Canvas Integration Via LTI Release Notes - August 8, 2022

Date Released: August 8, 2022

KAF Version: 5.108.10x

Overview

These release notes pertain to the Kaltura Video App integration with Canvas via LTI, released on August 8, 2022.

This is a part of the Kaltura Application Framework (KAF) release of version 5.108.10x.

What's New

This version introduces the following new items:

- **Support for both LTI 1.1 and LTI v1.3 at the same time** - Existing Canvas integrations can now migrate to LTI 1.3 and continue running their old embed codes with LTI 1.1 with the same KAF.

Canvas Integration Via LTI Release Notes - May 2, 2022

Date Released: May 2, 2022

KAF version: 5.107.53x

Overview

These release notes pertain to the Kaltura Video App integration with Canvas via LTI, released on May 2, 2022.

This is a part of the Kaltura Application Framework (KAF) release of version 5.107.53x.

What's New

This version introduces the following new item:

- **Support for LTI v1.3** - (For both new and existing integrations.) LTI 1.3 has better integration and security improvements. Migration can be done by the account admin following this guide:
Kaltura Video App for Canvas Deployment Guide LTI 1.3 . For additional information, please contact your account admin. From the next KAF release, all new Canvas integrations will be via LTI 1.3 by default.
