 This article is designated for all users.

About

This article describes how to:

- Invite attendees to your event via email. An invitation will be sent as an email to complete the registration. You may do this individually or in bulk.
- Add participants to the event *without sending them an invitation email* - individually or in bulk. Once you're ready, simply use the "Resend Email" option to send the invites.
- View a list of attendees for an upcoming event and monitor their progress through the registration process
- Perform additional actions on attendees per registration status.
- Manage event access for "closed" Single sign on (SSO) event - using custom event template only.

Following is one example of an invitation an attendee may receive.

- Profile image (optional) - Click **Upload image** to add an image. Recommended size: 500x500px
 - Title (optional field) - Job title of the user
 - Company (optional field) - Company of the user
 - Bio (optional field) - Short description for the user's profile page on the event site. Character limit: 2500
7. Once finished, click **Invite** to send an invitation email, or click the down arrow to the right of the **Invite** button and choose **Invite without an email** to add this person to the event *without sending them an invitation email*.

i If you chose to add this person to the event without sending them an invitation email, once you are ready to send them the invite, you can click the three blue dots to the right of Creation date and select the 'resend email' option on the All users page.

You receive confirmation that the invite was sent successfully.

Invite participants to your event in bulk

1. Navigate to the All users page; from the Event page, click the All users tab.

The All users page displays.

2. Click Bulk invite. The Bulk invite screen displays.

Bulk invite

Upload a CSV file to invite multiple users at once.

In the file, make sure these fields are separated by a comma for each user:

- Email address, first name, last name are mandatory
- Title, company name, language and Role (speaker/moderator) are optional

Download CSV template with examples to ease your work.

[Upload file](#)

3. Here you have three choices:

- Click **Download CSV template** to download a file that is already formatted and includes examples. Type the appropriate information for your users (email, first name, and last name are mandatory; company, title, language, and role (speaker/moderator) are optional), save, then click **Upload file** to upload.

OR

- Click **Upload file** to upload your own CSV file (without using the pre-made template).

OR

- Click **Cancel** to cancel the action.
4. If you chose to upload a file (either your own or using a pre-made template), you are asked to check your file.

Check your file

These are the two first rows of your file. If everything looks alright, you can click on 'Invite'. Invitation will be sent as an email to complete the registration

Troubleshooting - things to consider when using bulk invite

Special characters:

- Email addresses cannot contain special characters (e.g., [] []@kaltura.com/Noël@kaltura.com).
- If your CSV contains special characters in any other field (name, title, etc.), it should be uploaded as CSV with UTF-8 encoding format.

Duplications:

Make sure your list does not include duplicate email addresses.

Valid email addresses:

Make sure email addresses are valid (typos like ".con" will result in an error).

View a Full List of Attendees and Monitor their Progress through the Registration Process

Once you have sent your invitations, you can use the All users page to view the full list of attendees for your upcoming event (including name, email, role, status, and creation date) and monitor their progress through the registration process.

For information on removing users versus completely deleting them from the system, please see [Remove users](#).

If a user has already accessed the Event site, opened the Chat and Collaborate widget, and agreed to the widget's terms of use, one additional option displays for Attended users in addition to those listed above - **Block from chat**. Using this option, you can block the user from sending messages in the Chat and Collaborate widget.

If you chose for your attendees to log into your event via email (AKA Magic Link), one additional option displays for Invited and Registered users in addition to those

listed above - **Generate login link**. Using this option, you can copy and send attendees the login link.

Hovering over the registration status in the All users page reveals a higher granularity of status which may include the following:

Registration Status	Detailed Status
Registered	Registered
Invited	Invited by team member
Invited	Invited by team member to register
Registered	Confirmed email
Registered	Registered no confirmation required
Attended	Pre-event visit
Attended	During-event visit
SSO login	SSO login
Unregistered	Unregistered
Blocked	Blocked

In our example below, the registration status is Attended, but when hovering over the registration status, we can see this participant visited the site before the event started (i.e., Pre-event visit).

Speakers page

The Speakers page allows you to view a full list of speakers for your upcoming event (including name, bio, and status) and monitor their progress through the registration process. You may also invite new speakers directly from the Speakers page. See [Kaltura Events - Invite Speakers to Your Event](#).

Moderators page

The Moderators page allows you to view a full list of moderators for your upcoming event (including name, bio, and status) and monitor their progress through the

registration process. You may also invite new moderators directly from the Moderators page. See [Kaltura Events - Invite Moderators to Your Event](#).

Manage event access for "closed" Single sign on (SSO) event

See [Closed events](#) for more information. Closed events are available only when using SSO and a "closed" group setup via a custom event template.

If you are hosting a "closed" Single sign on (SSO) event, you can use the All users page to manage access for your attendees. For these types of events, an additional tab displays on the All users page - **Event access**.
