

Floating

 This article is designated for all users.

Overview

As the viewer scrolls down, if the player moves out of view, a floating player will pop up and position itself according to the configuration. This enables viewers to engage with both the video content and the article seamlessly.

Setup

To learn how to set the **Floating** plugin on the player, see [The Kaltura Player Studio Admin Guide - Top Bar, Interactive, Bottom Bar Settings](#).

Features

- Position of floating
- Width
- Height
- Margin X
- Margin Y
- Draggable - Users have the option to drag the floating video to a different position on the screen.
- Dismissable - Users can dismiss the floating video by clicking 'Back to video' (as shown below) to return to the main player, or by clicking the 'X' icon to close the floating player.
