## About

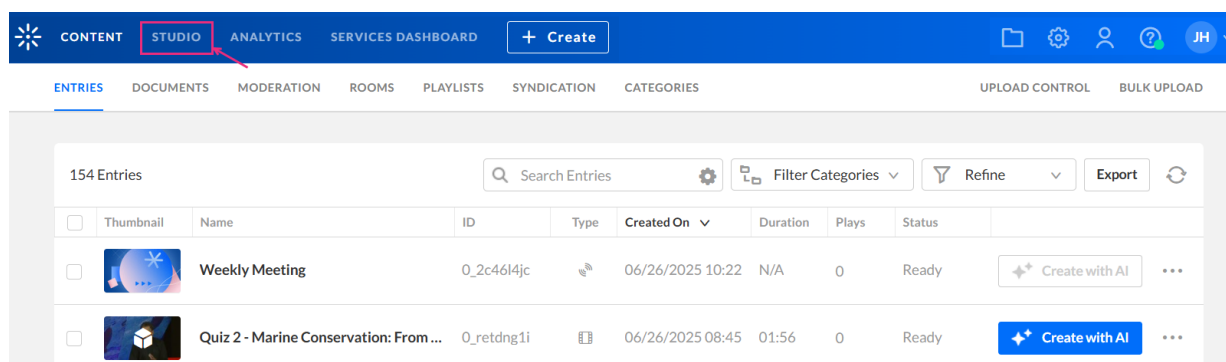

Creating custom video players tailored to your needs is easy with Kaltura's Player Studio. Whether you're looking for a lightweight player, a feature-packed smart player, an audio player, or the new reels player for snackable content, this guide walks you through every step.

## Prerequisites

- An active Kaltura Management Console (KMC) account. For more information on getting an account, click [here](#).
- Media content available on your KMC account. For more information about using KMC to upload media, check out our article [Upload Media](#).

## Access the Player Studio

1. Log into the KMC.
2. Click **Studio**.

The **Player Studio** page displays.

Here you can see a list of all available players in your account.
