

Interactions tab - Chat settings

Last Modified on 05/14/2025 5:57 pm IDT

 This article is designated for all users.

About

For more information about the Chat widget and its mobile view, see [Chat and Collaborate Widget](#).

The Chat settings page allows you to enable and disable conversations for your event and enable and disable Q&A chat. If Q&A chat is enabled, the Chat settings page also allows you to define your live session's moderation schedule and set a chat welcome text.

Enable and disable conversations

Three types of conversations are available:

- Private Chat - This allows 1:1 chat conversations and search between attendees.
- Page Group Chat - Allow attendees to participate in a group chat across all pages.
- Session Group Chat - Allow attendees to participate in group chat in all the sessions.

1. Navigate to the Chat Settings page; from the Event page, choose Chat Settings from the Interactions tab pull-down menu.

The screenshot shows the Kaltura interface for the 'Sales Kick-off 2024' event. On the left is a sidebar menu with options: Overview, Event details, Branding, Event site editor, Registration, Agenda, Media, People, Interactions (expanded), Emails, Notifications, Chat settings (highlighted with a red box), Analytics, Integrations, and Settings. The main content area is titled 'Overview' and shows event details: 'Sales Kick-off 2024' from '06/10/24 9:00 AM' to '06/10/24 12:00 PM' in 'America/New_York'. Below this are two sections: 'Agenda at a glance' showing a 'Sales Kick-off 2024' session (DIY live webcast, Private, 9:00 AM - 10:00 AM Tue, April 16) and 'Speakers' which currently shows 'No speakers yet'.

The Chat settings page displays.

Hi! Thank you for reaching out, we'll get back to you shortly.

Share moderation app with your moderators

Live webcasting and pre-recorded sessions require moderation via Kaltura Moderation App. To give them time to prepare, we recommend giving your moderators access to the app in advance. Share the app link with your moderators here.

Copy app link event

- Choose to enable or disable conversations for your event by sliding the button next to the specific conversation type to the left (to disable) or to the right (to enable). In the example below, we are disabling Private Chat. Note once Private Chat is disabled, the button turns gray.

Choose whether to enable Q&A chat

Q&A chat is enabled by default. As shown below, the feature is enabled when the blue toggle button is the "on" position.

If the setting is "On", the Q&A tab will be activated when there are moderators assigned to the session and the moderation will be set according to the live moderation schedule.

Define your sessions' live moderation schedule

If you chose to enable Q&A chat, additional settings are available to define your sessions' live moderation schedule.

- Set when you would like moderation to start and end for your live session.
In the example below, we are starting moderation 1 hour before the session start time and ending moderation 10 minutes after the session end time.

Moderated chat experience

During the event, audience engagement is a vital component. Throughout the event, other than connecting with each other, attendees can engage and ask speakers or event moderators questions via the “Moderator Chat”. This functionality improves interaction and exchange of information among speakers and attendees, thus encouraging discussions and boosting attendee engagement.

How to connect with speakers/moderators?

Attendees can reach out to moderators during live sessions via the Q&A tab of the Live stage.

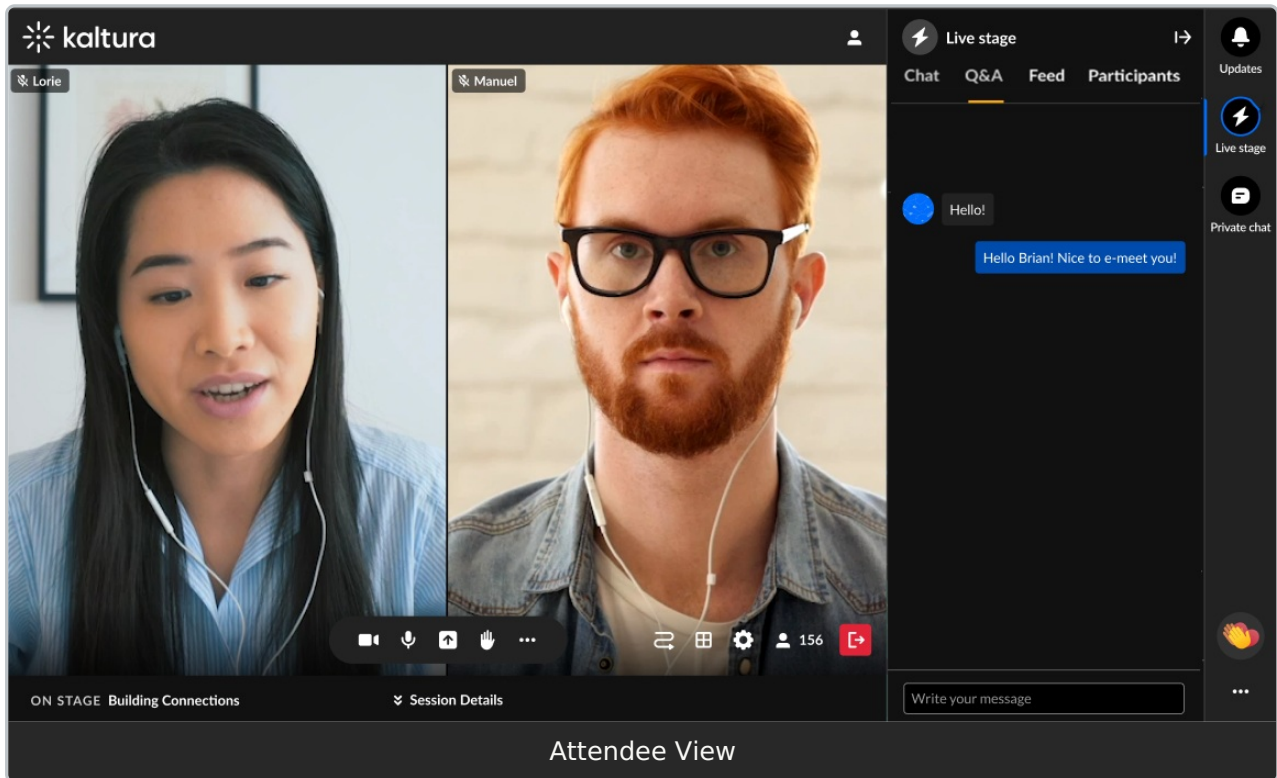

Automatic reply

Automated reply messages are predefined responses used to communicate with attendees. Prior to the moderator’s response, an automatic message that was pre-configured displays. Use it to:

- Provide reassurance. Attendees who reach out to the moderator or your sponsors booth expect to hear back from them quickly.
- Provide further direction. You can use auto-reply to offer additional resources and

communicate accurate information or redirect attendees to specific pages.

- Increase engagement. Attendees are open to information when they see an automatic reply. The engagement increases because personalized timing is as important as personalized content.

Message board

Using FAQs can optimize attendee experience. By posting FAQs on the “Message Board”, speakers and moderators allow attendees to have direct access to the most pressing or relevant information, rather than searching through a long list of Q&As.
