

Channelthemingui module

Last Modified on 02/19/2025 6:48 pm IST

 This article is designated for administrators.

About

Once enabled, this module applies the new [Theming design](#) to channel pages. Channel owners will see the updated design and gain access to new configuration options in both this module and the channel edit page.

This module is designed for the [Video Portal](#) and [KAF](#) and requires the [Theming module](#) to be enabled for full functionality.

Configure

1. Go to your Configuration Management console, and click on the **Channelthemingui** module. You can also navigate directly using a link: https://{your_KMS_URL}/admin/config/tab/channelthemingui.

Modules / channels

Channelthemingui

Module Info

Description Once enabled, this module provides a new theme for the channel pages based on the themeing module and designs. Once enabled, the new design of the channel will be visible, with new configurations in this module and in the channel edit page for channel owners.

Note KMS and KAF module. Depends on the [Theming module](#).

enabled Enable the Channelthemingui module.

channelLayoutMode Choose the layout of channels in the application:
Select "Tabs" to display the channel elements (Sessions, Content, Playlists, About) in tabs.
Select "Vertical" layout to show the channel elements one above the other, allowing navigation between the elements with a scroll.

AddFiltersByTags
Enable filtering media within a channel using tag-based filters. Filters will appear in the vertical channel layout and on the Sessions tab within the Tabs channel layout.

2. Configure the following:

enable - set to 'Yes' to enable the module.

channelLayoutMode - Set the desired layout of channels. Choose from the following options (select 'Tabs' to display **Sessions**, **Videos**, **Playlists**, and **About** in tabs, and select 'Vertical' to show the channel elements one above the other, allowing navigation between the elements with a scroll):

- **Per Channel, Default Tabs** (default)
- **Per Channel, Default Vertical**
- **Fixed Layout, Tabs**
- **Fixed Layout, Vertical**

AddFiltersByTags - Enable filtering media within a channel using tag-based filters. Filters will appear in the vertical channel layout and on the **Sessions tab** within the 'Tabs' channel layout.

To add tags, click the **+AddFiltersByTags** button.

An additional section displays.

DELETE

channels	<input type="text"/>	Specify the channel IDs to apply this filter. Use a comma-separated list for multiple IDs or all for all channels.
label	<input type="text"/>	Define the display name for the filter.
allValuesElement	<input type="text"/>	Specify the label for the Choose All Tags option in the filter.
tags	Add tags for the filter, one tag per line. The order entered here will dictate the display order of the filter.	

[+ Add "AddFiltersByTags"](#)

Complete the following fields:

channels - Enter the channel IDs to apply this filter. Use a comma-separated list for multiple IDs, or type 'all' to apply it to all channels.

label - Type in the name you want to display for the filter.

allValuesElement - Type in the label you want to display for the 'Choose All Tags' option in the filter.

tags - Type in tags for the filter, entering one tag per line. The order you enter will determine how they are displayed in the filter.

tags

```
user_group
community
heroes
```

Example of tags for filtering

3. Click **Save**.

User experience

The screenshot displays the Kaltura website interface. At the top left is the Kaltura logo. The main header features a large image of a woman and a man, with the text "Certifications & Trainings" and a "Learning" tag. Below this is a paragraph about recording live product demos and a "Read More" link. A video player is embedded, showing a man speaking with an "Unmute" button. Below the video is a navigation bar with tabs for "Sessions", "Videos", "Playlist", and "About". A search bar for sessions and a "View Scheduled Only" filter are present. The main content area lists two sessions: "Kaltura connect opening keynote" (February 18, 10:00 AM - 11:30 AM EST) by Ron Yekutieli, and "Looking into the future" (February 18, 11:30 AM - 12:30 AM EST). A pink banner at the bottom of the screenshot reads: "Example of tabs layout with **Sessions, Videos, Playlists, and About** tabs".
