

Group chat

Last Modified on 10/31/2023 4:06 pm IST

Kaltura believes in the power of a community. Therefore, in addition to being able to interact with event speakers and/or other attendees in one-on-one conversations during virtual events, your attendees can also enjoy group conversations while watching a session or visiting an event booth (track).

Attendees can join and develop a mutual discussion on relevant topics, like/unlike messages, and reply to each other.

Attendees can delete their own messages, and moderators in the specific context can delete messages of other attendees in the group chat.

See [Chat and Collaborate Widget > Live Stage](#).
