

Watermark

The player UI top-level customization exposes `components` configurations where applications can customize their watermark on the player.

You can read some more about `components` configuration [here](#)

Default watermark configuration:

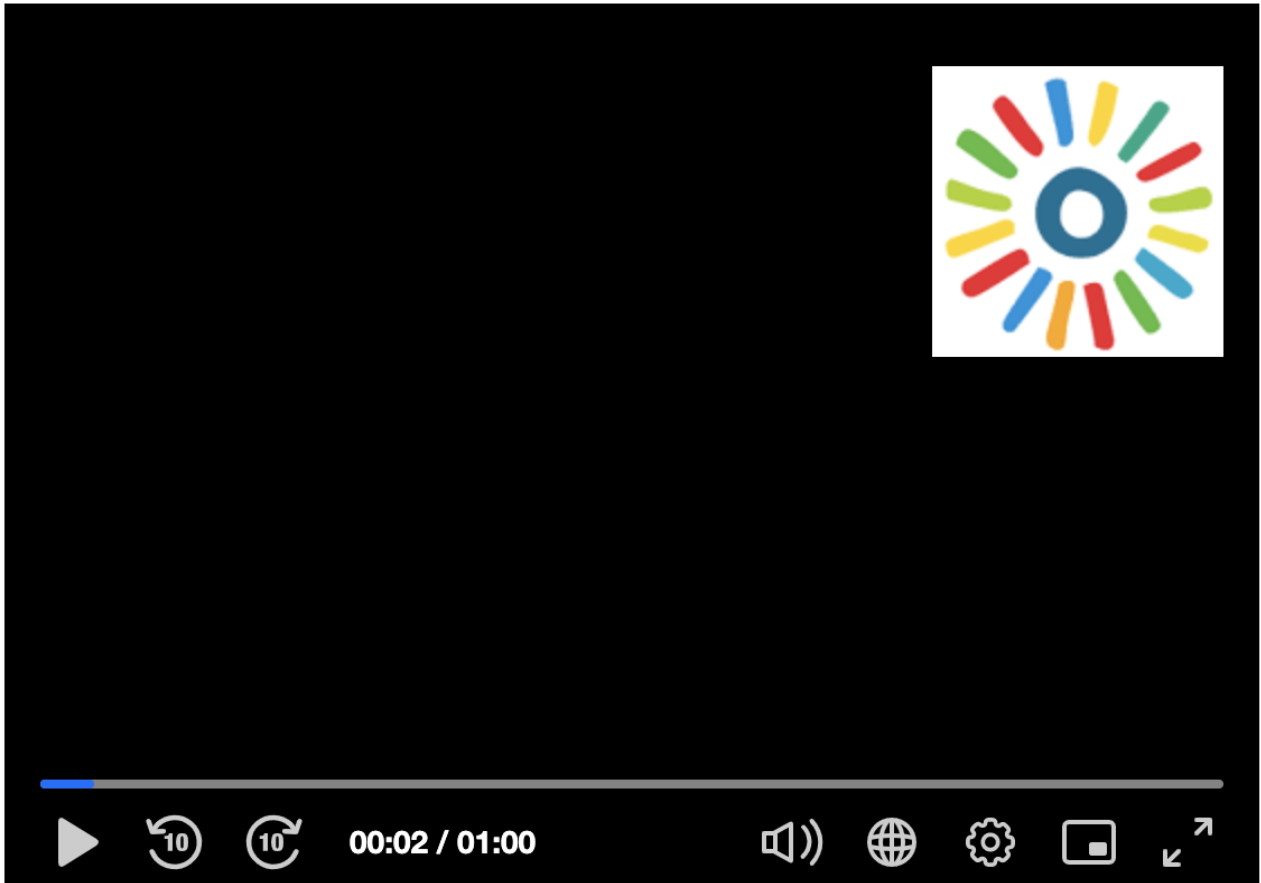

```
{
  img: string, // URL ro the watermark image
  url: string, // Click through URL to the website that you own
  placement: string, // Watermark location - ["top-left", "top-right", "bottom-left", "bottom-right"]
  timeout: number // milliseconds, if given the it will trigger a timer to remove the watermark once playbsack starts
}
```

Example

```
