

# Channelthemingui module

Last Modified on 06/16/2026 12:29 pm IDT

 This article is designated for administrators.

## About

Once enabled, this module applies the Theming experience to channel pages. Channel owners can use additional channel layout and display options in both this module and the channel edit page.

- This feature requires the [Theming module](#) to be enabled.
- This module is available for Content Hubs and LMS Extensions.

## Configure

1. In the Configuration Management console, click on the **Channelthemingui** module. You can also navigate directly using a link: [https://{your\\_site\\_URL}/admin/config/tab/channelthemingui](https://{your_site_URL}/admin/config/tab/channelthemingui).

### Modules / channels

[Channelcategories](#)

[Channelcollections](#)

[Channelembed](#)

[Channelmembers](#)

[Channelmoderation](#)

[Channelsubscription](#)

[Channeltheme](#)

[Channelthemingui](#)

[Channeltopics](#)

The 'Channelthemingui' page opens.

### Channelthemingui

**Module Info**

**Description**  
Once enabled, this module provides a new theme for the channel pages based on the theming module and designs. Once enabled, the new design of the channel will be visible, with new configurations in this module and in the channel edit page for channel owners.

**Note**  
KMS and KAF module. Depends on the [Theming module](#)

enabled  **Yes** Enable the Channelthemingui module.

channelLayoutMode  **Per channel, Default Vertical** Choose the layout of channels in the application. Select "Tabs" to display the channel elements (Sessions, Content, Playlists, About) in tabs. Select "Vertical" layout to show the channel elements one above the other, allowing navigation between the elements with a scroll. We recommend to use the vertical UI only on channels with less than 100 elements (Sessions, playlist, Vods, etc.).

channelInfo  **Yes** Choose to display the category information in the "Info" tab.

**AddFiltersByTags**

Enable filtering media within a channel using tag-based filters. Filters will appear in the vertical channel layout and on the Sessions tab within the Tabs channel layout. + Add "AddFiltersByTags"

SessionsToggleDefault  **Show all sessions first (default)** When both future and past sessions exist on the channel, users can toggle between "all sessions" and "upcoming sessions" using the in-page toggle. This field allows admins to choose the default of this toggle.

2. Configure the following:

**enable** - set to 'Yes' to enable the module.

**channelLayoutMode** - Set the desired layout of channels. Choose from the following options (select 'Tabs' to display **Sessions, Videos, Playlists**, and **About** in tabs, and select 'Vertical' to show the channel elements one above the other, allowing navigation between the elements with a scroll):

- **Per Channel, Default Tabs** (default)
- **Per Channel, Default Vertical**
- **Fixed Layout, Tabs**
- **Fixed Layout, Vertical**

**channelInfo** - Set to 'Yes' to display channel information in the 'Learn More' tab.

**AddFiltersByTags** - Enable filtering media within a channel using tag-based filters. Filters will appear in the vertical channel layout and on the **Sessions tab** within the 'Tabs' channel layout.

To add tags, click the **+AddFiltersByTags** button.

An additional section displays.

DELETE

**channels**  Specify the channel IDs to apply this filter. Use a comma-separated list for multiple IDs or all for all channels.

---

**label**  Define the display name for the filter.

---

**allValuesElement**  Specify the label for the Choose All Tags option in the filter.

---

**tags**  Add tags for the filter, one tag per line. The order entered here will dictate the display order of the filter.

[+ Add "AddFiltersByTags"](#)

Complete the following fields:

**channels** - Enter the channel IDs to apply this filter. Use a comma-separated list for multiple IDs, or type 'all' to apply it to all channels.

**label** - Type in the name you want to display for the filter.

**allValuesElement** - Type in the label you want to display for the 'Choose All Tags' option in the filter.

**tags** - Type in tags for the filter, entering one tag per line. The order you enter will determine how they are displayed in the filter.

**tags**

```

user group
community
heroes

```

Example of tags for filtering

**SessionsToggleDefault** - Choose which view is displayed by default when a channel contains both past and upcoming sessions.

Choose either:

- **Show all sessions first (default)** - Opens the Sessions tab with all sessions displayed..
- **Show upcoming sessions first** - Opens the Sessions tab with upcoming sessions

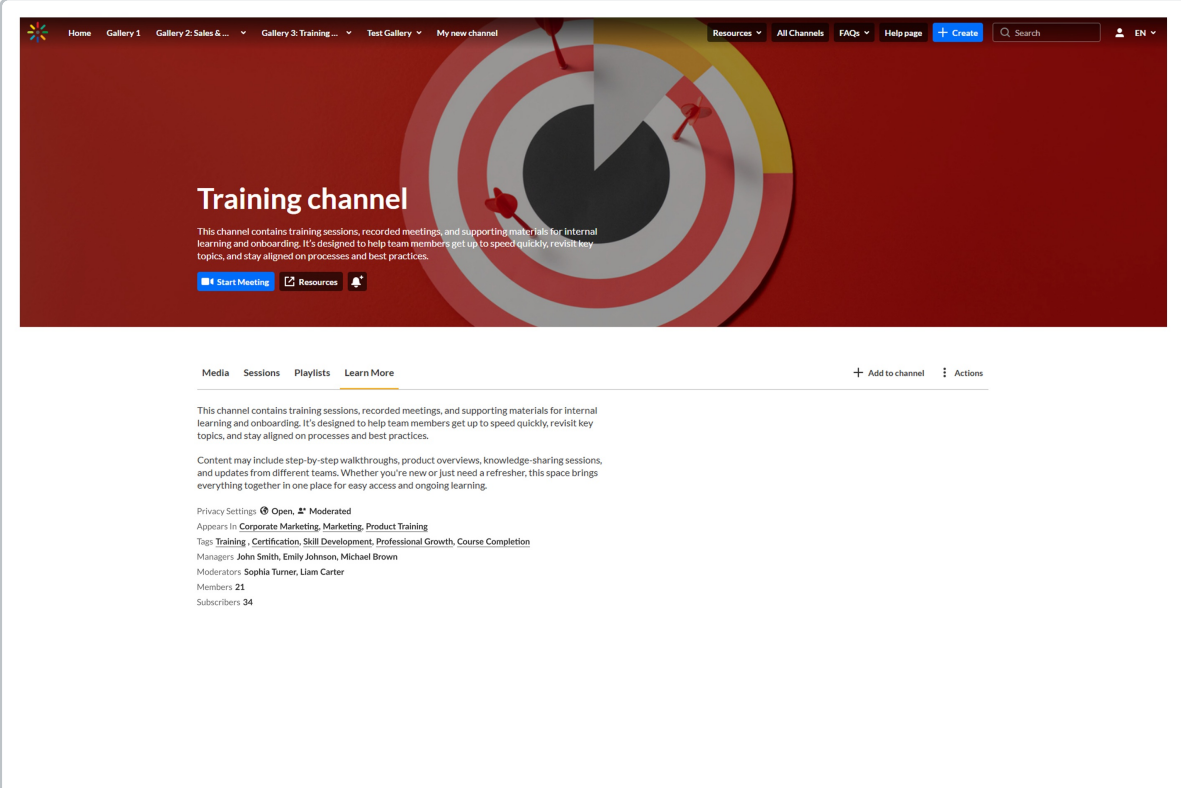

displayed.

This setting only applies when a channel contains both past and upcoming sessions. If a channel contains only past sessions or only upcoming sessions, the session view option isn't displayed.

3. Click **Save**.

## User experience

The screenshot shows a Kaltura channel interface for a "Training channel". The header includes navigation links like "Home", "Gallery 1", "Gallery 2: Sales &...", "Gallery 3: Training...", "Test Gallery", and "My new channel". On the right, there are links for "Resources", "All Channels", "FAQs", "Help page", and a "+ Create" button. A search bar and user profile "EN" are also present. The main content area features a large target graphic with the title "Training channel" and a description: "This channel contains training sessions, recorded meetings, and supporting materials for internal learning and onboarding. It's designed to help team members get up to speed quickly, revisit key topics, and stay aligned on processes and best practices." Below the description are buttons for "Start Meeting", "Resources", and a notification bell. A horizontal tab bar is visible with "Media", "Sessions", "Playlists", and "Learn More" tabs, with "Learn More" being the active tab. To the right of the tabs are links for "+ Add to channel" and "Actions". Below the tabs, there is a detailed description of the channel's purpose and content, followed by metadata including "Privacy Settings" (Open, Moderated), "Appears in" (Corporate Marketing, Marketing, Product Training), "Tags" (Training, Certification, Skill Development, Professional Growth, Course Completion), "Managers" (John Smith, Emily Johnson, Michael Brown), "Moderators" (Sophia Turner, Liam Carter), "Members" (21), and "Subscribers" (34).

Example of tabs layout with **Media, Sessions, Playlists, and Learn More** tabs
