About

This article describes how to view registration and attendance analytics on a webinar and download a PDF version of the dashboard.

View registration and attendance analytics

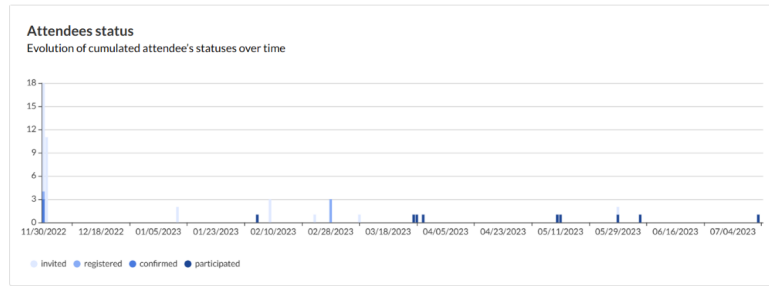

Navigate to the Registration & Attendance page; from the site page, choose Registration & attendance from the Analytics tab pull-down menu.

The Registration & attendance page displays.

The first portion of the page (shown above) provides information on overall turnout, countries from which attendees are registered, number of unregistered participants, and devices.

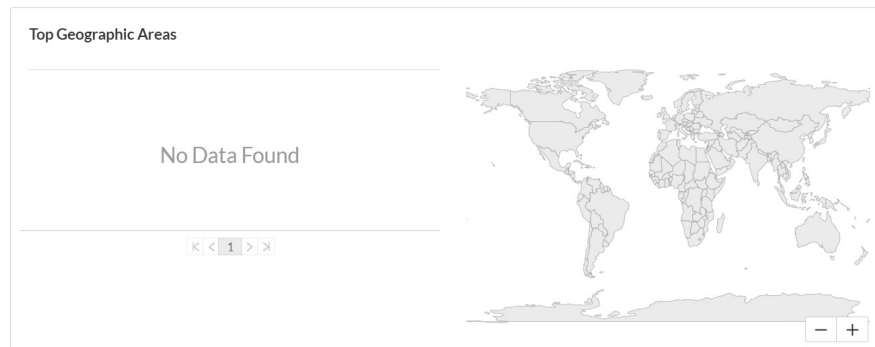

The second portion (shown below) provides information on the evolution of cumulated attendees' statuses over time.

The third portion (shown below) provides information on status of participants - registered, confirmed, participated, or unregistered - and details for each day since registration was opened.
