

# Kaltura Webcasting - Re-streaming a Live Broadcast

Last Modified on 02/28/2023 3:56 pm IST

## Re-streaming a Live Broadcast

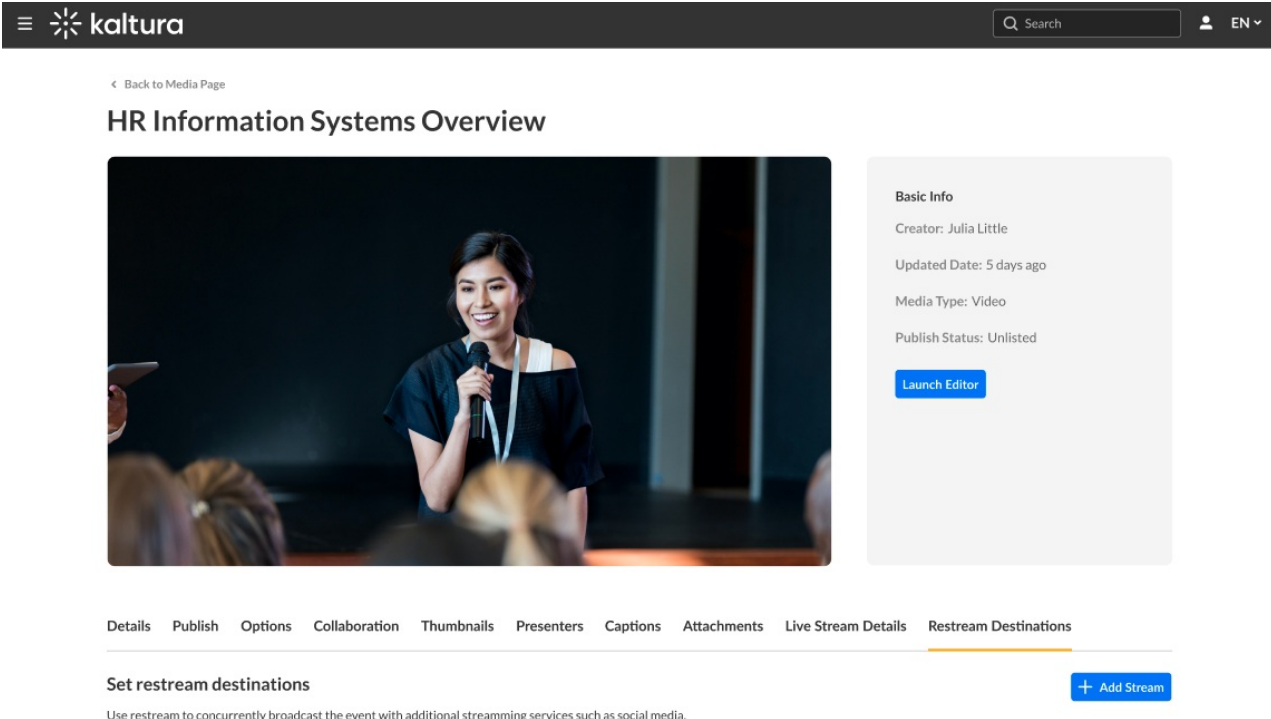

### Overview

When using Kaltura's Live Broadcasting services, you can choose to re-stream your scheduled live event to any RTMP based live broadcasting service. When re-stream is set, Kaltura will take care of replicating your live stream and concurrently stream it to additional live broadcasting services such as social media live streaming.

 Note that re-streaming is only available for scheduled live events such as Webcasts and Town Hall events.

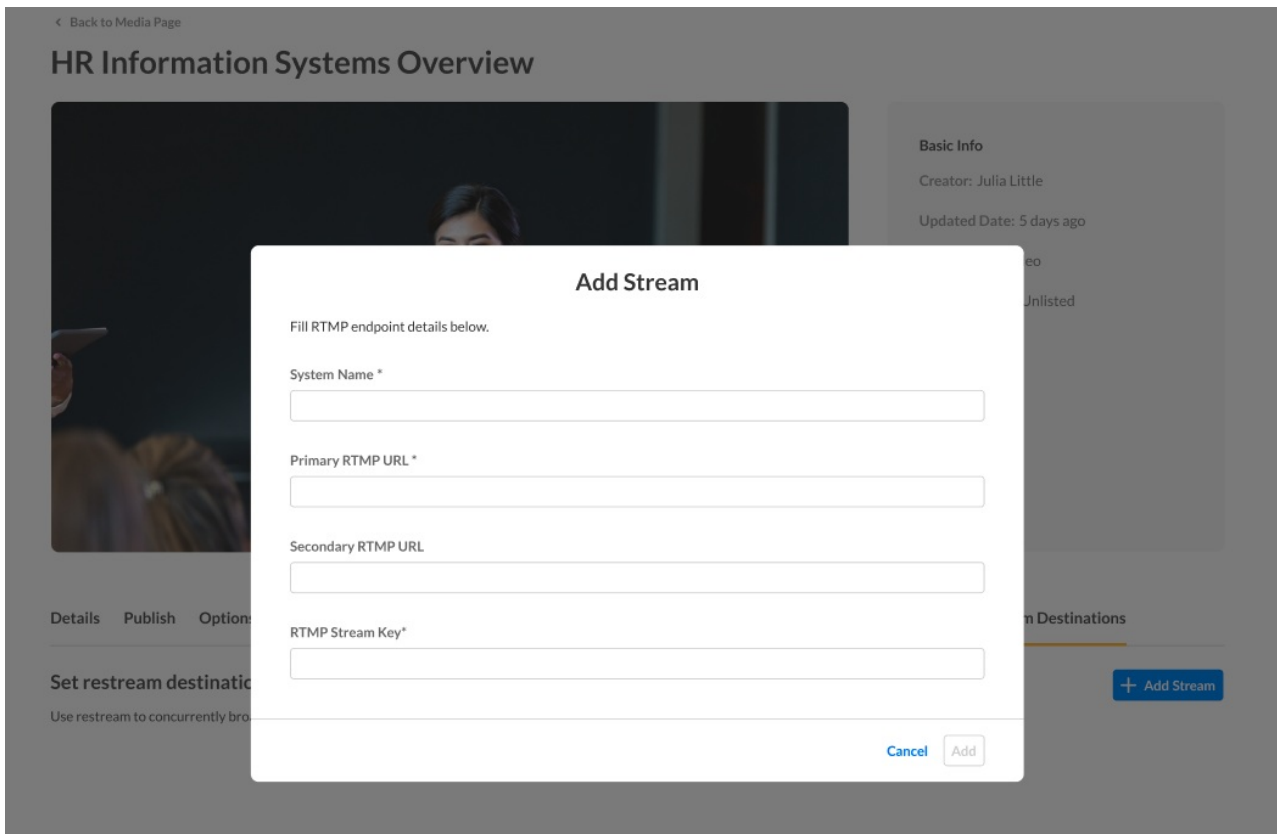

### Configuring the Live Re-Stream Feature

To enable Live re-streams go to your Webcast/Townhall event edit page and select the **Restream Destinations** tab:

The screenshot shows the Kaltura user interface. At the top, there is a navigation bar with the Kaltura logo, a search bar, and a user profile icon labeled 'EN'. Below the navigation bar, there is a breadcrumb link '< Back to Media Page' and the title 'HR Information Systems Overview'. A video player shows a woman speaking into a microphone. To the right of the video player is a 'Basic Info' panel with the following details: Creator: Julia Little, Updated Date: 5 days ago, Media Type: Video, and Publish Status: Unlisted. Below the video player is a horizontal menu with tabs: Details, Publish, Options, Collaboration, Thumbnails, Presenters, Captions, Attachments, Live Stream Details, and Restream Destinations. The 'Restream Destinations' tab is currently selected. Below the menu, there is a section titled 'Set restream destinations' with a subtext: 'Use restream to concurrently broadcast the event with additional streaming services such as social media.' and a blue '+ Add Stream' button.

- Click the 'Add Stream' button to add a new stream destination

Fill the stream details on the Add Stream pop-up

- **System Name** - The stream name which should be unique among Restream stream names for the the specific Live event
- **Primary RTMP URL** - This field is mandatory and should be filled with a valid RTMP or RTMPS endpoint URL as provided by the Live broadcasting service
- **Secondary RTMP URL** - Optional secondary RTMP/RTMPS endpoint URL
- **RTMP Stream Key** - Mandatory RTMP stream key tas provided by the Live broadcasting service

## Edit or Delete Restream Destinations

To Edit or delete **Restream Destinations**, access the Restream Destinations tab on your Webcast/Townhall entry edit page, find the relevant Restream destination, and click the pencil icon to edit restream details or the 'x' icon to delete it.

### Set restream destinations

[+ Add Stream](#)

Use restream to concurrently broadcast the event with additional streaming services such as social media.

System Name	Primary URL	Actions
Stream1-Social	[Redacted URL]	<a href="#">✎</a> <a href="#">✕</a>
Stream2-Social	[Redacted URL]	<a href="#">✎</a> <a href="#">✕</a>
Stream3-Internal	[Redacted URL]	<a href="#">✎</a> <a href="#">✕</a>
