👥 **This article is designated for all users.**

About

SyncWords is a professional cloud-based software solution that includes auto-transcription, closed caption authoring/editing, live translation, automatic positioning of on-screen text, and automatic alignment of text to speech. They provide software solutions to Broadcast TV, caption service companies, streaming vendors, houses of worship, EDU, and GOV organizations. Simply upload your file and start. Kaltura, through our Reach framework, automates SyncWord's translation services within the platform itself.

Following are the SyncWord's services that you may order within Kaltura.

Machine Translation	English, Arabic, ChineseMT, ChineseCT, Danish, Dutch, Hindi, French, Greek, Finnish, Hebrew, Hungarian, Italian, Japanese, Norwegian, Polish, Portuguese, Russian, Spanish, Swedish, Thai, Turkish, German, Korean, Zulu, Irish, Welsh, FrenchCanadian, BrazilianPortuguese
Turn-around Times*	30 minutes

*Turn-around times depend on the language selected.

Please see the following articles for information on configuring and working with REACH.
