

SSO Exclusion

Last Modified on 05/03/2022 10:48 am IDT

Admin can manually exclude users from SSO login and enable login by username and password.

This action is configurable via a checkbox in the Add User/Edit User screens of KMC. In order to enable the feature, please contact Kaltura support or your Kaltura representative.

Exclude a User from SSO in KMC

1. Access the KMC.
2. Click the **Administration** button.
3. To add a new user, click **Add User**. To edit an existing user, click the three dots to the right of the user and select **Edit**.

Add User	Edit User
<p>Personal Details</p> <p>Login Email address * <input type="text"/></p> <p>First Name * <input type="text"/></p> <p>Last Name * <input type="text"/></p> <p>Account Specific Details</p> <p>Publisher User ID <input type="text"/></p> <p>User role <input type="text" value="Publisher Administrator"/></p> <p><small>Full control over publisher account and user management functionalities</small></p> <p><input checked="" type="checkbox"/> SSO user</p> <p><input type="button" value="Save"/></p>	<p>Personal Details</p> <p>Login Email address * <input type="text" value="test@gmail.com"/></p> <p>First Name * <input type="text" value="test"/></p> <p>Last Name * <input type="text" value="test"/></p> <p>Account Specific Details</p> <p>Publisher User ID <input type="text" value="test@gmail.com"/></p> <p>User role <input type="text" value="New Role"/></p> <p><input checked="" type="checkbox"/> SSO user</p> <p><input type="button" value="Save"/></p>

The SSO user check box is checked by default. To exclude the user from SSO, uncheck the SSO user check box, then click **Save**.

The option to check/uncheck the SSO user check box is only available to users with add/edit user permissions on the account. The check box displays grayed out (unconfigurable) to other user roles.
