 This article is designated for all users.

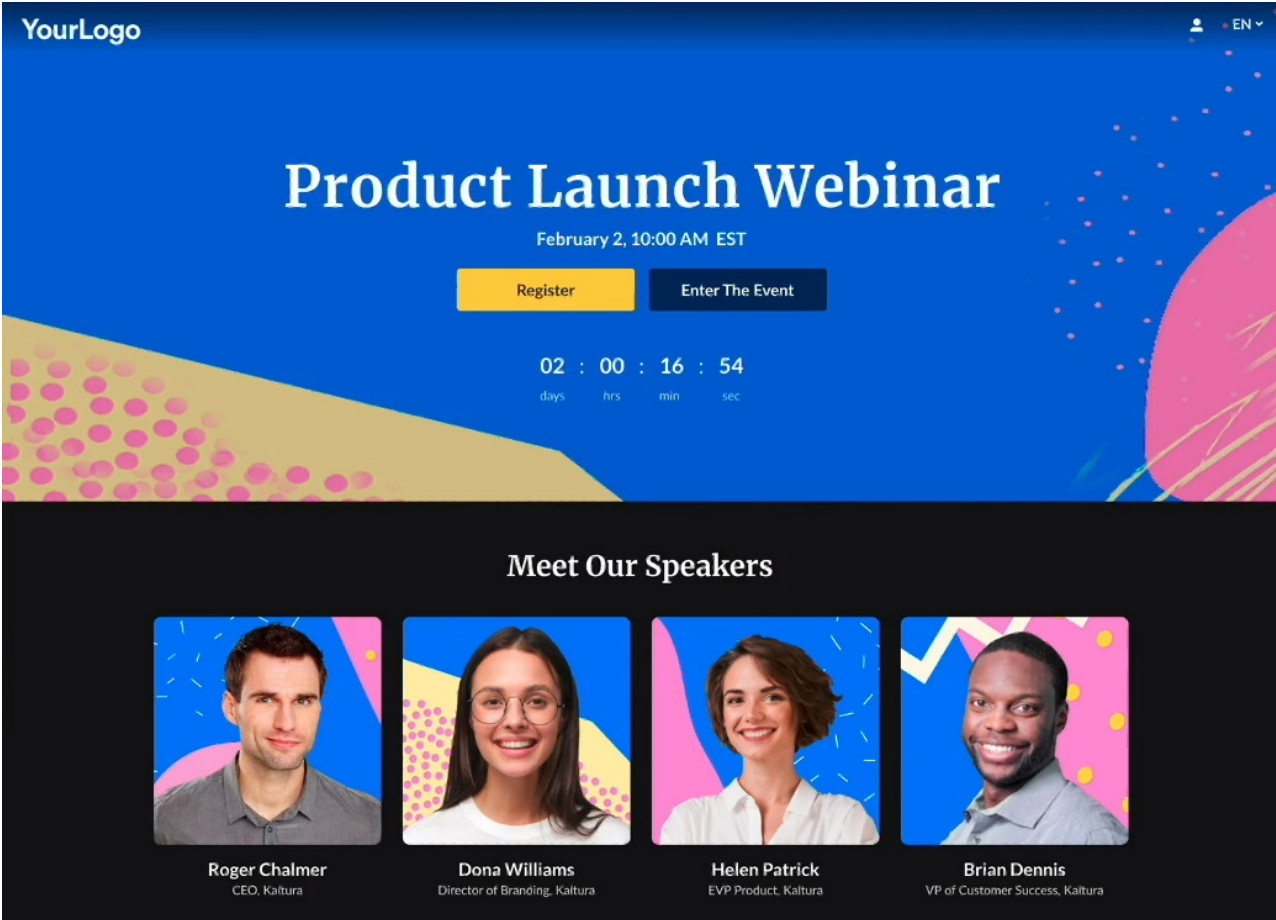

About

We want to ensure your webinars offer a level of value that will encourage participants to sign up, draw many of them to show up, and leave them with an impression that will keep them coming back in the future.

We've compiled the following glossary to help you get familiar with basic Kalturaian terms and concepts of webinars. Use it to optimize your webinar and take full advantage of its capabilities and components. Understanding the terms herein will help make your experience with webinars simpler and clearer.

Site

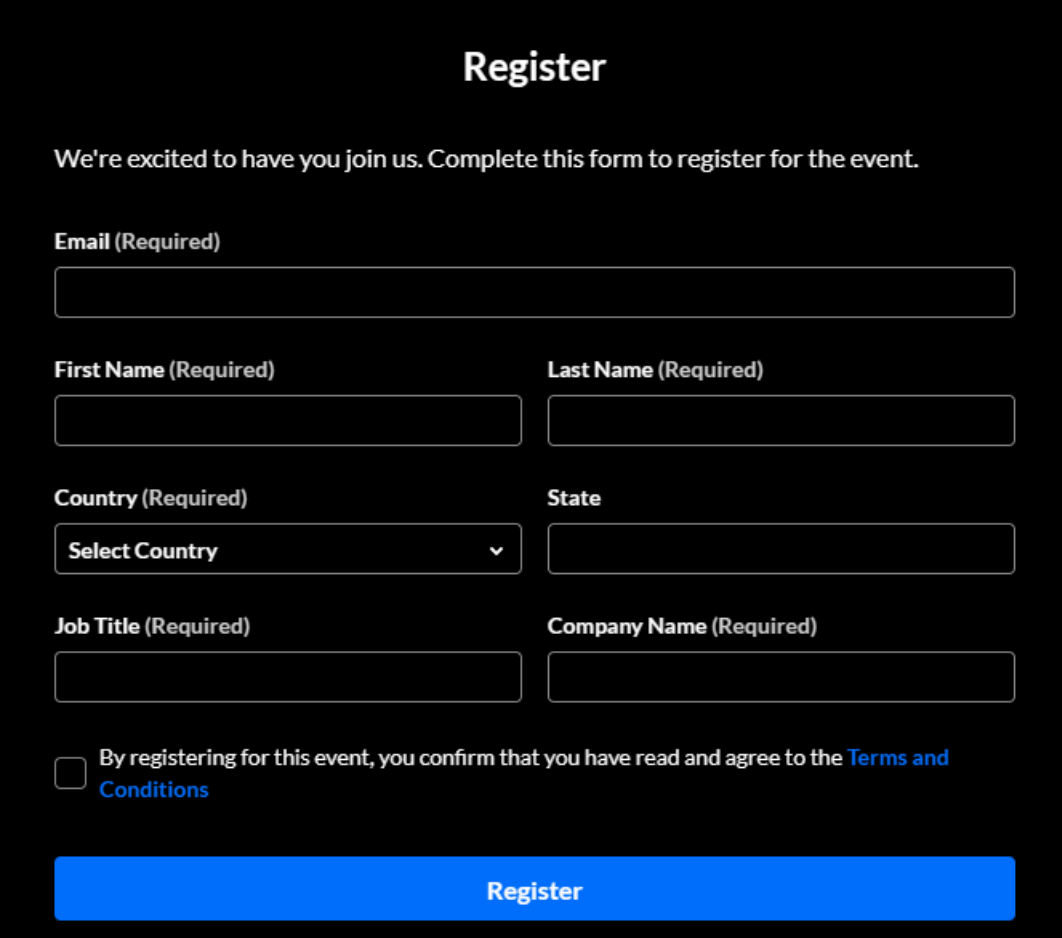

The site is a branded landing page where your attendees can register, access the webinar, and, after the webinar ends, view the recording (Video on Demand, or VOD).

The screenshot shows a vibrant, blue-themed landing page for a "Product Launch Webinar". At the top left is a placeholder for "YourLogo" and a user profile icon with "EN" next to it. The main heading "Product Launch Webinar" is prominently displayed in white. Below the heading, the date and time "February 2, 10:00 AM EST" are shown. Two buttons, "Register" (yellow) and "Enter The Event" (dark blue), are positioned below the date. A countdown timer indicates "02 : 00 : 16 : 54" with labels for days, hrs, min, and sec. The bottom section, titled "Meet Our Speakers", features four speaker portraits with their names and titles: Roger Chalmer (CEO, Kaltura), Dona Williams (Director of Branding, Kaltura), Helen Patrick (EVP Product, Kaltura), and Brian Dennis (VP of Customer Success, Kaltura).

Registration

Attendees will be required to register for your webinar. You may customize the registration form that they receive.

Register

We're excited to have you join us. Complete this form to register for the event.

Email (Required)

First Name (Required) **Last Name (Required)**

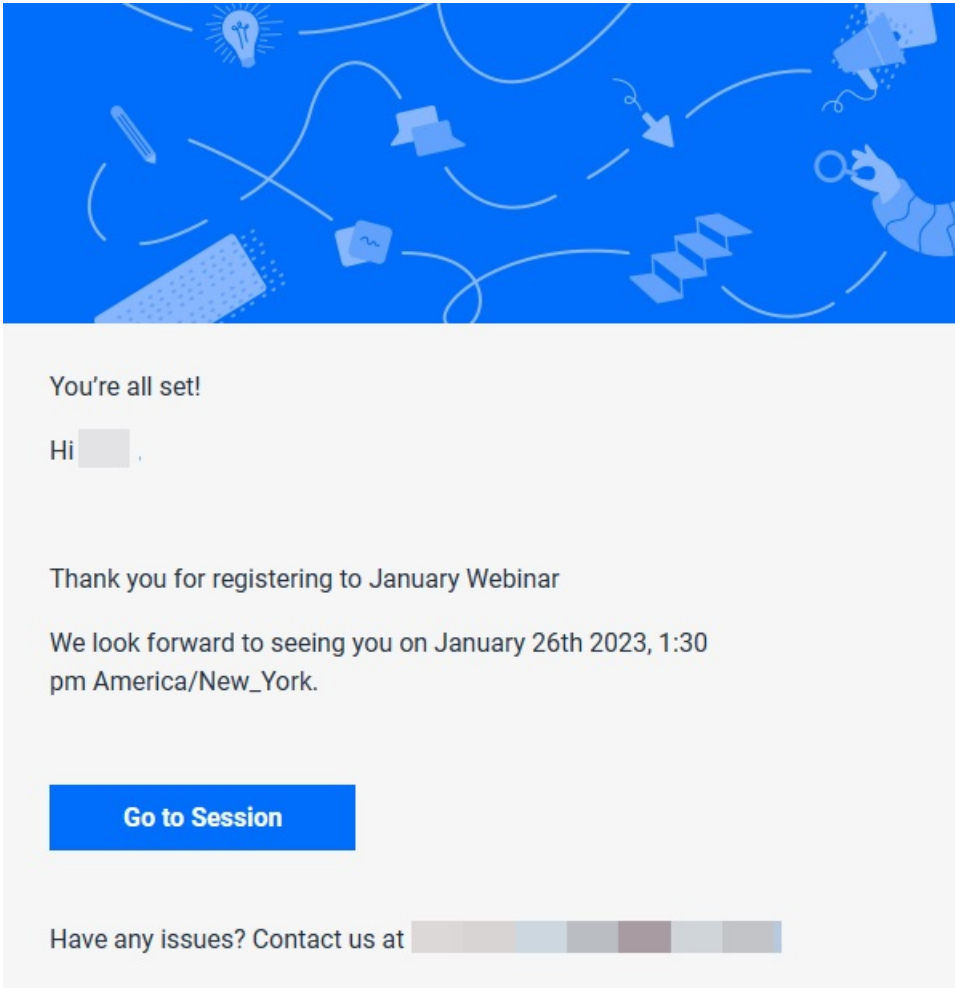

Country (Required) **State**

Job Title (Required) **Company Name (Required)**

By registering for this event, you confirm that you have read and agree to the [Terms and Conditions](#)

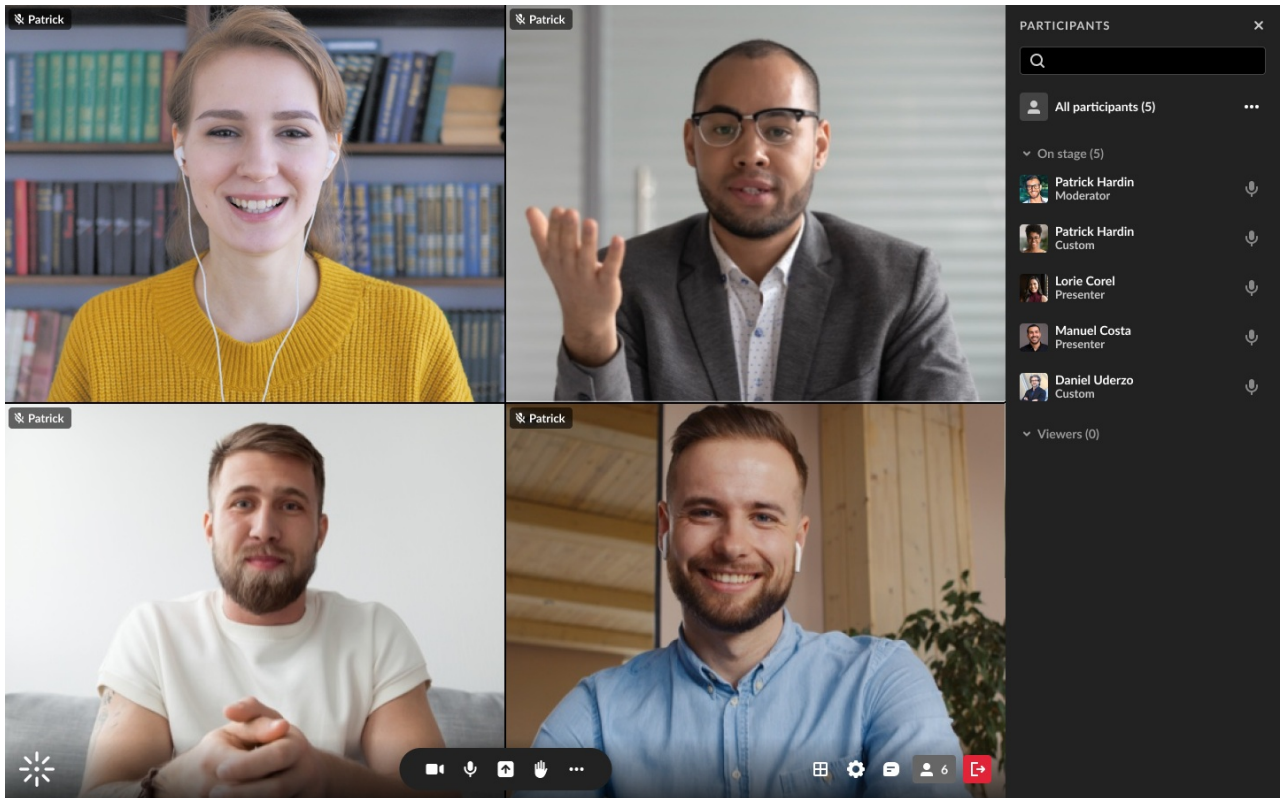

Register

Once registered, your attendees receive a magic link via email, allowing them to enter the webinar.

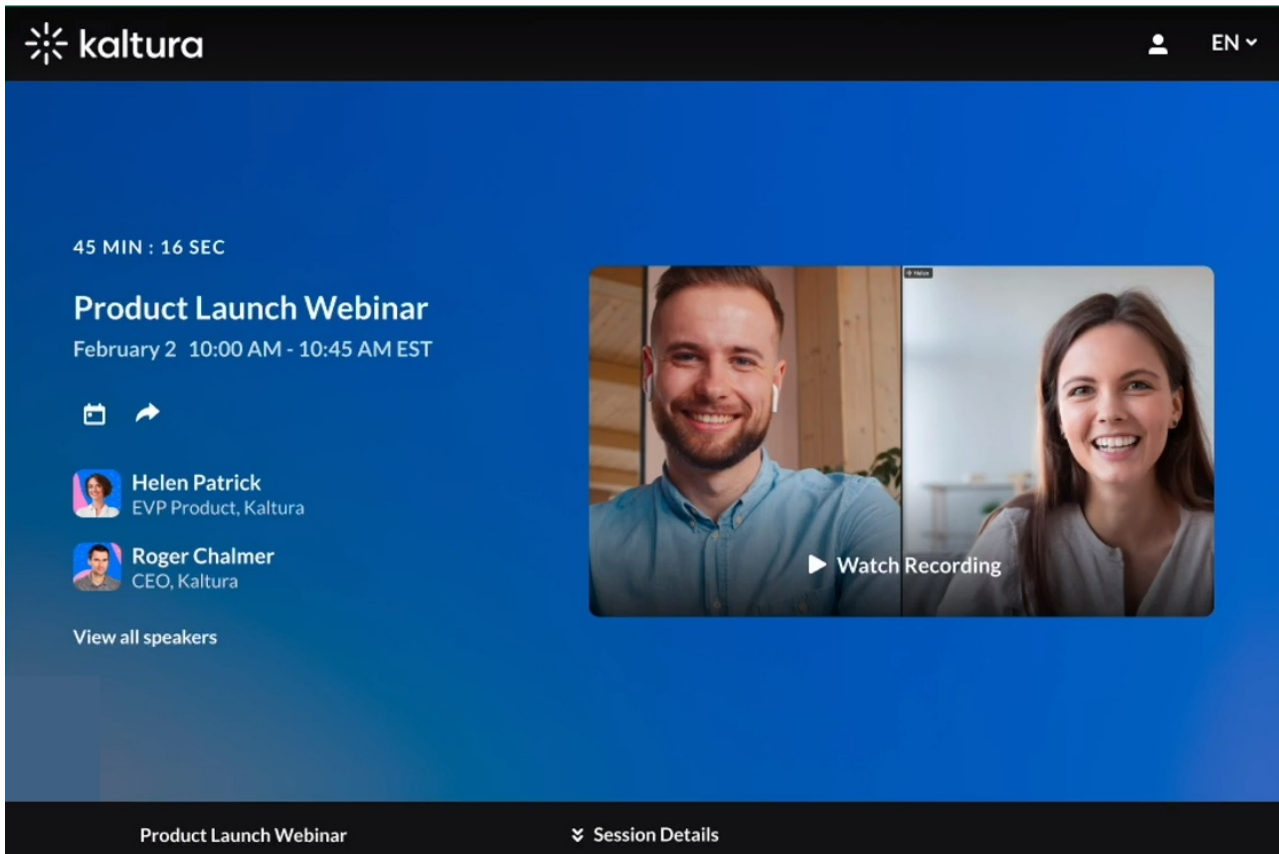

Live session

Your webinar is broadcast in real-time, allowing you to generate engagement with your attendees live. Your live session includes timeline, playlist, bring-to-stage feature, native video playback, and our engagement tools, such as group chat, notifications, attendee reactions and timed confetti, live and scheduled polls.

Video on Demand (VOD)

After the webinar ends, your attendees can view the recording (Video on Demand, or VOD) on the webinar site. Your webinar recording will be uploaded automatically and keep generating leads for you, long after the live session is over.

Notifications

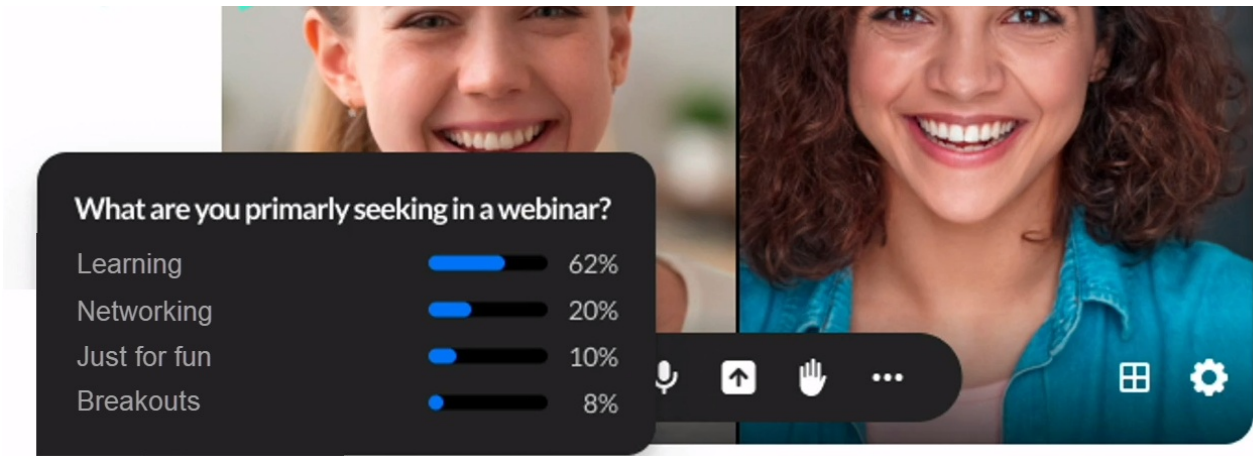

You can create and manage notifications such as announcements ahead of your webinar. You can notify, recommend, and otherwise engage with your attendees. You can even sprinkle confetti on attendees' screens at special moments to increase engagement and excitement. For example, you can build excitement right when you make your big announcement, or when your first speaker makes his or her main point.

Engagement tools

Your webinar comes equipped with engagement tools, such as group chat,

notifications, attendee and crowd reactions, live and scheduled polls. The engagement options in the room will keep your attendees on the edge of their seats.

Marketing automations

Kaltura Webinars is a great solution for marketers. It starts with the branded landing page that provides pre-webinar promotions that marketers can embed anywhere. It continues with the room, turning registrants (regular leads) into active participants (qualified leads). It arrives at the recorded webinar (Video on Demand, or VOD).
