## Express Capture release notes - v2.2.1 October 2, 2023

**Version: 2.2.1**

**Date Released: October 2, 2023**

### What's new

- **Camera capture resolution** - The resolution limit on the camera recording of 858x483 was removed. Now recording resolutions can be according to the users' camera abilities (KMS-27873)
- **Dual screen change** - We have changed the way dual screen media is created - when using both camera and screen recording. Now, when a user records both screen and camera - the screen share is the primary/parent entry, and the audio/camera recording is secondary. This means that the screen will show first on the player load, and also the thumbnail will be taken from it. (KMS-27628)
- **Audio only and Camera only media** - Enabled the option for screen share with no audio/camera (ILMS-363)

### Resolved issues

| ID | Description |
|---|---|
| SUP-34877 | [Accessibility] Added missing label on the stop button, and added better reading capabilities on the clock time for SR |
| ILMS-306 | Some UI adjustments to the buttons. |
| ILMS-359 | Now, the screen share option will be closed once selected. |
| ILMS-361 | Fixed the issue where a rectangle appears on the screen post enable/disable screen share and reset app |
