User activity report for events

Last Modified on 06/29/2026 10:45 am IDT

This article is designated for all users.

About

The **User activity report** provides information about participant messaging and engagement during an event. It includes activity for attendees, speakers, and moderators.

See Analytics tab - Reports for instructions on generating and downloading this report.

Report contents

Data in the User activity report includes the following:

- **id** - A unique ID of the user (attendee, speaker, or moderator).
- **email** - The user's email
- **connections** - The number of connections the user had during the event.
- **internalReceived** - The number of messages received from other attendees.
- **internalSent** - The number of messages sent to other attendees.
- **externalReceived** - The number of messages received from moderators.
- **externalSent** - The number of messages sent to moderators.
