Healthcare

Senior Director

CEO

Director

- **Registrant profile** - interesting information and characteristics about the registrants displayed in the form of tags, including companies, countries, roles, and industries. Hover over the tags for additional information like percentage out of total and attendance percentage. Data is based on the information collected in the registration form.
- **See breakdown** - access to the Registration and Attendance tab on the dashboard

Average minutes viewed per viewer; percentage of attendees who sent reactions and number of reactions sent; and percentage of attendees who sent messages on live stage and number of messages sent.

32:44
 Avg. minutes viewed per viewer

86%
 Of attendees sent **1,402** reactions

48%
 Of attendees sent **2,554** messages on live stage

Attendee interactivity, including information on polls, Q&A threads, attachments, and 1:1 chats.

Attendee interactivity

78% Participated in polls

16% Created 155 Q&A threads

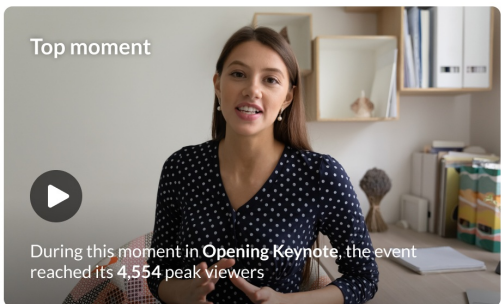

7% Downloaded attachments **417** times

2% Engaged in 1:1 chat

- Percentage of attendees who participated in polls
- Percentage of attendees who created Q&A threads and the number of Q&A threads created
- Percentage of attendees who downloaded attachments and total number of downloads of attachments
- Percentage of attendees who engaged in a **1:1 chat**

Top moment

Top moment

During this moment in Opening Keynote, the event reached its **4,554** peak viewers

Clip of the "Top moment" - A clip of the moment with the highest number of peak users out of all sessions in the event. Click the play button to watch the clip.

Also displayed are how many viewers were watching at this "Top moment".

Users may also download the clip.

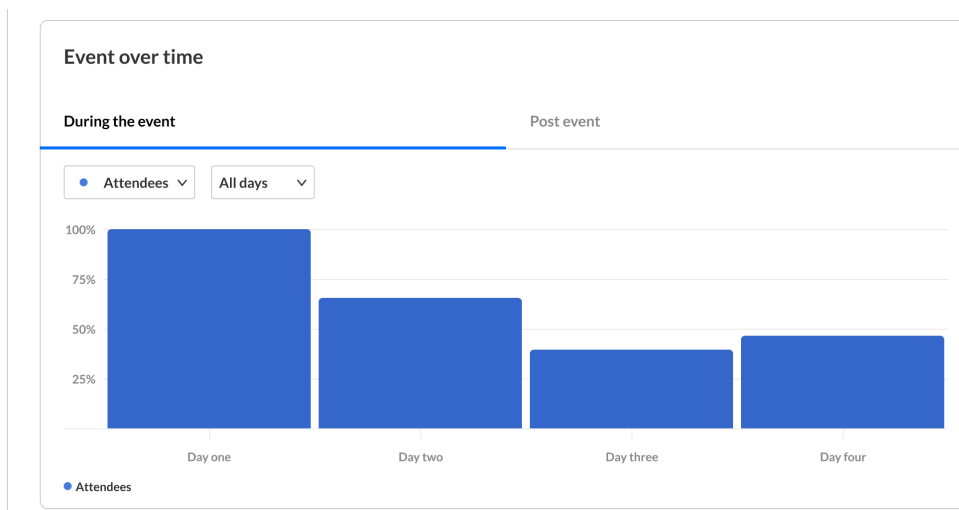

The second portion of the page (shown below) provides graphical representation of the

traction in the event over time. Choose to view data during the event or post event. The left filter allows control of the metric that is displayed - Attendees or Minutes viewed. The right filter allows control of the time granularity - All days or specific date.

Use the drop-down menu to select from the following:

Attendees - the percentage of attendees that were active in the event, split over time.

Minutes viewed - the percentage of viewed minutes of content, split over time.

The third portion (shown below) focuses on sessions. A list of event sessions is displayed, including the following:

Session name - Name of session

Live unique viewers - Number of unique users that viewed the live session

Live average engagement rate - Average engagement rate of all users during the session

Recording unique viewers - Number of unique users that viewed the recording

Recording average completion rate - Average completion rate of the recording over all plays. Each percentile viewed by the user in each play is counted and summed up. Then this number is divided by the number of plays that the user had.

You may sort information in each column.

Access the session dashboard of a specific session by clicking on a session in the list.
