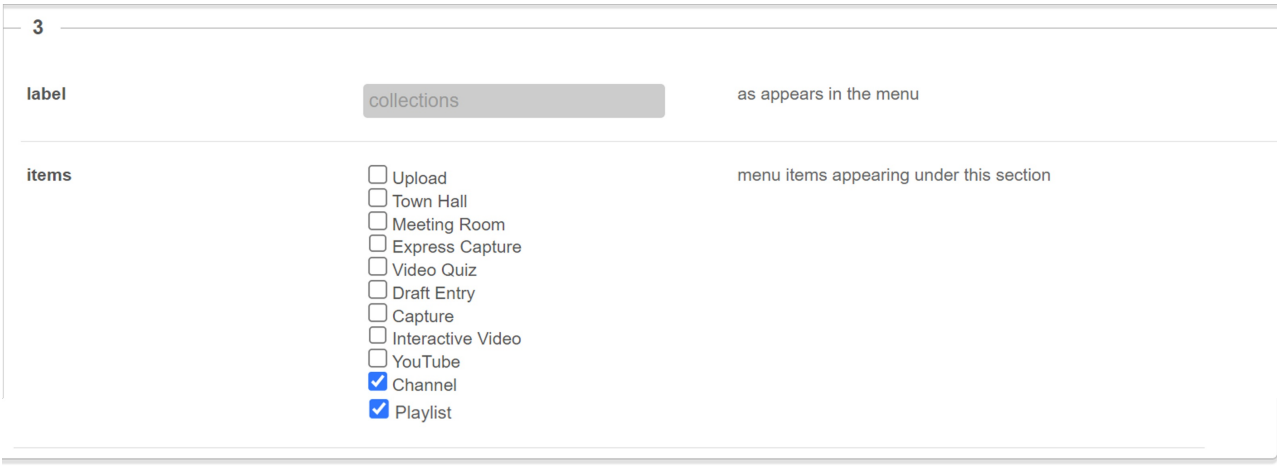

To add additional tools under the heading **Other Creation Tools**, check the boxes next to the desired items in the second section.

Section 3

To add additional tools under the heading **Collections**, check the boxes next to the desired items in the third section.

Modules

This section lists the modules that add items to the +Create menu.

The Upload function is a core feature that is always enabled and will appear as the first item on the menu.

Enable and configure modules by clicking the **configure** option on the right, which will take you directly to that module. Here are your options:

kwebcast - Enables **Town Hall** (webcasting) in the menu.

newrow - Adds **Meeting Room** to the menu.

recorder - Displays **Express Capture** in the menu.

quiz - Adds **Video Quiz** to the menu.

kalturacapture - Shows **Capture** in the menu.

onedrive - Adds **oneDrive** to the menu.

raptmedia - Displays **Interactive Video** in the menu.

youtube - Adds **YouTube** to the menu.

draft - Shows **Draft Entry** in the menu.

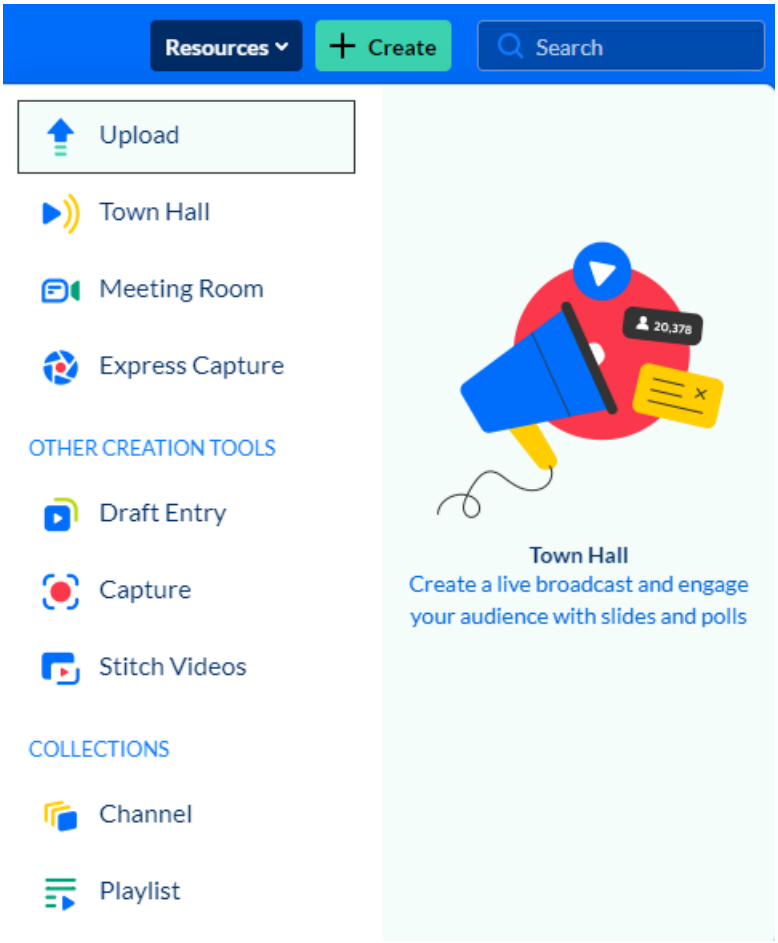

stitch - Adds **Stitch Videos** to the menu.

This is an example configuration:

The result is as follows:
